EFFECTS OF THE C.P.R. CUT

Great Number of Passengers by the Various Trains Yesterday.

Grand Trunk Tickets Still Sold at the Old Rates—Net Increases in Railway Earnings—The Rush to the Pacific Coast and the Klondike.

A telegram was received in Toronto at 7 o'clock Tuesday evening from Mr. George B. Reeve, general traffic manager of the Grand Trunk, instructing those in the passenger department here to "maintain rates until further advised." It is not known to the Grand Trunk officials here what action is contemplated by the authorities at Montreal, and pending further orders tickets over the Grand Trunk will be sold at the old figures and no cut made at competing points to meet the rates in force over the Canadian Pacific. Several of the points to which the Canadian Pacific have cut the rates are reached only by the Grand Trunk, but under an agreement between the two companies the Grand Trunk have to accept such traffic when handed to them at the nearest junction point, and are allowed the local fare over their line.

How the Cut Was Appreciated.

The cut rates so extensively advertised by the Canadian Pacific yesterday drew a great many customers to the passenger agent's office, corner King and Yonge-streets. From 8 a.m. to 6 p.m. the staff of clerks there had all they could attend to. A great part of the time the office was crowded to the doors. A clerk in the office who has been a number of years at ticketing, affirmed that yesterday was quite the busiest day he ever remembered.

Railway Earnings.

The net increases in earnings of the chief railway lines in 1897, as compared with 1896, are given by Bradstreet as follows:

Canadian Pacific	$2,196,000
Grand Trunk	1,194,000
Chicago, Burlington & Quincy	2,924,000
Chicago, Milwaukee & St. Paul	770,000
Chicago & Northwestern	1,186,000
Illinois Central	1,323,000
Erie	302,000
New York Central	1,008,000
Pennsylvania (east of Pittsburg)	2,329,000
Pittsburg, Cin., Chi. & St. Louis	1,030,000
Lake Shore & Michigan Southern	330,000
Boston & Maine	533,000
New England	304,000
New York, New Haven & Hart'd.	598,000
Del., Lacka & Western System	586,000
Delaware & Hudson	422,000
Cin., New Orleans & Texas Pac.	350,000
Norfolk & Western	872,000
Southern	613,000
Atchison	346,000
Kan. City, Pittsburg & Gulf	610,000
Oregon Short Line	387,000
Southern Pacific	1,427,000
Total	$21,749,000

The heaviest gain alike in gross and net was reported by the Chicago, Burlington & Quincy Railroad. Other large increases in net were those of the Canadian Pacific, the Illinois Central, Northwestern, Grand Trunk, N.Y. Central, and Lake Shore, and Southern Pacific.

The earnings of the Northern Pacific for the second week of February show an increase of $82,000.

Many Passengers for the Far West.

The Canadian Pacific train, which leaves the Union Station at 12.30 for Vancouver and intermediate points, consisted yesterday morning of two cars of baggage and four well-filled passenger coaches. In all, there were 203 passengers aboard this train, including 58 men from Strathroy and London, engaged by contract to work on the Crow's Nest Pass Railway.

Messrs. W. A. Hulme and S. Dodds of Bradford, Pa., two hearty young gentlemen in thick corduroy suits, with rifles over their shoulders, arrived in Toronto at 10 o'clock yesterday morning and left on the Canadian Pacific train at 12.30 for Vancouver. They intend taking up claims in the Klondike and are going into the gold region from Dyea over the Chilcoot Pass. While waiting at the Union Station they made the acquaintance of Messrs. J. Fowler and A. Mathews of Watford, Ont., two pilgrims to the Klondike, who are going over the same route. Mr. W. F. Rosevear of Montreal was also a passenger on this train. He intends opening a miners' supply store at Vancouver.

Minor Matters.

Mr. E. D. Sewall has been appointed general northwestern agent of the Milwaukee, Chicago & St. Paul. His office will be in the Guaranty Loan Building, Minneapolis.

The railroad branch of the Y.M.C.A. have organized a chess club, of which Mr. John Garden is president, Mr. George Baldwin secretary and treasurer, and Mr. C. C. Taylor vice-president.

The delegates from Toronto and points in Ontario to the convention of volunteer students for foreign missions to be held in Cleveland, left via the Grand Trunk at 9 o'clock yesterday morning.

Canada Permanent Loan

and Savings Company.

ANNUAL MEETING.

The forty-third Annual General meeting of the Shareholders of the Company was held on Tuesday, the 22nd instant, in the Company's Office Building, Toronto-street, the President, J. Herbert Mason, Esq., in the chair.

The Secretary, Mr. George H. Smith, having been appointed secretary to the meeting, read the Report of the Directors for the year 1897, as follows:

The Board of Directors beg to lay before the Shareholders of the Canada Permanent Loan and Savings Company the Forty-third Annual Report of its transactions.

The revenue of the Company for the past year amounted to $625,827.82. After providing therefrom for interest on borrowed capital, expenses of management, commissions, and for all known losses, the Directors declared two half-yearly dividends of three per cent. each upon the paid-up capital stock; after which there remained surplus profits amounting to $51,071.37.

It is with much satisfaction that the Directors are able to record a much greater degree of prosperity in agricultural and commercial affairs than existed at this time last year. Consequent on these improved conditions, and more especially as a result of the abundant harvest of 1897, and the higher prices received for farm products, maturing instalments of principal as well as interest on mortgage loans, were paid with more than usual promptness. Many accounts which, owing to adverse circumstances in previous years, had fallen into arrear, were paid up or placed in a satisfactory condition. Farming lands in Ontario, as well as in Manitoba and the Northwest have proven more readily saleable than for several years before. With another such year as 1897, very little property of this description will remain on the Company's hands.

An independent and exhaustive examination of mortgagors' accounts in the Company's books has recently been made, and the Directors are pleased to be able to inform the Shareholders that, with comparatively few exceptions, the state of these accounts is most satisfactory. Not only is interest kept well paid up, but in a large number the principal sum advanced has been reduced by repayments.

Having in view the severe depression in the market value of real estate, a careful reinspection of securities in default has been made. In a number of cases the Directors have deemed it advisable, in anticipation, and as a prudential measure, to materially reduce the sums at which these properties appear in the Company's books. To effect this they have appropriated the surplus profits of the year, together with a portion of the funds reserved to provide against such exceptional depreciations as at present exist. Although these reductions are believed to be amply sufficient, a further sum has been applied to form a Contingent Account, with a view to meet any possible loss not now foreseen. The Reserve Fund remains at $1,150,000, more than 44 per cent. of the paid-up capital, and the Contingent Fund stands at $102,491.21.

The limited demand for loans on first-class securities, and the low rates of interest obtainable, did not warrant the Directors in offering to continue the rates of interest borne by maturing debentures, and in consequence some of these were paid off. Those renewed, and new money received, were all at three and one-half per cent. per annum. Accounts with Depositors show a small increase.

The outlook for the immediate future is encouraging. If the tide of prosperity indications of which are now visible, continues to flow, as generally expected, real estate values will doubtless be favorably affected, there will be a more active demand for money, and our Company, with its extended ramifications and effective staff, is in a position to promptly take advantage of it.

A member of the Board, Mr. Henry Cawthra, having gone abroad, with the expectation of making a prolonged stay, sent in his resignation. His place as a Director has been filled by the election of a qualified shareholder, Mr. W. E. Wellington, a gentleman who is well acquainted with the agricultural resources and requirements of the Province in which the funds of the Company are invested.

All which is respectfully submitted.

J. HERBERT MASON,
President.

Toronto, February 9, 1898.

"GROUND FLOOR PROPOSITION."

Three claims on Wild Horse Creek, near Ymir, 20 to 25 feet vein, traceable through Dundee and Jubilee. Tunnel 150 feet, 4-foot pay streak, assays $25.91 at 50 feet to 851 at 80 feet, vertical depth. Promoters have done all work so far. To add to the visible value, reach the shipping stage and open up the other two claims before selling any of the company's treasury stock, which should then command as high a price as Dundee, which is now 75c; they offer part of their own interest, viz., 8-120ths, for $1600, or $200 for each 1-120th. Proceeds will be spent for above work.

Those who know the Ymir district will require little further information than is contained in the above, and will act promptly. Others may obtain fuller information upon request by wire or letter. As a few applications will exhaust this opportunity, orders, accompanied by cheques, will have precedence.

LOOK OUT FOR CYRUS.

A Famous Bigamist and Horse Thief Soon to be Released From Kingston.

Cyrus Seymour, alias Shaver, will be released from Kingston Penitentiary shortly, after serving his second sentence of six years and a fourth term in this prison. Seymour is known from one end of the province to the other and in some parts of the State of New York. He has a penchant for many wives and for stealing horses, his own brother in West Winchester being one of his many victims. He is not by any means a good-looking fellow but he is gifted with an oily tongue, and during one of the periods that he enjoyed his liberty he married no less than twelve women, one of whom was a Belleville girl. He has been arrested in Cornwall, Toronto and other towns and cities, and has the undisputed title of being the greatest living bigamist and horse thief in Canada.

Dyspepsia or Indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juices, without which digestion cannot go on; also being the principal cause of headache. Parmalee's Vegetable Pills, taken before going to bed for a while, never fail to give relief, and effect a cure. Mr. F. W. Ashdown, Ashdown, Ont., writes: "Parmalee's Pills are taking the lead against ten other makes which I have in stock."

To the Klondike With Ogilvie!

The Gold Hills Exploration and Development Company of Toronto, Limited,

Last year sent out the largest and best-equipped exploration party in British Columbia, and succeeded in locating 49 gold and silver claims in the Duncan-Lardeau District, and two in the Fairview District.

Their wonderful success as prospectors in those districts, their large and wealthy membership, their influential Board of Directors, made it apparent that they were the right company to explore the Yukon district and secure its treasures.

The one necessity was to secure a leader for their party who should unite all the good and strong qualities of a leader of men, with the additional factors of personal knowledge of the Yukon district, experience with its climatic and other peculiarities, and an honesty beyond question.

The Directors knew at once the man they wanted—

WILLIAM MORLEY OGILVIE,

son of the great surveyor and explorer, the companion and confidant of his father in his Yukon explorations.

Fortunately, the Directors were in a position to offer Mr. Ogilvie such a position as met with his approval, and arrangements are now being completed for his start with a large and well-equipped exploration party, whom he will lead into the districts with which he is well acquainted, whose possibilities he is aware of, and where he should be making rich discoveries, taking up valuable claims, and prosecuting paying mining operations from the start.

Mr. W. M. Ogilvie went into the Yukon District with his father's party, August, 1895. He entered by the Chilcoot Pass. He was engaged for the Dominion Government in making surveys of the boundary and of mining claims until July, 1896.

He was also sent in by the Dominion Government with Mr. Jennings' party in September, 1897. He went up the Stickeen River to Telegraph Creek. Then the party made a survey of Teslin Lake and Hootalinqua River as far as McClintock Portage. He then left Mr. Jennings and took charge of the survey himself to and through the White Pass to Skaguay.

He has taken the full course of Science at McGill University, and is a B.A.Sc. of McGill. He is at present in the service of the Government in the Geological Survey, but has given notice that he leaves them at the end of the month.

As soon after that date as he can get his party together he will leave with them for the Pacific Coast and proceed straight to the Yukon. He has the best information as to the most likely gold-bearing creeks falling into the Yukon waters, and his party will be thoroughly equipped for prospecting and locating claims.

The Company now have 49 claims in the Duncan-Lardeau district, 2 claims in Fairview, and are also interested in 25 free gold claims in the Lake of the Woods district.

The Directors have decided to place a small block of Gold Hills stock on the market at **20 Cents a Share.** The indications are that it will be all taken up within a few days and the price of the stock materially advanced.

The shares are absolutely non-assessable.

The Company is organized under the Ontario Joint Stock Companies' Letters Patent Act, and the Act of 1894, relating to mines and mining.

Authorized Capital, 2,000,000 Shares, at $1.00 each.

Further information may be had by enquiring of any of the Directors or at the office of the Company.

JOHN A. MOODY, Esq., London, Ont.

Dear Sir,—The profit sharing plan of the Klondike Exploration Company (Limited), of London, Ont., is so well arranged that the shareholders and promoters, in a company organizing with headquarters to be at Toronto, have abandoned the hope of carrying their company through. They think the plan of your company the best in the market, and have taken the stock of the Klondike Exploration Company to fill the many orders they had taken. Wishing you success, I remain, yours respectfully,

J. U. CLEMENS & CO., Merchants.

GOLD STOCKS

NORTHERN BELLE

Assays $9 to $28 per ton. Development, 20 ft. shaft, 140 ft. tunnel, 10 ft. drift each way on ledge; adjoins the Good Friday, which has just been sold to John W. Mackay for $100,000. The Good Friday is said to have one vein only, which runs through the Northern Belle, but in addition the Northern Belle has three others, all strong and well defined. Another adjoining property is the Good Hope, lately re-organized and under active development, and showing excellent results. The Northern Belle has better showings and more development than either of these admittedly good properties. This stock has been the most active in the market during the past ten days (over 100,000 shares having changed hands) and will be much more so, and the price much higher, when the public realize its merits. I am in a position to give special figures for a few days, in lots of 1000 and upwards.
