HUNDRED NEW HOMES FOR WATERLOO TOWN

Council Comes Under Housing Act—Buildings Will Be for Dominion Rubber System Employes.

Special to The Toronto World.

Waterloo, Sept. 7.—Waterloo showed the way to Kitchener on Saturday night, when the town council, by a unanimous vote, passed a bylaw placing the town under the Ontario housing act, and appointing a housing commission. This was done in connection with an offer from the Dominion Rubber System to build 100 houses in Waterloo and to guarantee the entire loan. The company intends to build 100 houses close to the corporation line of Waterloo, which will be in the vicinity of the company's various Kitchener plants.

Motor Cars.

One Big Feature About My Business

IS THE VERY large open air SALE YARD;
CARS OUT IN the open, where you can see all round them, and ready for demonstration on a second's notice.
ANOTHER BIG FEATURE
IS MY PLAN of selling "as is" or "as shown and demonstrated" unless I can show bona fide list of new parts supplied and work orders showing actual time spent on each car represented as having received mechanical attention.
IT'S ONE THING to mark order "sold as it stands," "as is" or "as shown and demonstrated," and another thing to advertise that way.
I DON'T HESITATE to advertise that I sell cars on the above plan, because if I could not do so I would not be in the used car business.
I KNOW THE difference between a good used car and a poor one, and it's only a matter of price between the two.
I CANNOT sell you a perfect car for a song, and don't want to try to make you believe that I can.
WHEN YOU BUY a used car take the trouble to read your order.
MY ORDER BLANKS are all printed "as shown and demonstrated," and salesmen are requested to call your attention to same.
AS INFERRED ABOVE, when I cannot come out "flat-footed" and let the public know "just where to find me," then I will close up shop.
REMEMBER THIS: I do not represent cars as overhauled unless overhauled according to the standard of the term as understood by the trade.
I FIND THAT my plan of showing list of parts and time sheets appeals to the public in a very definite way.
YOU ARE INVITED to bring independent mechanic of your own choice to examine any car I offer for sale, and if he finds any fault that I do not point out while talking sale I will pay him $5 (five dollars). If you care to find out whether or not I have cars worth while come and look over the 165 in stock.
QUALITY according to price.

THEATRE LOCKOUT MAY BE GENERAL IN PARIS

Paris, Sept. 7.—A delegation from the Federation of Actors' and Theatrical Employes met with representatives of the Managers' Association yesterday, but found an agreement impossible, according to an announcement, as a result of the renewal of the theatre lockout on the part of certain managers. The management says the federation is awaiting events and is "taking all steps in conformity with the decision reached on September 3," when a committee was chosen to decide upon some means for enforcing the granting of claims presented to the managers.

Following the strike of orchestra players, three vaudeville managers, with the directors of several cafe concerts and moving picture houses, declared a lockout tonight. It is said that the theatres of the city will probably follow their example on Monday or Tuesday.

WHOLESALE FRUITS AND VEGETABLES

Receipts were heavy on the wholesales Saturday and as the afternoon train was late (as usual) in arriving some of the offerings had to be sold at lower prices, in order to effect a clean up.

Peaches—Six-quart baskets ranged from 65c to $1.15, with an odd one of extra fine quality in lenos bringing $1.25, and elevens from 75c to $1.75.

Pears—Low-grade pears were extremely difficult to dispose of at low prices; good varieties of choice quality selling well; the range was from 35c to 75c per six-quarts, and 40c to $1.25 per 11-quarts.

Tomatoes—Receipts were especially heavy and prices slightly lower, namely, 25c to 35c per 11-quart flats, and 40c per 11-quart lenos; a few extra choice reaching the 50c.

H. J. Ash received a car of California Elberta peaches, selling at $1.75 to $2 per case; domestic peaches at 85c to $1.10 per six-quarts, and $1.25 per 11-quarts flats; grapes at 45c to 50c per six-quarts; pears at 50c to 75c per 11-quarts; tomatoes at 30c to 35c per 11-quart flats, and 40c to 50c per 11-quart lenos; corn at 15c to 16c per doz.; choice red peppers at $1.50 per 11-quarts; eggplant at $1 per 16-quarts.

Farm Produce.

There was a brisk trade for all kinds of farm produce at the St. Lawrence market on Saturday at prices much the same as those obtained during the previous Saturday.

Butter was a much better trade, while eggs were steady. Poultry was a fair trade, but the supply was not large. The supply of vegetables was large, but most sellers had disposed of their holdings by around two o'clock. Following are the prices at which the bulk of the produce was sold:

Butter, Eggs and Poultry.

Butter—57c to 70c per lb; bulk selling at 62c to 65c.

Eggs—60c to 70c per doz.; bulk going at 60c to 65c.

Dressed poultry:

Chickens—35c to 45c per lb.; bulk at 40c.

Fowl—33c to 38c per lb.

Ducks—30c to 40c per lb.

WORK AT DAVIDSON

F. C. Sutherland & Co., in their weekly market letter say of Davidson Consolidated: A frontage of 20 feet is reported made in the cross-cut at the 600-foot level since our last report. The cross-cut has been advanced a total distance of about 40 feet, and should enter the ore body in another 10 feet. This seems to dispose of the theory that the angle of inclination would be considerably altered at this depth, as it seems that the vein system continues at about the same angle as shown on the 500-foot level. Consequently the distance from the shaft to the ore at 600 feet works out at around 50 feet. It will therefore be a matter of a few days more to reach this ore.

TRADERS AWAIT REPORT ON CORN

Fluctuations at Chicago Irregular and Numerous, But Not Wide.

Chicago, Sept. 6.—Uncertainty as to the character of the government crop report, to be issued on Monday, had a tendency to make the corn market today unstable. Fluctuations, however, altho irregular and numerous, were not wide. The close was nervous, varying from ½c net lower to 2½c advance, with September $1.64 to $1.64¼, and December $1.31⅜ to $1.31⅝. Oats finished ⅜c to ¾c higher, and provisions at 22c decline to a rise of $1.75.

Reports have suggested but little change in the crop outlook during August, but traders on both sides of the corn market were disposed to avoid any chance of speculation on the government's new figures. Besides, there was much mixed opinion as to whether corn would go further in an approach to prewar levels, unless accompanied to a great extent by other commodities, than has been the case of late.

The fact that sterling exchange today had fallen to a new low record exercised at times a noticeable contrary influence. Improved demand from eastern shippers gave a relative firmness to oats.

Provisions averaged higher owing mostly to packers buying.

SOME MATERIAL GAINS ON MONTREAL MARKET

Montreal, Sept. 7.—Considering the generally weaker trend in the market at New York, there was a very encouraging tone to the local market here Saturday, few stocks finishing the day on the lower side of the market, and several issues scoring substantial gains.

Trading was fairly active, and, altho the Spanish River common furnished about a third of the total dealings, trading elsewhere was well distributed.

About two thousand shares of Spanish River common sold up to its previous high for the year, at 46, with the close at 45⅞.

The continued absorption of Spanish River common at higher prices, and the strength in some of the other paper stocks, were features in Saturday's session. About 2000 shares of Spanish River were dealt in, the price reaching its previous high for the year, at 46, and closing at 45½, a net gain of ¼ point. The preferred added ½ point, at 109½.

The steels were irregular, Iron adding ⅛ point, at 67, and Steel of Canada losing ½ point, at 68½.

Among the larger gains were one of 3½ points for National Breweries, at 173½; 1¾ for B.C. Fishing, at 62¾; 1 for Dominion Glass, at 58; 1 for Breweries preferred, at 100, and 1 for Quebec Railway, at 19.

There was little feature to the trading in bonds outside of a generally easier tendency.

DULUTH-SUPERIOR EARNINGS.

Gross earnings of the Duluth-Superior Traction Company for the month of August amounted to $171,079, an increase of $29,114, or 20.5 per cent.

EXTREMELY RICH ORE MINED IN McINTYRE

Ore Shoot at 1,100-foot Level, Said to be Richest in Camp.

Special to The World:

Timmins, Sept. 6.—Advance information on the McIntyre's annual report, which will come out next week, is to the effect that it will have some exceedingly bright news. Very spectacular values are being developed out of an ore shoot on the 1100-foot level. This ore shoot is 800 feet long and 30 feet wide. It is stated to be the richest, big shoot in the camp. Profits from it should be two or three times those now being obtained. Values of millheads now run about $17 a ton.

McIntyre is now treating 40 tons of plenaurum ore daily, getting it from the 200 and 300-foot levels. Water troubles practically stopped work on the 1,000-foot level.

A new tube mill is being installed to handle the new class of ore that is coming up, this ore contains sulphides that require finer grin
