PIMPLES

Appeared On His Face and Hands

The primary cause of pimples arises from the blood not being in a good condition. When the blood becomes impure you will find that pimples will break out all over the body, but more particularly on the forehead, nose and chin, and although they are not a dangerous trouble, they make you appear unsightly both to your friends and yourself. What you need, when these pimples break out, is to get a real good blood purifying medicine such as Burdock Blood Bitters. One that will build up the system by cleansing the blood of all the impurities and poisons which cause the skin to break out in these eruptions.

Mr. F. A. McKenzie, Portage la Prairie, Man., writes: "Last summer I was all rundown and unfit for work of any kind. All kinds of food seemed distasteful to me. Pimples appeared on my face and hands, and I seemed to grow worse every day. One day a friend advised me to try Burdock Blood Bitters. Half-heartedly I did so, and the results obtained were marvellous. I regained my health, I took on flesh, and in a short time the pimples and skin eruptions disappeared entirely; thanks to the healing powers of B. B. B. I freely recommend it to all sufferers."

B. B. B. is manufactured only by The T. Milburn Company, Limited, Toronto, Ont.

FOR WOMEN WHO HATE ROUGE

A TOILET HINT.

Ladies who suffer from pale, sallow, bad complexions, yet who quite naturally object to the "loud," coarse and "made-up" appearance almost inevitably associated with the use of rouge—which also, by the way, is often distinctly harmful to the complexion—will be interested to learn that they can easily regain the velvety, child-like freshness of their complexions by using a simple inexpensive lotion composed of 2 ounces of rosewater, 1 dram tincture of benzoin and 2 ozs. of flowers of oxzoin. Shake well before applying with soft cloth or sponge. When dry brush lightly with a soft cloth or a piece of chamois skin. If you will do this whenever you go out you will always have a soft, natural, refined color, of which your friends cannot be suspicious, and of which you need not be ashamed. This lotion is also exceptionally beneficial in relieving and preventing chapped faces and hands, as well as redness due to exposure to winter weather. J20,23

To Keep Your Skin Free From Hairs

(Beauty Topics.)

If you are willing to spend a few minutes' time in your room using a delatone paste, you can easily banish any ugly, hairy growth without discomfort or injury. The paste is made by mixing some water with a little powdered delatone. This is then spread over the hairy surface and after about 2 minutes rubbed off and the skin washed. You will not be disappointed with this treatment, providing you get real delatone.—advt J20,F24

METHODIST CAUTIONS IN MARRYING SOLDIERS

Head of Methodist Church Issues Warning to Clergymen.

TORONTO, Jan. 19.—Rev. Dr. Chown, general superintendent of the Methodist Church, has issued a statement on the question of the marriage of men already enlisted in the Canadian expeditionary forces, in which he says:

"It is highly desirable that such marriages shall not interfere with the relation of the bridegroom to the army. You are aware that, according to present military regulations, the wife has the privilege of withdrawing her husband from the forces. It would, therefore, be clear that a man, through his marriage, may be prevented from proceeding overseas. On this account I desire to urge that any of our ministers, before celebrating the marriage of any soldiers, will see that the written permission be obtained from the bride for the bridegroom to fulfill the terms of his enlistment, and that the permission of the commanding officer is presented, in order to make the marriage altogether regular."

[Special to The Advertiser.]

DETROIT, Jan. 19.—Fred Fuller, of London, Ont., is locked up on a charge of burglarizing the hardware store of J. W. Draper, and Miss Viola Meech, 20-year-old sister-in-law of Draper, played a most important part in the capture of the burglar by "tackling" Fuller as he dashed through Campbell avenue, fleeing from the store.

Fuller had entered a back window of the Draper store while Draper and his family were at supper in their home.

Towns Are All In Norfolk

The towns of Yarmouth, Sandringham, Kings Lynn and Cromer are all situated in the province of Norfolk, which abuts the North Sea about 150 miles northeast of London.

Yarmouth, known as Great Yarmouth, and Cromer are favorite water resorts, while Sandringham contains the country palace of the late King Edward. Kings Lynn is a seaport and market town. It contains ship building yards, iron foundries, machine factories, oil mills and other industries.

If the aircraft, which made the attack, were the same ones that passed over the island of Ameland, they probably started from the vicinity of Cuxhaven. In this case they would have had to fly about 150 miles across the North Sea to reach England.

FRENCHMAN SHOOTS WIFE WHO DISOBEYS

She Would Not Leave Him At General's Orders, So Died.

PARIS, Jan. 13.—(Correspondence)—The second courtmartial of the entrenched camp of Paris will soon judge the case of Captain H——, accused of homicide. Captain H—— has a wife and three children to whom he is particularly attached, but the former seems to have signally hindered his military career by reason of her refusal to be separated from him under any circumstances.

When the war broke out she went to the south of France, but learning one day that her husband was with his regiment at Compiegne, she took the first train for that point. This was at the time when the general-in-chief issued a circular prohibiting all officers and soldiers from receiving their wives during the campaign. His superior officer remonstrated with Captain H——, remarking that he was compromising his promotion, and also was likely to spoil his chances for the Cross of the Legion of the Honor. The captain tried to bring his wife to a reasonable view of the situation, but she continued to delay her departure. A new warning was given to the captain, without effect.

When the third warning came the captain was told that he must act without delay or he would be cashiered. Again he supplicated his wife to return to the south of France, which she refused to do, and in a moment of great mental excitement, fearing dishonor and degradation, he shot the woman he loved.

The captain will be defended before the courtmartial by the eminent head of the Order of Advocates, Henri Robert. In the meantime he is being subjected to examination as to his mental condition.

POULTRY AND GRAIN THIEVES AT WABASH

County Police Unable To Cope With Activities of Miscreants.

[Special to The Advertiser.]

Wabash, Jan. 19.—An epidemic of poultry and grain thieving has broken out in different parts of Camden and Chatham townships. Already this winter scores of chickens and other fowl have been stolen, in addition to grain and other farm produce. The raids on chicken coops are becoming a regular occurrence, and the activity of the county police, in arresting the thieves, has not had the desired effect.

KING'S LYNN STREETS ARE PAVED WITH GLASS

Result of Airship Raid—Two People Killed and Buildings Damaged.

[Canadian Press.]

King's Lynn, Eng., Jan. 20—Via London, 11:29 a.m.—The streets of King's Lynn are this morning virtually paved with glass, and souvenir hunters have been picking up pieces of bombs.

An outstanding feature of the raid appears to have been the skill with which the German airmen, in the darkness, followed their routes and dropped bombs in the vicinity of King George's house at Sandringham and Queen-Mother Alexandra's bungalow at Smettisham, as well as at the docks, waterworks and railroad station here and at the Grimston ammunition depot.

Damaged Engine-House.

According to the police, the raiders circled twice over King's Lynn and dropped bombs in the neighborhood of the railroad station and the docks. Three missiles fell close to the station and wrecked the sheds in which the royal railroad coaches were housed. One or more bombs were dropped along the waterfront among the docks, and damage was inflicted on the hydraulic engine-house.

The dense darkness and the slight mist which prevented effective pursuit of or successful shooting at the raiders also hindered them in their efforts to reach some of their apparent objectives, and also to aim their bombs with the maximum of accuracy.

Two Killed.

Thus the visit to Sandringham, which King George and Queen Mary left at 10 o'clock yesterday morning, was not effective, although some bombs were dropped in the vicinity of the royal residence.

The casualty list at King's Lynn, so far as is known this morning, is two persons killed and four injured. They all were in a group of houses on Bentinck street, which was wrecked by one bomb. The police are still searching the ruins.

The casualties at Yarmouth are two killed and one injured. There is still a difference of opinion here as to whether the German raiders came in aeroplanes or in seaplanes.

RUSSIANS SILENCE GERMAN BATTERIES

Heavy Fighting Along Vistula and at Village of Konopi.

[Canadian Press.]

Petrograd, Jan. 20.—An official communication issued by the grand staff of the Russian army indicates considerable activity and fighting on the right bank of the Lower Vistula. The statement follows:

"During the 17th and 18th of January, on the right bank of the Lower Vistula, upon the front running from the river to the railroad from Warsaw to Mlawa, a portion of our troops, having come in close contact with the enemy, had a series of collisions of secondary importance.

"Fighting of a more grave character, though having the nature of separate actions, took place in the village of Konopki, where the heavy artillery with which the enemy bombarded us was silenced by the fire of our batteries, and near Bodzanow and Bejounia, opposite which the enemy occupied well-organized defensive positions.

More Heavy Fighting.

"Heavy fighting also occurred near Dobrzyn, where an offensive attempt of the Germans was blocked and the enemy was driven back, sustaining grave losses.

"During the day of January 17, the enemy bombarded, from his positions on the west bank of the Vistula, our lines near Wyszorgrod, but our fire, directed upon his front and flank, silenced the German artillery.

"On January 18, the Germans violently cannonaded the village of Vitkovitze and the entrenchements occupied by us on the left bank of the Bzura.

"There is no material change on the other fronts."

GERMANS PROTEST

Socialists Object To Publication of Their Internal Strife.

[Canadian Press.]

Amsterdam, via London, Jan. 20.—An official statement issued by the Socialist party board at Berlin complains that the foreign press is continually publishing letters whereby foreign Socialists are led to believe that there is strife in the Socialist ranks in Germany over the war situation.

"Badly-informed correspondents," the statement says, "exaggerate paltry occurrences and hush up the really important facts."

INDIANS STIRRED BY TROOPS' SUCCESS

LONDON, Jan. 19. — (Through Reuter's Ottawa Agency.)—A special dispatch from Delhi says:

All India re-echoes the tribute paid by his excellency the viceroy, at the recent opening of the council, to the commander-in-chief of the army in India. The work of the military department is regarded as splendid. Large numbers of Indian reserve officers are offering to serve with the Indian regiments.

Recruiting for the Indian army continues with remarkable enthusiasm. The fighting races have been greatly stirred by the news of Indian successes at the front. Indian wounded who have returned are most enthusiastic in their praise of the kindness and attention which they have received while in Europe. The volunteer movement has been given great impetus throughout the country, and useful gifts to be forwarded to the combatants and the sick are being received daily.

BELGIAN WHO SAVED KING IS RETURNING

MONTREAL, Jan. 19.—Two heroes of the Belgian army, who have already suffered wounds while fighting in defence of their country, left today with the latest contingent of Belgian reservists returning to face the German fire once more. They were Eugene Geanmenne, Montreal, and Alfred De Jong, of Verdun.

De Jong wears a decoration bestowed on him by King Albert of Belgium, for service rendered his country, he being the man who brought the king warning of the German advance on Ostend. The king was in command of 16,000 Belgians, and as a consequence of De Jong's warning, left Ostend before they had arranged, and avoided capture.

The Kingsway came into this port yesterday in a damaged condition, having struck the rocks at Point Santa Elena.

All the Canadian Troops Will Soon Be In France

MONTREAL, Jan. 19.—A special cable from London to the Montreal Evening News says:

"The Canadian troops from Salisbury Plain began moving to France at the week-end. It is assumed that probably the greater part of them have already landed there and that the movement will be completed within a few days.

"That they will immediately go into the firing lines is not, however, likely."

PORTUGUESE FIGHT GERMANS IN AFRICA

Heavy Losses on Both Sides—No Declaration of War.

LISBON, Jan. 2.—(Correspondence)—Portugal is today in a singular situation in reference to the great war. German forces have invaded Portuguese Angola, and fighting has been going on there between German and Portuguese forces for a couple of months. Yet Germany has not declared war on Portugal; the German minister remains in Lisbon, and the Portuguese minister in Berlin.

An official casualty list gives Portuguese losses in Angola, which is on the western coast of Africa, as one officer killed, six wounded, and one taken prisoner. The number of casualties among the soldiers is not mentioned, but unofficially it is said that the Portuguese have lost about 800 all told in killed, wounded and prisoners.

Fresh Troops Going.

On the other hand, the Portuguese have killed, wounded or captured about 200 German cavalry men. Fresh Portuguese troops numbering about 4,000 are ready to embark for Angola. Some orders for equipment have been placed in the United States.

The German legation here is well guarded day and night. The Portuguese Government has notified all Germans residing in Portugal that they must report regularly to the local authorities, ostensibly to protect them from the strong anti-German feeling among the inhabitants.

German pamphlets in Portuguese, which have been coming from German agencies in Spain, are no longer allowed to be distributed.

NO LIMIT TO NUMBER OF AUSTRALIAN TROOPS

German Officer Arrested as Spy, With Maps In Possession.

[Canadian Press.]

Melbourne, Jan. 20.—Via London. — The seat of the commonwealth government has been transferred temporarily from Melbourne to Sydney.

Minister of Defence Pierce has declared that there is no limit to the number of troops the Australian commonwealth will send to the front.

A German lieutenant has been arrested at Cloncurry on a charge of esponiage. Plans of wireless plants and maps of various ports of Australia were found in his possession.

NO EXPLANATION.

[Canadian Press.]

London, Jan. 20—12:40 p.m.—The brief announcement from Melbourne of the transfer of the seat of the Commonwealth Government from Melbourne to Sydney finds no explanation in London. The high commissioner of Australia in London, Sir George H. Reid, says he is unable to throw any light on the move, unless it be connected with the question of defence, Sydney being the main centre of the naval and military forces of the Commonwealth.

GERMANS HAVE MEAT

Killing Off Their Cattle Because of Scarcity of Fodder.

[Canadian Press.]

Amsterdam, via London, Jan. 20.—A dispatch to the Telegraaf from Beverwyk, in the north of Holland, states that the export of fresh butchered meat to Germany, which has been heavy for several months, has ceased, owing to the lack of demand. Presumably Germany is butchering its own cattle freely, the dispatch declares, owing to the high price of fodder.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Thick.

The old-time mixture of Sage Tea and Sulphur, for darkening grey, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the grey hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling hair.

ACID STOMACHS ARE DANGEROUS

Common Sense Advice by a Distinguished Specialist.

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisurated magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause distress may be eaten with impunity if the meal is followed with a little bisurated magnesia, which can be obtained from any druggist, and should always be kept handy.

To Keep Skin Healthy, Youthful, Wrinkleless

Now that the social season is here, be especially careful to keep your skin in fine condition. You know how conspicuous complexion defects appear under the bright light of the drawing or ball room. Also how very evident are some makeups when similarly illuminated. I have myself discarded cosmetics entirely, using a process which gives far better results, and which leaves no trace on the skin. At night I smear on a thin coat of ordinary mercolized wax, washing it off next morning. This gradually absorbs the devitalized particles of surface skin; just as gradually the more youthful skin beneath comes forth, providing a complexion as clear, smooth and delicately tinted as a young girl's. Get an ounce of mercolized wax at your druggist's and try this remarkable treatment.

Remember, too, that wrinkles, even the finer lines, are not easily concealed in a brilliantly-lighted room. You can quickly obliterate these hateful marks by bathing your face in a solution of powdered saxolite, 1 oz., dissolved in witch hazel, ½ pint. And your face won't look sticky, as after using pastes. —Aunt Sally in Woman's Realm.—Adv.
