Society at large is indebted to William Bogle, 377 Washington Street, for a series of the most unexceptionable toilet articles,—the result of his inventive research. His Hyperion Fluid is extensively used, and stands at the head of the list of preparations for strengthening and beautifying the hair; his Almola, for shaving, is decidedly the greatest assistant in combining ease with this troublesome task; and his Hebrgrains, for the complexion, is unrivalled in its beneficial effects. Sold by the inventor as above.—*See Ads.* 357

STRONG RECOMMENDATIONS.
Regarding the effects of Dr. Sherwood's Galvanic Embrocation, a distinguished Physician of New York remarks as follows:—"The extraordinary rapidity with which this Galvanic Embrocation is conquering the prejudices and captivating the convictions of the most truly learned and intelligent members of the Profession, seems to warrant the conclusion, that it will ultimately effect a complete revolution in the practice of medicine. The Galvanic Embrocation discovered by Dr. Sherwood seems to have been little thought of till lately by the profession; and it will be found the best Physician, and surest friend, in cases of need, in a great number and variety of complaints, and is a valuable companion to the regular practitioner in private families and on shipboard. Its effects sometimes appear magical, its judicious application is always beneficial, and with ordinary care no possible injury can result from its use in any case whatever, even to the most delicate person or tender infant.
From the Baltimore Daily Clipper.
It is not too much to say that every Family, Hotel, Boarding-house, every Ship and Steamer which leaves our port, and every Physician and person needing benefit, or desire to do good, should possess at least one dozen bottles of Dr. Sherwood's Galvanic Embrocation, for it is an invaluable remedy for all the diseases for which it is designed. 349

Health Before Riches.
The warm season is now at hand, and with the oppressive heat of Summer, the value of Plantagenet Water becomes more appreciated. The superiority of this celebrated Water above all other Medicinal Waters, is universally acknowledged. Indeed it may be said to have superseded all others. As all know who have once tasted it, it differs essentially from every other Water, in preserving a solidity or thickness when in the mouth, which is met with in no other spring, and which makes all other Waters appear poor and insipid in comparison with it. It has also the property of varying its character with the temperature: when warm, it is more saline, when cold, it is less so. Several facts connected with its sanitary properties, may be stated here, and as their truth is unimpeachable, they are worth a volume of general statements:—
1st. There is now at Plantagenet an elderly woman, who had been for six years deprived of the use of her limbs, and who, by the use of the Waters, *has partially recovered.* This is a fact well known in the neighbourhood. The lady herself resides with Mr. Ganeon, of Plantagenet, and will, if necessary, verify this extraordinary case.
2nd. Here is another instance: Mr. Mallet, of St. Ann, told Captain Barnum, of the Steamer *Lilly*, that he had severely injured his hand with a cable, and, by the advice of some friends, he wrapped his hand in a bandage well saturated with Plantagenet Water, and in three days it was quite well.
3rd. Captain Dole, of Petite Nation, had a barrel of Pork which had become tainted. He resolved, as an experiment, to take it out of the old brine, and wash it with Plantagenet Water. After doing so several times, it became as sweet as ever.
So well are these facts known at Plantagenet, and so esteemed is the Water there, that no family is without it.
But it has been said, there are plenty of other saline springs, and why should this be better than the others? Why it should be so, it is not easy to say; but there is the fact—*it is better.* Whoever once uses the Plantagenet Water, will never use any other. It is true that attempts have been made to puff up others, and that deception even has been practised by manufacturing Water; but what has been the result? Who has been long deceived? The fact is notorious. At the present moment, every one uses Plantagenet Water who can get it, and no one who can get it will use any other.
As evidence of this, it is only necessary to refer to the names of the eminent Physicians, and public and private individuals, who have certified to the virtue of the Plantagenet Waters, and who regard it as a boon to the country.
In conclusion, let it be borne in mind, that it is not simply as a saline drink these Waters are beneficial, but because they have an oily, fattening property, unknown to any Waters besides. There is, in fact, but one Plantagenet spring, and the more that is known, the higher its reputation, and the more all others sink into insignificance beside it.
The following are a few of the names of the parties referred to above, all of whom speak from actual experience and use of the Plantagenet Waters:—
Doctors W. Nelson, W. Fraser, G. W. Campbell, A. Hall, A. McCulloch, R. L. McDonnell, J. G. Bibaud, E. H. Trudel, H. Mount, J. L. Leprohon, S. C. Sewell, F. Badgley,—Pelletier, J. E. Coderre, L. P. Tavernier, G. D. Gibb, R. E. Picault, James Grant, L. H. Meunier, S. B. Schmidt, W. F. Smith, P. Mundy, R. Lee, W. Wright, Lt.-Colonel Rhodes, A. N. Morin, the Hon. Peter McGill, the Hon. Louis Joseph Papineau; C. Wilson, Esq., Mayor; S. Fabre, Esq., Ex-Mayor;—Bellemare, Esq., Mayor of Quebec; J. D. Bernard, Esq.; Louis Boyer, Esq.; E. M. Lepailleur, Esq.; J. Bale, N. P.; Maurice Roux, Priest; J. S. Cameron, Esq.; and many others.

No. 109, Notre Dame Street.
SAMUEL COCHRAN invites the attention of Customers to his stock of TEAS and COFFEES, which have been selected with the greatest care, and on such terms as allow him to offer them at unusually low prices.
The MACHINERY on the Premises, worked by a Four Horse Power Steam Engine, for Roasting and Grinding Coffee, is on the most approved plan, the Coffee being closely confined in *perfectly metal spheres,* which are constantly revolving and oscillating in *heated air chambers,* is prevented imbibing taint from Smoke, danger of partial fermentation of the Bean and loss of Aroma, so important to Consumers, which is further ensured by attention to Grinding at the shortest time prior to Sale.
