THE CHARTER OAK IS THE BEST.
WHY?

Because it has the heaviest Castings and the largest flues, hence will outwear any other Stove made and will draw where many others fail.
While these features are well worthy of consideration by all who think of purchasing a new Stove, we would direct special attention to the
WIRE GAUZE DOOR
As i the advantages to be derived from its use. These are so manifold that it is impossible for us to mention them in the limited space of our column.
To those who may call it will afford us pleasure to expatiate on its desirability. To those who cannot we shall be glad to supply circulars explaining fully the advantages possessed by this door.
The largest foundry in the United States is engaged in turning out Charter Oaks at the rate of 400 daily, and with this enormous output are barely able to supply the extraordinary demand. This proves more than anything else can do its great advantages, and the appreciation of the public for a good thing.
The Wire Gauze oven door is unquestionably the greatest invention of modern times in connection with the Stove trade.

ELLIS CONTEMPT CASE.

JOHN VALENTINE WILL HAVE TO GO TO JAIL.

The Supreme Court Dismisses his Appeal with Costs.

[SPECIAL TO THE GAZETTE].

OTTAWA, March 18.

To-day the Supreme Court gave judgment in the case of John V. Ellis, appellant, and Baird respondent, dismissing the appeal of Ellis, with costs.

The matter arose out of certain articles published in the Globe newspaper in March 1887, reflecting on Judge Tuck for granting an order nisi for a suit of prohibition to prohibit Judge Steadman from holding a recount of the votes in the Queen's election, in which Mr. Baird was declared elected as being the only candidate legally nominated. In April following, rule nisi for contempt of Court was granted against Ellis by the Supreme Court of New Brunswick which was after agreement made absolute. A writ of attachment was then issued against Ellis and he was taken to Fredericton and entered into recognizances and there appealed to the Supreme Court of Canada at Ottawa. The case was argued there last October by L. A. Currey for Mr. Baird and Hon. L. H. Davies M. P. for Mr. Ellis. The court considered and gave judgment to-day in favor of Mr. Baird. Mr. Ellis will therefore have to come up for sentence on the second Saturday of Easter term, the 20th of April, and will probably enjoy the pleasure of spending both Dominion day and the 4th of July in jail.

LANGTRY'S ILLNESS.

She Is Threatened with Nervous Prostration, the Same Trouble with Which Mary Anderson Is Now Suffering.

[New York Sun.]

Is Shakespeare proving too much for our female stars? Two prominent exponents of the leading tragic roles have become prostrated during the week. There used to be an old theatrical adage that Shakespeare spelt pecuniary ruin. Is it possible that the ruin now means physical dissolution?

Miss Mary Anderson succumbed to the strain of depicting of Hermione's wrongs, and Perdita's youthful abandon, after a lengthy season, and has been compelled to rest for a time under the charge of Dr. Weir Mitchell. Although suffering from a mild attack of nervous prostration, Dr. Mitchell predicts that Miss Anderson will soon be able to again entertain the American public at the usual rate of $3 per head. He feels so sure that her recovery is permanent that the box office will shortly be opened for the sale of tickets for two weeks in advance.

Mrs. Langtry is the latest to succumb, and is now confined to her artistic home in West Twenty-third street. Her doctor H. Holbrook Curtis, has absolutely forbidden her to play out the week at the People's Theatre where she is billed. This is most unfortunate from a box office point of view, as Mrs. Langtry has been drawing enormous houses during the earlier part of the week.

After discussing the matter with her regular physician and consulting with Dr. Curtis, the throat specialist, it was deemed advisable that the latter should perform an operation.

Accordingly on Sunday March 3, Mrs. Langtry underwent the ordeal. The affected part was treated with cocaine, and Dr. Curtis then performed what is termed the deviation of the septem, which caused total occlusion of the nostrils.

The completion of the operation will be the destruction of the enlarged soft tissues by chromic acid. This takes some time and is extremely painful. The diseased tissues come away in the form of slough caused by the action of the acid. Cocaine affords but little relief, as its effect is only temporary, while the action of the acid is slow and prolonged.

While acting in Harlem, Mrs. Langtry caught cold, in addition to which an acute attack of tonsilitis set in. Despite these numerous ailments Mrs. Langtry determined to keep professional engagements.

For some time past Mrs. Langtry has been suffering with a catarrhal affection. About two weeks ago it became so serious that she was utterly unable to breathe through her nose. Despite the great inconvenience, she was compelled to continue acting, the result being that she became extremely nervous.

Her trouble was greatly increased by her trip West, where the alkaline dust seriously aggravated the disease. It is a remarkable fact that the throats of English people are particularly affected by it, and in some parts of the West, particulary St. Paul and St. Louis, great numbers are suffering with throat trouble in a greater or less degree caused by this irritating dust.

Wednesday she was in a very nervous condition, and against her doctor's advice persisted in acting. The attempt was too much for her and all Thursday she remained in bed.

At 6 o'clock she determined to dress and go the theatre. Her overtaxed nature, however, refused to stand this additional strain, and three times she fainted away. The management was at once notified of her inability to act, and the large audience that assembled had to be dismissed.

The doctor fears that unless great care is taken Mrs Langtry will succumb to an attack of nervous prostration, with which she is at present seriously threatened. Throughout the entire affair Mrs. Langtry has acted in the pluckiest way.

The operation was endured with Spartan fortitude, and her attempts to keep faith with the public have been little less than heroic.

It will be impossible for Mrs Langtry to act the remainder of this week, her physician having ordered absolute quiet and rest.

SHOT THROUGH THE HAT.

There was quite a lively time at Fairville Saturday night. A number of ice-men from Lindgate lake drove to town in an express wagon. On their way down they employed their time in drinking an extensive supply of bad whiskey, and by the time they had reached Fairville they were in a fair way for fight. They drove down the street at a breakneck speed singing and shouting and one more boisterous than the others whipped out a revolver and fired a number of shots, one of which passed through a window close by and another through Geo. Hatheway's hat. The several other shots did no damage. As yet no arrests have been made but warrants are out.

The steamer Lansdowne was unable to cross the bay today on account of bad weather.

THE SAMOAN TROUBLE.

Opinion of the New Zealand Press.

BY TELEGRAPH TO THE GAZETTE.

SAN FRANCISCO, Cal. March 18.—Both the Auckland and Sydney newspapers give great prominence to Samoan news. Their editorial comments are strong and bitter. The Auckland Herald says, "The Samoan trouble has unhappily presented the British people in a very unattractive light. It has produced a feeling of doubt as to the ingenuousness and disinterested character of the dealings of the imperial government with the colonies. It is quite apparent to us now that England basely bartered Samoa and other Pacific interests for the favor of Prince Bismarck, so that might be made to bear on British interests in Europe, and the duplicity with which America was treated by the two European conspirators has come out in dark colors.

What the Parisian Press thinks of his Speech.

BY TELEGRAPH TO THE GAZETTE.

PARIS, March 18.—The conservative journals declare that General Boulanger's speech at Tours last evening will not cause any modification in the attitude of the Conservatives. The Republican journals reproach Boulanger for overtures made by him to the clergy in his speech. The Republique Francaise says his speech was an insult to the Republic and demands it be answered in some way other than by treating it merely with contempt.

HIT HIM IN THE JAW.

The Husband of Cora Tanner Resents an Insult Offered His Wife.

MILWAUKEE, March 16. The loungers in the Plankinton Hotel lobby jumped to their feet as they heard a man shout: "Take that, you cowardly blackguard!" at the same time dealing another man a stinging blow. The speaker was Col. Sinn, husband of Cora Tanner, the actress. The person to whom the words were addressed was E. B. Putnam, a wealthy young man of Eau Claire.

Putman had been painting the town red and was much the worse for wear. He was standing in the lobby with a companion as Miss Tanner stepped out of the reception room on her way to the dining room for breakfast. With a half drunken leer, Putman pointed to the lady, saying to his companion, "Are you on?" The words were hardly out of his mouth before the fist of Col. Sinn, who was a few steps behind his wife, caught the speaker on the side of the jaw, and he went staggering across the floor.

The Colonel made no attempt to follow up his attack, but contented himself by giving the offender a tongue lashing Clerk Simpson and others rushed up and the author of the trouble was hurried off up stairs to his room where he remained until sober enough to leave. Miss Tanner escaped into the dining room during the fracas. The affair created no end of talk.

VICTIM OF BUNKO MEN.

Suicide of a Man Who was Fleeced by the Fraternity in Denver.

KANSAS CITY, Mo., March 17.—In the Union Station Hotel at 6 o'clock this morning Adalph Mafay, son of an exiled Hungarian noble and father of the teller of a bank in New York, committed suicide. Despondency caused by the loss of $8,800, acquired by many years of toil in Western mines, at a single sitting in an unfair gambling game at Denver brought about the rash act. A few weeks ago he determined to quit mining and return to New York and his son who is said was his only living relative in the country. Having converted as much as possible of his mining property at Phœnix, Arizona Territory into cash he started for Denver arriving there last Sunday with $1,200 in currency and about $8,800 in Denver exchanges.

Before he left Phœnix he had purchased a ticket in the Louisiana lottery. He was anxious to know if he had won anything, and while going up town from the station in Denver he saw the sign "Lottery." Supposing that it was the same in which he held a ticket, he went up into a small room where two men were standing behind a counter. Throwing down the ticket he asked if he had won anything, and one of the men, after looking at the number, replied that he was in great luck, as the ticket had won several hundred dollars, and entitled him to four more draws. He then drew and won some money, and then lost, and continued playing until the sharks had won all the money, he had. He said that until his money was gone it never occurred to him that the men were robbing him. Instead of informing the police, he said nothing of his loss, but continued his journey. Reaching St. Louis he

FALL RIVER STRIKE.

No Signs of Settlement Yet—Proposition of the Board of Arbitration Refused.

Fall River, Mass. March 17 The sixth day of the strike opened with no sign of a satisfactory settlement. At a mass meeting today the executive committee reported that they had rejected the proposition made yesterday by the board of arbitration, which was, in substance, that the strikers return to work and abide by the decision of the board of arbitration. The board told them that it might take three months to come to a decision and they had refused to entertain any proposition that would require them to go back to work without the advance

The manufacturers say this morning that they are still firm in their decision to offer or accept no terms so long as the weavers remain out on strike and they expect to see a break in the ranks of the strikers by Tuesday. Several more mills will shut down entirely this afternoon.

The strikers are indignant at the action of the corporations which have taken the rent of corporation tenements out of the wages of operatives in advance, and they are preparing to bring the matter into the courts.

KINDLY MEANT.

The President Makes a Suggestion to Importunate Indiana Politicians.

WASHINGTON, March 16.—The Post says that one of the prominent Indiana Republicans in the city called on the President yesterday to talk over Indiana matters and to suggest certain appointments.

The President listened patiently and finally said, "I have received a good deal of attention from Indianians in regard to just such matters as you suggest. Now I will take the liberty of making a suggestion to them through you. That is, the Indiana politicians can go home without feeling that they are neglecting their duties. I know all about the state of affairs in the politics of Indiana, and when I want any of you gentlemen I will send for you."

The suggestion was not made in the form of a rebuke, but as an intimation that they need not pile up hotel bills in Washington in order to give the President good advice.
