Local Matters.

Marysville Grist Mill.

The Marysville flour and grist mill will start operations about New Year's.

Lumber Operations.

Mr. J. West, of Grand Falls, purposes getting out this win er between two and three millions feet of logs. This quantity is in excess of his last year's operations. His men are all at work in the neighborhood of Carib u, and have three thousand trees cut already

Lecture Course.

The Methodists at Gibson are the first to inaugurate a series of lectures to while away the monotony of the long winter evenings. The first lecture is to be delivered in Logan Hall by Rev. Mr. Evans, we under-tand, on "Books, Brains and Blunders," which affords a illustration of ept illiteration's useful aid.'

Invitation.

An invitation, since accepted, has been tendered Rev. W. W. Brewer, pastor of Methodist Church at Marysville, to preach a sermon for the members of Woodstock Lodge, F. & A. M., on St. John's Day evening, 27th inst. On the Monday evening following the gentleman will deliver a lecture in the Institute at the same place.

To Corresmondents.

"LITTLE GOOSEBERRY."—We give it as our solemn opinion that to look behind when walking the street is ill-manners; especially so for the amiable sex. Then even scripture sets its face against it. A long, long time ago, you know, there lived a man whose name was Lot. This man had a wife, who, like too many others of her sex, was rather giddy-headed. For looking behind her she was turned into a pillar of salt; and the warning is fresh to this day.

"You do me proud."

This is one of the latest and certainly the most abominable pieces of slang out. We can't conceive of a more empty-headed prig than the male person who uses this expression, we can't conceive of a more shallow-brained lady than she who uses it. It is simply sickening. It has no meaning further than this,—it proves the Gawk who uses it both vulgar and silly, or a clown and b fool.

Lecture and Stereoscopic display this evening

This is the evening when Mr. Taylor will exhibit his beautiful views in the city Hall. There is no one who is a lover of nature at all—whose eye loves to linger on majestic crag, and romantic woodland—but should go to the Hall to-night. The views of course have all been photographed by Mr. Taylor and will be projected on a canvas, which the observers eye will appear about twelve feet square. As each scene is ushered on the stage Mr. Edward Jack in his usual terse and telling way, will explain. We can't conceive of anything that could possibly be more entertaining than the programme laid down.

A Chinese Laundryman's Card.

Mr. J. O'Leary, formerly of this city, but now of Helena, Montana, has sent to Mr. D. Elliot a printed copy of a poster, the advertisment of a Chinese laundryman, which reads as follows:

SAN FRANCISCO LAUNDRY,
NO. 9 FOURTH STREET,
SAM LEE, PROPRIETOR,

CARD TO MELLICAN MAN!

Me buy Laundry of Sam Lung; Sam Lung he go to China to see cousin; Sam he have money; me cookee all winter, and buy Sam out; Sam he no good washee; he washee like ——, me washee like h—l; Sam he takee Mellican man's money too muchee; me washee clean, no take so muchee money; me washee muchee Mellican ladies' dress, they likee white, no dirt; me have machine makee dress allee samee likee new flutee; me go get dirt clothes, bringee allee samee back cleanee; you no likee, you no payee.

SAM LEE.

Personal.

D. Banks Mackenzie, the Temperance revivalist is agitating in Halifax. Lecturing in Halifax, a night or two ago, the fanatic said:

"The general opinion abroad was that St. John, N. B., St. John's, Nfld., and Halifax were the three most rum-cursed cities in the world."

It is stated that the rumor about Hon. Mr. Masson's retirement from the Cabinet is without foundation.

The Queen will receive the Zulu officers on Monday.

T. F. Kenny, Esq., M. P. P., was in the city yesterday. With Mr. Kenny, "time but the impression deeper makes," that Andover is one of the best parts of the Province to live in. The prospects for his business, he says, are very good. His success in procuring hides so far has exceeded what he expected. In the spring, in connection with the tannery, Messrs. Kenny will have a boot and shoe factory from which they will be able to turn out an article second to none in the Provinces. We are sure, we wish the Messrs. Kenny all the success they anticipated.

Mr. L. C. McNutt got a bad ducking yesterday while attempting to cross the river, with the "latest sensation at Gibson" in his pocket Mr. McNutt was pulled out badly wet, sadly scared, but in no other way the worse off. *Sic est vita!*

Hon. Robert Young, we are sorry to learn, has taken a severe relapse of his illness, at Tracadie. We hope to hear of his speedy recovery.

Sir Leonard Tilley left Ottawa for Quebec yesterday, *en route* for New Brunswick.

The Surveyor General is yet in St. John, and the guest of D. McLellan, Esq., M. P. P.

The New Brunswick deputation left for home on Saturday night.

A Large and Happy Purchase.

Mr. Watson of Massachusetts has become the purchaser of the Shogomoc property owned by the heirs of the late Mr. Pumpelly of Oswego, in Tioga County, New York State, who purchased with a view of erecting mills for the extraction of the liquor of hemlock bark, this being one of the very best hemlock locations in N. B. There is a splendid water power at the mouth of the stream which empties into the St. John River at the head of the Meductic Falls. The scenery at the mouth of this stream is of real beauty; the number of acres comprised in the property is about 12,000. Mr. Watson is having a million feet of saw logs put into the stream this winter, and has also contracted for a million and a half of shingles to be delivered at Canterbury Station. Mr. Falconer of Canterbury is the person who delivers the logs and shingles. The price said to have been paid for the mill and land is $12,000. Well managed, it will be a most paying property; and is a "dead bargain" at the above figures.

LARGE FLOCKS of wild geese passed over Chatham on Wednesday last, on their migration southward. This is an unusual occurrence at so late a time in the season.

RECEPTION OF SIR LEONARD TILLEY.

In response to Sheriff Temple's circular about one hundred of our prominent citizens gathered at the County Court House on Saturday afternoon at 4.30 o'clock to propose, invent and discuss a proper manner to receive the Finance Minister who was announced to appear on the 15th inst. The legal, medical, and commercial fraternities were well represented; our City Council turned out in full force, as also politicians of all creeds. The meeting being composed of the business men of Fredericton was therefore one which may be correctly regarded as an index to the esteem and respect in which Sir Leonard Tilley is held in point of popularity as a citizen as well as indicative of the popular feeling regarding the principles which he represents. The practical nature of the remarks made by the various speakers showed the importance which was attached to the Finance Minister's tour of inspection through the various Provinces.

Sheriff Temple rose and expressed the pleasure he felt at seeing such a cordial response to the request he, on behalf of several prominent citizens, had made. He wished to hear the opinions of those present.

Mr. C. H. B. Fisher, the next speaker, was very glad to such evidence of the estimation in which the great Protectionist apostle was held, although a meeting of this kind was not such a one as he had contemplated. Still he hoped it would meet the emergency. He would move as a resolution the following which he knew would be acceptable to Mr. Tilley, who, in answer to his queries, had offered no objections to such a course,

Resolved—that a committee from the gentlemen present be appointed to prepare an address to be presented to Sir Leonard Tilley at the City Hall on the evening of Monday, the 15th inst., or at such other time as he may appoint to receive it.

Mr. A. A. Sterling, in seconding the motion, made a few general remarks, referring to the moral and social qualities of the Finance Minister, the esteem in which he was held by the people of Fredericton and the Dominion at large.

Mr. Z. R. Everett was dissatisfied at the vagueness of the preceding resolution, and moved as an amendment, which was impulsively seconded by Mr. Wm. Lemont, that

Whereas the citizens of Fredericton and the inhabitants of York have learned with pleasure that Sir Leonard Tilley is to visit Fredericton in a few days, and

Whereas—they are desirous of hearing his views on Dominion affairs, especially on the tariff in relation to the Maritime Provinces, therefore,

Resolved, that a committee of three be appointed to wait upon Sir Leonard and request him to name some evening on which he can address them.

Mr. Everett's motion was ignored by the majority and squashed by the remainder.

John Pickard, M. P., then occupied the attention of the meeting for the next half hour with a very long-winded denunciation of Mr. Tilley and some very antiquated complaints about the I. C. R.

A few remarks were then made by Messrs. Capt. Akerley, Wm. Carmen, Col. Marsh, W. Wilson, and others more or less favorable to the resolution which had been put forward by the defeated candidate.

H. B. Rainsford arose and addressed the meeting in a few words of great pith and peculiar adaptation (as was not the case with some who preceded him) to the subject at issue. He thought the business-like way in which Mr. Pickard had prefered his charges give much token of *malice prepense*; of premeditated assault upon the political character and course of the Finance Minister, which was especially deserving of censure; viewed from the standpoint that the present meeting was neither called to investigate the policy of the respective parties, nor to bewail mismanagement on the part of anyone. He condemned Mr. Pickard's course as cowardly, in bringing in side issues at a time like this. Why were not these charges made on the floors of Parliament? That was the place to have spoken and not at a non-political meeting where all were invited to give their co-operation.

E. L. Wetmore, Esq. seconded the words of the last speaker, and was especially averse to having Sir Leonard dictated to or his course marked out. The Finance Minister could not and would not, in justice to himself, come before the intelligent electors of York County and avoid the great political questions of the day. A question of great moment like this could not be hid under a bushel, and they might rest assured Sir Leonard would show no disposition to avoid it.

On motion of J. Vanwart, seconded by W. Wilson, it was

Resolved. That a committee of five be formed, composed of the following: E L Wetmore, J S Beek, A A Sterling, A D Yerxa, and C H B Fisher.

The meeting then adjourned.

Sharp Doings on the "Border."

For many years the farmers on the New Brunswick side of the border, in the neighborhood of Fort Fairfield, have carried their grists to the millers on the American side. Of late the millers have been accused by the American farmers of giving more attention to the New Brunswick farmers than to themselves; assigning as a reason—and probably a very just one—that by this course the millers hoped to bring the New Brunswick farmers' grists to their own mills. The jealousy, therefore, took the form of a strongly-endorsed complaint to the Custom House officials, who have received instructions to seize the horses and their loads. This may, after all, be only a blessing in disguise, as it will set some enterprising farmer on the New Brunswick side to erecting a mill of his own.

BUSINESS NOTES.

THE BARKER HOUSE STABLES.

These Stables are situated in what is known as the "Barker House Alley," midway between King and Queen Streets. Mr. Robert Orr, the Proprietor, is so well known to our citizens that it is almost superfluous to remark that the stables under his management have always enjoyed a first-class reputation, and are the oldest and largest establishment of the kind in the city. To Mr. John Orr, the obliging clerk, our Reporter is under much obligation for assistance rendered during inspection.

The main building on the right hand side of the alley, is 80x72 feet ground measurement and three stories in height. On the first floor are the horse-stalls, accommodating at present about two dozen horses; the harness-room and the office. Everything was characterized by scrupulous neatness and regard for the comfort of live stock. Six tough, rugged-looking animals are used exclusively for the conveyance of mails between Fredericton and Newcastle and intermediate points.

The second and third flats are used as storage rooms for hay, capable of holding 50 tons and the granaries which last year contained; 5000 bushels of oats.

Directly across the court is the Carriage House, (known to many of our citizens as the old Ball Alley), 80x30 feet, containing 15 open carriages, a number of buggies, Landaus, and wheel vehicles of every description.

In these stables every precaution has been taken to prevent epidemic and other equine maladies, and we much question whether there is a better kept stabulary in the Province.

LOCAL AND PROVINCIAL.

SHOT IN THE LEG.—A man named William Farrer, a resident of Poklok, was accidentally shot in the leg on Friday last, and it is feared that the result will prove fatal. Farrer, who is between 55 and 60 years of age, was out on a shooting and fishing expedition at Otter Point Lake, in company with his son aged from 14 to 18, one of whom was named Chase and the other two McMinnaman, residents of Poklok, and all armed with guns. About the middle of Friday afternoon the party returned to camp, and as the youngest of the party, Thos. McMinnaman, was crawling into it, his gun went off accidentally, the charge, a light load of partridge shot, penetrating the upper part of the calf of the man's leg. The boys at once bound up the wound and started off to find means to remove the wounded man to his home. He remained in camp till Saturday morning, when they started for town with him. They carried him some six or eight miles over a rough path till they reached the road near Musquash. They then procured a wagon in which he was taken to his home in Poklok. Medical aid was immediately procured—*News*

Baker Pasha started for his post as representative of the Sultan to superintend the introduction of reforms throughout the whole of Asia Minor.—*Ex.*

Is not this Baker Pasha the hero of the railway scandal? We certainly can't help admiring Great Britain's taste in sending a reduced and disgraced officer to carry out a moral reform in any country.—*Fredericton Star.*

Yes, it is the same Baker, but we have yet to learn that Great Britain sent him to Turkey.—*Moncton Despatch.*

There might seem to the ignorant reader some point in the *Despatch's* remark but there is not. It is England that is virtually carrying out the reform in Turkey; to carry out such a reform is one of the conditions imposed upon the Sultan. England has been asked, "Will Pasha Baker do?" and she has answered Yes. Baker is virtually, therefore, Eng and's purifying agent. The *Despatch* was likely ignorant of all this, and so snapped at the surface of our remarks.—ED. STAR.]

NETS LOST.—Owing to the change in the weather and high tide of Wednesday night, the ice below Middle Island started to run carrying away seven or more smelt nets in that vicinity; two or three, we regret to learn were lost. Fortunately the men on the ice escaped, although with difficulty they reached the shore.—*Gleaner.*

THE TWO SHIPS 'Miramichi' and 'Thule,' which started for sea on Saturday last, but did not succeed in getting out, have been cut through by the ice, and have filled. They lie at Bay duVin about three fathoms apart.—*Ibid.*

The *Sun* has lately received one dollar as a subscription to the weekly for one year. It publishes the letter of the man who sent the dollar, and is quite joyous over the fact.

STAR BRIEFS.

—A runaway yesterday afternoon. No damage done.

—Several loaded teams crossed the river from St. Mary's this morning.

QUEENS COUNTY NEWS.

THE recent heavy rain storm has done considerable damage in this locality. The dam of Messrs. H. & C. Cody's grist mill was entirely carried away. This firm with their characteristic activity are repairing damages.

ENTERPRISE.—Messrs. McLean & Sons are making extensive additions to their mill. They recently imported from New Haven, Conn., a first-class run of French bun stones specially adapted for the grinding of wheat. They claim, when their new arrangements are complete, that they can turn out a quality of flour equal to the best Ontario make. Such enterprise is commendable in the present condition of hard times.

SCHOOLS.—Most of the schools in this parish are, I believe, in operation the present term. The course of instruction prescribed by the Board of Education is hailed with satisfaction by the teaching fraternity. The school at Long's Creek is in charge of Miss Nisbet, of Fredericton, the present term. Miss N. is said to possess excellent qualifications as a teacher.

DIPHTHERIA.—This dread disease is becoming alarmingly prevalent. Several families at Cole's Island are entirely prostrated with it. Recently Mr. J. W. Long of that place lost a child, and yesterday Mr. Keirstead lost another. The others are doing well under the skillful treatment of Dr. Hetherington.

Johnston, Dec. 5, 1879. D.

GIBSON GLEANINGS.

RIVERS' MILL.—Mr. Lewis Rivers' new Grist and Saw Mill at Aroostook Junction will be in running order in a fortnight. A crew of thirty men and boys have been working on the interior putting up the machinery. A fifty horse power engine has just been placed in position.

DAMAGE.—The damage done by the breaking away of logs at Marysville, is estimated at $5000. Although very few of the logs will be entirely lost, the trouble in collecting them in the spring scattered all the way to St. John, must be apparent.

THE WOODSTOCK BRIDGE.—Z. J. Carrie, Government Engineer, is at Woodstock repairing the Railway Bridge. We understand that the Government are to put up new piers in place of those that have been undermined.

GOLD.—As soon as snow falls Mr. Baker is to start with a party of miners for the gold region below the mouth of the Napidoggan.

INVENTION.—Some time since we mentioned that P. A. Logan, Esq., of Gibson, had perfected plans for a spark grinding apparatus. This instrument has been tested on several of the locomotives belonging to the N. B. R. Co., and found to give perfect satisfaction, the sparks on the darkest night dying out and becoming imperceptible at an altitude of four feet from the smoke stack. Since then Mr. L. has invented a double flange combination to be used on the trains this winter.

NEWFOUNDLAND NEWS.

(Late Mails.)

Two men named Kane and McCarthy, belonging to Renews, were accidentally drowned last week at Little Bay by falling through the ice. Their bodies were brought on here a day or two ago by the "Hercules."

The trial of Walsh of St. Mary's in the Supreme Court, on charge of wrecking in the "Burgos" case last summer, has resulted in his acquittal. There are still one or two other persons similarly charged awaiting trial, which comes on to-day.—*Local Paper.*

—[This is one of the unfortunate fellows whom the papers above quoted from, and some others of the local press had tried and convicted long before their cases were brought into court. At this distance from the scene the STAR stood up in their defence, knowing how ready the editors who live in St. John's, N. F. are to swallow stories of piracy and shore plundering that are brought into town by fellows who feel no responsibility attaching to the ridiculous things they tell. Papers in Canada copied from the St. John's papers the "atrocities" of the St. Mary's men in the "Burgos" case, but we protested that the stories were exaggerated. We were borne down by weight of local testimony till we blushed for very shame that we were a Newfoundlander. Now, though, it turns our view was in great part the correct one.

Angered that these stories should be set afloat, knowing them to be so greatly exaggerated, part of one of our articles in reply at the time was:

The inhabitants of St. Mary's Bay are not "half civilized" inhabitants. They were both civilized and christianized before ever a stalk of Buckwheat grew in New Brunswick. And though called half human, as warm hearts beat within their oil skin jackets, as ever palpitated under the homespun coat of a Dominion ploughman.—ED. STAR.]

Communications.

To the Editor of the STAR.

W. J. Colville's answer to the following questions:—

Ques. Is not tobacco, used in any form, as demoralizing and as destructive of life as alcohol or opium?

Ans. We have never advocated the use of tobacco, except for the purpose of fumigation. Sometimes in the present state of affairs you may require the lesser evil in order to ward off the greater. You would surely rather smoke a cigar than catch a fever. You would surely look upon the use of tobacco in small quantities as a smaller evil than the inhalation of those foul excretions which are continually sent forth from the dirty surroundings in which you are oftentimes placed. We would not be disposed to find fault with the moderate use of tobacco in an undeveloped state of society in some conditions which are liable to ensue, for by moderate use of tobacco you may be able to ward off what would be a catastrophe. We certainly regard the use of tobacco, for no definite purpose, but simply for the qualification of an immediate craving, *demoralizing*. To use tobacco simply because it produces an agreable sensation, is as immoral, as to drink alcohol constantly for exhilaration. Tobacco produces an undue depression of the nerves. Alcohol produces an undue stimulus. When you reduce the nervous system to a marked condition, after the nerves awake from their lethargy they then demand stimulus; thus the use of tobacco and alcohol will always accompany each other; opium is a narcotine but far more dreadful in its effects than ordinary tobacco.

ANOTHER MAYOR PROPOSED.

To the Editor of the STAR,

As we are now approaching the time when our citizens will be called on to chose a Mayor, among the many names that appear from time to time in our city papers I have not noticed a certain one. No doubt but many of those named would represent us very well, many having become familiar with the working of the Council Board. There is a gentleman who from the incorporation of our city nearly up to the present time has taken active part not only in lending a strong hand, but being identified with some of the principal improvements that have been made in out city, yet, when election time comes on and busy rumor is parading before the public gaze some effeminate politician or hoary-headed knave, or egotistical poltroon, the intellectual, practical man is wholly lost to the public eye. I therefore wish to draw the public attention to one who would add grace, dignity and experience, and, a thoughtful and careful consideration of our requirements, and in whom the interests of the city might with safety be intrusted; namely, S. D. McPherson, Esq., a gentleman of that peculiar calibre that is necessary in the composition of a civic ruler. Although this gentleman has in his time done good and faithful service at the Council Board yet because of his retiring disposition and unpassuming manner he has been overlooked in many instances when matters of this kind has come up; yet it is not too late if some of our influential citizens should call on him and having obtained his consent, place him in the chair. I think when he handed over to his successor the civic reins, the honest minded taxpayers of the City of Fredericton would rank him with those sterling men who once controlled the destiny of the Daughter of the Wood. PYTHIAS

Dec. 9th, 1879.

[The great difficulty in the mayoralty is that the Corporation provides for only one Mayor. It is a pity truly, for Fredericton could supply at least four hundred of them.—ED.]

THE ODD FELLOW'S LOTTERY MATTER.—We have been handed by a properly authorized delegation, the following for publication:

The undersigned ladies of the Management Committee for the Odd Fellow's Bazaar, hereby state that as yet they have passed no resolution to the effect that they will have lotteries in connection with the Bazaar which they purpose holding next summer; and that if lotteries do take place at the said Bazaar, they will in due time be announced by newspaper advertisements, followed by the establishment of legal agencies. Such agents shall hold papers to shew that they are authorized to act by the Committee of Management. Until then, the committee do not sanction the sale of lottery tickets, and if necessary will take further steps to prevent such sales.

The Paris *Gaulois* says that the ex-Empress Eugenie will proceed from Spain to Zululand.

MISCELLANEOUS.

By the partial burning of a tenement house in New York, on Saturday, two children and a man were burned to death.

The *Herald's* Dublin correspondent says: "Do not be deceived by the reports of intense excitement in Dublin and elsewhere. Save in the west, excitement prevails only in limited circles of agitators. The general public have merely taken ordinary interest in the event."

Arrangements are making for a monster meeting at Castlereagh market place, which is capable of holding 60,000 people. All the great leaders will be there.

English military men are doubtful whether Wolseley's 2,000 men are sufficient the uprising of Boers in Africa.

Telegraphic News.

Ireland.

NEW YORK, Dec. 8.

A Castlereagh (Dublin), despatch to the HERALD says the meeting yesterday was a gathering of about 5,000 vigorous looking men. During Parnell's speech a rush was made to sweep off the government reporters, but twenty constables who surrounded them brought their guns to bear, and the crowd fell back. Parnell then had the reporters brought to the stand and guaranteed their safety, if the constables were withdrawn, which was done, but the mob was dissatisfied. Patrick Egan made a speech in which he said the rents did not come from the soil but came from America.

Cable Briefs.

Information from Massowah represents King John marching forward with the main body of the Abyssinian army and forty guns. It is said he is determined to occupy the districts of Senaar and Galabat in the Blue Nile Territory.

It is believed President Grevy will invite the Senate to dissolve the Chamber of Deputies.

News of the appointment of Ignateff as Russian Ambassador at Rome has created quite a scare in Austrian Government circles. Semi-official newspapers qualify it as provocation to Austria.

The Rome FANFULLA has reason to believe that an understanding on the Greek frontier and Egyptian questions has been arrived at between the Governments at Berlin, Vienna, and Rome.
