OUR FARMERS' CLUB
Correspondence Invited

QUEBEC

COMPTON CO., QUE.

COMPTON, July 6th.—We are having wet weather which will help the hay crop greatly. Hardly any have started haying much yet; it will be rather a light crop for old ground. Corn is nearly a failure, as it did not come up good, and in many cases had to be planted over twice, and in some cases three times. Butter is selling around 30c, and eggs 18c to 20c—H. G. C.

ONTARIO

CARLETON CO., ONT.

BRITANNIA BAY, July 5.—The hay crop in this vicinity is very light. The corn crop has done well; recent showers and the warm weather have helped things wonderfully. Grain crop is thick though not extra long. Potatoes and roots look well, especially the former. Butter is 32c; eggs, 23c; oats, 65c; hay, $20. Vegetables very plentiful. With frequent rain showers, the prospects are for a bumper crop.—J. A. D.

HALTON CO., ONT.

MILTON, July 5.—Red clover is nearly all cut. A good many intend keeping the second crop for seed. Fall wheat is looking fine, and spring grains have improved a lot since the rains came. Milton farmers' Club has a membership of 50 now. Large quantities of feed and seeds have been secured for the members.—A. L. MacN.

WELLINGTON CO., ONT.

FERGUS, July 7.—Prospects were never brighter so far as crops are concerned. The recent rains have been of untold benefit. Hay is going to be abundant, and all
