MacDONALD DROPS SECRET DIPLOMACY

Old Methods Will Be Abolished by Britain's New Premier.

WILL INFORM PUBLIC

Lord Parmoor Succeeds Cecil As Delegate On League Council.

Associated Press Despatch.

London, Jan. 25.—Secret diplomacy will have no place in the dealings of Great Britain's new premier, Ramsay MacDonald, with foreign countries.

Mr. MacDonald intends that the public shall be informed of foreign negotiations whenever the circumstances warrant. He also has decided that the discussions within the cabinet shall not be kept "drum tight" as it is claimed in some quarters was the case in the Baldwin-Curzon administration, but that the newspapers shall be given a communique after each session, summarizing the subjects discussed or decisions taken.

Will Inform Press.

In conversation with the newspapermen today Mr. MacDonald said he always would be glad to see them when public interests demanded or time permitted. The premier's policy of acquainting the public with what the government was doing was apparent today at the press bureau of the foreign office where it was indicated that Mr. MacDonald might arrange to receive the newspapermen periodically, the same as is done by the president of the United States. In this respect Mr. MacDonald would revive the war-time practice of David Lloyd George.

The premier is represented as being anxious at the commencement of his administration to have the support and goodwill of the newspapers, as well as of the public. The old press bureau staff at the foreign office will be retained because of the experience of the personnel and because of its knowledge of pending government matters. But Mr. MacDonald probably will add to it one or two men from the ranks of Labor on account of their special familiarity with the party's policy.

In order to get better acquainted with the foreign representatives accredited to Great Britain, Mr. MacDonald this afternoon held an official reception at the foreign office for the diplomatic corps. Most of the ambassadors never had met the new premier.

Remove Barriers.

One of the first acts of the MacDonald government has been the decision to remove the barriers erected to protect Downing street, where the official home of the premier is situated, during the unemployed demonstrations which occurred under the coalition government. To this end the home office today issued the following statement:

"The government have decided that the wooden barriers in Downing street and King Charles street, which were erected to meet a special emergency, need not be retained, and steps will at once be taken for their removal."

Premier MacDonald has decided that Lord Parmoor, lord president of the council, shall be the British delegate on the council of the League of Nations, in succession to Viscount Cecil of Chelwood, formerly Lord Robert Cecil. Lord Parmoor is to have a room at the foreign office. This will bring the foreign office and the League of Nations into closer relations than were possible during Premier Baldwin's administration, when Viscount Cecil was the representative on the League council, but had no location in the foreign office.

HON. JAMES LYONS.

Minister of mines and forests for Ontario, who urges an improved system of fire-fighting in Canadian forests.

FOREST FIRE LOSS IS GREATEST YET

Province Experiences Most Disastrous Year in History During 1923.

SPEND MUCH REVENUE

Canadian Press Despatch.

Montreal, Jan. 25.—Last year the province of Ontario spent $1,100,000 on forest fire prevention, a sum representing over one-third of the total revenue derived from forest products by the province within the same period. Despite this expenditure, Ontario suffered the greatest loss of its history through forest fires, over $2,000,000 being burnt, 30 per cent of which was high-class timber, 35 per cent undergrowth and 25 per cent grassy or barren lands.

This was the declaration of Hon. James Lyons, minister of mines and forests for Ontario, in an address before the Canadian Pulp and Paper Association in convention here today.

Improved methods of cutting operations, a better system of fire prevention and better disposal of the slash-wood were considered advisable by Mr. Lyons. He also thought that the industry should be protected by a careful watch on the addition of output when the market did not justify it. He stated that Ontario now has applications waiting for twelve or fourteen pulp and paper industries, and he believed that before approval should be granted for operation a thorough investigation should take place in order that the industry might be protected. He added that the province of Ontario proposed to have a survey to determine the amount of forest material in the province, the amount of water power available, and the best measures required to secure a future supply of wood for the industry.

At the annual meeting of the association this morning, George Carruthers of Toronto, retiring vice-president, was elected president.

REDUCE NUMBER CIVIL EMPLOYEES

Kent County Councillor Makes Plea For National Economy.

Special to The Advertiser.

Chatham, Jan. 25.—Reeve McPherson of Blenheim called the attention of the Kent County Council to the need of determined action to reduce the number of civil servants and government employees, in the interest of economy. His resolution is to be discussed Saturday.

The paving of the Creek road, Harwich Township, which connects with city thoroughfares near the local cemetery, was urged upon the county council today by a delegation of ratepayers.

Reeve St. Pierre seeks to have the Ontario voters' act amended so that ratepayers can have the option of marking their ballots at the polling station nearest to their residence, irrespective of where they may be listed.

Suggest Amalgamation.

The council withheld a proposed grant to the West Kent Agricultural Society Fall Fair, following recommendations that a committee of that association confer with a committee of the Peninsular Winter Fair, with the view of amalgamating the two exhibitions.

The following grants were made: Canadian National Institute for Blind $250, Salvation Army (London Division) $200, Hospital for Sick Children, Toronto, $50.

Election Unchanged.

There will be no change in the reeveship for Ridgetown, it was announced this afternoon, at the close of the recount of ballots of No. 4 polling subdivision, conducted before County Judge Stanworth. D. Ferguson, who was defeated for the reeveship by W. E. Galbraith by 26 votes, sought the recount.

Associated Press Despatch.

BELGIAN PLANE CRASHES, KILLING TWO OFFICERS

Associated Press Despatch.

Brussels, Jan. 25.—A Belgian military aeroplane crashed yesterday into a swamp near Hassell, from an altitude of 2,000 feet, burying itself in the mud and water. It required nine hours of hard work to extricate the bodies of the two aviators, who had been killed instantly. The cause of the crash has not been determined.

REQUEST ANOTHER HOSTEL FOR VETERANS' CHILDREN

Special to The Advertiser.

Windsor, Jan. 25.—A resolution has been passed by the Border Veterans' Association at Windsor, asking the Soldiers' Aid Commission of Ontario to erect a hostel in Western Ontario for children of Canadian veterans of the world war who are made wards of the commission. At present the hostel is located at Toronto. The veterans want a shelter for the children either in Windsor or between London and the border, according to M. R. Winters, president of the association.

NAVIGATION NEED GREAT AS POWER

Western Canada Organization Emphasizes St. Lawrence Situation.

Canadian Press Despatch.

Swift Current, Sask., Jan. 25.—That there be absolutely no acquiescence on the part of the federal government to the pressure that is being brought to bear at Ottawa by the Province of Ontario and the Ontario Hydro Commission for the development of power in the international section of the St. Lawrence River unless there is provision made for simultaneously proceeding with adequate navigation, was the gist of a resolution adopted at a meeting of the St. Lawrence Deep Waterways Association of Western Canada here today.

The resolution, which is addressed to Premier Mackenzie King, declares that there will be a direct saving of seven or eight cents a bushel on wheat through the deepened canal, and a proportionate saving effected on many other products.

The mouth of the Yenisei is only open for a few weeks in the year. One of the largest rivers in the world, the Yenisei which flows into the Arctic Sea at Yeniseisk, is in its lower reaches four or five miles wide.

So Nervous She Could Not Sleep

A Quebec Woman Found Relief and Wants Others to Know.

Mrs. Donald M. McLeod, Springhill, Que., was a victim of great nervousness until she found the right remedy, and is now anxious that others shall profit by her experience. Mrs. McLeod says: — "Some years ago I became rundown and grew so nervous that my life was a burden to myself and all around me. Every night I would wake up with a choking feeling, numb all over and my heart beating at an alarming rate. I would jump up and walk the floor and declare I was dying. Then I would have sinking spells, and all day long would be so dizzy that I would stagger like a drunken person. I was afraid to be left alone; and my condition was terrible. I was then taken to the Sherbrooke hospital, but the treatment there did me no good and I came back home so weak that I could hardly cross the floor. I could not take care of my children, and my mother did so. Everybody thought I was dying, and I was just waiting and wondering when the end would come. At this stage my attention was directed to Dr. Williams' Pink Pills, and I got a supply at once. By the time I had used five boxes I felt much better, could eat better, and sleep better, and felt almost like a new woman. I continued the pills for some time further, and am now a strong and healthy woman. I advise all rundown women to try Dr. Williams' Pink Pills as I am sure they will do for others what they have done for me."

The new sales tax will not increase the price of Dr. Williams' Pink Pills, as the company pays the tax. You can still obtain the pills through any medicine dealer at 50 cents a box, or by mail, post paid, at this price, from The Dr. Williams' Medicine Co., Brockville, Ont.—Adv't.

WHITE ATTACKED

Associated Press Despatch.

Indianapolis, Ind., Jan. 25.—Miners of Nova Scotia were heard in defence of their deposed secretary-treasurer, James McLachlan, in the United Mine Workers' convention this afternoon and will continue their attempt to vindicate him when their deposed vice-president, Alex. S. McIntyre, answers charges made today by former International President John P. White.

Strategy of the insurgent element failed them. It was planned in one of their caucases to force consideration of the Alexander Howatt case today, and immediately after demand rehearing of the Nova Scotia case.

Forestalling this plan, Vice-President Philip Murray announced there was a misunderstanding concerning the Nova Scotia ruling of yesterday and that it would be reconsidered. A motion was made that Alex. McIntyre, deposed vice-president, be given privilege to speak, and accordingly Mr. Murray called him to the platform.

Instead of making his speech, McIntyre said he had not his proofs with him to clear McLachlan, but would have them tomorrow. Mr. Murray advised the assembly that McIntyre's papers were somewhere in town and that he should get them, while other Nova Scotia miners and administration supporters continued the debate.

McIntyre did not re-appear until ten minutes before the adjournment. Meanwhile James Smith of Sydney Mines, N.S., told that McLachlan is in penitentiary for the work he did in Cape Breton, and charged that it was John P. White and not McLachlan caused the reduction of wages in Nova Scotia.

Another delegate repeated the charge and expressed the threat that "perhaps Canada will break away from the union because of this treatment of McLachlan. Maybe he did break the laws of the union, but he did not break the laws of humanity."

ENGLISH STRIKE NOW LIKELY TO LAST FORTNIGHT

Indications Point To Long Tie-up of British Roads.

INTERVENTION UNLIKELY

Associated Press Despatch.

London, Eng., Jan. 25. — Tonight there was not the slightest sign of any cessation of the strike of the members of the Associated Society of Locomotive Engineers and Firemen. J. Bromley, secretary of the Associated Society, has asserted from the commencement of the strike that it would last a fortnight, and at the present moment it looks as though his prediction might be fulfilled.

Although there have been no big accessions to the ranks of the strikers, the resumption of work by a few of the enginemen has been balanced by fresh walkouts on the part of others, so that while the railway managers gradually are evolving better regulated skeleton train services, they have been unable appreciably to increase travelling and freight handling facilities.

The government appears to consider that the time has not yet arrived when it can usefully intervene, and it is declared that the reports that some move on the part of the Labor ministry was anticipated were premature. Premier MacDonald himself was engaged all day in the business of the foreign office. He had a visit from the king's secretary, Lord Stratfordham and devoted all the time he was able to spare from other duties to completing his ministry, and routine matters.

The premier will remain in London over the week-end, however, so as to be on hand if any special emergency arises. Neither side to the dispute has yet sought government aid, and anything that can be done at the present stage, either by the Labor ministry or the council of the Trades Union Congress, which has been occupying itself with attempts at mediation, is limited to watching events and preparing the ground for action whenever a chance for useful intervention arises.

CANADA AND ITALY TO BETTER TRADE

By Treaty They Accord Each Other Lowest Customs Tariff.

Associated Press Despatch.

Rome, Jan. 25.—The official gazette here published the text of the bill giving effect to the Italo-Canadian trade convention, which was concluded in London on Jan. 4, 1923, by Right Hon. W. S. Fielding, Canadian minister of finance, and Hon. Ernest Lapointe, minister of marine and fisheries, on the part of Canada, and which was passed by the Italian Chamber of Deputies in November last and ratified by the Italian senate early in December.

By the Italo-Canadian trade treaty Canada and Italy mutually accord each other the "most favored nation treatment," which means the lowest customs tariff accorded to any foreign country.

Canada already is doing a fairly large trade with Italy. In the twelve months ended March 31, 1923, the exports of Canadian produce to Italy were valued at $12,073,332, and in the same period Canada imported Italian goods to the value of $1,598,477.

CONSTANT HEADACHES and DIZZINESS

It is hard to struggle along with a head that aches and pains all the time, and in nine cases out of ten the persistent headaches are due to some derangement of the stomach, liver or bowels.

Undoubtedly, the cause must be removed before permanent relief may be had.

Burdock Blood Bitters removes the cause of the headaches, as it acts on every organ of the body, and strengthens, purifies and regulates the whole system.

Mrs. Peter Curran, 27 Morrison street, Sydney, N. S., writes: "I have been troubled for the last five years with constant headaches and dizziness. After trying several remedies, which I found to be of no avail, Burdock Blood Bitters were recommended to me.

"B. B. B. did me a world of good, and I cannot praise this remedy enough."
