FRUIT TREES.

THE NURSERIES and ORCHARDS of the Subscriber, consisting of nearly Forty Thousand Trees, are now offered for the Inspection of the Public and for Sale. Persons planting these Trees may be assured of success, as every possible precaution has been used in the selection of varieties; all that have not proved hardy, have been at once discarded, and those which have not yet fruited here have been propagated with the advice of the most distinguished cultivators of New England and Canada.

The Subscriber flatters himself that his assortment is unrivalled *for this climate*, as it contains nearly all the varieties of Apples and Plums which have proved valuable in cold and extreme climates, which many new and splendid sorts lately brought from Russia, England, Germany, Canada, and the Northern States.

Price of Grafted Apple Trees, assorted, one shilling each.—Any person or number of persons ordering 1000 or upwards in one lot may, if desired, have a credit of two or three years for half the amount, and receive the trees free of freight at any place within the Province.

To the Freemen and Freeholders of the City of Saint John.

GENTLEMEN—

At the solicitation of a very large and influential Body of my Fellow Citizens, I have consented to be put in nomination as a Candidate at the approaching Election of a Member, to represent the City of Saint John in the Provincial Legislature.

As this is my first appearance on the Political stage, it is necessary that I should make known my Principles.

I am a Reformer in the Sense

prosperity of our Country depends in a very great degree, upon giving every encouragement to our Industrial Classes, whether engaged in Agriculture, Ship Building, Manufactures, or the Fisheries—to the promotion of these great Interests, I shall devote all the energies I possess.

All necessary Articles of consumption, which we cannot raise or manufacture, I would admit at the lowest possible rate of Duty for Revenue.

All Raw Materials for manufacturing purposes, I would admit Duty Free, that the labour of our own people may be employed.

Education, I believe to be the foundation of a Country's advancement—as its Citizens become intelligent, its progress accelerates. A system of Common Schools founded upon the contributions of all classes, and open to all classes, will alone insure general intelligence. I shall therefore advocate the most liberal encouragement to Common Schools, and give my earnest endeavours to establish a system, which, by making all bear the burden will make all desirous to share the benefit.

The question of Railways which has been agitating the minds of our community for some time past, is a subject in which, though I have felt a deep interest, I have taken no public part, but I shall be prepared to give every aid to those Great Measures now under discussion, which a prudent consideration of the resources of the Province would justify and you may rest assured, I shall oppose any plan for their accomplishment, which shall involve direct Taxation, or peril in any way on the Commercial prosperity of the country.

With reference to our present Government, I shall consider it my duty to look to the measures brought forward, not to the men who compose it.—When those measures are such as in my opinion will promote the welfare of our common Country, they shall receive my warmest support, when otherwise, my unhesitating opposition.

I believe it to be my duty to look to the Public welfare, not to the particular individuals who may constitute the Government for the time being.

Gentlemen—These are my Principles. Should you think me worthy of your confidence and support at the approaching Election, and elect me as your Representative in the Provincial Legislature. I shall use my best endeavours to promote the general interests of our Country.

I remain, Gentlemen,
Yours, very truly,
STEPHEN K. FOSTER.

NEW PROSPECTUS
TO MECHANICS,
Inventors and Manufacturers.

Seventh Volume of the SCIENTIFIC AMERICAN.

MESSRS. MUNN & CO., American and Foreign Patent Agents, and Publishers of the SCIENTIFIC AMERICAN, respectfully announce to the public that the first number of VOLUME SEVEN of this widely circulated and valuable journal was issued on the 20th of September in AN ENTIRE NEW DRESS, printed upon paper of a heavier texture than that used in the preceding volumes.

It is published weekly in Form for Binding, and affords, at the end of the year, a SPLENDID VOLUME of over FOUR HUNDRED PAGES, with a copious Index; and from FIVE to SIX THOUSAND *ORIGINAL ENGRAVINGS*, - together with a vast amount of practical information concerning the progress of INVENTION & DISCOVERY throughout the world. There is no subject of importance to the Mechanic, Inventor, Manufacturer, and general reader, which is not treated in the most able manner—the Editors, Contributors, and Correspondents being men of the highest attainments. It is, in fact, the leading SCIENTIFIC JOURNAL in the country.

The Inventor will find in it a weekly *DIGEST of AMERICAN PATENTS*, reported from the Patent Office,—an original feature, not found in any other weekly publication,

TERMS—$2 a-year; $1 for 6 months.

Provincial, Mutual and General Insurance Company.

Established under the Act of Parliament at Toronto, C. W.

CAPITAL £100,000.

THE STOCK of this Company is divided into the Mutual and Proprietary, each branch being kept entirely distinct, and liable only for its own losses.

In the Proprietary Branch, Policies are issued in the usual way on Ocean and Inland Marine Risks, and on Fire Risks in Cities and Villages. In the Mutual branch, Policies are issued on Country or Farmers' Risks only, covering losses from Fire or Lightning the insured giving a Premium Note and a small sum in cash; these Policies run from one to five years.

Local Directors for New-Brunswick:

W. H. STREET, ISAAC WOODWARD, and CHARLES McLAUGHLAN.

The Security which this Company affords is undoubted and the Premiums which it exacts are as moderate as may be consistent with safety.

All Notes and Cash Funds accumulating at this Agency will be retained and deposited at the Bank of British North America.

All losses will be adjusted and promptly paid in St. John, without referring to Toronto; and, in case of dispute, the Company consent to actions being brought in this Province.

Mechanics Institute.

THE LECTURE SEASON of the above Institution will commence on Monday Evening, the 10th November next; when the Rev. Dr JACOB, Principal of King's College, Fredericton, will deliver the Introductory Address.

The Directors have much pleasure in stating, that the following Scientific, talented and well known Gentlemen have consented to Lecture during the Season:—

Rev. Dr. Edwin Jacob, Rev. Dr. I. W. D. Gray, Mr. Babbitt, Rev. Mr. Wishart, Mr. Blatch, Dr. R. Bayard, Messrs. C. L. Hatheway, D. S. Kerr, M. H. Perley, C. Duff, John McCready, Rev. A. Stewart, A. M., Rev. W. Ferrie, A. M., James Johnston, Dr. Patterson, S. R. Thom-

The Directors are in correspondence with a number of other Literary Gentlemen, from whom they expect to receive assistance, whose names with the Subjects of the Lectures will be published as soon as the arrangements are completed.

From the increased resources of the Institute during the past year, the Directors have been enabled to apply a large sum towards extending the LIBRARY of the Institute, which at present, contains a valuable collection of Scientific, Historical, and Literary works; in addition to which, another selection of works have been ordered, and are expected to be ready for distribution at the opening of the Lecture Season.

The GESNER MUSEUM, which has now for the most part, become the property of the Institute, will be opened for exhibition to Members during each Lecture evening, from 7 to 8 o'clock.

The READING ROOM is now so arranged as to afford additional accommodation to visitors; a number of popular Newspapers published in Great Britain, the United States, and the Colonies, are now received for the use of the Room, together with the leading British and American Reviews.

The Library will be opened on Monday and Friday Evenings from 7 to 8 o'clock; the Reading Room from 7, to half-past 9, every evening in the week, Saturdays and Sundays excepted.

As the Directors have used every exertion to render the Institute as useful and attractive as possible they hope their exertions will be appreciated, and that the Institution will this Season receive a large accession to its membership.

In consequence of the want of sufficient accommodation in the Lecture Room, the Directors are constrained to adhere to the Rule of the Institute, in allowing but one Lady to accompany a Member to the Lectures.

Members' Tickets, 10s.; Non-Members' Tickets, to admit to the Lectures for the Season, 15s.; Ladies', Young and Apprentices' Tickets, 5s. each. Admission to one lecture, 1s. 3d.

No Tickets Transferable. It having come to the knowledge of the Board that Lecturers have heretofore felt great inconvenience and annoyance from the numerous applications made for free Tickets. To relieve them from such importunities, and to compel all persons desirous of attending the Lectures to pay their fair share and lot, only a limited number of Tickets will be placed at the disposal of the Lecturers for distribution among their immediate friends.

Members, and others, may obtain Tickets, by application at the Institute, on Thursday and Friday evenings, between 7 and 8 o'clock.

☞ The Board of Directors return their grateful acknowledgments to the several persons who kindly loaned their Paintings, Works of Art, and Specimens of Mechanical Skill, and to those who afforded gratuitous services at the late Industrial Exhibition, by which they were enabled so successfully to carry out the object they had in view.
