DOMESTIC PEACE.

... and Humour of Patrick Henry.

Patrick Henry was a distinguished orator and patriot of Virgina, who lent his powerful influence to the cause of the Revolution. Hook ... Scotchman, a man of wealth, and sus... of being unfriendly to the American ... During the distress of the American ... consequent on the joint invasion of ... and Phillips, in 1781, a Mr. Vena... commissary, had taken two of ... rs for the use of the troops. The ... been strictly legal, and, on the ... of peace, Hook on the advice of ... a gentleman of some distinction ... thought proper to bring an action against Mr. Venable, in the Dis... of New London.

Mr. Henry appeared for the defendant, and ... to have disported himself in this cause ... te enjoyment of his hearers, the ... Hook always excepted. After ... became animated in the cause, ... respondent, he appeared to have ... controul over the passion of his audience, ... one time he excited their indignation against Hook, vengeance was visible in every countenance; when he chose to relax, and ridicule him, the whole audience was in a roar of laughter.

He painted the distress of the American army, exposed, almost naked, to the rigors of a winter's sky, and marking the frozen ground over which they trod with the blood of their unshod feet. "Where is the man," he said, "who has an American heart in his bosom, who would not have thrown open his fields, his barns, his cellars, the doors of his house, the portals of his breast, to have received, with open arms, the meanest soldier in that little band of famished patriots? Where is the man? There he stands—but whether the heart of an American beats in his bosom, you gentleman, are to judge."

He then carried the jury, by the power of his imagination, to the plains around New York, the surrender of which had followed shortly after the act complained of; he depicted the surrender in the most glowing and noble colors of his eloquence; the audience saw before their eyes the humiliation and dejection of the British, as they marched out of their trenches; they saw the triumph which lighted up every patriot face, and heard the shouts of victory, and the cry of "Washington and Liberty" as it rung and echoed through the American ranks, and was reverberated from the hills and shores of the neighbouring river. "But hark! what notes of discord are those which disturb the general joy, and silence the acclamation of victory!—They are the notes of John Hook, hoarsely bawling through the American camp, *Beef! beef! beef!*

The whole audience were convulsed; a particular incident will give a better idea of the effect than any general description. The clerk of the Court, unable to command himself, and unwilling to commit any breach of decorum in his place, rushed out of the court house and threw himself on the grass in the most violent paroxysm of laughter.

Here he was rolling, when Hook, with very different feelings, came out for relief into the yard also. 'Jemmy Steptoe,' said he to the clerk, 'what the deil ails ye, mon?' Mr. Steptoe was only able to say that he could not help it. 'Never mind ye,' said Hook, 'wait till Billy Cowan get's up; he'll show him the law!'

Mr. Cowan, however, was so completely overwhelmed by the torrent which bore upon his client that when he rose to reply to Mr. Henry, he was scarcely able to make an intelligent or audible remark. The cause was decided almost by acclamation. The Jury retired for form's sake, and instantly returned with a verdict for the defendant.

Nor did the effect of Mr. Henry's speech stop here. The people were so highly excited by the Tory audacity of such a suit, that Hook began to hear all around him a cry more terrible than that of *beef*; it was the cry of *tar and feathers*: from the application of which, it is said, nothing saved him but a precipitate flight and the speed of his horse.

False shame of Silly People.

SOME people appear to be ashamed to have it known that they have to "work for a living. But they are not ashamed of the foolish pride that originates that shame.—yet their pride is to them a greater disgrace than the greatest degree of virtuous poverty and honest labour. No greater evil could befall most young men and women, than to be relieved of the necessity for labour, as the records of criminal courts, prisons and poor houses show. The chances are much greater that young men who are from necessity compelled to toil for a living, will grow up and become respected members of society, than those who grow up in idleness with a fortune at their disposal.—While the former are engaged in earning a reputation and competency, the latter are scattering their substance in idleness and sloth.

A TASTE OF EDITORIAL LIFE.—The Rev. E. T. Baird, of the St. Louis Presbyterian says he expects, Providence permitting to continue at his post to the first of October, and thus finish out two years of *the most oppressive labor he ever underwent, and the worst remunerated.* To those who have no personal experience of the responsibilities involved in the management of religious journals, and of the difficulty of sustaining them, such expressions will appear extravagant: but a very large majority of his brother editors will regard them as words of "truth and soberness."—*Watchman and Observer.*

PAPACY.—Five of the States of the Union were originally settled by Papists; viz.—Maryland, Florida, Louisiana, Texas, and California; the whole northern frontier from the mouth of the St. Lawrence to the Fond du Lac has ever been exposed to the influence of Popery from Canada, and most of the towns on that frontier were settled by Papists: and yet in Maryland there are about 800 Protestant churches to 65 papal; of 152 churches in Florida only 5 are papal; Lousiana has 123 Protestant and 55 papal churches. Texas has but 13 papal churches and 131 Protestant, while Protestant influence is greatly predominant in California. The inference to be drawn from these facts is, that however bold and confident Romanism may be, it has no principle of vitality to sustain and give it the pre-eminence it seeks.—*Exchange paper.*

FIGHTING FOR THE HOLY PLACES.—The latest news from Syria furnishes a sad commentary upon the state of religion among those who congregate around the places sacred in their historical associations to all christians.—The whole country is represented as a state of anarchy, owing to the withdrawal of the troops for the war with Russia, and the Pashas are left without the means of enforcing their authority. The Greek and Latin clergy at Jerusalem have renewed their shameful contests about the Holy Places, while the Turkish officials had not the power to prevent them coming to blows. This time the Latins claimed more than they were entitled to, and the Latin Patrick and the French Consul (M Botta) finding themselves under the necessity of yielding to the Greeks, left Jerusalem for Beyrout.

VEGETATING INSECTS.—These insects are not uncommon both in New South Wales and in New Zealand. The insect is the caterpillar of a large brown moth, and in New South Wales is sometimes found six inches long, buried in the ground about the same length; the top expanded like a flower, has a brown, velvet texture. In New Zealand, the plant is different, being a single stem six to ten inches high. Its apex, when in a state of fructification, resembles the club-headed rush in miniature. When newly dug up and divided longitudinally, the intestinal canal is distinctly visible, and frequently the hairs, legs and mandibles. Vegetation invariably proceeds from the nape of the neck, from which it may be inferred that the insect, in crawling to the place where it inhumes itself, prior to its metamorphosis, while burrowing in the light vegetable soil, gets some of the minute seeds of the fungus between the scales of its neck, from which, in its sickening state it is unable to free itself, and which, and consequently being nourished by the warmth and moisture of the insect's body, then lying motionless, vegetate, and not only impede the process of change in the chrysalis, but like wise occasion the death of the insect.—*Notes and Queries.*

CONSCIENCE.—Bishop Taylor has this striking image; "Conscience is a clock, which in one man, strikes aloud and gives warning; in another, the hands point silently to the figure, but strikes not; meantime, hours pass away, and death hasters, and after death comes judgment!" There is something unspeakably appalling in this image.

Cure No. 3,906—Thirteen years cough, indigestion and general debility have been removed by DuBarry's excellent Revalenta Arabica Food. JAMES PORTER.
Athol Street, Perth

Plymouth, May 9th, 1851.

For the last ten years I have been suffering from Dyspepsia, headaches, nervousness, low spirits, sleeplessness, and delusions, and swallowed an incredible amount of medicine without relief. I am happy to say that your Food has cured me, and I am now enjoying better health than I have had for many years past.

J. S. NEWTON.

Devon Cottage, Bromley, Middlesex Mar. 31, 1849.

GENTLEMEN,—The lady for whom I ordered your Food is six months advanced in pregnancy, and was suffering severely from indigestion, constipation, throwing up her meals shortly after eating them, having a great deal of heartburn, and being constantly obliged to have recourse to physic or the enema, and sometimes to both. I am happy to inform you that your Food produced immediate relief. She has never been sick since, had but little heartburn, and the functions are more regular, &c.

You are at liberty to publish this letter, if you think it will tend to the benefit of other sufferers.

DR. WURZER'S TESTIMONIAL.

Bonn, 19th July, 1853.

This light and pleasant Farina is one of the most excellent, nourishing, and restorative remedies, and supersedes in many cases all kinds of medicines. It is particularly useful in confined habits of body, as also in diarrhoea, bowel complaints, affections of the kidneys and bladder, such as stone or gravel; inflammatory irritation and cramp of the urethra, cramp of the kidneys and bladder, strictures and hemorrhoids. This really invaluable remedy is employed with the most satisfactory result, not only in bronchial and pulmonary complaints, where irritation and pain are to be removed, but also in pulmonary and bronchial consumption, in which it counteracts effectually the troublesome cough; and I am enabled with perfect truth to express the conviction that Du Barry's Revalenta Arabica is adapted to the cure of incipient hectic complaints and consumption. HOLLOWAY'S OINTMENT

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING.

Copy of a Letter from Mr. William Abbs, Builder of Gas Ovens, of Rushcliffe, near Huddersfield, dated May 31st 1851

To Professor HOLLOWAY.

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr. W. P. England, Chemist, 13 Market Street, Huddersfield.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS' SUFFERING.

Extract of a Letter from Mr. William Galpin, of 70, St. Mary's Street, Weymouth, dated May 15th, 1851.

To Professor HOLLOWAY,

SIR,—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your Advertisements and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and, strange to relate, is now in good health. Her legs are painless, without seam or scars, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN.

A WONDERFUL CURE OF A DANGEROUS SWELLING OF THE KNEE.

Copy of a Letter from John Forfar, an Agriculturist, residing at Newborough, near Hexham, May 15, 1850

To Professor HOLLOWAY.

SIR,—I was afflicted with a swelling on each side of the leg, rather above the knee, for nearly two years, which increased to a great size. I had the advice of three eminent surgeons here, and was an inmate of the Newcastle Infirmary for four weeks. After various modes of treatment had been tried, I was discharged as incurable. Having heard so much of your Pills and Ointment, I determined to try them and in less than a month I was completely cured. What is more remarkable I was engaged twelve hours a day in the hay harvest, and although I have followed my laborious occupation throughout the winter, I have had no return whatever of my complaint. (Signed) JOHN FORFAR

AN INFLAMMATION IN THE SIDE PERFECTLY CURED.

Copy of a Letter from Mr. Francis Arnot, of Breakhouse Lothian Road, Edinbro', dated April 29th, 1851.

To Professor HOLLOWAY.

SIR,—For more than twenty years my wife has been subject, from time to time, to attacks of inflammation in the side, for which she was bled and blistered to a great extent, still the pain could not be removed. About four years ago she saw, in the papers, the wonderful cures effected by your Pills and Ointment, and thought she would give them a trial. To her great astonishment and delight she got immediate relief from their use, and after persevering for three weeks, the pain in her side was completely cured, and she has enjoyed the best of health for the last four years.

(Signed) FRANCIS ARNOT.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a Letter from Mr. Frederick Turner, of Penshurst, Kent, dated Dec. 13th, 1850.

To Professor HOLLOWAY,

DEAR SIR,—My wife had suffered from Bad Breast, for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends. (Signed) FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Chiego-foot	Sore-throats
Bad Breasts	Chilblains	Skin diseases
Burns	Chapped hands	Scurvy

Holloway's PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist Prescot Street, Liverpool, dated 6th June, 1851.

To Professor HOLLOWAY.

SIR,—Your Pills and Ointment have stood the highest on our sale list of Proprietory Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the violence of the attack was so alarming, and the inflammation set in so severely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the *severity of the attack*, and the *speedy* cure, I think, speaks much in favor of your astonishing Pills. [Signed] R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart-Town Courier, of the 1st March, 1851 by Major J. Walch.

Margaret M'Connigan, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months, which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless. A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredible short space of time they effected perfect cure.

WONDERFUL EFFICACY OF HOLLOWAY'S PILLS IN CASES OF DROPSY

Persons suffering from Dropsy, either about the turn of life, or at other times, should immediately have recourse to these Pills, as hundreds of persons are annually cured, by their use, of this direful complaint in its different stages, when all other means had failed.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement.—August 2nd, 1851.

To Professor HOLLOWAY,

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means comparatively active, and can take exercise without inconvenience or pain, which I could not do before.

AN EXTRAORDINARY CURE OF THE GRAVEL AND A MOST DANGEROUS FEVER COMPLAINT.

Copy of a Letter addressed to J. K. Heyden, Esq., Sydney, New South Wales, dated Feb. 25th, 1851.

SIR,—A Mr. Thomas Clark, a Settler at Lake George was for a considerable time seriously afflicted with a Complaint of the Liver, together with the Gravel. His medical attendants, after trying all their skill, candidly told him that his case was hopeless, and any further efforts useless. In this situation, and when expecting every day would terminate his existence, a friend recommended him to try Holloway's Pills, and as a forlorn hope he did so, the first gave him considerable relief, he therefore persevered in taking them according to the directions, and is now restored to health. He will feel great pleasure, in confirming this statement, or even make an affidavit to the same effect, should it be required.

(Signed) WILLIAM JONES, Proprieter of the Goulburn Herald, New South Wales

These celebrated Pills are wonderfully efficacious in the following complaints.

Celebrated Toilet Preparations,

We would call the attention of the Ladies and Gentlemen of New-Brunswick to the following choice Toilet articles—

ISAAC BABBITT'S
Superior Toilet Soaps,

CYTHEREAN CREAM OF SOAP, PANARISTON SHAVING CREAM, PANARISTON SHAVING SOAP, IN SOLID ROLLS, PANARISTON SOAP FOR MEDICAL USES, AND SHAVING POWDER.

These choice Soaps and Creams enjoy the highest fame for their superior excellence both in this country and Europe. Medals have been awarded from the best institutions, and testimonials of their virtues by thousands who have used them.

Cytherean Cream of Soap, for Ladies, softens the skin, removes freckles, purifies the complexion, and is free from all impure or irritating properties and is admired by all who use it.

Panariston Shaving Cream takes the place of all other Soaps as a preparation for the razor, and those who use it once will never after use any other.

Panariston Rolls are put up in a neat portable style suited to travellers' convenience.

The following are a few from the many testimonials received:—

Rev John Pierpont says of the Shaving Soap, "it is unequaled as a preparation for the razor; by anything that I have found." Dr. A. A. Hayes, State Assayer, says of the Cytherean Cream, "I have never met with any Soap Compound, which, in cleansing the most delicate skin, would, like this, leave it perfectly moist, soft and healthy." Dr. Walter Channing says, "I have no memory of so good an article." Dr. Luther V. Bell, Superintendent of the McLean Asylum, says, "It is superior to any other saponaceous compound I have known." Hon. Horace Greely, of the N. Y. Tribune, says "we have tried it, and found it perfect; no other soap is worthy of being mentioned the same day." Dr. Bailey, editor of the National Era, says, "it is in all respects the very best soap we have used."—Mrs. Swisshelm, editress of the Pittsburgh Saturday Visiter, says, "it is superior to anything in the soap line, either soft or hard." Mr. Prentice of the Louisville Journal, says, "the Cytherean Cream of Soap is probably the best for preserving the purity of the skin which has yet appeared." The New York Literary World says, "Mr. Babbitt will be the Soyer of soap, the great regenerator."

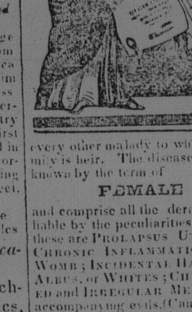
DR. MARCHISI'S
UTERINE CATHOLICON.



THE DISCOVERY OF THE ABOVE PREPARATION HAS ESTABLISHED A NEW ERA IN THE HISTORY OF THE HEALING ART; it is, in truth, one of the greatest Medical Discoveries of the Age, because it will cure more than nine-tenths of a class of distressing diseases incidental to females in every stage of life and which have heretofore resisted the best efforts of the Medical profession in all countries, to a degree beyond that of almost every other malady to which any portion of the human family is heir. The diseases to which we refer are usually known by the term of

FEMALE COMPLAINTS,

and comprise all the derangements to which females are liable by the peculiarities of their organization. Among these are PROLAPSUS UTERI, or Falling of the Womb; CHRONIC INFLAMMATION and ULCERATION OF THE WOMB; INCIDENTAL HAEMORAGE, or Flooding. FLEUR ALBUS, or WHITES; CHLOROSIS; PAINFUL, SUPPRESSED and IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted,) of whatever duration and severity. ALL THESE COMPLAINTS can be pleasantly ... ly remedied by this preparation.

THE CLAIMS OF THIS MEDICINE to the confidence of the public are strengthened by the fact of its having received the approbation and liberal patronage of MANY PROMINENT MEMBERS OF THE MEDICAL FACULTY in the United States, some of whom have voluntarily given letters of commendation. (see pamphlet,) sustaining all that is claimed for the Catholicon as a curative agent.

PROFESSOR MOTT'S
Celebrated Female Regulating Pills

These wonderful Pills are compounded entirely from the vegetable kingdom, and they are now recommended to the Female sex as an invaluable remedy for many complaints to which they are subject. In obstruction—either total or partial, they have been found of inestimable benefit for healthy action. The Aperient stimulent and tonic properties are so admirably combined in the composition of these Pills, that they clear the Bowels from all corrupt and vitiated matter—rouse up the sluggish action of the Heart, Blood, and other fluids from all Humours—strengthen the nerves and muscles, and give tone and energy to the whole system.

These Pills will most effectually put to flight all complaints which may arise from Female Irregularities, such as Headache, Backache, Giddiness, and Dimness of Sight, Ringing in the Ears, Costiveness, Loss of Appetite, Pain in the Side and Chest, and general lassitude and debility. Thousands of Females who are fast approaching the verge of the grave, may be relieved by giving these Pills a thorough trial. They have never been known to fail in effectually removing the complaints above enumerated, and want only to be known and tried to satisfy the most incredulous of their intrinsic value.
