LOCAL AND OTHER ITEMS.

This is Nomination Day for the Civic Elections.

L. P. Church wants one hundred men to work on a railroad. See his ad.

In answer to "Jim," we have to say that Justin McCarthy is a Catholic.

The train on the Cape Traverse Branch, P. E. I. Railway, now leaves the Cape at 11.30 a. m.

The funeral of the late Mrs. W. R. Watson, which took place on Monday afternoon last, was largely attended.

The number of deaths in Charlottetown, during the year 1887, was, according to the Health Officer's Report, one hundred and sixty-three.

We are pleased to learn that A. McNeill, Esq., who has recently been confined to his house by a severe attack of illness, has so far recovered as to be about again.

Captain Richard Walsh, of Marie, King's County, left here yesterday afternoon, *en route* to British Columbia, whither he goes in the hope of eventually making his home.

Parsons & Griffiths, Commission Merchants, Philadelphia, report that the price of early varieties of potatoes is likely to be very high in that city during the spring months.

A vessel, which arrived in Baltimore on the 8th inst., reported having passed through six miles of floating timber in the Gulf Stream. This was, no doubt, a portion of the big raft which broke away from the steamer *Miranda*.

The recent blizzards in Minnesota, Dakota, and neighboring States and Territories were fearfully destructive of life and property. Latest advices place the number of dead at one hundred and fifty-two, besides fifty-five reported missing.

A few days ago, Mrs. Peter Gallant, of Summerside, while at work in a hotel in that town was struck with a fit of apoplexy, caused by the bursting of a blood vessel in the head. She was taken to her home and medical aid summoned, but she only survived a few hours.

The *Northern Light* left Georgetown for Pictou on Monday morning, but was obliged to return without having succeeded in reaching the other side. Among the passengers were Senator Howlan and Mrs. Howlan. They returned to Charlottetown and left yesterday *via* the Capes.

On Monday afternoon last, a freight train on the Pittsburg and St. Louis Railway, while crossing a high bridge near Pittsburg met with an accident, by which two cars fell from the bridge to the street, a distance of ninety feet, smashing them to splinters. One employe was instantly killed, and another seriously injured.

While crossing the Hillsborough River ice on Thursday last, Mr. Jacob Ferguson, of Southport, narrowly escaped drowning. When about half way between Charlottetown and Southport he broke through a thin part of the ice, and was in the water for a considerable time before he, with difficulty, managed to extricate himself.

Subscriber asks "What is meant by conferring the freedom of a city on any individual?" By the freedom of a city is meant the enjoyment of all the rights and privileges of citizenship which those born and residing in the city enjoy; the right to practice any trade or profession; the privilege of voting and freely exercising his franchise, etc.

The farmers of New Perth and vicinities in King's County have lately been discussing the question of trade relations with the United States, and have passed resolutions which show, that while they are desirous of reciprocal free trade with our Republican neighbors, they are decidedly opposed to making any sacrifices for the obtaining of the same.

In addition to the announcements relative to our agents already made, we have to state that Mr. Neil McEachen, our agent for the Eastern portion of King's County, will call upon our subscribers in Souris East and West within a few days. We trust those of our friends in these localities, who have not already sent in their subscriptions, will be prepared to settle with him when he calls.

Mr. H. C. McDonald delivered the third of a course of lectures in St. James' Hall, on Tuesday evening. The subject of the lecture was "From Louisburg to Quebec." Mr. McDonald gave a history of Acadia before the capture of Louisburg, describing minutely the causes which led to the wars between the French and English in the new world; the cruel expulsion of the Acadians, and the capture of Louisburg. At the close of the lecture a vote of thanks was tendered the lecturer.

Mr. Mayhew Landerkin, to whom we referred, a short time ago, as having undergone a serious operation in the Charlottetown Hospital, for the purpose of removing some artificial teeth which he had accidentally swallowed, paid us a visit on Saturday last. He was just starting for home, having, in three weeks, almost completely recovered from the effects of the painful operation. He was most high in his praise of the Hospital, and the skillful treatment and careful attention which he had experienced while there. Words failed him, he said, to express his appreciation of the kindness and attention of the good Sisters to the patients committed to their charge. The doctors who attend the institution, he considers, are worthy of all praise.

The first trip by the Capes was made on Friday morning last. The boats left Cape Traverse early in the morning, carrying thirty-two bags of mail matter. They arrived at Cape Tormentine at 12.40, and immediately returned, bringing over to this side seventy bags, and leaving behind ninety-five more, which they were unable to bring. The boats reached Cape Traverse on their return at 5 o'clock, p. m., and the mails reached this city by train on Saturday morning. The boats left Cape Traverse at 7 o'clock on Saturday morning, having on board eighty-three bags of mail. They arrived at Cape Traverse at 11 o'clock, and these mails were brought to the city by the regular afternoon train from the west. These were the first foreign mails received here for just one week. On Monday sixty bags of mail reached Cape Traverse in the afternoon, and were brought to Charlottetown yesterday.

Meeting at Monticello.

According to notice, a meeting of residents of Monticello, King's County, was held in the schoolroom, at 7 o'clock, p. m., on Thursday, 5th inst., for the purpose of considering the desirability of changing the name of their Post Office.

Angus R McDonald, Esq., was elected Chairman, and the undersigned Secretary.

After some discussion the following resolutions were unanimously adopted:

Whereas, when our Post Office was first established, being principally for the accommodation of a settlement lying south, it received the name of that settlement, Big Marsh:

And whereas a Post Office, named Armadale, has since been located in the Big Marsh Settlement:

And whereas mistakes often occur on this account, mail matter addressed "Big Marsh," and intended for Armadale, being sent to Monticello, and *vice versa*:

Be it therefore Resolved, That for the above-mentioned reasons, and to avoid mistakes, it has become necessary that the name "Big Marsh," as applied to our Post Office, be changed to "Monticello," the name of the settlement in which it is situate.

And be it further Resolved, That a memorial in accordance herewith be drawn up, signed by those present, and transmitted, together with a copy of the minutes of this meeting, by the Secretary to the Post Office Department, Ottawa.

The Secretary was further desired to report the proceedings to the Herald and *Patriot* newspapers for insertion. The meeting then adjourned *sine die*.

A. O'Brien, Secretary.

School Examination.

To the Editor of the Herald :

Sir,—The semi-annual examination of Grand Tracadie School took place on Saturday, Dec. 24th., when a large number of lady and gentlemen visitors assembled to note the progress made by the pupils since the last examination. The pupils showed by their prompt and intelligent answers to the many difficult questions asked them during the examinations, that they had not been neglected by their very energetic teacher Miss Georgina McInnis, who has now been in this school over three years, each year showing marked improvement in the progress of the pupils, she is surely worthy of the name she obtains, of being one of the best female third class teachers in Queen's County. Immediately after the examination the pupils were astonished, although delighted, when they beheld a representation of "Santa Claus" appearing with a supply of Christmas dainties, which were received with exclamations of delight. The teacher and scholars were then complimented very highly on the efficiency of the school by some of the worthy gentlemen present.

Boston Markets.

Potatoes—Price per bushel of hand stock: Hebrons 65c, Rose 55c, White stock 50c to 55c, Mentions 60c to 70c, Chenangoes 55c to 60c.

Eggs—The receipts of new laid stock have been quite liberal of late and demand has been very light—the market closing dull.

Pork—Receipts continue very light and there is only a limited business doing. Prices are as follows: P. E. Island, unpacked fat, extras $10 to $11; 1's $18, large 2's $14, 2's $16.

The *American Magazine* for January is well, when quite liberal of late and demand has been very light—the market closing dull. The opening article on Cape Breton being unusually entertaining, and written in that vivid, breezy style for which the author is noted. Boston artists and their studios will give the reader an idea as to the heights that culture and refinement have reached. The poetry may be considered fairly good. Taken as a whole, the January number maintains the former prestige of the *American Magazine*.

Local and Special News.

The fog in London, England, last week prevented the citizens seeing the sun, moon and stars.

The rush last week was for our bargains in Dress Goods, Flannels, and Fur Goods of all kinds; we have added Cloths, Jackets, Dolmans and Carpets to our Big Bargin List. If you do not know what that means ask your neighbor and you will find it means prices that please you *every time*. Call and see for yourself, at Beer Bros.

The Electric Light.—It is astonishing how rapidly the electric light is coming into general use. It is being employed for publicly lighting our large cities. It dazzles our eyes with its splendor as we pass along our thoroughfares at night. But with all its splendor and utility, it is not as light and beautiful as the biscuit made with Imperial Cream Tartar Baking Powder.

Presence of Mind.—Presence of mind is good in case of accidents and emergencies, and when coupled with Hagyard's Yellow Oil will often save life. Yellow Oil cures all painful injuries, burns, scalds, bruises, frost bites, rheumatic and neuralgic pains, and is in fact a handy and reliable surgical aid.

Do You Believe In Signs?—We do; for instance the signs of torpid liver are yellow eyes, sallow complexion, pain under right shoulder, irregular bowels, headache, low spirits and weariness. All these signs may be removed by Burdock Blood Bitters which is a sure cure for all irregularities of the liver.

A Boon and a Blessing.—A boon and a blessing to mankind is Hagyard's Yellow Oil, the great pain destroyer and healing remedy for external and internal use. Yellow Oil cures all aches and pains, rheumatism, lame back, sore throat, croup, deafness, cramps, contracted cords and lameness. Procure it of your druggist.

An utter failure—the inability to make a speech.

Mothers—Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 35 doses, 35 cents. 12 wks nov 9

A signal failure—a futile attempt to stop a street-car.

Remarkable Restoration.—Matthew Sullivan, of Westover, Que., was ill with dyspepsia for four years. Finding doctors did little good he tried Burdock Blood Bitters; six bottles cured him, and he gained in weight to 178 pounds. Burdock Blood Bitters cures the worst known cases of chronic dyspepsia after all else fails.

The Garden.—For the management of vegetable gardens and practical instructions concerning the culture of flowers, for hints and information concerning all kinds of seeds, planting and cultivating all vegetables and flowers, D. M. Ferry & Co's Seed Annual for 1888 will be found so complete as any work of a similar character ever issued. The variety and extraordinary range of the information given renders their Annual worthy the special attention of every one interested in having luscious vegetables or beautiful flowers. D. M. Ferry & Co., make the growing and sale of Onion Seed a leading specialty, and give so much information on onion culture as to make their Annual of peculiar value to all onion growers and gardeners. Vick's Floral Guide.—A silver lining to every cloud. With the short dull days of early winter come the cheery holidays and Vick's beautiful annual, and 'ere spring already appears not far distant. We can almost see the greening grass and the blooming flowers, in the way of catalogue, Vick's Floral Guide is unequalled in artistic appearance, and the million of each year that appears simply perfect, is surpassed the next. New and beautiful engravings, and three colored plates of flowers, vegetables, and grain, are features for the issue for 1888. Its lavender tinted cover, with original designs of most pleasing effects, will insure it a prominent place in the household and library. It is in itself a treatise on horticulture, and is adapted to the wants of all who are interested in the garden or house plants. It describes the rarest flowers and the choicest vegetables. If you want to know anything about the garden, see Vick's Floral Guide, price only 10 cents, including a certificate good for 10 cents worth of seeds. Published by James Vick, Rochester, N. Y.

Try Scott's Emulsion and be convinced.

We are preparing to "take stock" and in looking over our goods find we have a good many Dolmans, Ulsters, Jackets, Redingottes and Jerseys remaining. We bought a larger stock than usual on account of securing some really remarkable bargains. The larger part has been sold, and now, rather than keep them one over till next season, we have cut the prices away down at less than the ordinary cost of the material alone. Just look at these prices: Jackets worth $4.25 for $3.00, worth $7.00 for $5.00; Ulsters worth $3.00 and $4.00 for $2.00; and the whole lot at equally low prices. There is no questioning these prices we guarantee them genuine. Beer Bros.

Messenger of the Sacred Heart.

The Golden Jubilee Address of the American Associates of the League of the Sacred Heart, and of the Sodalities of the Blessed Virgin Mary.

The League of the Sacred Heart, called the Apostleship of Prayer, with its 15,000,000 of Associates scattered through more than 40,000 parishes and communities in all parts of the world, and with its close union of the Local and Central Directors of the different countries with the Director General in Europe, is evidently well fitted for making a demonstration, impossible at least in numbers, of loyalty and affection toward the Pope, who is the Father of all the faithful. In fact, the first really great manifestation of the year of our Holy Father's Priestly Jubilee was the presentation of the 20 large volumes of signatures of its Associates, accompanied by their spiritual offerings. This was as early as February of last year, while in October there was another equally notable presentation of other addresses with their offerings, this time including those of the Sodalities of the Blessed Virgin Mary, which had been collected by the Directors of the League. On the latter occasion two of the volumes were from the American Centre.

This we have already announced, though none of our Catholic weeklies seem yet to have heard of these testimonies of our best love to our common Father. We have now sent in the last collection of our Associates' addresses, which are to be presented by His Grace, the Archbishop of Philadelphia, during the Jubilee festivities. They are enclosed in a rich hand-wrought portfolio—the work of the Sisters of Mercy of this city,—and bear a suitable inscription due to the classic pen of Rev. Father Charles Cicatterri, S. J., of the Gesu, Philadelphia.

This, with the general details, we shall give later. For the present we content ourselves with transcribing the grand total.

KANSAS CITY
AN absolutely safe investment, which will return a large profit in reasonably short time. We are organizing a Syndicate to handle a tract of the finest unplatted ground in the limits of Kansas City, in the midst of the fashionable residence section. We will plat property which can be easily sold in lots to make in one year a net profit of $25 on every share—SHARES $100 EACH. Certificates of shares full paid, transferable and non-assessable, bearing eight per cent. interest from date of issue, entitling holders to receive their proportionate shares of two-thirds of the net profits. We retain remaining one-third for our services. Secure shares by remitting New York draft for amounts wanted. Investigate this investment. Address
