Every Pulley a Split Pulley, 70 per cent. lighter than cast iron, 50 per cent. lighter than wrought iron or steel. Strong enough for any power required. Made in any size from 9 in. to 16 ft.

We also manufacture Special Pulleys for the Transmission of Power by Ropes, under the .....

DODGE PATENT SYSTEM

and are prepared to give estimates for transmissions of any capacity from 5 to 500 horse-power.

The following is one of numerous letters after having used Pulleys three years:

HAMILTON, May 10, 1889.

The Dodge Wood Split Pulley Co., Toronto:

Dear Sirs—In reply to yours of the 8th inst., would say that we have now in use a considerable number of your Split Pulleys, and perhaps the best index of our opinion of them lies in the fact that since we got the first three on trial we have purchased no iron pulleys. We find we can run with much slacker belts, which is an advantage, and the saving of time when it is necessary to change a pulley is a considerable item in their favor. For our work generally they have proven very satisfactory.

Yours truly,

HAMILTON COTTON CO.

THE METTAWAS
NORTH SHORE OF LAKE ERIE
KINGSVILLE, ONT.
THIS NEW AND DELIGHTFUL
SUMMER RSORTS

Is beautifully situated on the Lake Shore, close to the station of the Lake Erie, Essex & Detroit River Railway, only 30 miles from Detroit, in a district famous for its fertility and agreeable summer climate, and within sight of Pelee Island, the most southerly point in Canada, celebrated for its fishing and as the home of the Pelee Club.

The Hotel contains 120 rooms, and in the arrangement and equipment no expense has been spared to insure the comfort and enjoyment of its guests. It is furnished with the best spiral spring and hair mattresses, electric bells with return call and fire alarm bells in all rooms. Hale hydraulic elevator, steam heating in corridors and many of the rooms, numerous open fire places, incandescent electric lighting throughout, and hot and cold baths on each floor free to guests. The cuisine and service will be the very best. Ample fire protection is afforded by a complete system of waterworks.

In the grounds adjoining the Hotel is a spacious Casino, containing dancing, billiard, card, smoking and lounging rooms and bowling alleys, which, with bowling greens, tennis courts, croquet lawns, excellent and safe boating and bathing, and the charming walks and drives of the neighborhood, offer unusually abundant means of recreation.

Two miles distant is one of the most remarkable natural gas wells on the Continent, a recent discovery which is attracting much attention and promises enormous development. Gas from this well will be used for illuminating the hotel grounds and approaches.

With a season longer and more equable than more northerly summering places, though equally cool and invigorating, this resort presents the choice of complete retirement and rest, or the occasional change afforded by its proximity to Detroit (only one hour's journey), with which there is connection by rail three times daily, and by water frequently by the new and excellent steamer Lakeside, plying between Sandusky, Pelee Island, Kingsville and Detroit. Telephone connection with Detroit and other points.

Opens July 10th under the management of CHARLES S. MATHEWS, for many years steward of the Palmer House, Chicago, to whom application for rooms should be made in advance when possible.

OFFICE OF THE PUBLIC ANALYST,
MONTREAL, September 9th, 1887.

To the Canada Sugar Refining Co'y, Montreal:

Gentlemen,—I have personally taken samples from a large stock of your Granulated Sugar, "REDPATH" brand, and carefully tested them by the Polariscope, and I find these samples to be as near to absolute purity as can be obtained by any process of Sugar Refining.

The test by the Polariscope showed in yesterday's yield 99.90 per cent. of Pure Cane Sugar, which may be considered commercially as ABSOLUTELY PURE SUGAR.
