"What are the wild waves saying"

SCOOT FRIENDS SCOOT, TO THE YORK STREET RESTAURANT.

Christmas has come and gone, and it is a thing of the past. Some parties, I have been informed, have made the remark that my advertisements are rather risky, and I think it is *only* thing for them to make such remarks, but I wish to inform them that I can shell out on Christmas and New Years, and if they doubt my word let them drop in on New Year's eve on their way to or from midnight service and they can see me shelling out the Oysters and assist in spending the earting year and welcoming the incoming New Year.

Please give the York Street Restaurant a bumper house to-morrow night as I want lots of cash as my wardrobe is getting down and I've got to pay the tailor a visit.

To my numerous customers I take this opportunity of wishing a Happy and prosperous New Year.

CAMPBELL'S TONIC ELIXIR

This agreeable yet potent preparation is especially adapted for the relief and cure of that class of disorders attendant upon a low or reduced state of the system, and usually accompanied by Pallor, Weakness and Palpitation of the Heart. Prompt results will follow its use in cases of Sudden Exhaustion arising from Loss of Blood, Acute or Chronic Diseases, and in the weakness that invariably accompanies the recovery from Wasting Fevers. No remedy will give more speedy relief in Dyspepsia or Indigestion, its action on the stomach being that of a gentle and harmless tonic exciting the organs of digestion to action and thus affording immediate and permanent relief. The carminative properties of the different aromatics which the Elixir contains render it useful in Flatulent Dyspepsia. It is a valuable remedy for Atonic Dyspepsia, which is apt to occur in persons of a gouty character.

For Impoverished Blood, Loss of Appetite Destroundency and in all cases where an effective and certain stimulant is required the Elixir will be found invaluable.

In Fevers of a Malarial Type, and the various evil results following exposure to the cold or wet weather, it will prove a valuable restorative, as the combination of Cinchona Calisaya and Serpentaria are universally recognized as specifics for the above-named disorders.

Increased Taxation and Still a Deficit

Toronto Globe.

A Montreal telegram which we published yesterday states that the customs receipts for the month of December were $778,472.85, as compared with $496,956.15 for December, 1885, showing an increase of $281,516.70 for this year. The customs receipts for the year were $8,362,619.94, as compared with $6,682,701.71, an increase of $1,679,917.23.

The telegram says of the inland revenue receipts:—The receipts for the year were $1,844,016.80, as compared with $1,609,943.45 last year, showing an increase of $235,067.35 this year.

There has been a similar increase throughout the dominion, we believe. This was caused partly by an increase in the imports, and especially in those imports which it was promised the N. P. would reduce, and partly by an increase in the value of the imports.

With such an increase of revenue the government should be able to show a surplus. But no one who knows their past history can expect that. There have been times indeed when the revenue increased so fast that even the tories could not make expenditure overtake it at once. But they always succeeded in the end. Reduction of expenditure is the one thing the tories have never earnestly attempted. They talked about it in 1877-8, but their expenditure in 1878-9 was nearly a million dollars more than the expenditure of Mr Mackenzie's last year, although there was no material increase of revenue.

In 1868 the expenditure was $13,486,092. In 1873 it was $19,174,647. In 1874 the expenditure, although kept within the tory estimates, was $23,316,316. Here was an increase of over four millions in one year; of about ten millions in the seven years of tory administration.

Mr. Mackenzie's expenditure in 1878 the last of his five years, was only $23,503,158.

Every year since Mr. Mackenzie went out the expenditure has increased by leaps and bounds, until in 1885 it rose to $35,937,060. In 1886 it was higher still. The increase in these last seven or eight years of tory rule was over eleven million dollars a year.

Whether the Tory Government have a surplus or a deficit the expenditure is certain to increase under their management.

No Province has been added to the Dominion since 1879. The rate of interest on the Canadian debt, as the rate of interest all over the world, has decreased; but the public debt has increased enormously, and expenditure has increased enormously in every branch of the public service. Extravagance, waste, and corruption will always be the characteristics of Tory administration.

MONTREAL'S CARNIVAL.

Progress made in Building the Ice Palace and in other Arrangements.

Montreal Witness, Jan. 4.

The weather is milder to-day, but there are as yet no symptoms of a thaw; and the work upon the ice castle vigorously proceeds. The staff of workmen has been largely increased. To-day there are about thirty men employed. The operations of selecting the suitable blocks, shaping them into the required design, hauling them to and adjusting them in their place, watering the interstices by way of an adhesive mortar are worth observing. In the adjustment of each block, particularly in the construction of the round towers, great nicety of detail is required, as well in the cutting as the placing. The measurements have to be as accurate and the adjustments as precise as though stone, instead of ice, were being employed. Capital progress has been made thus far. The tackle will soon have to be employed to raise the blocks into position. The ice continues good. Dominion square is but poorly protected from the blast; the wind sweeps across it with sinister whistle, and the workmen must suffer severely. Yet, they appear quite cheerful, and sing to beguile the time.

"The best laid schemes o' mice an' men gang aft agley." So long as the weather holds out, all promises hopefully. Should the present rigidity of old winter relax into a smile, and the auspicious beginnings of the castle threaten a babbling flight to the nearest sewer, the ruin would be almost irreparable. It is to be hoped our local weather seers will continue to encourage the executive committee.

Mr Iles, of Windsor, is making arrangements for the employment of quite an army of waiters and maids. Considerable accommodation has already been booked in advance by our American cousins.

The sub-committees, representing the various sporting interests, are earnestly working to complete arrangements for participation in the programme; the snow-shoers, of whom, perhaps, five thousand will take part in the procession, are beginning to look after their costumes the directors of the Victoria rink are planning a surprise in the way of transformations for the fancy dress carnival; the hocky and curling clubs are arranging competitions for the entertainment of our visitors; and the toboggan clubs are calculating the cost of illuminating their slides to the public during carnival week.

The public are not yet "enthused," but every one is likely to be "talking Carnival" next week.

"What about the ice structures of our East End friends?" is a question asked in some quarters.

Dividing Profits.

BOSTON, Jan. 3.—The proprietors of The Boston Herald announced yesterday to their employes a proposition to give to them for the current year a portion of the net profit of the business, after reserving the interest on the value of the property. The employes are to share in proportion to wages received during the year. They also suggested to the employes the formation of a Mutual Benefit Society, promising to contribute an amount equal to the aggregate contributions of the employes. The proprietors say in their circular announcing the proposition:—"We hope this experiment may be so successful that profit sharing may be adopted by us as a permanent policy."

SHILOH'S CURE will immediately relieve Croup, Whooping Cough, and Bronchitis. Sold by John M. Wiley.
