DEATH FROM A SCRAP

A McGill Student Injured in College Frivolity.

SUFFERED FROM BLEEDING.

A Painful Feeling in the University Over the Unfortunate Affair.

Dominion Commercial Travelers' Association Nominations for Office—Has Mr. Tarte Thrown Down the Catholics of Quebec in Connection With the Schools of Manitoba?—Hon. L. O. Taillon and Mr. Berthiaume for the Legislative Council—Grenier Libel Case Goes Over.

Montreal, Nov. 13.—(Special.)—A painful feeling has been aroused among the thousand students of McGill University by the death of one of their number, apparently from the effects of a college "scrap," which took place a week ago. The name of the deceased was J. T. Stewart. He came from Athelstan, Que., and was entered to study for the ministry at the Presbyterian College. This included a full arts course at McGill, and it was while in the arts building last Friday that Mr. Stewart engaged in the "push" which resulted this morning in his death at the Royal Victoria Hospital. The immediate cause of death was an internal hemmorhage, principally in the lungs. Mr. Stewart had been previously troubled with this bleeding, and, in fact, had spat blood in the morning before leaving the Presbyterian College. It is, therefore, to be deducted that his exertions in the "scrap," while they brought on an increase of his trouble, were not altogether responsible for his death.

The "scrap" is an institution known to most colleges, and is generally harmless. It is of more common occurrence in the arts faculty than in most others at McGill, as the science faculty has put its foot upon the practice by fining heavily all the participants in any "scrap" which takes place in the engineering building. It consists mainly of a great push between two different years when they meet in a passage at the close of a lecture. Generally very little damage is done outside of that sustained by the gowns and clothing of the "scrappers," and the practice furnishes an almost indispensable relaxation between the lectures. The deceased was a member of a class "Arts '99," and the push in which he was injured took place last Friday morning. He was sturdy and strong in appearance.

COMMERCIAL TRAVELERS.

The Dominion Commercial Travelers' Association, having 2200 English-speaking and 5000 French-speaking members, will have their meeting to make nominations to-morrow evening. To-day all the past presidents waited on ex-Alderman J. D. Rolland and asked him to accept nomination for the presidency, as there has only been one French president in 22 years. Alderman Rolland accepted, and if Mr. Max Murdoch does not run he will be elected by acclamation. There will also be a fight for the vice-presidency. Messrs. James Armstrong, William Kissock and Newton Tucker being the candidates for that position. Mr. Fred Birks will be unanimously re-elected treasurer.

SPACE ON BOARD SHIP.

The Deputy Minister of Marine had a conference to-day with shippers and steamship agents regarding the proposal to allow horses the same shipment space as cattle. The shippers advocated two feet ten inches in the clear, while the steamship agents contended that 2 feet 8 inches was quite sufficient, and the latter declared that they had to compete against shipping from the American ports, where 2 feet 6 inches is all that is allowed.

HAS THROWN THEM DOWN.

There is no longer any doubt that, right or wrong, Hon. Mr. Tarte has thrown the Quebec idea overboard as to how the school question should be settled. He writes a second letter from the west, in which he says that many schools are closed in the French sections of the province, as they are unable to exist without the grant. Mr. Tarte also combats The Northwest Review's doctrine that Protestants and Catholics should be educated together, and says that he saw no less than fifty Protestant girls in a Winnipeg convent. He declares that the concessions made by the Greenway Government will assure to the Catholics religious instruction in the school, the teaching of French and the Government grant. He also says that well-qualified French teachers are very rare in Manitoba, and they will have to be imported from Quebec.

DEADLOCK BROKEN.

It is said that the deadlock in local Government circles over the appointment of M. L. C.'s to fill the vacancies caused by the deaths of Hon. Messrs. Starnes and Tourville has been broken, and that the new members of the Upper House will be Hon. L. O. Taillon, ex-Premier of Quebec, and M. T. Berthiaume, proprietor of La Presse newspaper. If the English speaking people have to do without an M.L.C., it is quite probable that Hon. Mr. Taillon will be more acceptable than anyone else. Mr. Berthiaume is a good business man and owns a newspaper with a daily circulation of over 52,000.

GRENIER CASE GOES OVER.

Mr. Corneillier, Q. C., made a motion in the Criminal Court to-day, asking that W. A. Grenier, the defendant in the Tarte libel case, be placed upon trial. The Minister's counsel objected, however, on the ground that Hon. Mr. Tarte was absent, so the case went over to the March term.

THE WORK OF REORGANIZATION.

Executive of the Ontario Liberal-Conservative Association Meets to Frame Rules and Regulations.

Senate Reading Room
SENATE

A meeting of the Executive of the Ontario Provincial Liberal-Conservative Association was held at the Queen's Hotel yesterday, there were present:

Hon. John Haggart, Hon Senator Sanford, Robert Henry, MP, Alex McNeill, MP, T D Craig, MP, A B Ingram, MP, T S Sproule, MP, George Taylor, MP, Major Thomas Beattie, MP, Edyard Cochrane, MP, Major John A McGillivray, MP, A F McLaren, MP, W H Bennett, MP, C Kloepfer, MP, E F Clarke, MP, E B Osler, MP, J P Whitney, QC, MLA, G F Marter, MLA, Dr Willoughby, MLA, Dr Ryerson, MLA, Lt.-Col. Matheson, MLA, O A Howland, MLA, W D McPherson, Wm Laidlaw, QC, Capt James Thompson, J F Rittingen (Walkerton), A F Campbell (Brampton), J N Sharpe (Dresden) and A W Wright (Niagara).

Hon. Mr. Haggart presided, and Mr. Robt. Birmingham acted as secretary. Hon. Dr. Montague, who had come to town to attend the meeting, left for home in the morning in response to a telegraphic message informing him of the serious illness of his wife.

The business transacted was of a practical character, the Executive attempting to carry out the instructions of the recent conference looking towards the organization of the party in the 20 districts into which the province has been divided. Rules and regulations for the running of those districts were drawn up, and methods for strengthening the Ontario Opposition's hands in the next Provincial contest were discussed.

MATE BRAM ON TRIAL.

The Alleged Murderer of Capt. Nash and His Wife, of the Barque Fuller, in Court.

Boston, Nov. 13.—Thomas Bram, the first mate of the barquentine Herbert Fuller, was brought before the United States Circuit Court to-day, charged with the murder on the high seas of Capt. Nash of the Fuller, his wife Laura and the second mate of the vessel, Augustus Bamberg.

First in the order of the proceedings came arguments for and against the dismissal of the pleas that have been filed to the indictments, District Attorney Hoar having at the opening of the court asked for their dismissal. There were three pleas—the defendant's plea to the indictment, a plea in abatement and a motion to quash. The District Attorney claimed that the pleas were defective. Mr. Asa P. French, counsel for Bram, opened the argument on the plea to quash the indictment. He claimed that the grand jury had not been properly empanelled, because one of the jurors had "affirmed," instead of taking the usual oath, and that the indictment was illegal because the charge of murder of two separate persons should be made out in two separate indictments and not as in the present case—including the killing of Captain Nash and his wife—in one indictment. James Booker of Bram's counsel, took up the argument on the motion to quash and occupied the attention of the court until 2 p.m., when Judge Gill continued the case until to-morrow, when it is expected a decision will be rendered on this point.

Lake Trade to Boom

Chicago, Nov. 13.—With the close of the presidential campaign, and with the impetus given thereby to marine matters, contracts are being closed for the building of several new steamers and barges for the lake trade. Already the Chicago Shipbuilding Company has closed contracts for three new vessels, two steamers and a tow barge, the aggregate cost of which will be close to $400,000. Work on the new boats is to be commenced immediately, and it is thought that they will be completed in time to get a good share of next year's business. They will be launched not later than June 1 next from the yards of the company on the Calumet. The contracts for the building of the boats so close after the election are regarded by marine men as an indication of the way in which marine business in all lines is expected to go ahead next season.

THE SCHOOLS SETTLEMENT

Was Considered by the Cabinet Yesterday

AND THE TERMS AGREED TO.

The Way is Now Clear for Mr. Sifton's Entry Into the Ministry.

Proposed Work of the Tariff Commission—A Quebec Gentleman Says His Province Will be All Right on the School Matter—A Little Light on the Robinson Treaty Appeal—Arrival of a Consignment of Lee-Enfield Rifles—General News From Ottawa.

Ottawa, Nov. 13.—(Special.)—A lengthy session of the Cabinet was held this afternoon, the only absentees being Messrs. Tarte, Mulock, Borden and Dobell. It is stated that the terms of the Manitoba school settlement, as revised by the Provincial Government in conjunction with Mr. Tarte, were under consideration, and were accepted by the Dominion Government as the best bargain that could be made with Manitoba.

Telegrams received from Winnipeg to-day confirm the announcement made by your correspondent last evening that the way is now clear for Mr. Sifton to enter the Dominion Cabinet, and although a local paper attempts to discredit the statement to-night, there is no gainsaying the fact that Mr. Sifton's Brandon friends are satisfied that the school settlement does not infringe upon provincial autonomy, and that, therefore, it will not be inconsistent with his stand on the school question for him to accept the Interior portfolio. Mr. Sifton has consented to contest Brandon. The writ for the election will not be issued until Mr. Sifton has been sworn in as Minister, which takes place here next week.

Another matter which it is said was under consideration to-day is the proposed work of the tariff commission. The Ministers are to leave here, as already stated, on Monday. Sir Oliver Mowat accompanies Sir Richard Cartwright, Mr. Fielding and Mr. Paterson, and will visit with them London, Hamilton, Brantford, and Kingston, the Ontario points at which it is proposed to meet the mercantile community.

WHAT A QUEBEC MAN SAYS.

Speaking of the school settlement, a Quebec friend of the Premier's said to-night that there had been no material change in the basis of agreement as previously reported. Replying to a question as to how Quebec would take the compromise, he replied: "That will be all right. Permission to use the French language in teaching in school districts where the children are not able to speak English is a sop to Quebec, which will go a long way towards making amends for the loss of Separate schools."

THAT TREATY APPEAL.

The Solicitor-General to-day threw some light upon yesterday's despatch regarding the Robinson treaty appeal before the Judicial Committee. It appears the judges decided that they would not hear argument on the question of the liability of the old province of Canada to pay these annuities, as they took it for granted that the province of Canada was liable. The question for determination now is as to whether Ontario is solely liable for these annuities, or whether Quebec also should bear a share of the burden. This was the only point on which argument was heard.

THE LEE-ENFIELD RIFLES.

The Department of Militia has been notified of the arrival in Canada of a further consignment of Lee-Enfield rifles, a portion of the 40,000 stand ordered last winter. The 12-pounder guns for the field batteries may be expected any day. Your correspondent learns that a number of modern big guns, about 22 tons each, have been ordered for the Quebec fortifications. When they are mounted in position they will make the citadel one of the best fortified points on the continent.

THE CRUISERS CALLED IN.

The Fisheries Department was notified to-day that most of the fishery cruisers have gone out of commission, the American mackerel fleet having left for home. The Acadia and Osprey were tied up to-day.

MAJOR KITSON IT IS.

The Government has at last received official confirmation of the election of Major Kitson to be commandant of the Royal Military College. As soon as Dr. Borden returns the order in council will be passed, confirming the appointment. The new commandant will probably be raised to the rank of lieut.-colonel. Col. Lake was well acquainted with Major Kitson during the time he served in the Imperial service.

DR. SELWYN IS ANNOYED.

Dr. Selwyn, late director of the Geological Survey, is greatly annoyed at certain reflections made upon him by a Toronto Telegram correspondent at Sudbury. In a letter in to-night's Journal Dr. Selwyn says: "The remarkable item in your issue of last evening from The Toronto Telegram is a tissue of falsehoods, especially that about the 'Doctors of the Geological Survey.' The true history of the discovery of the vein in the cut on the C.P.R., where is now the Murray mine, is well known to me. I examined it, and made it known to several persons on the 12th of July, 1884, and in notes under that date I find 'vein on track 40 yards wide —strike 335 degrees; mostly diorite and felsite.' I then spoke of it as the best and most promising mineral vein I had seen in the country."

WHERE IS MR. BRADLEY?

On Monday William Bradley, postmaster and merchant of Huntley, drove into town and put up at the Butler House. He left his rig there and went out on business and has failed to return. Since then Mrs. Bradley has heard nothing of her husband, and yesterday notices were inserted in the papers asking for information respecting the missing man.

MR. SCHREIBER AT HOME.

Mr. Schreiber, Chief Engineer of Railways and Canals, returned from British Columbia to-night. During his two weeks' absence he traversed the main line of the C.P.R. between Savona's Ferry and Yale, for the purpose of inspecting the improvements made under the award of the arbitrators four years ago. Mr. Schreiber also inspected the branch line of the C.P.R. from Revelstoke to the Arrow Lakes.

TRADE WITH ITALY.

Officers of the Department of Trade and Commerce are looking into the question of trade with Italy to see if it will be worth while to put that country on the same footing as others that received favored treatment on articles mentioned in the French Treaty. Italy is about the only country in Europe that has not received favored nation treatment.

PERSONAL AND GENERAL.

Among the visitors in town to-day were Mr. Schreiber, M.P., Mr. Frost, M.P., Mr. Lowell, ex-M.P., Mr. German, ex-M.P., and Mr. George E. Tuckett of Hamilton.

Sir Richard Cartwright left for Kingston to-night.

Mr. Fisher, Minister of Agriculture, has returned to the city.

Solicitor-General Fitzpatrick left for Quebec this afternoon.

The Ottawa Garrison dinner takes place on Dec. 10. It promises to be a very successful affair. Many officers have promised to attend.

The Secretary of State received to-day a petition from the promoters of the Ottawa and Georgian Bay Canal, stating that the company is ready to proceed with the work, and asking that the Government guarantee their bonds for $20,000,000 at 3 per cent.

IS BARNEY AT WORK?

A Rumor in Circulation That the Kaffir King's Agents Are Buying Up Algoma Gold Fields.

The World was informed yesterday of a deal which, if it transpires, will prove one of the biggest things ever recorded in the annals of Canadian mining. The statement was to the effect that Barney Barnato, the "Kaffir King," of the Transvaal, has two agents in Ontario quietly buying up mining locations in the Lake of the Woods, Rainy River and Seine River Districts. The names of those gentlemen are J. D. Warner and J. Cohen, who came quietly to the city a few days ago, and, to avoid publicity, put up at private lodgings. Mr. Warner is still in town, while it is understood Mr. Cohen has left for the mining region.

It is said their instructions are to secure the control of about 50 free-milling gold properties in Northwestern Ontario, which are to be consolidated and placed upon the London, Eng., market about the first of the new year. It is stated, besides, that Mr. Barnato has chosen the Bank of Montreal as the channel through which the purchase moneys are paid over.

LONDON ABDUCTION CASE

Mrs. Lena Stevenson Was Anxious to Secure Her Sister's Child.

London, Ont., Nov. 13.—The charge of abduction preferred by Mrs. Martha Currell, the wife of a Richmond-street restaurateur, against Mrs. Lena Stevenson, the wife of Robert Stevenson, a Glencoe harnessmaker, came up before the Police Magistrate to-day and was postponed till Wednesday next. The abduction yesterday was the outcome of repeated efforts on the part of Mrs. Stevenson to obtain possession of Rena Coral, the little 4-year-old daughter of her sister, a widow, now living in Utica, N.Y. The child was legally adopted by Mrs. Carroll in February last. The mother of the child is now a resident of Utica, N.Y., where she keeps a laundry, and for years lived with Mrs. Currell.

GIRL ACCUSED OF MURDER

Thirteen-Year Old Fanny Scofield is Charged With Giving Rough-on-Rats to a Baby.

Oswego, N.Y., Nov. 13.—Fanny Scofield, a remarkably attractive girl, and only 13 years old, is locked up in the Oswego County Jail on the charge of murder. She was taken there to-day by Coroner C. J. Vowinkel, as a result of his inquest into the death of Fern Field, the 2-year-old daughter of Mr. and Mrs. Albert Field, who live on a farm near the village of Mexico.

About a week ago the parents left the little one in the house asleep and went into the field to work. On returning the father found the child in convulsions, and called his wife, but the little one died before medical aid arrived. The coroner learned that the child awoke and asked for some-thing to eat, and that the little prisoner gave it some milk. Dr. W. Manlius Smith, of Syracuse, found that the baby's stomach contained arsenic, and it is believed that Fanny Scofield put "Rough on Rats" into the milk.

Last July the only other child of the Fields died and it is now believed that the Scofield girl had a hand in her death also. The body will be exhumed and an examination made. Fanny stoutly denies that she had anything to do with the death of the children. Her trip to the jail was her firse experience on the cars, and she had many questions to ask. She was permitted to lodge with the Sheriff's family and does not seem to realize her position.

BURGLARIZED AGAIN.

Thieves Go Through the Postoffice at Newcastle for the Second Time Within a Year.

Newcastle, Ont., Nov. 13.—For the second time this year the postoffice situated in the rear of Mr. Botsford's general store was burglarized last night. An entrance was forced through the front door with a chisel, taken from the carpenter shop of Mr. John Pool. They got little for their trouble, only a few stamps and some small change. Several registered letters in the "old safe" were overlooked. Mr. Botsford suffered, however, for they helped themselves to underwear, vests, mits, etc. He had just come to town, having bought the stock of McClung & Son, who have gone to reside in Los Angeles, Cal. Mr. William Rickard, Reeve, succeeds Mr. McClung as postmaster. The belief around the town is that it was "local talent."

AS TO VENEZUELA.

The London Chronicle Claims to Give a Complete Summary of the Agreement.

London, Nov. 13.—The Chronicle will to-morrow publish what it claims to be a complete summary of the agreement regarding the Venezuelan question. The article is entitled: "Heads of a proposed agreement between Venezuela and Great Britain for the settlement of the Venezuelan boundary question, as agreed upon between Great Britain and the United States of America."

There are four heads. Under the first the appointment of an arbitration tribunal to determine the boundary is provided for. Under the second head provision is made for the appointment of a tribunal of five members, two to be nominated by the Supreme Court of the United States, two by the Supreme court of Great Britain, while the fifth member is to be a jurist selected by the other members.

In the event of there four members failing to agree upon the selection of the fifth member, King Oscar of Sweden and Norway will select him. The Fifth member will be president of the tribunal, and he may be a judge of either the Supreme Court of the United States or the similar court of Great Britain.

Under the third head the tribunal is directed to examine all the facts necessary to decide the controversy regarding the territory known to belong to the United Netherlands and the Kingdom of Spain, when Great Britain acquired Guina. Under the fourth head it is provided that the arbitrators shall ascertain all the facts necessary to arrive at a proper decision. They must be governed in their findings by three short rules, the most imprintant of which provides a prescription of 50 years. The arbitrators may give effect to the right of settlers. In establishing the facts the ordinary rules of law shall prevail.

The agreement is dated Nov. 12, 1896, and is signed by Secretary of State Olney and Sir Julian Pauncefote, the British Ambassador to the United States.

The Chronicle adds that the foregoing will be basis of the Anglo-Venezuela treaty.

SENSATION AMONG IRISHMEN.

The Spy Who Testified in London is Well Known in New York.

New York, Nov. 13.—The story of the Irish spy, as told in to-day's London despatches of the United Associated Presses, created a sensation in Hibernian circles here. At the headquarters of many of the societies Irishmen gathered this evening to discuss the new informer, which they did in no calm language. He was roundly denounced, some of the most excitable intimating that the career of the latest English tool would be a short one. From cabled description of the spy he was easily recognized here by former associates. He was known as T. Merrick Jones. That may or may not be his real name, but Irishmen here declare they never had any reason to suspect that the fellow was masquerading.

Japan Reaching Out for Trade.

London, Nov. 13.—The Times will to-morrow publish a despatch from Odessa, saying that Japan has long been sending agents to different parts of European Russia to establish trade relations with Japan. Arrangements are now being made for the establishment of a direct line of steamers between Japan and the Black Sea.

Brandon Liberals Accept the Settlement

AND THE WHOLE DEAL GOES

Mr. Sifton Starts For Ottawa To-Day to be Sworn In.

In Confidence He Explained to the Liberals and McCarthyites the Terms of the Settlement, and They by Resolution Endorsed Them—The Official Announcement Will Come from Ottawa—Writ for Brandon to Be Issued at Once—Hon. J. D. Cameron Will Succeed Sifton in the Greenway Cabinet.

Winnipeg, Nov. 13.—(Special.)—Hon. Clifford Sifton last night, at Brandon, met a committee of 24, representing the Liberals and McCarthyites of Brandon constituency. In confidence he made them acquainted with the terms of the school settlement and they, after a long discussion, adopted resolutions declaring the settlement to be satisfactory, expressing confidence in Sifton, and urging him to accept their nomination for the House of Commons.

Mr. Sifton then announced that he would at once resign his portfolio in the Greenway Government and become the candidate for Brandon. He leaves for Ottawa on Saturday to be sworn in as Minister of the Interior and the writ for Brandon will be issued at once. None of the members of the committee would divulge what Mr. Sifton told them of the school settlement terms. They declared the announcement would be made at Ottawa. Premier Greenway returned to-day and, after learning of what had taken place at Brandon, announced that Hon. J. D. Cameron, now Provincial Secretary, would succeed Mr. Sifton as Attorney-General.

STRANGE BURIAL OF A WOMAN.

Her Body Cut in Two and the Pieces Were Buried Separately.

St. Joseph, Mo., Nov. 13.—The body of an unknown young woman was found buried yesterday in a field near the city. It had been cut in two at the waist and carried to the field in gunny sacks, where two separate graves were made, the head and trunk placed in one and the lower part of the body in another. The burial place was near the asylum for the insane, and the employes there saw two men ride into the field Tuesday night on horseback. They dismounted and opened the grave with a spade. After looking at the face of the corpse they rode away, leaving the grave uncovered.

The asylum employes went to the place yesterday and found the body. No one has identified it, and it is believed to have been brought from some other place. That a murder has been committed there is little doubt, and an investigation is being made by the Coroner and the police. The body had been buried for some time—probably for several weeks—and was considerably decomposed. There was no clothing or marks of identification upon it.

Her Doll on Sunday.

When the question of Lord's Day Observance was being discussed at the W.C.T.U. convention the other day, a pathetic story was told of a mother who had reprimanded her little girl for playing with a doll on Sunday. The child, loth to part with her pet, hugged it tight to her, pleading through her tears:

"May n't I, mamma, if I call it 'Hallelujah'?"

Surely none but the most cruel-hearted or misguided mothers would deprive the little ones of their Sunday "play things."

Many a Slip, Etc.

Mayor Fleming had got leave of absence for a month, he had a pass in his wallet to Rossland and all he wanted was $500 pocket money. Ald. Lamb introduced and carried a resolution through the council giving it to him under the guise of charity. But the Baron happened along and burst it with his little injunction.

A Catastrophe.

On a scuttle of coal, near a feeder stove,
A little black kitten lay sleeping;
No more through the house was it destined to rove,
For along came a maid, just through sweeping.
She picked up the scuttle, and with its contents
Filled up the stove in a hurry.
Now the youngsters call "pussy" with many laments,
But the kitten is past earthly worry.

The Mayoralty.

It's said Joe Tait might run for Mayor,
Some Grits hope that it's so.
No doubt he'd ably fill the chair,
And we know he "kneads the dough."
