This is the American Shoe Store.

That is an attraction for gentlemen who are particular in their shoe desire.

Tractive power, too, in the shoe values, for none have yet grasped the American maker's attainments in the making of good shoes—making them, too, so methodically that the cost is not excessive, even when imported into Canada.

May we show you the latest styles for 1900?

FORBES OR JIMMY SMITH?

Speculation Galore on Crescent Club's Championship Contest To-Night in Bijou Theatre.

The feature of yesterday's preparations for to-night's battle at the Bijou Theatre was the activity of the speculators. Both sides have all sorts of money, and are holding off for odds that neither will allow. Harry Gilmore and Richard Alcock bet an even $200, and there was any number of smaller wagers recorded.

Forbes ran up Yonge-street to Hogg's Hollow, back across Moore Park, and thru Rosedale, boxing with Hennessy in the afternoon. Smith took his usual road exercise and gym. exercise at the Athenaeum. Both sides were equally confident at the close of training last night, and everyone expects to see the cleverest, hardest and fastest bout ever pulled off in Toronto.

Smith has been promised a match with Oscar Gardner if he defeats Forbes, and he is sanguine of the extra plum.

Roach and Brown are both willing to take on Jack Sullivan, and the winner will consider himself matched for the next show. To-night's program:

Willie McGill v. Jimmy Lawless, 5 rounds, at 135 lbs.

Jack Roach v. Oliver Brown, 10 rounds, at catchweights.

Clarence Forbes, Chicago, v. Jimmy Smith, Toronto, 20 rounds, at 115 lbs., for the Canadian bantamweight championship.

The men will weigh in at the Globe Hotel at 3 p.m. The reserved seat sale indicates another packed house. Leeh and Smith turned patrons away, and as large a crowd will see what the Italian's conqueror can do with the fastest bantamweight of the West.

INTERNATIONAL VARSITY CHESS.

Americans Score the Only Game Finished, But Indications Point to Tie Match.

New York, April 20.—The second annual intercollegiate chess match between Harvard, Yale, Princeton and Columbia, against Oxford and Cambridge were begun to-day, and after six hours' play the American team had scored a victory in the only game decided out of six. Hopkins of Yale had the distinction of first lowering the British colors.

The five remaining games played by wire are still in doubt. Rice of Harvard held his own against the graded English champion, Tattersall. Less favorable is the aspect of the second game, where Hunt of Princeton was hard pressed by Sofelaw of Cambridge.

A well played game all thru was that between Sewell and Ellis, and there is very little choice between their respective positions. On the fourth table the chances for the American are very slim, as the game has reached the stage known as ending with the American player minus two pawns.

On the last board, Austell had missed his road to victory, and he probably can do no better than a draw.

In spite of the American lead, indications are for a tie match. The American team accepted the hospitality of the Knickerbocker A. C., direct connection being established between that building and the British Chess Club at Whitehall Court, London, where the English team assembled.

Woodbine Gallops.

The Woodbine track is now in almost perfect condition, and yesterday the first day's fast work was done.

John Nixon had his string all out yesterday. Rideau, the little black, was breezed along with Wilmington's Pet, both going the full length of the track. Besides these Nixon sent Easter Lily and Howards for a useful gallop.

Duggan's lot, consisting of Dr. Stewart, Beguile, Armada and Moral, were all out, and given good work, Dr. Stewart showing up particularly well. This string should be well up among the winners this season. Mr. Duggan's Violent, who has been somewhat of an in-and-out runner, is taking kindly to her work.

Charlie Gates had his lot out doing useful work, but no speeding. Among the lot were Basle, V.R. Customs, Annetburn and Sam Tate.

Charlie Wise worked Dr. Smith's Tweed and Haggis at a fair clip.

Penniston's pair of timber toppers were out on the track and galloped along.

Johnny Graver had Thorncliffe and Kenny out, but they only did slow work. This pair are certainly looking well this season.

Dave Boyle's platers, Bringloe and Manoeuvre were given good fast work, going a half a mile.

Miss Jones' plater, Wrangler, is fast getting into form.

BOARD OF TRADE COUNCIL.

Port Arthur Will Explain the New Water-Power—The Dominion Exhibition.

The Council of the Board of Trade met yesterday afternoon and considered many matters of importance. Mr. James D. Allan, chairman of the committee, who accompanied the city deputation to Ottawa, for the purpose of urging upon the Government the advisability of making a grant of $100,000 to assist the City and Industrial Exhibition Association to prepare for a Dominion Exhibition in 1901, reported that they had been cordially received by the Government, and were promised their support when the matter came before the House.

Port Arthur Boomers.

A communication from D. F. Burk pointed out that it would be of great importance and interest to have Mr. Edward Spencer Jenison address the board on what he is doing and proposes to see done in connection with another enormous water-power development in and about Port Arthur and Fort William, together with a description, by one or more local men, of the natural resources of that corner of New Ontario, which, he believes, are economically equal to those in Mr. Clergue's corner. It was decided to call a general meeting of the board some day next week, to give Mr. Jenison an opportunity to address the members.

Legislative Committee.

The report of the Legislative Committee was received and adopted. It dealt with certain legislation now before the Legislature. The proposal of the city to increase the number of Comptrollers to four, and reduce the number of aldermen to three for each ward was concurred in. The proposal to abolish the property qualifications for Mayor and aldermen was opposed, and the report recommended that the present law, in this respect, if amended, should only be in the direction of making the qualifications more stringent.

Date of Nominations.

The committee approved of the proposal to change the date of nominations from January 1 to the third Monday in December, and that elections take place on Jan. 1, but strongly urged that the method of electing the Board of Control at present be continued. The proposed amendments to the Banking Act were referred to the Legislation Committee for consideration.

A resolution was passed that Hon. Mr. Mulock, Acting Minister of Public Works, be requested to urge immediate and continuous action of the Government Engineer who was appointed to make a report on Toronto Harbor.

Backed Mr. Dobell's Protest.

The action of Hon. R. R. Dobell in protesting against the action of a small meeting of the Commercial Congress, held recently at Philadelphia, in expunging the resolutions moved by the Canadian and American delegates, and passed by the Congress in session, was endorsed.

Delegates to B. E. Congress.

The following were appointed delegates, to represent the Board at the Fourth Congress of Chambers of Commerce of the British Empire, to be held in London in June next: Messrs. A. E. Kemp, president; Dr. G. R. Parkin, M. A., W. F. Cockshutt, Brantford; E. B. Osler, M. P., W. D. Matthews, Robert Kilgour, A. A. Allan, C. J. Miller, Orillia; ex-Ald. James Scott, Edgar A. Wills, secretary.

A copy of a resolution passed by the Hamilton Board of Trade, re the Assessment Act, was received.

The announcement that the Ontario Government would appoint a commission to look into the question of municipal taxation was received with the greatest of satisfaction.

New Members.

The following were admitted to membership: R. J. Copeland, A. E. Chatterson of the Copeland-Chatterson Co., C. S. Coryell, Adams Furniture Co.; George B. Woods, Continental Life Insurance Co.; E. J. Barrick, vice-president of the Newcombe Piano Co., and H. E. Bond, wholesale clothing.

THE E Z

Is certainly keeping our competitors guessing.

They cannot understand how a wheel on the market only two years can gain such popularity.

The secret of our success is the well-satisfied customers you daily meet on the E Z. They are not slow in recommending this wheel to their friends. Thus you can plainly see wherever one of our wheels go it means more from the same section in a short while. We truly believe a well-satisfied customer to be the best advertisement any company can obtain.

We want you to see this much-talked of wheel. Exchanges made. Time payments accepted.
