The Work of the Kidneys

Every drop of blood in your system has to pass through the Kidneys; they are the great filters of the body. If they are in good condition, blood that comes to them loaded with impurities and poison, leaves them pure and rich. If they are not in good condition, they allow this impure blood to be sent all over the body again. The result is, the whole system is poisoned and stomach, liver and bowel troubles, headache, dizziness, pimples, sallow skin, bad breath, and that tired feeling, make life almost unbearable.

Wheeler's Botanic Bitters

will clear out the system, purify the blood, and restore the various organs to their original shape.

Get one bottle from your druggist. He sells it for 25 cents (full 6 oz. bottle).

SCHOONER MADE A RECORD TRIP

Wednesday, June 22.

After eclipsing all records for sailing vessels out of this port for the trip to Barbados and return, the little Nova Scotia schooner Lilly B. Hirtle, Captain Archie Gildert, arrived in port yesterday, having accomplished the round trip in the remarkably quick time of 36 days. The schooner made the time loaded each way. Generally six weeks is considered a good trip.

She has a cargo of molasses for Percy B. Evans and is consigned to J. Willard Smith. The Hirtle was built in Lunenburg, N. S. about nine years ago and is owned there by the Atlantic Fish Company. She is but 99 tons.

To clean and polish old copper coins which have become badly coated with dirt and oxide boil them in a strong aqueous solution of caustic soda, rinse in soft water and polish with a little putty powder, rouge or tripoli.

WHEN THE NERVES GO WRONG

If an engineer tried to run a ten horse-power engine with a ten dog-power boiler, the result would be a catastrophe. Yet many men and women do practically this very thing, by overtaxing their tired brains and shattered nerves.

When the nerves go wrong, only rest and a good bracing tonic can bring you back to health.

Imperial Peruvian Wine is nature's tonic for tired nerves and run-down bodies. It is a combination of pure Port Wine and Peruvian Bark and will bring the roses back to faded cheeks. Try a bottle. Manf'd by the Baird Co., Ltd., Manf'g. Chemists, Woodstock, N. B., and sold by all good dealers for $1.00 per quart, or 60 cents per pint.—10c.

FIGURES THAT TELL STORIES.

SOURCES OF IMMIGRATION.

CANADA welcomed to her shores, in the year ending March last, 208,794 immigrants, grouped by nationalities as shown in the pictures. This figure is the next highest to the record year 1907-08, when there were 262,469 arrivals. A study of the tides of immigration to Canada for the period from 1900 to the present reveals several interesting features. The fiscal year 1901 would show the order of precedence to be Continental, American, and British. In the fiscal years 1901 and 1902 more immigrants came from the Continent than from British channels, and, in the fiscal years 1901 to 1903, more Americans arrived than British. In 1904, British immigration captured first place, with the United States second, and retained the leadership until 1908; but, in 1909, the United States again overtook Great Britain and still holds first place. Another interesting feature is that the waves of immigration recede every second year—except in the case of the United States immigrants—only to achieve greater proportions in the succeeding year. For instance, the variations in British immigration are, for the five years since 1905: 65,359, 86,796, 55,791, 120,182, 52,901, and 63,757. Continental immigration has ebbed and flowed similarly, and the United States showed the same characteristics until 1908, but since then she has not receded, but increased.

ENFORCING SCOTT ACT VIGOROUSLY IN CHATHAM

Pocket Peddler and Man Who Bought Liquor for Another Fined $50 Each -- North Shore Contingent for Camp Sussex.

Chatham, June 21—The enforcement of the Scott act is being carried out quite in keeping with the wishes of the police committee, whose views on the matter are of a most decided nature. It has proven practicable to keep the town reasonably clear of the selling of liquor.

A meeting of the police committee was held last week. The chief of police and the four patrolmen were present and were instructed that their vigilance in enforcing the act was to continue without cessation or slackening. It was stated by a member of the committee that the movement is not a temporary one, but that the act will be enforced permanently.

At the police court last week John Savage was fined $50 for purchasing a bottle of gin for another. In default of payment he was sent to jail for one month.

Edward Haley was fined a like amount on Saturday for a similar offence.

Cases against George Morris and Allan Mann were dismissed for lack of evidence.

William Dickens was, on Monday, fined $50 and $8 costs for a first violation of the Scott act. The evidence showed that the liquor was sold by the defendant in the manner known as peddling.

The 73rd Northumberland Regiment will be represented at Camp Sussex by a regimental staff of nine officers, fifty-nine non-commissioned officers and men and eight companies of three officers and thirty-nine men each. John Kelly, of St. John, government inspector of lighthouses, was in this section last week making an inspection of the alterations being made in the light at Escuminac. Mr. Kelly also gathered some information in regard to the need of a light at Tabusintac beaches, where a Norwegian ship was wrecked last fall and where the schooner Harold C. Berry was wrecked this spring.

Among the teachers who will attend the teachers' institute at St. John are Miss Anna Hildebrand and Miss Tessie Gallivan. Principal C. J. Mersereau, of the High school, will be present for the opening but will be obliged to leave to attend Camp Sussex.

Dan McDonald and Eddie Berry competed in a wrestling match at the Palace theatre last night. McDonald secured the first fall in eighteen minutes but was obliged to give up the contest in the second bout owing to a sprained wrist. Berry was given the decision.

CANADIAN NAVAL SHIPS CANNOT BE BUILT ON THE LAKES

Treaty With United States Forbids It—Call for Building Ten Vessels Will Be Made in About a Month—Will Follow British Practice, and Tenders Will Be Asked Privately.

Ottawa, June 21—The naval department is now co-operating with the British admiralty in preparing the plans and specifications for the first ten new vessels of the Canadian navy, and it is expected that in the course of a month or so the department will be ready to submit these plans to representatives of Canadian and British shipbuilding firms for private consideration on which to base tenders for construction.

Owing to the fact that designs of new warships are always kept as secret as possible, by the admiralty, which has always objected to making specifications public, the same practice will have to be observed in Canada. Consequently there will be no public call for tenders or advertisement of
