FRIDAY, JANUARY 10, 1908.

Renewed activity in the search for the Brown-tail Moth is reported from the Agricultural College and elsewhere. The bounty offered of 10c for each nest will no doubt have its effect, and this year we may hope the depredations of the insect will be largely checked.

Wo question, however, if the same money spent in a more methodical way might not be more effectively expended. For instance the Daily Democrat of Dover, New Hampshire describes the method employed in that city as follows:—

Mr Brooks, who was chosen foreman by the city government committee for the suppression of brown-tail moths, began the work of cleaning up the brown tails with a crew of ten men this afternoon. The men began work near the Wentworth hospital and will clean up the trees of city as rapidly as possible. The notices to the land owners in the city in relation to the law in regard to brown-tail moths will be sent out by the committee tomorrow. The committee intends to have the work pushed along as rapidly as possible until all the trees owned by the city have been cleared up. They will then begin to clean up the trees of the land owners who are not disposed to do the work themselves and the cost of cleaning the trees will be charged up against as prescribed by the law passed by the last legislature.

It is said that ten thousand men will be required next summer to work on the Transcontinental Railway in the Provinces of Quebec and New Brunswick.

The celebrated Thaw murder trial is to come on for a second time in New York this week. It is stated the defence will rest on a plea of insanity pure and simple.

Frederick W. Clarke of Bridgewater, A. K. McLean, M. P. of Lunenburg, A. J. Bower of Yarmouth, and others are seeking incorporation in New Brunswick, as the Tourist Hotel Company Limited. The capital is to be $45.000 and St. John the chief place of business.

Detecive Harry Wright has been investigating robberies in connection with the stranded steamer Mount Temple. The Herald says "a car load of received goods arrived in Halifax on Saturday night and that there is hardly a house which has not some token of the Mount Temple.

The records show that the month of December just passed has been the warmest for thirty-four years and has probably never been equald in this regard in Eastern Canada. The maximum temperature was 50.8 degrees and the lowest point reached was 10 above zero the average daily temperature being 30.5 degrees.

The steamer Empress of Britain, coming up Halifax harbour on Tuesday evening collided with and nearly sank the schooner Alhambra bound for Lunenburg with coal. It is reported that the Empress of Britain did not even stop to enquire if the crew of the schooner were all right or needed any assistance.

The schooner suffered some $2.500 damages which will be claimed from the steamship.

LAMENESS
Whether it is a fresh Bruise, Cut or Strain—or an old Spavin, Splint, Ringbone or Swelling—you can cure your horse with
Kendall's Spavin Cure
Thos. Castles, of Newark, N.J., bought a horse lamed with a Jack Spavin—for $100. He cured every sign of lameness with Kendall's Spavin Cure—won five races with the horse—then sold the animal to his former owner for $1,000.00.
WELLINGTON, N.Z., Nov. 2nd, '05.
"I have found your Spavin Cure a very fine remedy for all sorts of lameness in horses and I am never without it."

KENDALL'S SPAVIN CURE

TERRIFIC GALE ON THE COAST.

On Tuesday night a severe gale and snow storm raged along the Coast. A Digby dispatch reports losses to fishermen of thousands of dollars by destruction of gear and boats. At Tiverton and Digby brick roofs were blown off buildings and telephone lines damaged. At Westport wharves were carried away and the main street strewn with logs and drift wood brought up by the tide.

HAD NARROW ESCAPE

The Digby fishing schooner Adrione was in the bay, about twelve miles north of Point Prim, when the owner, Rice, a trawl fisherman attempted to board her. His dory being filled with fish a sea struck her, splitting the little craft from stem to stern and with its contents sinking to the bottom. Its occupant was saved by the heroic assistance of the crew of the vessel, as the sea was running mountains high at the time. Weirs and fishing boats in the Joggin had a rough time during the gale, but nothing serious is reported.

THE PURE FOOD LAW.

Secretary Wilson says, "One of the objects of the law is to inform the consumer of the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine, and othes habit forming drugs be stated on the label of each bottle. The manufacturer's of Chamberlain's Cough Remedy have always claimed that their remedy did not contain any of these drugs, and the truth of this claim is now fully proven, as no mention of them is made on the label. This remedy is not only one of the safest, but one of the best in use for coughs and colds. Its value has been proven beyond question during the many years it has been in general use. For sale by*

DROWNED.

Mr. W. M. B. Dakin, of Centreville, Digby County, was drowned on Saturday. In company with a boy named Stanley Denton he went out in a sloop boat trawling for fish. While returning in the afternoon when the boat was about three miles off shore the sail suddenly disappeared. Nothing more was seen of the boat or its occupants and it is supposed a sea swamped the little craft which went to the bottom.

Mr. Dakin was a brother-in-law of Mr. H. A. Cornwell, of Berwick. His son Rev. E. Lelloi Dakin was for merly a pupil in Berwick school.— egister

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation to very young babes. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium no chloroform. nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the doctor uses, "The Sacred Herb.' Always demand Dr. Shoop's Cough Cure.
ROYAL PHARMACY BRIDGETOWN, BEAR RIVER DRUG STORE, BEAR RIVER.

ALMOST A FATAL ACCIDENT

Messrs. Charles and W. D. Hill Have Narrow Escape From Drowning

Friends on all sides are glad to learn that Messrs. W. D. Hill, M. P. P. and his brother, Charles, escaped yesterday without serious injury from what might have easily been a fatal accident to both.

The Chronicle has the following account of this mishap:—

TRURO. Jan. 8.—The storm and rain of last night caused a very serious overflow of the marshes and various overflow of the marshes and bridge streams running into Cobequid Bay. At Lower Truro the bridges were covered. Many small bridges are without railings, one of these spans Moose Creek, and here an accident occurred which for a time threatened the lives of two prominent Colchester County men.

W. Davidson Hill, M. P. P., and his brother, Charles, late candidate for the Dominion Parliament were driving and their horse lost his footing over the outside end of the Moose Creek bridge. The carriage toppled over, taking both men, who went underneath, but managed to extricate themselves, and secured a footing after a struggle with the waters, which carried them almost through to an aboiteau. Here they got out their horse and were able to return home.

Their escape is regarded as marvelness of the running water, and nearous, considering the depth and swiftness of the point of escape to the open waters of the flooded river.

Kings County Notes.

No snow of any consequence has fallen as yet and old weather prophets are predicting a winter of bare ground for the most part. If this should be the case it will greatly hinder all work in the forests. Wood is already selling at five dollars per cord.

The season for threshing grain is about over. The oat crop was especially good in the Valley this year. One of a gasoline engine tells of having threshed sixteen thousand bushels and several other owners of gasoline engines can boast of having threshed a correspondingly large number. Oats are selling at sixty cents per bushel in Cornwallas Valley but in parts of the Annapolis Valley where they are not raised in such large quantities they are now worth seventy-five cents per bushel.

Mrs. Clarence Rand of Canning, has sold her farm at that place to Mr. Frank Webster, of Sheffields Mills, and has accompanied her brother, Mr. Newcombe, who has been visiting Cornwallis after an absence of several years, to Colorado where she and her family will in future reside.

Several vessels have recently loaded lumber and potatoes at Kingsport, for Havana. The latter are fetching the usual price of forty cents per bushel.

The King's County Farmers' Association had an interesting meeting at Kentville on Tuesday last. The meeting was successful in all respects.

Mrs. B. A. Archibald, formerly of Halifax but who has been residing in Canning for the past year, has joined her husband and family in the greater west. She was accompanied by her sister, Mrs. Rufus Cox; of Canning, who will remain with her for some time.

A very pretty wedding took place at the residence of Mr. and Mrs. B. W. McMahon at Auburn on Wednesday last when their daughter Laura, was married to Mr. LaMert Patterson of Aylesford. Rev. John Craig officiated assisted by Rev. H. B. Patterson, brother of the groom and Rev. William Ryan. The bride who was unattended, was gowned in white silk and carried a bouquet of white carnations and was given away by her father. A large number of valuable presents testified the esteem in which the young couple are held by their numerous friends. A pleasing and unique feature of the happy occasion was that Mr. and Mrs. McMahon celebrated the twenty-fifth anniversary of their own wedding on the same day.

Promoting Trade Relations

The Newfoundland Trade Journal Thus Refers to a former Resident of Annapolis.

We have much pleasure in giving place to the letter of Mr. E. D. Arnaud which appears in another column. While the matter deals with slate in the main, the letter and accompaning quotation, incidently show the great interest that Mr Arnaud is daily taking in the development and further extension of trade between Newfoundland and the Dominion. Since coming amongst us, Mr. Arnaud has taken a keen interest in the trade relations between the two countries, and he is always ready to supply information on all subjects connected therewith and help to make new business connections between the two peoples,

When the Stomach, Heart, or Kidney nerves get weak, then these organs always fail, Don't drug the Stomach, nor stimulate the Heart or Kidneys. That is simply a makeshift. Get a prescription known to Druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressely for these weak nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Free sample sent on request by Dr. Shoop, Racine, Wis. Your health is surely worth this simple test.

Pretty Wedding at Brooklyn.

A pretty home wedding took place at the home of Parker Young, West Brooklyn, on Wednesday evening Jan 1st, when his youngest sister, Charlotte May and Melbourne Whitman were united in marriage. Precisely at the hour of 7.30, as the Wedding March was rendered by Miss Nellie VanBuskirk, cousin of the bride, Rev. C. W. Schurman, followed by the groom entered the room and was met by the bride, attended by her brother. Her gown was of white crepe-de-chine with lace and satin trimmings and she carried a bouquet of white chrysanthemums and maiden-hair fern.

The ceremony took place under an arch of evergreen and white and the room was decorated with potted plants.

The ceremony was performed by Rev, C. W. Schurman of Middleton, assisted by Rev. W. Brown of Lawrencetown. After the ceremony congratulations followed and the guests numbering about seventy-five were served with a bountiful repast.

The bride was the recipient of many handsome and useful gifts including a sum of money. Mr and Mrs Whitman's many friends both in Yarmouth and Annapolis Counties will join in hearty congratulations for their future happiness. In both Counties Mrs Young has been a teacher in the public schools and is held in the highest esteem by all.

Their future home will be in Brooklyn Mr Whitman having purchased the pretty homestead formerly owned by the lat Clark Neily of that place.

A Steamship Scheme

The H. & S. W. Railway is Interested.

There is another movement going on for an additional steamship line to Boston from Nova Scotia though it is not proposed to run the service from Halifax direct. It is contended that a fast service between this city and the Hub can be carried on partly by water. The proposition has been before Halifax business men for a short time and it is understood several of them have intimated their willingness to interest themselves financially.

The proposition was made here by Mr. Hackett, of Boston, who was in the city last week arranging for taking the Massachusetts fishing schooner Fame, released a few days ago from quarantine, to her hailing port. He had been in the city earlier and talked the steamship matter over with local parties, and on the more recent trip advanced matters a step.

The steamer Harvard sister ship of the Yale, which ran on the Boston-St John route the past summer will be available for service, and as she has fine and extensive passenger accommodations and is speedy the service may start with this steamer alone another to be added when itraffic makes it advisable.

It has been reported all along that there was a possibility of the H. & S. W. soon having its own Boston connection direct by water but possibly this proposition may provide the connection if satisfactory traffic arrangements can be made.

Rheumatism
I have found a tried and tested cure for Rheumatism! Not a remedy that will straight at the distorted limbs of chronic cripples, nor form bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.
In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable Prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. These sand-like granular wastes, found in Rheumatic Blood seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

BEAVER FLOUR IS A PERFECT BLEND OF MANITOBA AND ONTARIO WHEAT
MANITOBA ONTARIO

Manitoba wheat contains more food value than any other. It makes the most wholesome, most nutritious Bread and Biscuits. But it contains so much Gluten (Nourishment) that the dough won't rise properly, and the bread is both heavy and gray.
That is the reason, too, why Manitoba wheat flour does not yield good pastry.

Ontario wheat does not give as nutritious bread as Manitoba wheat. But what it lacks in food properties, it equals by the tasty lightness of its Biscuits, Cake and Pastry. For Pastry, alone, Ontario flour is better than any other flour made of a single variety of wheat.
But there is no need to go to the expense of buying two flours.

Beaver Flour
is both a bread flour and a pastry flour. It is a blend of { Ontario Fall Wheat / Manitoba Spring Wheat } It contains just the right proportion of each to make the most nutritious Bread—the whitest Bread—and the lightest, most delicious Pastry of all kinds.
Beaver Flour also yields MORE Bread, etc., to the barrel, than any other.
No matter what other flour you are using, you are not getting the best results because you are not using the best flour.
Order a trial sack of Beaver Flour. The first baking will prove its quality.
At your Grocer's.
Dealers—write for prices on all kinds of Feeds, Coarse Grains and Cereals. T. H. Taylor Co. Limited, Chatham, Ont.
