THE GUELPH HERALD

MONDAY EVENING, FEB. 12, 1883.

THE CANADIAN PACIFIC.

The Globe has got a fresh grievance, and it is this: "THE BUILDING OF THE ROAD AT "SUCH EXCESSIVE SPEED IS INJURIOUS TO THE "COUNTRY, IN THAT IT SCATTERS SETTLEMENT "INSTEAD OF CONSOLIDATING IT."

Sir John Macdonald was abused to the utmost for undertaking to have this road built in ten years, as it was an utter impossibility to get it done in 20 years; but now that the work is progressing so rapidly that we begin to feel the beginning of the end within a very limited time, the poor Premier must catch it for not having inserted a clause in the Speech from the Throne "as it should have been," "that the road was being built far too "rapidly. It is quite impossible to follow the various objections, changes of base and twistings of the Globe and the Grit party on the question of the Pacific railway. There is hardly a position possible that they have not taken and abandoned. Another great objection to the scheme at first was that the road never could be built out of the resources of the country; that Canada never could borrow enough to pay for a couple of hundred miles a year; but when a thousand miles are paid for and no money is required to be borrowed at all, and instead of having deficit after deficit as used to be the case under Sir Richard Cartwright's management, now that we can pay all our debts as we go along, and report seven millions of dollars surplus, oh! we are robbing the people. The people, however, seem to be quite satisfied, and last June reaffirmed their satisfaction with the state of the country in the most unmistakeable manner. Everyone who supported the Federal Government on that occasion, and prevented by their votes an upheaval of all business relations throughout the country, should now vote for the overthrow of the most bitter opponents of the National Policy and the enmies of Canada.

THE NEW HOUSE OF COMMONS.

The House is composed as follows:—

	Min.	Opp.
Ontario	55	37
Quebec	53	12
Nova Scotia	14	7
New Brunswick	9	7
Prince Edward Island	3	3
Manitoba	2	0
British Columbia	6	
Total	142	70

Government majority, 72.

The old and new members are divided as follows:—

	In last Parliament.	In former Parliament.	New Members.
Ontario	50	3	39
Quebec	45	1	19
Nova Scotia	9	6	6
New Brunswick	10	3	4
Prince Edward Island	3	1	3
Manitoba	2	0	3
British Columbia	3	0	3
Totals	122	13	77

In this division Sir John Macdonald is counted for Lennox and Carlton, and Messrs. Robertson and McDonald are both counted for Kings, P. E. I. Of the thirteen gentlemen who were not in the last, but in some previous Parliament, the most noticeable are Hon. Peter Mitchell, of Northumberland (Ministerialist), and Hon. W. B. Vail, of Digby (Opposition).

The Montreal Witness is a great admirer of the Mowat Government and of the Crooks Act but it has the candor to admit the blot in its administration. It says: "In probably two-thirds of all the counties in the Province every member appointed to the license board is a member of the Reform party, and a large proportion of them are very active men in party ranks. So far as we can learn every License Inspector appointed is a reformer, and in a large number of cases the appointments seem to have been made more with a view of rewarding men for past party service than with that of special adaptation of the men for their work. It would have been much better for the success of the Crooks Act and much more to the credit of the Mowat Government had the appointments been otherwise made."

Toronto.

TORONTO, Feb. 10.—George West alias John Hart, claiming to have come from Hamilton, but set down as from the States by the magistrate, was fined $20 for being drunk a causing a disturbance in Niblett's hotel last night. During the melee West threw a heavy stone spittoon at the old man who was trying to eject him, inflicting a nasty cut above the right eye. Luckily for West he was not indicted for this assault or it would have gone hard with him, prisoner having thrown the missile, which, however, he intended for some one else.

James West Samuel, claiming to be a Glasgow councillor, who had left the old country to speculate in Canada, has evidently been unsuccessful, being unable to pay a fine of $5 inflicted for drunkenness this morning and going down for three days in default. The old gentleman seemed quite at home in the police court, and would have gone on chatting pleasantly concerning his private affairs had not the sentence brought him to time.

A general improvement in railroad travel is reported this morning, though it will apparently be some time before matters can assume their ordinary course. The lines most affected appear to be the Grand Trunk branches running north; the Northern branch lines; the Midland above Peterboro' and north to Midland, and the Toronto, Grey & Bruce, which has five hundred men at work endeavoring to clear the track.

At the St. Lawrence Ward nominations to-day Messrs. J. G. Beard and George George Leslie, jun., were brought out as candidates for the office of Alderman, made vacant by the resignation of Ald. Hallem.

Pinkeye is epidemic among the street car horses.

This afternoon ex-Ald. Allan was elected Alderman for St. David's Ward in place of Ald. Booth, resigned.

EPP'S COCOA—Grateful and Comforting—"By a thorough knowledge of the natural laws which govern the operation of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever their is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.—Made simply with boiling water or milk. Sold only in Packets and Tins (½lb and lb.), by Grocers—labelled: "James Epps & Co., Homœopathic Chemists, London, Eng."—Also makers of Epp's Chocolate Essence.

FITS A Leading London Physician established an office in New York for the cure of EPILEPTIC FITS.

From Am. Journal of Medicine.

Dr. Ab. Meserole (late of London), who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any other living physician. His success has simply been astonishing; we have heard of cases of over 20 years' standing successfully cured. He has published a work on this disease, which he sends with a large bottle of his wonderful cure free to any sufferer who may send their express and P. O. Address. We advise any one wishing a cure to address Dr. AB. MESEROLE, No. 96 John St., New York.

—THE—

Pacific Northwest

Oregon, Washington, and Idaho.

OFFERS THE BEST FIELD FOR Emigrants, viz.:—a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

No Droughts, No Insect Pests, No Hurricanes, Whirlwinds, or other Destructive Phenomena.

The Lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R. R., the Oregon Railway and Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway & Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.
