EXCLUSIVELY GENTLEMEN'S FINE FOOTWEAR.

$5.00 Shoes To Be Sold At $3.00

Not Shop-Worn Shoes, but Perfectly New American Styles.

REGISTERED.

American Goodyear Welt, Chocolate and Dark Tan Colors. This is the best bargain ever offered to the Canadian public. We are passing new lines through the customs almost every day. If you see them you will like them.

Sole Agent for the Famous Burt & Packard "Korrect Shape" Shoes and the "Lily" $2.75 Shoes.

GUINANE'S—ONLY KING ST. STORE, 5 DOORS FROM YONGE ST.

JOHN GUINANE, Late of GUINANE BROS.

Open Till 10 p.m. 15 KING STREET WEST.

HAMILTON NEWS

WHO WILL GET THAT PLUM?

A Red-Hot Battle Is Going on Among Young Liberals.

H. GARDINER AND R. HOPE

Are the Leaders in the Race, With Chances About Even.

Wires Are Being Pulled in the Liveliest Fashion in the Young Liberal Club—The Editor, It is Claimed, Holds a Lucrative Position Now, While the Ex-Merchant is Looking for a Berth and Deserves the Best the Party Has to Give—General News from Hamilton.

Hamilton, Aug. 25.—(From The World's Staff Correspondent.)—Although it is vacation time, the Young Liberal Club is pulling wires as never before in its history. The excitement is over the race for the registrarship, and the club is nearly evenly divided between Editor Gardiner and Mr. R. K. Hope. If anything, the balance is in favor of the latter, on the ground of his being an old-time Reformer, and in need of a job, while the editor of The Times holds a lucrative position. Some of Editor Gardiner's supporters have got out a circular in patent medicine style, where the reading matter consists of petitions in his behalf from the different wards of the city. Among its strong names is that of Chairman D. Gibson, who urges that the editor's appointment would strengthen the Liberal forces of the city so that nothing else could do. If the Young Liberal Club is any index of what the chances of Lawyer Monk are, he is out of the running altogether, and Adam Laidlaw has a strong off still, being "dead and buried" as it is put by some.

Stimulating Scientific Interest.

To stimulate scientific interest among the children of the Public Schools of Hamilton, the association will next month offer money prizes for the best collection of Indian relics, shells, botanical specimens, etc., a group at a time. The visit of the British Association to the city has given scientific things a boom and the museum on Main-street is in more request.

Bread Goes Up.

The master bakers of the city have decided, beginning from to-day, to raise the price of bread two cents a loaf, while the price of wheat remains at the present figure.

Roads to be Improved.

As the result of Road Commissioner Campbell's conference with the County Roads and Bridges Committee to-day, the county will better all Wentworth-roads.

The Trolley Won.

An H., G. & B. car, eastward bound, and a west-going dummy, disputed the right of way on the single track on Main-street, near Catharine, this afternoon. After 25 blocks, the latter gave way, but claims the right of way as a principle.

That Squabble Over the Inspectorship.

The World's article of to-day on the aldermanic upheaval over the interception of checks inspectorship occasioned much talk here to-day. City aldermen have lately been asking whether E. Barrow or Ald. Miller is the City Engineer. A big row is expected at the next Council meeting.

In view of two of the city papers calling The World's statement that Ald. Findlay and McDonald are opposed to City Engineer Barrow's appointment of Hiram Jones as inspector "a dream," The World to-night hunted up Mr. E. Buscombe, who, it is understood, has the support of the majority of the City Council for the position, and he throws some light upon the subject. Mr. Buscombe said: "Ald. McDonald told me that he would give me his faithful support, and that he asked Engineer Barrow to appoint me. Ald. Findlay said he wanted me appointed, and would urge it on the engineer. As to Mr. Barrow, he said before two aldermen, friends of mine, 'Buscombe is the man I want, and if he is foreman I shall be as well satisfied as if I were there myself.'"

The World saw Ald. Donald, and he corroborated Ald. McDonald's statement regarding his favoring Buscombe.

Street Railway and H. & D.

The City Committee under Ald. Montague, appointed to arbitrate between the City Railway Company and the H. & D., had a conference with the former this afternoon and has probably solved the whole difficulty. The street railway will permit the H. & D. to run their own trolley line along Herkimer and James to Gore-street, the latter road putting in the necessary switches. The question of the montary compensation has already been settled.

Waterworks Matters.

The Fire and Water Committee to-night decided to lay a six-inch main on Wentworth-street, from Barton to South-street, at a cost of $610. The pipe line is to be fenced in to bring the ownership of the road to a test. Estimates will be asked for lighting the pumping station with electricity. An offer was received from London's Fire and Water Committee, offering an extension fire ladder for $100.

Death of Mr. E. Nisbet.

Mr. R. Nisbet, a retired wholesale boot and shoe dealer, and father of Miss Nisbet, the well-known writer of this city, died at his Jackson-street residence this afternoon.

Hobbs Tossed by a Train.

A G.T.R. beach train struck a dray occupied by Richard Hobbs, a carter, on the Beach-road this evening. Hobbs was thrown into the air several feet and the rig was smashed to pieces, but, strange to say, neither man nor horse was hurt.

Separate Schools' Picnic.

The annual picnic of the Separate schools was held at the Brant House this afternoon. About 2000 persons were present. A long program of games was carried out, under the direction of Charles J. Bird and Rev. Father Holden.

Shootists for Waterloo.

The Hamilton Gun Club and the Mallards will send to the Waterloo tournament to-morrow the following teams: Hamilton Gun Club—W. Langhorne, M. Reardon, J. Wilson, H. Dynes, M. Fletcher. Mallards—C. Brigger, J. Smith, J. Hunter, E. Harrison, J. Bowman.

Stabbed a Livery Man.

Sam Wilson, the Charles-street livery man, was severely stabbed by a man named Hopgood this evening. The knife made wounds in the neck, under one eye and an arm cut.

General News Notes.

Mayor Colquhoun will let slip a carrier pigeon, bearing a message to Lord Lister, at the opening of the Toronto Exhibition.

The Toronto and Hamilton Sewer Pipe Company will ask for exemption from taxation, and on failure to obtain it, is likely to remove to Toronto.

J. E. Gage and his wife are suing the Street Railway Company for $5000 for injuries received by Mrs. Gage while riding a car on June 22.

Miss Jessie Morrison, Cathcart street, is besieging the police to arrest her brother-in-law, who lives in Dundas, on the charge of bigamy.

WHEAT RALLIED YESTERDAY.

Bulls and Bears Had a Tussle, and After a Dip the Cereal Rose to 99 3-4 Cents.

New York, Aug. 25. — There was a pause in the downward movement of wheat prices to-day, and at the best point of the session a rise of 4c a bushel from yesterday's close, but still 3 1-2c under the highest figure of the year on December. The market started out with bulls in control, and a spirited competition for wheat between local shorts and Continental houses. Prices ran up to 98 on this bulge, against 95 3-4 last night, but on a succeeding cloud of selling orders on realizing and short covering dipped to 96 1-4, from which it rose steadily, reaching 99 3-4 in the early afternoon on good all-around buying, led by Chicago. Cable news was bearish with the single exception of Liverpool, which, after opening 3d lower, rallied 1 1-4d to 1-2d, and then sagging off slightly closed at 2 1-2d to 2 3-4d less from last night. Paris markets opened and closed lower, the final figures being 35 to 37 points off on wheat, and 65 centimes to 1 franc lower on flour. Antwerp was 1 point lower for 1 day, and Berlin unofficially 3 marks lower, so that with the exception of early foreign buying and the Liverpool rally to-day's European cable news was detrimental to confidence on the bull side. Near the close the market was firmly sustained by rumors that exporters had picked up something like 800,000 bushels at New York and outports to-day. Final figures for the day were at 2 3-4c to 3c advance over last night. Sentiment after change was rather partial to the bull side of the idea that prices have had a sharp enough break to shake out a great lot of burdensome long wheat, allowing the market to rest on a healthy basis again. Total transactions to-day were upwards fo 14,000,000 bushels. At the close No. 1 Northern New York was quoted nominally at 1.00 3-4 f.o.b. afloat. The corn market was active and higher, with wheat gaining 7-8c to 1c for the day. September ranged from 33 3-4 to 34 7-8, and closed at 34 5-8. The range on September wheat was from 98 to 1.01 1-2, closing 1.00 3-4. December sold from 96 1-4 to 99 3-4, and closed at 98 1-2. On the curb December sold up to 99 1-4.

Number 72.

This is the train that leaves Toronto at 10.00 in the morning by the new Toronto & Buffalo Line, connecting with the "Empire State Express," the fastest train in the world, run by the New York Central, "America's greatest railroad," and reaches Grand Central Station, the only station in the City of New York, located conveniently to all principal hotels, at 10 the same evening. First-class service and no extra fare. Address H. Parry, General Agent of the New York Central, 308 Main-street, Buffalo, N.Y., for further information.

Wedding at Weston.

A happy event took place last night at the residence of Mr. Edward Musson, Weston, when his eldest daughter, Millie, was married to Mr. Wilson Wilbee, secretary of the Public Library there, and whose business is on Yonge-street this city. The ceremony was performed by Rev. Mr. Capp, Toronto, formerly of Weston, in the presence of a large assembly of friends.

"Where Dentistry is Painless."

GIFT GIVING,

Like charity, should begin at home. Don't give a big price for dental work. All that you pay over $7.50 for a set of teeth is a clear gift to the dentist. Perhaps he can make good teeth at that price; but that's his lookout. We make the very best teeth for $7.50 a set. We take merely what we earn. Fancy prices and gifts "are not dreamed of in our philosophy."

NEW YORK REAL PAINLESS DENTISTS,

(SKIMMIN & KNIGHT, Proprietors).

S.-E. Cor. Yonge and Queen Sts., over Imperial Bank. Entrance 1 Queen E., Toronto.

Hours: 8 to 8. Sunday, 2 to 4. Phone 1972.

LAST DAY OF THE SECTIONS

Scientists' Interest Maintained to the Last.

EARLIEST TRACE OF MAN

In the New World Leads to a Brisk Discussion.

Interesting Paper on the Geographical Features of the United States—The Colored Population—Molecular Movements in Metal—Closing Business Meeting and Award of Thanks All Round—Everyone Profuse in Praise of Toronto and Its Meetings.

In the Chemistry Section, Prof. W. C. Roberts-Austen, in a manner witha which Torontonians will be familiar, illustrated the malecular movement of metals. To prove that molecules in liquids and in metals were moved in the same way by the action of force, he used the same pictorial illustrations as at Massey Hall.

Population of the United States.

General Greeley, in the Geographical Section, interested a large audience by a presentation of the geographical features of the United States. He snowed by means of maps the various changes in the centre of population in a century, or from 1790 to 1890. He accounted for the predominance of males over females in the fact that the immigration consisted largely of males. In 1790 the negroes numbered 757,000, or 19.21 per cent. of the population, while in 1890 their numbers had increased to 7,400,000, but their percentage had decreased to 11.93.

Pre-Glacial Man.

But, perhaps, the most popular subject of the concluding day was that of "First Traces of Man in the New World," which was the topic of a warm discussion, in which geologists and anthropologists took part together.

Prof. Putnam of Harvard, who opened the discussion with an address on the results of the investigation of the Trenton gravels in the Delaware Valley, told how there had been found in them certain relics, including portions of skeletons, fireplaces, pits and instruments of argillite. He argued that the circumstances seemed to point to the fact that the men who had deposited these relics had lived soon after the glacial period, and that there had appeared later a race whose relics were to be found in large quantities and who were doubtless the progenitors of the Indians whom the white men had discovered in America.

Prof. E. W. Claypole also believed that man existed in America prior to the glacial era, his paper being on "Human Relics in the Drift of Ohio." In proof of this, he produced the half of a rude stone axe. He had been found at a depth in the ground of 26 feet, by a man digging a well.

Sir John Evans took exception to the production of these proofs. Such instruments as had been produced by Prof. Claypole were frequently found on the earth's surface. They could not be considered palaeolithic and he chided the preceding speakers for stating as facts inferences drawn from such data.

The argument was continued, Messrs. Spencer and David Boyle, Dr. Dawson and Prof. Morse taking part, and Profs. Putnam and Claypole speaking in rebuttal.

THE CONCLUDING MEETING.

Votes of Thanks Were Distributed All Round and This Wound Up Business.

The general association meeting in the afternoon was devoted to moving votes of thanks to those who had contributed to the success of the meeting.

Mr. Vernon Harcourt moved a vote thanking the Provincial and Dominion Governments, the Mayor, aldermen and city of Toronto, the University Council and the entertaining hosts.

Prof. Michael Foster seconded the resolution, and His Worship Mayor Shaw replied on behalf of the city. Hon. Dr. Ross for the Government and President London for the University Council.

On motion of Dr. Scott Keltie, seconded by Prof. Ramsay, Sir John Evans was thanked for the admirable manner in which he had discharged his presidential duties.

The President made a suitable reply and announced that the next meeting was to be held at Bristol in 1898.

TO AID SCIENCE.

Grants of Money Appropriated by the General Committee of the British Association at Their Meeting.

Following is a synopsis of the grants of money appropriated to scientific purposes by the General Committee at the Toronto meeting, August, 1897. The names of the members entitled to call on the general treasurer for the respective grants are prefixed:

— Mathematics and Physics. —

Prof. Carey Foster, electric standards, £75; Mr J Symons, seismological observations, 75; Dr E Atkinson, abstracts of physical papers, 100; Rev R Harley, calculation of certain integrals, 20; Mr W N Shaw, electrolysis and electrochemistry, 35; Prof Callendar, Meteorological Observatory at Montreal, 50.

— Chemistry.

Sir H E Roscoe, wave-length tables of the spectra of the elements, £20; Prof J Emerson Reynolds, electrolysis quantitative analysis, 12; Dr T E Thorpe, action of light upon dyed colors, 8; Sir J Evans, promotion of agriculture, 5.

— Geology. —

Prof E Hull, erratic blocks, £5; Prof T G Bonney, investigation of a coral reef, 40; Sir W H Flower, fauna of Singapore caves (unexpended balance in hand 40); Prof. J Geikie, photographs of geological interest, 10; Mr J E Marr, life-zones in British carboniferous rocks (unexpended balance in hand); Prof W Boyd Dawkins, remains of the Irish elk in the Isle of Man (unexpended balance in hand); Mr T F Jamieson, age of rocks near Moresear, 10; Sir J W Dawson, pleistocene fauna and flora in Canada, 20.

— Zoology. —

Prof W A Herdman, table at the Zoological station, Naples, £100; mr G C Bourne, table at the Biological Laboratory, Plymouth, 20; Sir W H Flower, index generum et specierum animalium, 100; Prof Miall, biology of the lakes of Ontario, 75; Prof W A Herdman, healthy and unhealthy oysters, 30.

— Geography. —

Mr E G Ravenstein, climatology of tropical Africa, £10.

— Economic Science and Statistics. —

Prof H Sidgwick, state monopolies in other countries, £15; Mr L L Price, future dealings in raw produce, 10.

— Mechanical Science. —

Mr W H Preece, small screw gauge, £20.

— Anthropology. —

Prof E B Tylor, Northwestern tribes of Canada, £75; Dr R Munro, lake village at Glastonbury, 37 10s; Mr E W Brabrook, ethnographical survey (and unexpended balance in hand), 25; Mr A J Evans, Silchester excavation, 7 10s; Dr G M Dawson, ethnological survey of Canada, 7; Sir W Turner, anthropology and natural history of Torres Strait, 125.

— Physiology. —

Dr W H Gaskell, investigation of changes associated with the functional activity of nerve cells and their peripheral extensions, £100.

— Botany. —

Prof J B Farmer, fertilization in phaeophyceæ, £15.

— Corresponding Societies. —

Prof R Meldola, preparation of report, £25. Total, £1,350.

"I have much pleasure in stating that Radnor Water (which I frequently drink) is a very agreeable beverage, delicious in taste and most refreshing."—Ignace Jan Paderewski, Jan. 11, 1896.

BANQUET TO THE VISITORS.

Gathering at the Pavilion Last Night.

LORD ABERDEEN PRESIDED.

The Catering Was First-Class and the Wine Was of the Finest Brand.

Galleries Were Filled With Ladies Who Watched the Gentlemen Eat — Lord Aberdeen Proposed the Toast of Our Guests, Which Was Heartily Responded to by the Noble Visitors.

Never in all its animated history did the Pavilion assume a more gala appearance than last night. The people of Toronto were capping the climax of a long succession of brilliant expressions of cordiality to the British Association by a banquet, and they nobly arose to the occasion. They had excelled themselves in their reception to a body of learned strangers. The confidence with which they had embraced the transcendent stellar lights of Britain had only increased manifold with their all too brief sojourn among them. The mighty men of science had come here, their works previously well known to us, but, albeit, they themselves strangers. They return to their labors, conveying with them the well-wishes of their some time hosts, but leaving behind an appreciation of their beneficial labors on behalf of humanity only equalled by a reverence for themselves as men whom contact has revealed to be of untiring devotion to the cause they have at heart. In paying tribute to them Toronto but betokened a love for science. It was but fitting, therefore, that their departure should be preceded by an unparalleled display of hospitality.

Loyalty to the Empire was the watchword of the after-dinner speeches; loyalty was personified on the walls of the impromptu banquet hall. The splendid appearance of the inanimate was only equalled by that of the animate. The flag of Britain, and the flag of Canada alike, hung in all its dignity from every conceivable position. Beneath its folds sat at the merry love-feast a full representation of scientific brains of the Mother Land, intermingled with a fair embodiment of Canada's social life, and incidentally with its learning. The galleries were thronged with a quota of the multitude of the curious but unqualified, and with ladies in costly evening dress, whom conventionality had postponed the enjoyment of the good things below. They rested content with playing the difficult role of spectators, awaiting their opportunity to applaud the toasts which were to follow. The past-presidents' coats-of-arms were in evidence, while a huge overhanging star of folded bunting was perhaps intended to signify that science, like liberty, would enlighten the darkness of the world. The Governor-General of Canada, the Earl of Aberdeen, acted as master of ceremonies, his chair being situated on the platform within view of all. The speakers talked from the same eminence.

The banquet was specifically indicated as being in honor of the Right Hon. Lord Kelvin, LL.D., F.R.S., the Right Hon. Lord Lister, D.C.L., Pres. R. S., Sir John Evans, K.C.B., Pres. B.A.A.S., Treas. R. S., and other distinguished members of the British Association for the Advancement of Science.

AT THE TABLES.

At the tables, which were nicely arranged, were seated:

Table A—His Excellency the Governor-General (chairman), Hon Geo W Allan, Dr Barnes (president British Medical Association), Right Hon James Bryce, Chief Justice Burton, W Erskine (Governor-General's secretary), Sir John Evans, Sir Charles Freemantle, A G Vernon Harcourt, Hon A S Hardy, The Right Hon Lord Kelvin, The Right Hon Lord Lister, President Loudon, Mayor of Toronto, Sir Oliver Mowat, The Hon Wm Mulock, Dr. W J McGee, Prof Simon Newcomb, Prof Putnam, Prof Roberts-Austen, Sir George Robertson, Hon Chas Russell, Rucker, Sir William Turner, Captain Wyatt, Hon A D C.

Table B—W E Ayrton, Prof J M Baldwin, Prof Barrett, J T Bottomly, Henry Cawthra, E F Clarke, M P., Prof F W Clarke, Dr G M Dawson, Prof Dixon, Hon John Dryden, Mr. Justice Ferguson, Hon Fitzpatrick, Prof Carey Foster, Lt.-Col Grasett, General Greely, Hon J M Gibson, Dr Theodore Gill, R G Haliburton, K Q C, Hon A R Harcourt, Prof Hewitt, Thomas Hodgins, K C, G A Howland, M L A, Dr A Johnson, Mr Arthur Lister, Prof Lodge, Rev Vicar-General McCann, D'Alton McCarthy, M P, J Lorne McDougall, Prof Meldola, E S Morse, Prof Pench, Prof Perry, Prof Poulton, Prof Ramsay, Prof Remsen, Mr Justice Robertson, Prof A L Roberts, Prof Roberts, M L A, Adi Scott, Sir Frank Smith, Right Rev Bishop Sullivan, Dr James Thorburn, Kivas Tully, Walker.

Table C—Prof Bailey, R Russell Baldwin, Rev Dr Bethune, Rev Dr Blackstock, T G Blackstock, F O Bower, Chancellor Burwash, Prof Claypole, Prof Cody, Prof Cushing, E F Deacon, R T Eby, J W Flavelle, H O Forbes, Prof C LeNeve Foster, Ald. R H Graham, Prof Greig, W D Gwyne, Prof Hallburton, Prof W H H Hudson, E H Keating, Prof Miall, Dr Muckeen, Dr W Ogden, Adi Preston, T W Reid, R T Rosebrugh, A Rutherford, Adi Sheppard, J F Smith, Q C, A J Somerville, Dr J W Spencer, Dr A Springer, E Stanger, Dr Starr, Dr Stewart, Dr Sweetnam, Rev F R Wallace, Prof H R Whitney, Major-Gen Webber, Prof Weiss, Justice Wedderburn, E B Osler, M P.

Table D—A R Boswell, W D Beardmore, Prof Bergman, Maurice Brooks, Rev J Burwash, Charles Cockshutt, W R T Colborn, E Strachan Cox, A R Creelman, Prof H Crew, R Dalgliah, J H Dewart, D B Dick, W J Douglas, Prof H T Eddy, Prof Ewing, Bretland Farmer, R D Gamble, R Gowing, T Arnold Haultain, James Hetherington, Henry Higgs, W E Hoyle, Prof T G Kemp, A C Kenny, D R Keys, John Kilkelly, H B Lowry, J Gordon MacDonald, B E McKenzie, J MacKenzie, William McCabe, J McGillivray, Q C, W Mellis, H A Miers, Charles Rust, Prof Sherrington, Dr L E Shore, Dr Andrew Smith, Dr D King Smith, John Speak, Dr W S Squire, G H Sweetnam, Dr Taylor, Aubrey White, George H Bertram.

Table E—Dr W C Barber, Dr Barnes, Prof A C Bell, Arch'd Blue, C Vernon Boys, W H Brewer, Rev Dr Briggs, Roscoe Boys, W H Brewer, Rev Dr Briggs, Roscoe Brunner, A Carruthers, C A Chaut, Prof Copeman, Ald Crane, W T Croswellor, F H Deverell, Rev J C Farthing, Dr Ferguson, Ald Graham, Dr Grunbaum, W B Hamilton, Rev O B Hawes, Rev J C Hodgins, J Castell Hopkins, Dr Hunt, Dr J Scott Keltie, Principal Kirkland, C A Kohn, Prof D Macalister, H C McLean, J C McLennan, Prof C H McLeod, George McMurrich, Marshall Ward, Dr Welford, Prof L Wittmer, A H U Colquhoun, Provost Welch.

Table F—Prof Bell, Dr Britton, Prof Fittica, J Howard Hunter, George Kappele, Warring Kennedy, W S Lee, H R Mill, Henry Montgomery, W S Myers, Dr Oronhyatekha, James Todhunter.

Table G—Prof Ramsay Wright, F D Adams, Canon Adams, A E Ames, Prof G F Barker, Prof Bovey (Montreal), Dr Thomson Bonar, A P Coleman, E W Cox, F C Cox, Rev A C Courtice, Wyndham Denston, Dr Ellis, Dr. Eccles, Sir Malcolm Fraser, J C Glashan, General Assistant Secretary Griffith, Prof Haddon, Prof C P Hart, E. Alison Hingston, Dr Holmes, A E Kemp, Dr H A McCallum, Dr MacDonald (Hamilton), E A Meredith, Prof Michelson, Dr Millman, Prof A MacAlister, Rev W J McCaughan, C S McInnis, J F McLaren, Prof E Orton, Dr Primrose, Prof Richet, Rev J C R Roberts, Dr Crawford Scadding, E R Wood.

Table H—Prof Bessey, Prof Bigelow, W F Ferrier, R A Fessenden, Prof Fitzgerald, Principal Galbraith, Prof Thomas Gray, A R MacCallum, Dr Donald McLean, B B Ross, Prof Warren, H D Warren.

Table J—John Hoskin, Q.C., LL.D., Prof W G Adams, Dr H M Ami, Dr Ash, J Hudson Beare, W H Beatty, Dr Beemer, Prof Brabrook, Dr H F Chamberlin, Major A M Cosby, Hon Mr Davis, Prof Dunstan, Prof Forsyth, Dr W B Geikie, Prof G G Gilson, L Vernon Harcourt, Stansbury Hagar, Arthur Harden, W R Head, Prof Virtanu Jones, Capt J M Knight, W H Knowlton, Prof. Lauza, J J Maciaren, Q.C., W D Matthews, Prof Mesiaus, Prof Milne, Prof C Lloyd Morgan, Major McMahon, J Kerr Osborne, John A Paterson, Dr Peters, Rev E Ryan, Sir John Swinburne.

Table K—Rev A S Grant, H E Armstrong, Rev. A H Baldwin, Judge Dartnell, Prof W J Goodwin, Dr McPhedran, Major Macdonald, J L Myres, John Patterson Rev John Potts, Dr Reeve, Ald Rutter, F Wyld, Hugh Ryan.

Table L—Dr. I H Cameron, W. H. Ballard, Ald Beale, John Bertram, Prof Rubert Boyce, Prof Braun, Prof Brauner, W R Brock, A H Campbell, H Vandelcur Carden, E T Carter, John Catto, Dr. Daniel Clarke, H H Collier, Col Dawson, F T Elworthy, Ald Hallam, Prof W H Heaton, James Henderson (St. Catharines), Dr Hough, Prof Hurthle, Archdeacon Bedford Jones, Rev L H Jordan, Prof Langley, B StG Lefroy, Major Livermore, Ald Lynd, Prof P Magnus, G Herbert Mason, T G Mason, Prof H McLeod, Dr Needler, S Nordheimer, E G Rayenstein, Prof Runge, Prof E W Reid, F B Taylor.

Table M—F F Payne (Montreal), Frank Darling, Walter Garstang, Prof Greenhill, Aemilius Jarvis, Angus Kirkland, A C Seward, John Sparkes, Dr A Logan Turner, J B Tyrrell, C S Wilkie.

Table N—Nicol Kingsmill, Q.C., E Cannon, Herbert Cannon, G E Casey, M.P., William Christie, J M Clark, R T Coady, D Coulson, J H Coyne, William Davidson, John Dearness, H P Dwight, James Duncan, Dr. Fletcher, Dr J E Graham, Dr L O Howard, Prof C I. Jackson, E C Jeffrey, B Jennings, J C Kemp, Dr. Kennedy, Otto T Klotz, G W Lamplugh, Z A Lash, Prof F S Lee, Ald Leslie, W F Maclean, M.P., Dr H T Machell, Dr J H Mullin, J M Murray, Dr Nevitt, H S Strathy, Dr W T Stuart, R P Stupart, Prof S P Thompson, Dr Van Ryckvorsel, Dr Watson.

ELABORATE MENU.

The arrangements for the banquet made by the caterer, Mr. George S. McConkey of King-street, were of an elaborate nature, and fully sustained his well-earned reputation in this line. He was assisted by a staff of 125 waiters, together with a kitchen staff of 50. Under the able supervision of Mr. McConkey this large staff was handled without a single hitch, and the four hundred and odd guests that sat down to the really artistically arranged tables had nothing but praise for the excellent service and the rare and tasty dishes that were provided. The tables were of various shapes and considerable originality was displayed by the caterer in their arrangement. The oblong tables all pointed to the centre of the hall, while at each corner was a round table, and at each end stood half circle tables, all being alphabetically arranged. A separate apartment was also provided with alphabetically arranged tables for carving, with special carvers and assistants in charge of each table.

The floral decorations of the tables were also on a superb scale. They were supplied by Dunlop.

In order to expeditiously serve this large assemblage Mr. McConkey had special ranges and steaming tables placed in the Pavilion. His foresight and knowledge of providing a banquet for so large a number were everywhere apparent, and it is safe to say that never before were such elaborate arrangements made or better carried out, and he deserves all praise for his excellent management of this affair.

THEY USED ROEDERER'S

The only wine used at this banquet was Louis Roederer's Grand Vin Sec, which was selected for the occasion jointly on its merits through the agents for this famous brand, G. D. Dawson and Co., 16 Kingstreet west. In this one respect the committee did discover a good thing, and let them have all the credit. The wine was the talk of the gathering.

THE TOAST LIST.

The toast list was brief, consisting only of the usual honors to the Queen and tributes to "Our Guests" and to "His Excellency."

The toast to Her Majesty was proposed by the Governor-General, who, amid applause, spoke in part in the following terms: "Only a few—though those few were to be counted by the million—but comparatively only a few of Her Majesty's subjects, could be eye-witnesses of the imposing spectacle on June 22, at the centre and headquarters of the Empire, but we who live in its outer, but not less integral portions, were in an active and literal sense participators in the grand universal celebration. And that this could be accomplished in a manner which would have been impossible at the commencement of the Queen's reign is very largely the result of the achievements of science so notably represented here to-day." [Applause.]

The lusty rendition of the National Anthem and the succeeding three cheers and a tiger made comment needless as to the good feeling towards Her Majesty.

His Excellency then proposed the toast "Our Guests," and coupled with it the names of Lord Kelvin, Lord Lister and John Evans and others. British as well as American distinguished scientists, among them being Dr. Putnam, Dr. McGee, Prof. Roberts-Austen, Prof. Michael Foster, Thomas Augustus, Right Hon. James Bryce, M.P., Vernon Harcourt, General Greely, Sir Charles Freemantle, Dr. Fitzgerald and Prof. Sylvanus Thompson.

When the applause greeting the speech and the succeeding song by Mr. Harold Jarvis had died away, Lord Kelvin, Lord Lister and Sir John Evans successively speaking, were heartily greeted.

Prof. Putnam represented the American association and Prof. Rucker also responded. Cries for "Roy" brought Mr. Roy, M.P. to his feet, who proposed a toast to the chairman. He spoke very flatteringly of the Governor-General, and his remarks being endorsed by his secretary, Dr. McGee, a member of the American association, His Excellency's reply concluded the event.

WOODSTOCK LADY'S LUCK.

Bought Wheat Before the Rise and is Now $11,000 Richer.

Woodstock, Aug. 25.—The Sentinel-Review this evening says: Mrs. E. G. Thomas, 34 Sydenham-street, invested $300 in the Chicago wheat market, and has received advices to the effect that the investment has yielded $11,000 in profits. Mrs. Thomas, it will be remembered, was visiting her daughter in Indianapolis recently, and while there Mr. McDonald, her son-in-law, induced her to invest $300 in wheat on the stock exchange. This she did, and last week was notified of the rise in wheat. She at once wired to Indianapolis and authorized her son Charles to sell out and close the deal. Mrs. Thomas has now in her possession a telegram from her son-in-law stating that the $300 invested has netted her $11,000. Further confirmation of the statement came in the form of a message from her daughter, Mrs. McDonald, informing Mrs. Thomas of her safe arrival. The message also said: "Wheat deal all right."

While Mrs. Thomas was in Indianapolis she doubled a couple of hundred dollars through stock investments. As might be expected, she can hardly realize her good fortune. She is expecting a letter this afternoon which will give particulars of the deal.

Lady Bicyclist Hurt.

Mrs. Flint, 83 Jarvis-street, was mounting her bicycle on the University-avenue cinder path just north of Queen-street last night, when she fell and broke her left leg. Dr. Russell of Simcoe-street attended her and summoned the police ambulance, which removed the injured lady to her home.

THE COLTON TRAGEDY.

C.P.R. Held to Be Blameless, but the Jurors Say the Crossing Should Be Better Protected.

Oakville, Aug. 25.—The enquiry into the death of Mr. and Mrs. Jacob Colton of Trafalgar, who were killed by a C.P.R. train near here a week ago yesterday, was conducted by Coroner J. S. Williams this evening. The fatality occurred in the afternoon at what is called Ion's Crossing, on the Canadian Pacific. The Colton family were driving a team of horses over the road, and it was a train of this company which killed the old couple.

E. W. Carver, the only witness of the lamentable fatality, deposed that he had seen the Coltons' rig approaching the crossing, which is through a cutting. About the same time he heard the whistle of the approaching train, which he thoug was going about 60 miles an hour. The next moment he saw the debris of the carriage. He hurried to the spot, and found that Mr. Colton was dead. Mrs. Colton breathed her last almost immediately on his arrival. The train stopped, after proceeding a short distance, and the bodies were taken to Oakville.

The train hands were examined. All were certain that the usual danger signals had been employed on approaching the crossing.

A good deal of evidence was put in as to the dangerous nature of the crossing, which, besides being in a cutting, was concealed by trees and grape vines. The certian seven feet back from the tracks could not get a view of the tracks in either direction.

The local station agent testified that from 55 to 60 trains passed over the tracks each day.

The jury brought in a verdict accounting the C.P.R. blameless, but advised that the Crown Attorney should be requested to lay the matter before the Railway Committee of the Privy Council, with the recommendation that the Grand Trunk should provide further protection to the public at the crossing in question.

I. O. F. To-Day.

The program for the Independent Order Foresters has been arranged as follows: Foresters of the city and visiting brethren will assemble at St. George's Hall, Elm-street, at 3.30 p.m. and form in line, the procession being timed to leave there at 4 p.m., proceeding to Yonge-street and by way of Gerrard-street to Jarvis, down Jarvis to King, to Yonge, down Yonge to Front, along Front to York, thence to King, along King to Bay, up Bay to the Temple Building.

The procession will be accompanied by the band of the 48th Highlanders and the Stayner Forester Band. At 8 o'clock in the evening the formal opening ceremonies will take place, which will include addresses from the Supreme Chief Ranger and a number of distinguished Foresters, readings by Mrs. Custer-Calhoun, sister of the late General Custer of the U.S. Army, vocal and instrumental music by other talented artists.

Are You Ruptured?

If so, get the best truss, and the best result follows. The Wilkinson Truss has cured many and can do it for you. Factory and fitting rooms, Rossin block. Consultation free. B. Lindman, prop. 46

Accidentally Shot.

A 14-year-old lad named George Creelwell, who dives at 206 Gerrard-street east, was with other lads watching a man load a gun on the Don Flats yesterday afternoon, when the weapon went off and lodged some shot in the boy's toe. He was taken to the General Hospital.

Bridge Over the St. Lawrence.

Washington, D.C., Aug. 25.—Acting Secretary Melkeljohn has approved the plans for a bridge to be built by the Northern New York Railroad across the St. Lawrence River from Hogansburg, N.Y., to Cornwall, Ont. The Canadian Government has already approved the plans of the bridge.

Cucumbers and melons are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, griping, etc. These persons are not aware that they can indulge to their heart's content if they have on hand a bottle of Dr. J. D. Kellog's Dysentery Cordial, a medicine that will give immediate relief, and is a sure cure for all summer complaints. 6d
