BOAZ GROSS OF SURREY, has brought to the Observer office a rhubarb leaf 3 feet in width and of proportional length.—Hillsboro Observer.

QUALIFIED DRUGGISTS—At the Pharmaceutical examination held in this city on the 12th and 13th inst., G. T. Mallory and W. F. Roberts, of St. John, and A. P. Crocket of Fredericton passed successfully.

A LARGE COW.—A cow purchased by Mr. Boyle, and raised by Watson Bros., of River de Chute, Victoria Co., was weighed at Phœnix Square yesterday morning, and turned the scales at 1500 lbs.—Fredericton Gleaner.

SUNDAY TRAINS.—The Sunday excursion train on the Buctouche and Moncton Railway promises to be a great "boon" to the tired artisan and the overworked business man during the hot months.—Sackville Post.

A SEA COW.—A large specimen of a sea cow (walrus) was seen off Louisburg, C. B. one day last week. It is very unusual to observe one so far south. In former years they were not uncommon about the Magdalenes, but none have been reported in recent years at all.

HURT IN A QUARRY.—Yesterday afternoon Oliver Taylor one of the quarrymen at Morrow's lime kilns off Adelaide Road fell down the cliff some 25 or 30 feet and received several painful bruises about the body, and also cuts on his face. Dr. McLean dressed the wounds.

HE SWALLOWED A NAIL.—A little son of Mr. Salter, of Avondport, has been unwell for some time past. He has suffered from congestion of the lungs, and later from congestion of the bowels, with no apparent cause. A probable explanation was obtained the other day by the child telling of swallowing a shingle nail.

A HOME WITHOUT flowers is but half a home. Everyone who has a window or a rod of ground that is vacant should visit Mr. Cruikshank's greenhouses and make a selection without delay. A few pansies, verbenas, heliotropes, asters or marygolds, the least ambitious of flowers, much more than repay their cost by the cheerfulness they lend to their surroundings.

HE HAD BEEN IN CAPE BRETON.—"I suppose you have been in Cape Breton before?" remarked a reporter interrogatively to United States Consul-General Phelan during his visit here the other day. "Well—some," replied the genial consul quietly; "do you know where the Ingraham farm is near North Sydney? I was born there. The remains of my grandmother are buried at North Sydney.'—Sydney Reporter.

SHIPBUILDING IN HANTS.—Ship building in Hants County, is looking up. At [illegible] is building a fine four masted schooner is [illegible]. At Avondale a large vessel, [illegible] is under way, and a [illegible] ready for launching. At [illegible] there for a large vessel [illegible] up, and at Maitland Quentine is in progress of [illegible].

[illegible]ND FISHING CLUB met last [illegible] Mr. G. R. Pugsley's office, and [illegible] regulations were adopted. Mr. [illegible] Pugsley was elected president, and A. W. Macrae secretary. The president and secretary, with W. L. Busby, were appointed an executive committee. The membership is limited to fifty. The club controls Grassy, Elbow and Dick's lakes. A fine house is being erected at the latter lake, and four boats, built by Elijah Ross of Carleton, have been supplied.

THE PISMIRE.—The editor of the Eastern Chronicle calls the editor of the Enterprize a pismire, and the editor of the Enterprize blushes and hides his face behind his handerchief, saying the word is not generally used in polite society. Then the editor of the Chronicle refers to his Worcester and reads: "Pismire; A small insect of the genus Formica; an ant or emmet." Then he smiles and says that's just what he meant.

BUSINESS AT RIVER HEBERT.—About 27 cargoes of deals have been shipped out of River Hebert this spring to St. John and Parrsboro, and they are still going almost daily. B. Young has shipped one cargo pine boards to Jamaica, and one cargo of laths to Boston. One, sch. is loading pilling, making in all about 30 cargoes out of the river. Prescott, Gillespie & Co., have shipped three cargoes laths, B. B. Barnhill two cargoes laths and scantling, and Seamen Bros. one cargo lumber, all to the United States.

IT SHOULD BE OTHERWISE.—By some peculiar cast of mind there are a number of people constrained to believe that half the enjoyment of these beautiful summer evenings is lost without a little music on the square to drive dull care away. And it does seem a pity that steps cannot be taken to have at least one band play on the square a week. There was a time when the citizens were permitted to enjoy many band concerts during the summer season, but now if they have that pleasure once a month they must be satisfied.

DROWNED AT HALL'S HARBOR.—A despatch to the Sun of the 12th inst. says: E. M. Robertson of St. John, N. B., and George Boyden of Wocester, Mass., went sailing from Hall's Harbor today. Their boat was capsized by a squall about a mile above this place. They got upon the boat and after much difficulty righted her but as the water was very rough could not clear her of it. After being two hours in the water Mr. Boyden succumbed and died from exposure. The boat was finally picked up by the schooner Sea Bird and Mr. Robertson was rescued from his perilous position after having been four hours in the water. He was landed at French Cross, twenty miles from the scene of the accident, physically none the worse for the affair. Mr. Boyden's remains will be forwarded to Worcester for burial.

Brevities.

Scotch concert in the Main street Baptist church, north end, last evening, was a complete success.

About twenty of the employes of J. R. Woodburn & Co picnicked at E. A Treadwell's, Loch Lomond Road, last Wednesday.

Nearly three-fourths of the stockholders of the Prospect Coal Mining Co. favor the sale of their property to R. G. Leckie for $40,000.

At the last meeting of St. John Council of the Royal Arcanum, the sum of fifty dollars was voted from their funds for the benefit of the Johnstown sufferers.

Surgeon March and Veterinary Surgeon Frink of the 8th Cavalry left this morning on a tour of inspection of men and horses going into camp at St. Andrews on the 25th.

The new three masted schooner, the M. L. Bonnell, owned by Messrs. Bonnell & Cowan, will probably be launched from Fraser's yard on Monday. Captain McLean will command her. Her tonnage is about 500.

The Methodists.

St. John District of N. B., and P. E. I., Conference on Thursday morning, the meeting opened at 8.30 by the chairman, and Bros. Spargo and Pepper engaged in prayer. On motion, resolved that this meeting would earnestly recommend to the conference the importance and necessity of making special appeals to our people for enlarged liberality in their contributions to circuit income, and in order to the efficient carrying out of this recommendation each financial district meeting be required to make such arrangements as may be necessary for a thorough canvas of each circuit and mission by deputation specially appointed for the purpose; and, further; that the claims of the sustentation fund be strongly pressed upon the attention of our people by the holding of a special meeting in all the circuits and missions and by such means as may be deemed necessary or advisable. Resolved, that we think the district meeting adjourn, it shall be adjourned by the call of chairman during conference in St. John. The benediction by Bro. Clarke brought the morning session to a close.

THE AFTERNOON SESSION

of Thursday opened at 1.30. After the singing of the well known hymn, A Charge to Keep I Have, etc., prayer was offered by Rev. John F. Estey. A Sunday school convention was previously announced for Thursday, but through the pressure of district business it had to be postponed. On motion it was resolved that the financial district meeting be held at Hampton at the call of chairman. The S. S. convention previously referred to will (D. V.) be held at the same time and in the same place.

The following is a list of the lay representatives to the annual conference to open in the Centenary church on Wednesday the 19th inst: Andrew Gilmour, J. E. Irvine, J. McA. Hutchings, I. C Bowman, H. J. Thorne, J. A. Likely, H. Porter, W Baskin, W J Clark, H Whiteside, S Gaskin, Hon J W Lewin, J McNaught, C E Culley, Jos Frazee, J H Smith, J Truman, W Sheffield, S H Northrup, R McAfee, James Myles (St John), G Inch, H A McKeown, J R Willet, J F Fowler and Jos Bullock.

Then followed the usual question: Can any measures be adopted for the promotion of the work of God in the district? This question was duly considered by the district. It was regarded as a very solemn and important matter, demanding the serious and prayful attention of each member After the various reports relating to the membership and the spiritual and financial state of the circuits and missions before read, it was resolved 'that the brethern continue to carry out the rules laid down in the discipline in respect to the means to be adopted and pursued which will warrant and produce success in every department of our work."

Summer Carnival.

At a meeting of the parades committee last evening at the National, the following appointments were made; Messrs. W. W. Clark, J. C. Miles and Alex. Macauley a committee to estimate the probable amount of money required; Messrs. Skinner, Fowler and Rankine, a committee to complete parade arrangements; Geo. McAvity, marshal of the trades procession, and W. W. Clark Marshal of the Carnival procession (each of the latter with power to choose his own aides).

The committee on the carnival procession were authorized to proceed with the work of organization. Adjourned until Thursday next.

The reception committee met yesterday afternoon in the City hall. Ald. Wm. Shaw was elected chairman and H. H. Distin secretary. The question of hotel accommodation for visitors during carnival week was discussed. The committee request all those who will be able to accommodate strangers during that time to send in their names with terms, etc., to the secretary Mr. Distin.

The Secretary of the electrical exhibition has received an application for space from the New England Incandescent Electric Company, Boston.

A letter from Mr. A. A. Knudson, now in Boston, states that Mr. Austin of "Practical Electricity" will make a special effort on behalf of the electrical exhibition in St. John in the next number of his magazine. He will also comment on it in the Boston Herald.

Efforts are being made with the I. S. S Company to have rates reduced on their steamers during Carnival week.

The secretary has received letters from a large number of editors promising favorable notices on the Carnival, and has received as well several papers containing these notices.

A number of the Carnival circulars have reached Boston, and the extended scale on which the Carnival is to be carried is causing considerable surprise there. The number of visitors from Boston will likely be large.

The Johnstown Sufferers.

To-night at the Mechanics Intitute the opportunity will be given our citizens to express, in practical form, their sense of sympathy with the sufferers and survivors of the recent disaster at Johnstown. The concert in aid of the fund for these sufferers will be given to-night and the object is such a deserving one: it so directly appeals to our best impulses, that, there can be little doubt a generous response will be given by filling the house.

The young men who have taken the initiative in this matter are acting out of the most manly and humane motive and every one concerned in furnishing the entertainment this evening gladly promised aid the moment they were spoken to. The directors of the Institute have also most generously donated the use of the Institute for the occasion. Let our citizens generally then, do their share in procuring tickets for the concert. The price is made low so as to be within the reach of all and in order that all can contribute a little towards a most deserving cause without feeling the outlay. They will not only enjoy the concert but they will have the ever present satisfaction enjoyed by one who "does good by stealth" as it were, not to mention the pleasure they will have in repaying, in a small degree, the kindness shown to this city after the memorable fire of 1877.

The following is the programme for to-night's entertainment.

The S. P. C. A. acknowledges the receipt of $10 from Messrs. Manchester, Robertson & Allison, and $2 each from Messrs. C A Stockton, G Sidney Smith, H E Wardroper, Geo E Fairweather, E L Whittaker, B C Barclay Boyd, G. I. Robinson, J V Ellis, H F Troop; $1 from T N Robertson, and $3 from R C Skinner.

The strawberry and ice cream festival held by the society of Willing Workers in Leinster street Baptist church school room last evening was successful in regard to attendance and receipts. The room was crowded all the evening, and the ice cream and berries were in great demand. During the evening a fine musical and literary programme was successfully carried out.

23—Franklins v. La Tours.
27—Emeralds v. West Ends.

A good deal of routine business was discussed. The league initiation fee was decided upon as $5. It was also decided to divide the net receipts as follows: 45 per cent, to the winners, 30 per cent. to the league and 25 to the losers.

Messrs. Morton L. Harrison, James Christie and J. Allen Turner were elected a committee of arbitration.

The Spaulding pennant and the Jennings foul flags will be first prize in the league contest and Mr. Lantalum's prize second.

THROWN OUT.

The M. S. Cs by winning from the Bowdoins, Wednesday, 19 to 16, have secured second place in the Maine State College League.

The Bowdoins play in St. John on the 18th and 19th insts., and in Halifax with the Socials 21st inst.

The Bates College team * * * were delighted with their treatment here by the players, umpire and spectators, and have a most favorable impression of Halifax.—Recorder.

That's very peculiar if it's true.

Brouthers, struck out for the first time this season on Tuesday. He has played in all of the 34 games of the Bostons. Micky Welch was the twirler.

The Philadelphia management has done some strange things this season, but the most senseless one, and the one that promises to return to plague them many times before the season is over, was the release of Irwin. It was virtually throwing away all hopes that the club ever had of winning the pennant.—Evening Item.

This was the fourth meet of the provincialists in the maritime match which, as may be seen from the score, was won by Nova Scotia. The three previous competitions took place at Moncton, Charlottetown, and Halifax, the winners being: 1886, New Brunswick 701 points; 1887, Nova Scotia. 654 points; 1888 New Brunswick 661 points.

The Turf.

BROKEN DOWN.

Valuable, the fast mare, daughter of Ten Brock, with whom Frank Harper thought to beat the mile record made by her sire, has broken down and has been sent back to Harper's farm.

The trotting race between the four year old mare Clayola, record 3.03, by Allie Clay, and the five year old mare Kate Sheridan. 2 5¼, by Zenith, which took place at Kentville, Tuesday, was awarded to Clayola. She was privately timed in 2 49. Track slow.

Entries for the Halifax races, June 21st, close with J. F. Kenny to-day.

City Police Court.

James Ryan, a protectionist, was let go. Miles Sweeny drunk and given in charge by his wife Elizabeth for assaulting and beating her in their house, Union Alley, was sent to jail for 2 months in lieu of paying the fine of $8.

Kennedy McKenzie, drunk on Charlotte street was fined $4.

George Brown, drunk and using profane language was fined $6 or 20 days jail.

Last evening a large chimney standing at the edge of the falls gave way at the base and tumbled into the falls makaa very loud noise. The chimney was on the property of A. Cushing & Co.

The greatest bargain of the age. Celebrated Asbestos pipes at 25cts each; nothing like them ever offered; sold only at Louis Green's 59 King street.

Messrs. Simms & Co's Establishment Burglarized for the third Time.

Messrs. T. S. Simms & Co's brush factory was entered by burglars last night, through one of the rear windows that could be reached from the roof of an adjoining coal shed. The robber or robbers were apparently well acquainted with the premises and no novices in the mystic art of opening a door fastened with a combination lock. Nothing of importance was disturbed until they got into the office. Here one of the lower drawers was opened and some files and other handy tools procured.

With these they proceeded to break off the revolving handle of the combination lock of the vault, and then to break the inside of the lock. Being uninterrupted the work was soon done, and the burglar took all the money he could find, about $40 or $50 and left by the way he came.

The establishment was closed at six o'clock, last evening. Mr. Thomas Sloven, watchman of the factory, who passed on the opposite side of the street from the factory shortly before ten oclock last night, says that he noticed a dim light in the office. He stopped and looked but remarking in his own mind that they were working late in the factory he passon. This shows that the burglary was committed before 10 o'clock in the evening, as the light seen by Mr. Sloven must have been that which the thief or thieves were using to aid them in their work.

Telegraphic Flashes.

Notice to Mariners.

The Mersey docks and harbor board has given notice that on or about July 17th the following alteration will be made in the character of the principal light shown from Rock light house, western side of entrance to the River Mersey.

The light will be a flashing white light, showing a flash every 20 seconds.

Also that on the same date the following alteration will be made in the fog signal at Rock light house.

The signal will be two bells, each having a different note, which, during thick or foggy weather, will be sounded alternately once every 10 seconds.

Also that, on the same date, a fog signal will be established on the west side of North Wall light house, eastern side of the River Mersey entrance.

The signal will be a siren, which, during thick or foggy weather, will give a blast of 5 seconds' duration every 30 seconds.
