TORONTO'S SABBATICAL BLIGHT.

Mr. A. G. Stevens, one of the editors of The Sydney Bulletin, who recently completed a trip around the world, has written a book, in which he reveals to Australians the ways in which they differ from other people. He gives considerable attention to America. Speaking of the way Sunday is spent in Toronto, he says: "Sunday recreation is certainly stopped, and the consequence is a Sabbatical blight, which hangs like a pall over the city, souring tempers, driving the idle population into mischief, deadening healthy instincts and rational impulses, and breeding an unhealthy, irrational, unnatural gloom, which would have delighted an old-time Puritan and appals a modern humanist. When interviewed by one of the daily newspapers, I could not help contrasting the Australian and Canadian methods of keeping the Sabbath, and frankly told my interviewer that Toronto had stuck to the Old Testament, and only remembered the 'Sabbath Day to keep it hypocritical—I would not say holy; while in Australia we had got unto the New, and understood that the Sabbath was made for man, and not man for the Sabbath.'"

This is the written opinion of one of Toronto's visitors. It is but a sample opinion of what 90 out of every 100 people who come to Toronto think of our absurd Sunday Puritanism. People from other cities, in every country in the world, are struck as with a nightmare when they come [illegible] with a Toronto Sunday. M[illegible]evens at least was so struck, [illegible] was struck badly. We may rest [illegible]ed that Mr. Stevens didn't [illegible] with us on more Sundays than [illegible] was absolutely necessary. He no doubt acted in the same way that most all strangers do when they come here. As Sunday approaches, visitors as a rule side-track Toronto for Niagara Falls, Buffalo, Rochester and other nearby cities. Toronto has made and is making efforts to attain a reputation as a summer resort. We will never obtain such a reputation as long as we contemptuously despise the common-sense methods that prevail in all the cities and countries from which we expect to attract our summer visitors. We may adorn our Island so as to make it shine out like a jem in the lake, yet tourists will prefer other cities to ours, over which a "Sabbatical blight hangs like a pall." Buffalo's population as taken the other day amounts to 335,000, or just about double that of Toronto. Before long, even the saints of this good city will recognize the fact that they are pursuing a stupid and suicidal policy.

CERTAINLY, NO COMPLAINTS.

The News thinks the Toronto Electric Light Company should be given a renewal of their contract for lighting the streets of the city, because there have been no complaints about the service given by that company in the past years. A company that is making $50,000 out of the city can well afford to conduct its business so as to avoid complaints. On the other hand, some officials, whose business it is to look after the due fulfilment of the street lighting contract, do not seem to have been very assiduous in their duties. The Electric Light Company were apparently able to hypnotize some of them to look at things from their point of view. Secretary McGowan, for instance, was hypnotized into believing that the actual cost of an arc light was at least $103 per annum. A company that could thus hypnotize one of our officials would not have much difficulty in making the same official believe that a 1200-candle power was actually giving a 2000-power light. The News is quite right, The Toronto Electric Light Company knows a good thing when it sees it. It takes no chances, and sees to it that no complaints reach the public.

AN INTERNATIONAL QUESTION.

If a Canadian doing business in Buffalo wished to avail himself of the services of a Canadian architect for the erection of a building in that city, he would be denied the privilege, because of the alien labor laws of the United States. These laws debar foreigners from entering the United States under contract to perform any labor or services in that country. This law is the American's own making. We have always considered it a harsh and unneighborly law. Still, we know that the people of the United States are perfectly justified in doing it, and we have no complaint to make against them. But it certainly does not come with good grace from a people who make such selfish laws to ask us to suspend the operation of similar laws directed against themselves and other foreign nations. This, however, is just what they are doing in asking permission for one of their lawyers to come to Toronto to defend the Hyams, whose trial will begin in this city to-morrow. If an American law which prevents a Canadian architect from doing a small commission in the United States is a good law, then equally good is the principle which prevents an American lawyer coming into Canada to defend an action in court. The Americans ought not to grumble if we refuse reciprocity in this matter. They started the practice and they should not quarrel with us because we merely put into effect their own principles. We do not think, for other reasons, that Counsellor Wellman should be allowed to defend the Hyams. The prisoners have exactly the same rights that are granted to every Canadian. If a resident of Ontario finds himself in the clutches of the law, he is limited in selecting counsel for his defence to the provincial bar. Even a resident of Quebec would not have the privilege of calling in counsel from his own province if he so desired. The prisoners in question have been residents of this country for nine years, and they ought by this time to be pretty well acquainted with our customs. They will have the benefit of the best legal talent procurable in this province. For our part we do not believe their interests will suffer in the minutest degree by being denied the privilege which some of the New York papers think is going to hurt their chances before the court. The New York Herald and World may rest assured that these American citizens will suffer no injustice at the hands of Canadians. The Hyams will not be convicted of murder unless the crime is conclusively brought home to them. Last week a woman was tried in Toronto for a murder which she confessed to having committed. The jury, however, didn't believe she told the truth when she confessed, and let her off, and now she is on exhibition in a cheap place of amusement. No innocent man need be afraid of an Ontario jury.

WANT A REVISED ASSESSMENT.

Strong Resolution Passed by the Ratepayers' Association Last Evening—By-laws Not Considered.

The Ratepayers' Association spent three hours last night in denouncing the present system of municipal assessment, and deprecating any increase in the debenture debt unless pressing necessity could be shown. A resolution to this effect was carried. At an adjourned meeting the four civic bylaws will be discussed separately and on their merits.

Ex-Ald. Defoe presided. Amongst those present were: Dr. Barrick, Alexander Manning, John T. Moore, Robert Jaffray, J. Enoch Thompson, George H. Bertram, Elgin Schoff, Mr. Crawford, M.L.A., William McCabe, Richard Reynolds, Ald. Hubbard, Michael Basso, Ald. Crane, J. A. Livingstone, Alive Bollard, Dr. Thompson, W. Stewart, G. C. Campbell, J. L. Rowland, R. Thompson, Thomas Rowland, Charles Bugg, W. T. Murray, W. J. Eddis, George Crane, Hugh Crane, Eames.

This was the principal resolution submitted:

That in the opinion of this association until an entirely new assessment be made, as recommended by this association, every bylaw to increase the debenture debt of this city should be voted down, unless it can be clearly shown to be for work of the most pressing vital importance.

W. McCabe and Richard Reynolds submitted as an amendment:

That in the opinion of this meeting it is highly desirable that the assessment of the city be revised as soon as practicable, and that the subject of the bylaws to be submitted to the ratepayers be left to this meeting for discussion on their merits.

The chairman ruled the amendment out of order, stating that after the passing of Dr. Barrick's motion the merits of the four bylaws could be discussed.

Some Vigorous Speeches.

Strong speeches in favor of the motion were made by Dr. Barrick, ex-Ald. Thompson, Robert Jaffray, ex-Mayor Manning, Dr. Thompson, J. T. Moore.

W. McCabe pointed out that if the resolution passed, no bylaw which might save thousands of dollars could be supported consistently unless it could be proved to be of pressing vital importance. The discussion of civic lighting had already saved the city many thousands of dollars.

The Chairman ruled Mr. McCabe out of order, because the association had already passed on civic lighting.

G. H. Bertram wished the reference to bylaws omitted from the resolution. Although the mover said the motion was to enforce the principle of revised assessment, all the speeches had been for voting down all the bylaws. In this respect there was an element of unfairness.

Ald. Hubbard said he had long been a resident in Toronto, and he must confess that he had never heard so many "blue ruin" speeches in one night before. There were two sides to the question. Many businesses, especially the departmental stores, were assessed far too low. The bylaws should be discussed on their merits.

On being put to a vote it was carried, with only two dissentients—W. McCabe and G. H. Bertram.

It was decided to have a meeting of the association to discuss each of the four bylaws.

An Enormous Traffic.

Some idea of the enormous passenger traffic of our great railways may be obtained by inspecting the annual report of the New York Central Railroad, which has just been made public.

In 1882, this great company carried for the first time in its history over ten million passengers; in 1885, the number carried during the year had increased to nearly thirteen millions, and in 1889 there were transported on its trains over eighteen millions of passengers.

Equestrians, Attention.

Horsemanship is fast becoming one of the most deservedly popular recreations and certainly no more healthful form of pleasure can be found, or one which brings a gentleman more into touch with the beauties of nature. Gentlemen desiring a neat, serviceable riding boot can be accommodated with the same by H. & C. Blachford, 83 to 89 King-street east, for the reasonable sum of $4.50.

The Batoche Smoker.

Arrangements were completed at the Armouries last evening for the smoking concert in celebration of the Battle of Batoche. This will take place next Friday evening in St. George's Hall. Hon. Senator Boulton, who commanded the scouts in the defence of Batoche in 1885, has signified his intention of being present. Col. Smith of London, Col. Montizambert of Quebec and Col. Von Straubenzie of Kingston are also expected. It will be a great gathering of the gallant "boys," adorned with their war medals.

Lord Lansdowne's Grandson.

Lord Lansdowne cabled a friend in this city yesterday to say that his daughter, Lady Evelyn Cavendish, whose husband, Mr. Victor Cavendish, is heir to the Duke of Devonshire, had been safely delivered of a son; mother and boy doing well.

Bush Fires In Frontenac

Kingston, May 7.—The forests in the southwest portion of Frontenac County are ablaze. Great quantities of timber are being destroyed.

There is danger in neglecting a cold. Many who have died of consumption dated their troubles from exposure, followed by a cold which settled on their lungs, and in a short time they were beyond the skill of the best physician. Had they used Bickle's Anti-Consumptive Syrup before it was too late, their lives would have been spared. This medicine has no equal for curing coughs, colds and all affections of the throat and lungs.

Mr. F. L. Napolitano, the prominent violinist, says St. Leon Water has completely cured him of indigestion. He also considers it the finest thing in the world for kidney and liver troubles. 36

Holloway's Corn Cure destroys all kinds of corns and warts, root and branch. Who then would endure them with such a cheap and effectual remedy within reach?

Yesterday's Fires.

At noon yesterday fire damaged the premises and contents at 56 Alexander-street to the extent of $250. Mr. Wallace is the occupant and John Graham the owner. Cause unknown.

Window curtains caught fire at 639 Manning-avenue, owned by Mr. Sims, and occupied by Mrs. Hoffman, at 1.30 yesterday afternoon. Damage $25.

What a miserable creature you are if your blood is impure, your liver sluggish or your kidneys fail to perform their functions! St. Leon Water rectifies all these troubles. It has relieved thousands. It's sure to relieve you. 36

MANITOBA HAS NO OPTION

MUST PASS LEGISLATION REMOVING THE MINORITY'S GRIEVANCES.

Dr. Bourinot on the Constitutional Bearings of the Remedial Order—Not to Acquiesce With the Judgment Would Violate a Fundamental Principle of Federalism.

Winnipeg, May 7.—Lieutenant-Governor Schultz, when in Ottawa recently, secured from Dr. Bourinot, Clerk of the House of Commons, an important opinion on the constitutional bearings of the Remedial Order. The learned authority sums up his opinion as follows:

1, That the highest court of the Empire has determined that certain rights and privileges enjoyed before May 1, 1890, by the Roman Catholic minority of Manitoba had been prejudicially affected by the Educational Act of 1890; 2, That the Governor-General in Council, as a legal consequence of that judicial determination, has declared what seems to him "requisite" as a remedy for judicially admitted grievances, and has called upon the "proper" provincial authority to provide that remedy by its legislative action; 3, That the Legislature of Manitoba is now constitutionally bound to decide whether it will allow the subject matter of education, as far as the circumstances of this case require, to pass out of its direct control, or will, in accordance with the letter and spirit of the constitutional law, as judicially determined, adopt such remedial measures as will remove the admitted grievances of the Roman Catholic minority of Her Majesty's subjects in Manitoba. The constitutional law, in my opinion, gives them full power to deal with the whole question in its present aspect; 4, That by such course the Legislature of Manitoba will remove a difficult question from the arena of political and sectarian animosities, exhibit their desire to do full justice to every class, irrespective of sectional or religious opinions, and at the same time give conclusive evidence of their readiness to submit to the deliberate judgment of the courts in every case as a principle of action best calculated to promote in the end the security and strength of a federal union, whose foundation rests on a written law which must be interpreted by judicial authority; 5, That by failing to follow the course marked out for them by the law of the constitution they would assume a most serious responsibility, since it would involve necessarily the removal of the subject of education from the jurisdiction where it must and should exist under ordinary conditions, and the handing of it over in this special case to the authority of the Dominion Parliament, which is to be supreme, to meet an emergency provided for by the constitution; 6, That the question at present demanding a deliberate and calm judgment from the Legislature and Government of Manitoba is not a question of sectarian or non-sectarian schools. It is a question of restoring a right and a privilege of the Roman Catholic minority, which, according to the judgment of the highest judicial tribunal, has been improperly taken away by the legislative authority of the province. The constitution may be unwise, or wise, in its provisions in this regard; it may be the soundest principle to place the jurisdiction over education solely in the provincial authority, without any limiting provisions whatever, but that is not the question now at issue. For reasons which are well-known to every student of Canadian institutions, the authors of the constitutions which govern in this particular placed limitations on the jurisdiction of the provinces with respect to education. The occasion has arisen, it appears, from the legal determination so far given on the subject, for applying these limitations to the exclusive powers generally possessed under normal conditions by the Legislature of Manitoba with regard to Public schools. The question now before that Legislature is this: Is it not its duty to obey the law, however objectionable it may appear to some adherents of provincial rights, who seem to forget that all that is now attempted is to remedy a grievance and restore a right and privilege of law-abiding citizens of the province? 7, So far it has been wisely decided to adjust such questions as this on judicial decisions, and on the lines that the constitution has marked out; and it would be a serious departure from a sound principle of action were the Legislature of Manitoba now to attempt to decide the question on a less rational or deliberate basis, and to be carried away by issues which should not sway them in a matter where the law of the constitution has laid down unequivocal rules for their guidance. The Judicial Committee do not leave them in doubt as to the proper course they should pursue. It is to pass such legislation as will "remove the grievance upon which that appeal is founded."

It will be seen from all that I have said I take my stand entirely on the constitutional law which governs all parties to this issue and on the opinion of the highest court of the Empire. As I commenced this memorandum, so I conclude—by pressing the necessity of taking in all such matters as this a strictly legal view of the whole question. I do so because it is essential to the satisfactory and efficient operation of a written constitution. I cannot do better than to emphasize all I have said by quoting the language of an eminent English constitutional authority.

The Legislature May Adjourn Again

Many rumors are afloat here as to the course the Manitoba Government will pursue in regard to the Dominion Remedial Order on the schools, but your correspondent is assured that the Local Government will not recede from its position.

There was a rumor current that, on the assembling of the Legislature on Thursday, the Government will ask for a further adjournment of two weeks. Confirmation could not be secured, but the fact that the Premier yesterday held a conference with Lieut.-Governor Schultz discussing the above letter of Dr. Bourinot strengthened the report.

Speaking to a reporter, Premier Greenway said he did not think the session would be a long one, as, outside of the school question, most of the other work was waiting for a third reading, and would not have to be sent to committee. The memorial will be the first thing considered after routine of opening of the House. It will, therefore, be on early Thursday afternoon.

Gov. Schultz Obtained the Opinion Personally.

There is a strong feeling here that the action of Lieut.-Governor Schultz in giving out Bourinot's opinion on the school matter was at the instance of the Dominion ministers, who are hoping that Manitoba will settle the question without reference again to Ottawa. There is also a feeling that Governor Schultz should consult his own constitutional advisers and not go so far for advice and counsel.

His Honor, seen in reference to the above, stated that he had no intention of thrusting his views upon the Ministry. His Honor says the relations between himself and the Local Ministry are most cordial. Dr. Bourinot's opinion was not obtained at the direction of the Dominion Government, but he himself personally.

The Tribune says it is in a position to announce that there will be no backdown by the Local Government from the strong position already taken on the school question.

After every trial of St. Leon Water its just title of "perfection" is more thoroughly established. 36

A WOMAN'S ADVICE.

WHICH IS WORTHY OF THE MOST EARNEST ATTENTION.

A Lady in Lunenburg, N.S., Tells How She Was Relieved From a Distressing Malady After Many Efforts to Find a Cure Had Proved Unavailing.

The Argus, Lunenburg, N.S.

Among the residents of our quiet little town none is more highly esteemed among her circle of acquaintances than is Mrs. C. Albert Smith. Our attention was some time ago called to the fact that Mrs. Smith was one of those who could bear witness to the sterling merit of Dr. Williams' Pink Pills, and feeling interested, knowing what good results had been derived from the use of the medicine in other cases, we were led to investigate the matter with the most gratifying results. Mrs. Smith stated that she had been a sufferer for years from that most distressing of maladies—asthma. This was further aggravated by a bad cough. The result was that she became very weak, and could not walk but a short distance without having to sit down and rest. Many medicines recommended as cures were tried, but none helped her, and what was apparently a last ray of hope was the urgent advice of a friend to give Dr. Williams' Pink Pills a trial. Mrs. Smith says as she was willing to try anything that held out any inducement of relief, she procured a supply of Pink Pills. "The first box was hardly gone," said Mrs. Smith, "when I felt an improvement, and continuing until I had used some six boxes I found myself feeling better than I had in years, cured in fact. You may rest assured that if there is anything I can do or say to make known the marvelous healing powers of Dr. Williams' Pink Pills, I will cheerfully do it. If others will only follow my example and give Dr. Williams' Pink Pills a fair trial I feel assured that under Providence they will find themselves restored to health and strength."

These pills are a positive cure for all troubles arising from a vitiated condition of the blood or a shattered nervous system. Sold by all dealers or by mail, from Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N.Y., at 50 cents a box, or six boxes for $2.50. There are numerous imitations and substitutes, against which the public is cautioned.

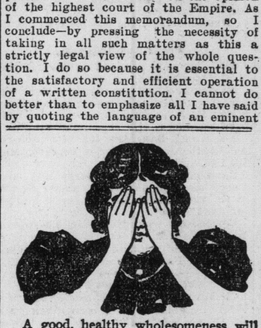
CATARRH AND COLDS RELIEVED IN 10 TO 60 MINUTES.

GIVE ONE SHORT PUFF

One short puff of the breath through the Blower supplied with each bottle of Dr. Agnew's Catarrhal Powder diffuses this powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsilitis and Deafness. 3

English constitutional authority, Professor Dicey, on this very subject—"Federalism means legalism; the predominance of the judiciary in the constitution, the prevalence of a spirit of legality among the people. That a federal system can flourish only among communities imbued with a legal spirit and trained to reverence the law is as certain as can be any conclusion of political speculation. The main reason why the United States has carried out the Federal system with unequalled success is that the people of the union are more thoroughly imbued with legal ideas than any other existing nation. Constitutional questions arising out of either the constitutions of the separate States or the articles of the Federal constitution are of daily occurrence, and constantly occupy the courts. Matters which excite the strongest popular feeling are determined by the judicial bench, and the decision of the bench is acquiesced in by the people. This acquiescence or submission is due to the Americans inheriting the legal notions of the common law, i.e., of the most legal system of law (if the expression may be allowed) in the world. Any nation who cannot acquiesce in the finality even of possibly mistaken judgments is hardly fit to form part of a federal state."

No one can argue from the history of the Confederation of Canada so far that its people are not as fully capable as their neighbors in the United States of forming a strong federal state, if one of the essential conditions of success is acquiescence in judicial decisions, whatever may be the question of controversy. For myself, I cannot believe that in so clear a case as the one before us the Government and the people of Manitoba are at all disposed to violate so fundamental a principle of federalism as that pressed upon the attention of his readers by a most judicious English constitutional authority.



A good, healthy wholesomeness will make even a homely face attractive.

There are many reasons why women should take care to be healthy. One very strong reason is that beauty and illness are very seldom found together. Illness—and especially the kind peculiar to women—makes the complexion bad, the eyes dull and sunken, the manner listless and the intellect dull.

No woman in this condition can be attractive to her friends. Personal appearance counts for much, but comfort amounts to even more. What's the good of living if one cannot enjoy anything? If headaches and backaches and dragging weariness and pain accompany even slight fatigue?

If the system is constantly subjected to a debilitating drain, where is the energy to come from to make enjoyment possible?

Personal comfort and a consideration for the feelings of others are two of the incentives to an effort to secure health.

If the illness is in any way connected with the purely feminine organism (and the chances are ten to one that it is) Dr. Pierce's Favorite Prescription will cure it.

Dr. Pierce has used the "Prescription" in his practice for thirty years with unbroken success. A large book written by him entitled "Woman and Her Diseases" will be sent (securely sealed, in plain envelope) to those who will send this notice and ten cents to part pay postage, to WORLD'S DISPENSARY MEDICAL ASSOCIATION, No. 663 Main Street, Buffalo, N. Y.
