RUBBER BOOTS—ALL SIZES.
Oct. 2. A. G. SMITH.

ROBB'S STEEL FURNACE

W. R. ROBB & CO.

Is the cheapest and best heating apparatus for country dwellings. Being cased with brick it does not damage roots in cellar, the heat being carried up steadily into rooms during the night even after the fuel has burned low. This Furnace being made of PLATE STEEL is most durable, and being simple in construction does not permit of smoke or gas escaping, while it has a great advantage over more complicated Furnaces, by the interior being kept free from soot. This is the reason why it will radiate as much heat after being used for some time as it will when first set up. There is great economy in fuel, and much labor saved in cutting the wood; in fact, it will burn wood that cannot be split or used in any other way.

We use only American Registers.

Please call early and get an estimate before the fall rush.

We have a Large Variety of

STOVES

Still at Lowest Prices.

Some Specialties in Cook, Heating and Parlor Stoves.

Just Received:—Sausages, Bologna, Bloaters, Haddies, Plate Beef, Mess Pork, Fat Herring, Table Codfish.—Geo. E. Ford, Sackville, N. B., Sept. 12, 1889.

Wm. Knight, of Amherst, is still leading with his celebrated New Harris Guernsey Furnace. There are lots of furnaces made, but the Guernsey has the largest radiating surface of any. Estimates given on application.

C. Pickard is pulling his Vegetables this Week and Parties wanting a supply of Cabbage, Potatoes, Carrots, Turnips or Beets for winter will please leave their orders before Saturday.

To whom it may concern—Dr. J. W. Sangster, of Sackville, has my method of painless extraction of teeth and is able to do the work as well as myself. I earnestly advise all to patronize him, as the method is the best on earth.—A. E. Estebrooke.

AROUND TOWN.

—The Cornet Band will give their out-door concert for this season at Crane's Corner next Saturday evening.

—Mr. T. W. Hoyt, who was employed in the W. U. Telegraph Office here about thirteen years ago and is now one of the staff in the North Sydney office, is visiting old friends in Sackville, this week.

—An interesting event, in which young Methodist Minister and a former teacher of music at the Ladies College will be the principals, is to take place in the Methodist Church next Saturday morning.

—The ladies of the Bethel sewing circle intend having a Meat Supper and sale of useful and fancy articles in Town Hall, Middle Sackville, on or about the 31st of this month. Look out for advertisement.

—Mr. A. Allan, Inspector of Halifax Banking Co., has temporarily taken the place of Mr. John Brough who has been removed to Antigonish. Mr. Brough during his short residence here has made many friends, who regret his departure.

—The hot supper in Chignecto Hall next Tuesday evening will be deserving of and should receive a large share of public patronage. All the delicacies of the season will be provided and no pains will be spared to make the supper a success. Don't miss it.

—The second game of base ball in the Hotel series will be played this afternoon between nines from the Brunswick and Sackville houses. The last game was very closely contested and was won by the Brunswick. As both nines are to play to win, great interest is being taken in this afternoon's game. Batteries: Brunswick, Stimpson—Clark; Sackville, McDonald—McDonald.

Amherst.

—Wm. Knight, of Amherst, has secured the contract for heating the Presbyterian church, at River Hebert, N. S., against all competitor. People are now realizing the difference between a genuine furnace with large radiating surface and the box stoves (called furnaces) which give some heat through the smoke pipe and but very little through the registers.

—One of the most daring and successful burglaries ever perpetrated in this town took place on Monday night. When C. L. McLeod's jewelry store broken into and watches and jewelry amounting to about two thousand dollars in value were taken. Entrance was gained by breaking the office window in the rear of the shop. The safe was unlocked and everything of value contained in it was taken.

—Mr. Kobler, who was here a few weeks ago in connection with the Berlitz School of Languages, passed through town last Saturday night on his way from Halifax to Chicago. Mr. Fred. Fowler was not satisfied with the glimpse he had of him at the station, so, accompanied by a policeman and a capias he followed the eminent linguist on board the the train. An interview was had with Mr. Kobler before Sackville was reached and he was persuaded to hand over the price of a suit of clothes, with an additional amount for cost of capias, car fare, etc.

—Owing to annoyances caused by frequent Scott Act prosecutions the proprietors of the Terrace, Lamy and Amherst hotels on Monday last combined, under a cash penalty for breach of agreement, to close their establishments against all comers until they mutually agree to re-open. This action on the part of the hotel-keepers has already caused considerable inconvenience, and will no-doubt have considerable effect on the business of the town, as several commercial men have already been forced to leave the town without transacting business on account of their inability to get accomodation. The inconvenience of doing without hotels, especially in a town that has always been noted for the excellence of its hostelries, is particularly noticeable at present as the Supreme Court is in Session and many persons have come in from the surrounding country.

LOCAL MATTERS.

BAIE VERTE.—Ten square rigged Norwegian vessels—nine barques and a brig—are loading deals in the Bay at present. Two barques sailed on Tuesday, deal laden.

PERSONAL.—Mr. H. B. Allison a few days ago celebrated the 88th anniversary of his birthday. His activity of mind and body gives promise of prolongation of life for years yet. Mr. Allison is the oldest man in the parish.—The Rector of Dorchester has gone to Windsor, N. S., to attend a meeting of the Board of Governors of King's College.

THANKSGIVING SERVICE.—The annual Thanksgiving service will be held in St. Paul's Church next Sunday evening at 6.30 o'clock, standard time. The offerings will be devoted to the Widows and Orphans' Fund of the Diocese.

PORT ELGIN.—A large scow or barge, belonging to Messrs. J. B. Read & Co., arrived yesterday from Northport with 100 tons of building stone which will be shipped by rail to Montreal. The firm will ship two more cargoes of equal size this season.

MERCHANTS' WEEK.—To accommodate merchants and others, excursion return tickets will be issued on the I. C. R. from booking stations in New Brunswick and from Amherst to St. John, during next week at single first-class fares, good to return one week from date of issue.

HOT SUPPER.—An abundance of poultry and meats of all kinds will be provided at the Hot Supper in Chignecto Hall next Tuesday evening, besides oysters, ice creams and other delicacies. The Sackville Cornet Band will be in attendance and will furnish music during the evening.

RATHER STALE.—A Truro contemporary, in its issue of the 8th inst., has a column of telegraphic news over seven weeks old, the latest date to any of the items being Aug. 19. Electricity has to "go slow" when its development depends on "boiler plate." In other words, even telegraphic news is apt to become stale when supplied from plate matter manufactured hundreds of miles away.

ASSIGNMENT.—The firm of McSweeney Bros. has assigned. The house is one of the oldest in business in Moncton and the record of the firm is a honorable one. They were burned out some years ago, and rebuilt on perhaps too extensive a scale. Latterly they closed out the dry goods branch of their business, but they have been unable to meet obligations. It is hoped they will be able to resume at an early date. —*Times.*

THE MINNIE SWIFT DISASTER.—Barque Petitcodiac, Capt. Steeves, arrived at Dalhousie on the 6th from Fleetwood with the master and eleven men of the ship Minnie Swift, of Maitland; also nine men of the barque Zullette, of North Shields, and six cattle men of the steamer Geographique. Four men, the stewardess, and Miss Masters, a passenger, of the Minnie Swift, were drowned, and one man is missing. The captain, two boys and two men of the Zullette were drowned, and one man is missing.

COUNTY VALUATION.—Messrs. Avard, Alward and Richard, County Valuators, have been in town all this week attending to the assessment of real and personal property in this Parish. It appears that no thorough valuation of the property in the County has been made in the thirteen years—the assessors in most cases merely copying from the old lists—and it is now found that there has been a large increase of values in many places, and in a few instances the holders of property have been taxed for more than it was worth. It is evidently high time that a thorough valuation should be made, for some of the wealthiest men in the County are not assessed for one quarter what their property is really worth, and the taxes of poorer men have been increased to make up the deficiency. As an example of the loose way in which the assessment has been made, it may be stated that one farmer complained to the Valuators that he was taxed too much, and was asked by them to make up a fair statement of what his property was worth. He accordingly handed in a statement, showing a total which he admitted was less than he would be willing to take for the property, and it was found on comparison that the sum he named was $800 larger than the amount on which he has been taxed.

Parrsboro.

—Sydney W. Smith, Esq., ex-editor of the *Leader*, is confined to his room with a serious attack of the measles.

—There has been an unusual amount of rain so far this month and weather prognosticators predict a continuance of the same for some time.

—Parrsboro has a gun club of twelve or thirteen members, but the weather has been so bad of late that they have had very little time for practice.

—Partridge are reported very plentiful this season. Some venturing within the limits of the town without a license were summarily shot, a fair warning to all birds of flight not to presume too much upon our hospitality or they may—if not shot—be summarily fined and that well too.

—Word was received here last evening of the robbery of Mr. Chas. McLeod's store on the night of the 7th inst. Without boasting any, I would suggest to our Amherst friends to become incorporated at once and put on regular police and if it works as it has in Parrsboro the change will be such as to astonish all. Our streets are as quiet and orderly as a country village.

S. & W. Exhibition.

An Excellent Show, a Fine Day and a Large Attendance of Visitors.

The parishes of Sackville and Westmorland are not in the habit of "booming" themselves and their products, and are possibly too modest for their own good in this "hustling" age, but in the matter of agricultural and industrial exhibitions they manage to "get there" to an extent seldom equalled by their more self-assertive and noisy neighbors. The annual exhibition or Fall Show held on the grounds of the Sackville and Westmorland Agricultural Society last Friday was deserving of a little gentle "blowing," for it was undoubtedly the best ever held by the Society, and in some respects was far superior not only to all previous shows by the same organization but to more pretentious exhibitions held elsewhere.

The show of agricultural products in the Exhibition building was remarkably good, and in the opinion of competent judges, far exceeded the display in the same line at either Moncton or Amherst. There were mamomth mangels, prodigious beets, enormous turnips, immense cabbages and huge squashes, and the display of other roots and vegetables was almost equally striking. The exhibit of grains and seeds was not large, but good, and the same may be said of the display of flowering plants, but the show of fruit was scarcely equal in quality or quantity to what may be seen in the Annapolis Valley. There was a fine exhibit of butter, of such uniform excellence of quality that the judges must have found considerable difficulty in making the awards, but the show of cheese was rather meagre and not at all impesing in appearance.

In ladies' fancy work and in domestic manufactures, the show as usual was excellent. The inevitable rag-mats and patchwork quilts were present in reduced numbers, but this was evidently a case of the survival of the fittest, for the specimens shown were unusually good. The venerable sample of hair work which has (die) graced so many exhibitions was conspicuous by its absence and will probably never take another prize, as that class of work has been wisely removed from the list. In other manufactures there were good exhibits of harness upper leather, calf-skins, dyed sheep-skin mats, team harness and single harness, and Mr. Abner Smith made a fine exhibit of boots and shoes, for which there were no prizes, but which were good specimens of home manufactures. Mr. Charles Pickard's show of fur coats and fur lined cloaks attracted much attention and received honorable mention. Among other things receiving honorable mention were the organs and sewing machines exhibited by Mr. G. C. Fawcett and the Shonniger piano and organ shown by Prof. Max M. Sterne. Mr. Fawcett's exhibit, which was in charge of Mr. H. A. Hillcoat, and Prof. Clarke, comprised one of the justly celebrated instruments made by the W. Bell Organ Co., of Guelph, and a Cornwall organ, manufactured at Huntington, Quebec. These organs proved that under the fostering effect of the N. P. our Canadian manufacturers are rapidly approaching perfection, for the instruments were far superior in sweetness and brilliancy of tone to many of the cheap and showy organs imported from the United States.

The show of cattle was large and good and included some very fine animals. There was as usual an excellent exhibit of Shorthorns and Polled Angus, and the show of Jerseys was probably the largest ever seen on the grounds. The show of grade cattle was unusually large and included some remarkably good specimens. One novelty was a red polled Norfolk—the first of the breed ever seen on the grounds—which attracted a large amount of attention.

The show of sheep was small but good, and the same may be said of the poultry. In the latter class some of the exhibits appeared to poor advantage for want of suitable coops. It is poor economy to exhibit fowls in small and unsuitable boxes, especially when the boxes are placed on the ground in such a position that the inmates can only be seen by stooping, and it is both unwise and cruel to confine poultry in boxes too small to permit them to stand erect.

The part of the show in which there was the greatest improvement both in number and quality, was undoubtedly the horses. Of the 800 entries for the whole exhibition, nearly 150 were horses, and many of them were animals which would have done no discredit to more pretentious shows. As compared with former exhibitions the improvement in horses and particularly in colts is very marked, and it is safe to say that the horse show this year was fifty per cent. better than that of five years ago. This is very gratifying, for it proves that the farmers of Sackville and Westmorland are awaking to the importance of careful breeding. There is still room for improvement in this respect, but much has already been done, and the excellence of the youngsters exhibited gives promise that the day of "scrubs" is drawing to a close. Some of the sections were very full, there being, for instance, no less than fifteen entries in two year-old general purpose colts. The exhibit of carriage horses driven by ladies, which was so successfully introduced last season, proved a great attraction this year and was one of the most taking features of the show. Among the horses on exhibition for which no prizes were offered were Mr. A. B. Etter's standard bred stallion Peter Blair Mr. C. H. Black's Percheron stallion Brilliant, weighing 1900 pounds, and Mr. Charles Fawcett's two-year-old Percheron mares, one of which weighs 1700 pounds. These fine animals were all much admired, and added a decided attraction to the Show.

Perhaps the greatest attraction of all was a novelty, which it is to be hoped will be a permanent feature in all future shows, namely the Sackville Cornet Band, which enlivened the proceedings with a generous programme excellently rendered. The Band now ranks as a permanent Sackville institution, and the people are justly proud of it. All that the necessary to make the Band even better than it is, and a more valuable factor in providing innocent pleasure, is for the public to show their appreciation in a tangible manner.

Another feature of the show not mentioned on the prize list was an exhibit of ploughs manufactured by Frost & Wood, which was shown by Mr. T. W. Bell, of Truro. The exhibit included one of the celebrated sulky plows, which was a novelty to many of the visitors and which seemed well calculated to lighten an important part of farm labor.

In concluding, this imperfect sketch of Sackvilles most successful exhibition it is but fitting to add that if the weather had been included in the prize-list, the day of the exhibition would have been entitled to a premium. Fine weather unfortunatly is so rare in S. & W. exhibitions that a fair day, in every sense of the word, is in itself a novelty, and the natural result was a largely increased attendance and a corresponding improvement in the financial standing of the Society. Want of space has precluded special mention of even the prominent exhibits, but a list of the prize winners in the various classes will be found on the first page of this issue.

Municipal Election.

All the old Municipal Councillors for Westmorland were returned by acclamation on Tuesday except in the parishes of Moncton and Westmorland, and in those Parishes the old councillors were re-elected.

In Moncton the vote stood as follows:—

Chipman Trites	434
Thomas Hennessy	430
Stephen Mills	268

Mr. Mills had no colleague, and was therefore somewhat at a disadvantage as some of his friends gave one of their votes to one or other of the successful candidates.

Following *are* the returns from Westmorland:—

Amos Trueman	223
Geo. Copp	220
A. C. Carter	193
Harris Chapman	161

Tea Social and Refreshment.

The Baptist Church and congregation at Bayside, Botsford, W. C., intend having a tea social and refreshment at the school house of that place on Thursday, the 17th of October, for missionary and church purposes. Doors open at 4 o'clock p. m. An enjoyable time may be expected. All are cordially invited to attend.

By order of committee.
MATTHEW ALLEN.
Bayside, Sept. 24th, 1889.

Rev A. T. Bowser's Reply.

To the Editor of the Post.

Your Ottawa correspondent seems to think that the expression "One made in all respects like his brethern" is mine. If he will turn to Hebrews 2:17, he will find my authority for applying it to Jesus. As to his question. Why there never has been another like Jesus? I shall answer it when he tells us, Why there never has been a second Shakespeare? In the Providence of God no two men are alike, any more than two flakes of snow are alike, or two blades of grass are alike.

I have only asked your readers to study the New Testament to see for themselves what it actually says about Jesus, and I do not care to be drawn into a controversy about him, being sure that a loving and earnest study of his life and teaching is all that is necessary to find in him, as St. Peter found, "*A man* approved of God * * * whom *God raised up.*" (Act 2:22-24).

A. T. BOWSER.
Toronto, Oct. 5, 1889.

MARRIED.

At Pugwash, Sept. 26th, by Rev. C. C. Burgess, William McGilvery, of Wallace River, to Clementina VanBuskirk, of Pugwash.

J. A. McQUEEN.
J. A. BOWES, Agent at Sackville. Point de Bute, Oct. 8, 1889.

Fall Fairs.

The annual Fair of the Albert County Agricultural Society will be held at Hopewell Hill on Tuesday 15th inst.

The annual exhibition of the Botsford & Westmorland Agricultural Society will be held at Port Elgin on the 19th inst.

CANNED CORN.—The corn pack of the Portland Packing Co.'s factory at Cape Tormentine this season is 450 cases of two dozen each. The corn used was Early Minnesota and Early Crosby. The farmers who tried the experiment of raising corn for the factory are well satisfied with the results.

APPLES.—Mr. J. A. McQueen is in Cornwallis this week looking after the loading of fruit for this market. He expects to handle about 2,400 barrels of apples this season.

Dunlap, Cooke & Co.

Amherst, N. S., Aug. 28th, 1889.

INTERCOLONIAL RAILWAY.

Tender for Steel and Iron Scrap.

SEALED TENDERS addressed to the undersigned and marked on the outside "Tender for Steel and Iron Scrap," will be received until TUESDAY, 15TH OCTOBER, from Persons wishing to purchase the whole or any part of the following:

About 1500 tons	Scrap Steel Rails;		
" 150	"	"	Steel Tyres;
" 100	"	"	Steel Springs, &c.;
" 2,000	"	"	Iron Rails;
" 320	"	"	Wrought Iron, No. 1.

The Steel and Iron Scrap will be delivered free of freight charges on Cars at any Station of the Intercolonial Railway, the tender to state the place and time that delivery will be required. Payment is to be made in Cash on delivery.

A deposit of five per cent. of the amount of tender will be required from each person whose tender is accepted.

This deposit may consist of Cash or of an accepted Bank Cheque, made payable to the Hon. Minister of Railways and Canals, and it will be forfeited if the contract is not carried out. When the contract is completed the deposit will be returned.

The Department will not be bound to accept the highest or any tender.

D. POTTINGER,
Chief Superintendent.
Railway Office, Moncton, N. B.,
September 27th, 1889. 2i

SEALED TENDERS addressed to the undersigned and endorsed "Tender for China Point Works," will be received until FRIDAY, THE 18TH DAY OF OCTOBER next, inclusively, for Repairs, &c., to the Wharf at China Point, Queen's County, Prince Edward Island, according to a Plan and Specification to be seen on application to Mr. McDonald, Postmaster, Vernon River Bridge, and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the form supplied and signed with actual signature of tenderers.

An accepted Bank Cheque, payable to the order of the Minister of Public Works, equal to *five per cent. of amount of tender*, must accompany each tender. This Cheque will be forfeited if the party decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

This Department does not bind itself to accept the lowest or any tender.

By order,
A. GOBEIL,
Secretary.
Department of Public Works,
Ottawa, 19th Sept., 1889. 2i
