Maurice Grimbly, the popular superintendent of construction on the magnificent new block of the Robt. Simpson Company on Queen, James and Richmond-streets, was made the recipient of two handsome gifts yesterday on the eve of his approaching marriage.

M. A. Sykes of the Standard Plunger Elevator Co., New York, whose patent safety elevators have been installed in the new block, presented Mr. Grimbly on behalf of the employes and contractors with a magnificent silver service.

John T. Ross, representing the managers of the Simpson Company, presented Mr. Grimbly with a handsome dinner set.

Congratulations and responses were felicitously expressed and Mr. Grimbly was cordially assured of the best wishes of his friends and the big firm he is associated with.

THE GHOST OF ALGECIRAS

Continued From Page 1.

was much secret opposition in the ranks of the majority. But when the decisive moment came the rebels never dared to brave Clemenceau's whip.

The fall of the cabinet was so unexpected that the political world is completely at sea as to who will be Clemenceau's successor at the head of the government. President Fallieres will consult with the president of the chamber to-morrow, in accordance with the usual custom. The name of Leon Bourgeois, former premier and former minister of foreign affairs, is most frequently mentioned, but his age and health are against him. M. Briand, minister of justice; M. Poincare, former minister of finance; M. Millerand, former minister of commerce; M. Pichon, minister of foreign affairs; M. Barthou, minister of public works, and M. Delcasse, are also mentioned in the order named.

Socialists Elated.

The Socialists naturally are overjoyed at Clemenceau's downfall. M. Jaurez, the Socialist leader, in the chamber said: "With Clemenceau disappears the most rangerous man in the republic."

SURVEY IS NEEDED

National Iron Company May Be Getting More Than 22 Acres of Marsh.

Before the transaction whereby the National Iron Company gets possession of a portion of Ashbridge's Marsh is completed, the city's survey department will be asked to supply a statement showing the exact acreage.

In the board of control's recommendation to council, the area was given roughly at 22 acres, this being the area of the property for which the Otis-Fensom Company negotiated, but a roadway 150 feet wide is included in the present deal.

Assessment Commissioner Forman says he is unaware of the exact extent of the property, as the transaction was put thru in his absence.

An agreement between the city and company is now being drawn up, and as the compact is not binding upon the city until the mayor's signature is attached, an increase in the purchase price may be required. The council in agreeing to accept $35,000 understood that the price was on a basis of $4000 an acre for the land and $1000 an acre for the water portion.

Rough Weather.

On Sunday last a big sea was running at Olcott Beach, so the steamers North King, Caspain and Arundel were weather bound. The Argyle, however, managed to make her schedule trip and her passengers did not feel any ill results from the rough weather.

LONDON, July 20.—The fourth series of wool auction sales closed to-day with a small attendance. The offerings, which numbered 14,675 bales, included many lots of good quality, particularly scoured. The latter were in animated demand at firm prices. Poor grades were quiet. To-day's sales follow:

The series commenced with some hesitation, prices being unchanged to 5 per cent. lower. Later more confident buying established a firmer basis of values and offerings were quickly cleared with the exception of faulties which are hard to sell. Compared with the May sales good merinos and cross-bred closed to-day unchanged, while inferior and heavy sorts showed a loss of 5 to 7½ per cent. Cape of Good Hope and Natal also declined 5 per cent. Fine cross-breds, suitable for America, were often 5 per cent. dearer. During the sales home traders bought 75,000 bales, continental buyers 52,000 and Americans 9000. Ten thousand bales were held over for the next series.

Chicago Gossip.

J. P. Bickell & Co. say at the close:

Wheat—Lower for July futures and higher for the deferred. Favorable harvesting conditions and increased receipts eased July, but light offerings in the futures resulted in firm market, shorts growing uneasy owing to firmness of cash values and talk of too hot weather in spring wheat belt. Foreign situation unchanged, and promises to be a helping factor, a little later, in sustaining American cash values. Market still appears to be a scalping one, with safety in the long side on all declines.

Beaty & Glassco had the following at the close:

Liverpool came a shade lower at the opening, but rallied during the middle of the session. The advance was lost before the close on favorable Russian news. Local sentiment was bearish enough to hold prices in check for a while, but the market became oversold during the past few days and a rally was the result. The fear of an over-supply of cash property is constantly with the professionals and keeps them in bullish frame of mind. It is our belief, however, that no accumulation of moment will take place for some time to come, and, therefore, recommend purchases on soft spots.

R. B. Lyman & Co. wired R. B. Holden:

Wheat—The most important feature today was the liquidation in July. Minneapolis continues to reduce her stocks, and is drawing heavily from the elevators to supply the milling demand. We can see nothing to justify any material decline in wheat.

Corn—Opened firm. The local crowd oversold themselves again yesterday. July advanced on covering by shorts.

Oats—Opened a shade lower and to a certain extent followed the action of corn. Elevator and shipping interests bought moderately. Shorts covered a little. Commission houses doing a small trade, and were on both sides of the market.

Provisions—Nothing doing; prices steady. Market closed a shade higher.

AMERICAN SUSPECT TAKEN

Following Hotel Robbery of Valuable Jewelry.

Sunday night room 102 in the Walker House, occupied by Charles Garceau, 223 La Reine-street, Quebec, was entered by someone, who stepped from the hall window to the fire escape and thence thru the room window. Mr. Garceau slept with a loaded revolver under his pillow, but was not disturbed. When he awakened Monday morning jewelry valued at $200 was missed. The studs had been taken from his shirt and his watch and chain from his pocket. The police were notified and Detective McKinney located nearly all the stolen property in a pawnshop.

Detective Bill Newton says he is a wise sleuth. He declares that from a very meagre description he collared Edward Barrymore as the man who had pawned the goods. He locked him up, charged with burglary. When taken Barrymore had a loaded revolver in the holster strapped around his waist. He was staying at room 111, Walker House, and went there on Saturday. He refuses to say where he comes from and his laundry bears several names. The police believe that he is an important American criminal. He says that the things were given to him by another.

LOSE CHANCES IN ORIENT

Canadians Not Awake to Advantages in Siberia and Japan.

James S. Cartwright, who returned to Toronto the other day from a ten years' residence in Japan, points out that the Canadian manufacturers are not embracing their opportunities to open new trade relations in the far east. Siberia, he says, is rapidly developing and offers a splendid field for British and American goods. At Vladivostok, the port of entry to Siberia, here is but one British agent.

The same tardiness prevails in the Japanese Empire, according to Mr. Cartwright. While British and American houses are opening branches everywhere, only one Canadian establishment is represented.

Mr. Cartwright is a son of J. S. Cartwright, master in chambers at Osgoode Hall. He holds a post in the British Oil Company in Japan and is home on a visit.

SAY IT'S THE RIFLE

London Press Comment on Canadian Triumphs at Bisley.

LONDON, July 20.—(C.A.P.)—The extraordinary success of the Canadians in "almost sweeping the board" at Bisley, as one paper puts it, is the subject of great comment here. If a representative of the Maple Leaf should win the King's Prize it would undoubtedly be known as the Canadian year.

The Standard says that never has such a powerful team visited Bisley, adding that special credit belongs to the Ross rifle for the successes, which indicates the early promise of Sir Chas. Ross being realised. The Express says the Canadian victory in the Daily Graphic match is another triumph for the Ross rifle.

ISLAND POLICE PHONE

Now Wake Up Residents in Middle of the Night.

At the meeting of the Toronto Island Association held at the Island Aquatic Club-house yesterday evening it was decided to request the police commissioners to instal a telephone in the residence of Chief Constable William Miles. This was partly brought about by the accident that happened to the police boat early yesterday morning, when the gasoline supply evidently ran out and the occupants did not reach shore until the small hours. They immediately disturbed the slumbers of the manager of the City Dairy to use his phone.

It was also recommended that a station should be built for use in case of accidents and arrests. The chairman, A. L. Eastmore, suggested that there should be continuous waterways thruout the island, and that a tug should be used instead of carts for street-cleaning.

The gathering expressed disapproval of the way the moneys of the island were spent in public parks for the benefit of the transient public.

DEATH OF CHARLES SPENCE

Popular Union Station Official Suddenly Removed.

Charles Spence, who has been familiar to all travelers at the Union Station for many years, died suddenly from a paralytic stroke at five o'clock at Grace Hospital yesterday morning. Mr. Spence was at his post at the gate as usual on Monday, when he suddenly became ill and was hurried to the hospital, but he soon became unconscious.

Mr. Spence was in his 62nd year. He came to this country from Ireland at the age of twenty-two, and entered the detective department of the Grand Trunk Railway. In thirty-five years service he had won for himself considerable distinction, and was known by detectives all over the continent. Six years ago he suffered from a severe illness, and unable to resume his former active life, he took up less strenuous work at the station.

A widow and two daughters survive him. The funeral will take place at three o'clock to-morrow afternoon from 348 Palmerston-boulevard to Mount Pleasant Cemetery.

Conductor Kicked Newsboy

W. R. Watts of 246 Montrose-avenue reports what seems to have been a case of wanton cruelty on the part of conductor 319 on College car 1290. At 7.30 last night, he says, he had, while the car had stopped at College and Spadina, bought an evening paper from a small, bare-footed newsy, who, in giving change for the five cent piece, stepped on the first step at the rear platform. The conductor pulled the bell rope and then, leaning out, kicked the youngster as he dropped off, sending him sprawling to the pavement and scattering his papers. To the caustic jibes of the passengers, the conductor retorted in kind, threatening to "lick" one.

88 CARS AT UNION YARDS QUALITY OF CATTLE GOOD

Trade Brisk—Best Cattle About Steady—Medium Grades 15c to 30c Lower.

Receipts of live stock at the Union Stock Yards for Tuesday, were 88 carloads, consisting of 1758 cattle, 15 hogs, 55 sheep and 3 calves. Besides the above, there were over 60 carloads of exporters, that arrived on Monday, that were on hand for to-day's market.

The quality generally was good, with many choice loads of exporters.

Trade in export cattle was brisk from the opening of the market up to the noon hour, when 125 carloads had been bought and weighed up.

At the close of the market there were about two carloads of exporters and eight carloads of butchers', such as are bought for the Montreal market, that were reported as unsold.

Prices for the very best loads of exporters held fairly steady, altho some of the dealers reported even these to be 10c per cwt. lower. The medium and common exporters were from 15c to 20c per cwt. lower, and in some cases as much as 30c per cwt. lower was reported. We publish some long lists of sales, which will enable our market readers to judge for themselves when compared with last week's sales.

Notwithstanding the drop in prices, cattle values are still high, considering the season of the year.

Trade in butchers' cattle and the prices were much the same as on Monday. Good stall-fed cattle sold at good prices, but the common grassers were slow sale.

Exporters.

Export steers sold at from $5.15 up to $6.20, the latter price being paid for the load brought in by F. Restorick, and sold by McDonald & Halligan to A. McIntosh for Gordon, Ironsides and Phares. Export heifers sold at from $5.40 up to $6 per cwt.

Butchers.

The best butchers' sold to-day were reported at from $5 to $5.30; medium, $4.75 to $5; common, $4.25 to $4.75; cows at from $3 to $4.25 per cwt.

Milkers and Springers.

Fred Rowntree bought 15 milkers and springers at $39 to $59 each.
