The last to hand is contained in the Huddersfield Examiner, brought to our notice by Julius W. A. Block, who states that he has received a number of letters as a result of sending out copies of the special number and that in all admiration and astonishment are expressed at Regina's progress and prospects.

—Guided by the Indians whose debauch they detected, the police apprehended a Germantown dealer named George Rotoria, on the charge of having sold these people intoxicating liquor, and yesterday afternoon Magistrate Trant fined him $50 and the costs. Rotoria pleaded not guilty, but the evidence against him was conclusive. First he said he didn't know liquor was forbidden to Indians, and afterwards he remarked that the liquor was merely cyder. The magistrate rejoined that whatever it was it made the Indians drunk, and that was sufficient for him.

From Friday's Morning Leader

—J. W. Mowbray, superintendent of the Metropolitan Life Assurance Co., has removed his offices from Strathcona block to the fourth floor of the Northern Bank block.

CABINET VACANCIES NOT FILLED YET

Sifton Urged to Enter Cabinet as Minister of Railways or Public Works

OTTAWA, Aug. 26.—There was a meeting of the cabinet this afternoon, but on account of the absence of Sir Richard Cartwright, nothing definite was reached in regard to filling the vacancy in the Ontario portfolio. Sir Richard arrived from Kingston just after the meeting broke up. He had a long conference with Aylesworth, when the matter no doubt, was discussed at length. It is said that Hon. Lord Sifton is again being urged to enter the cabinet, either as the Minister of Railways, or as Minister of Public Works. It is pretty well known here that Sifton has already been approached in regard to the vacant portfolio of Public Works, but declined to accept. If not Sifton, it will likely be Graham, although it is admitted that his coming to Ottawa will be a loss to provincial Liberalism legislature. There appears to be no doubt that Dr. Hughly will succeed Emmerson, that much has been practically settled.

OTTAWA, Aug. 26.—"La Presse" tonight says, that the Hon. Clifford Sifton will likely be the new Minister of railways, and Hon. Wm. Pugsley Minister of Public Works.

IN OUR MEAT DEPARTMENT

A LADY OF CINCINNATI

writes that after being compelled to give up ordinary coffee, she has used

"Barrington Hall"

daily for over a year with no ill effects.

"Barrington Hall" Steel Cut Coffee is pure, high grade coffee prepared by our patented process—a common sense method of treating the berry—whereby it is not only made more healthful, but its flavor is preserved to a remarkable degree.

Why "Barrington Hall" is More Healthful and Delicious.

The process of its preparation removes all dust and the yellow cellulose skin, (placed by nature around the heart of the berry to protect it). When steeped alone, this foreign matter is undrinkable, and its removal must necessarily make a corresponding improvement in both flavor and healthfulness.

Cut Uniformly—Not Ground or Crushed.

Another great advantage in "Barrington Hall" process is that the berry is cut into small uniform particles and the little oil cells are not crushed as in grinding. Thus the rich aromatic oil (good product), is preserved to an extent impossible with any mill-ground coffee.

"Barrington Hall" Steel Cut Coffee is for sale only at this store.
