A letter from a military correspondent at Cologne, of the 23d instant, has reached, which announces that the King of Prussia, accompanied by the Emperor of Austria, the King of Hanover, the King of Bavaria, the King of Wurtemberg, the Grand Dukes of Baden and Nassau, and twenty of the reigning princes of Germany, will review on the 5th of September, the splendid army of the Rhine, 66,000 strong; consisting of the 7th and 8th corps of the Prussian army. This force is represented to be in the most effective condition, both as to appearance and discipline. A number of distinguished British have already assembled at Cologne for the purpose of witnessing this gratifying spectacle, and apartments have, it is said, been bespoken at the Belle Vue Hotel for the Duke of Wellington and several of his friends. It could not, however, be known with certainty whether his Grace would be able to attend or not until the 29th. He is said to have received a most cordial invitation from the King of Prussia. Should he attend, the interest of this imposing spectacle will be greatly enhanced. Of the 66,000 men who are to take part in the approaching review 48,000 are infantry troops, 10,2000 cavalry, and 7,000 artillery, with 272 field pieces. The reputation of the Prussian army for science stands so high at present, that permission is about to be given by the Horse Guards to a certain number of officers to study the art of war in that country.

On the 4th of September the foundation stone of the cathedral at Cologne, in which the King of Prussia has taken so deep an interest, will be laid with the usual ceremonies.

THE CHRONICLE.

SAINT JOHN, SEPT. 23, 1842.

The Royal Mail steamship *Acadia*, arrived at Halifax on Friday night last, in 12 days from Liverpool: the mail reached this city on Monday morning. We are indebted to Mr. CHARLES WILMER, News Agent, of Liverpool, and other friends, for copies of the latest English papers.

The rioting in England had nearly subsided, and the workmen who had been induced by the disaffected to leave their employment, were slowly returning to their labor. The promptitude and energy with which these seditious disturbances have been met by the Government, are unanimously lauded by every peaceable subject, and will be a salutary lesson to the Chartists and Anti-corn-law league for some time to come.

Her Majesty QUEEN VICTORIA, with her Royal Consort, and several officers of government were on a visit to Scotland, where they arrived on the 1st September, in the *Royal George*, Yacht, from Woolwich, and accompanied by several war steamers and frigates. Her Majesty left the shores of Britain with every mark of respect and affection, and was received in her Scottish dominions with unmingled enthusiasm, and the most marked display of loyalty and esteem. Full particulars of this gratifying event will be found in our columns.

The news from India is far from being satisfactory; and at the Cape of Good Hope, it will be seen by our extracts, that a handful of men who had gone out to attack a numerous body of insurgents had met with a reverse.

Lord Charles Wellesley, (Colonel 15th Foot,) second son of the Duke of Wellington, has been turned for South Hants, without opposition.

China affairs appear to be in the same position as stated by last mail.

Our English extracts will be found highly interesting.

THE Consecration of several new Colonial Bishops has taken place at Westminster Abbey. We do not observe one for this Province among the number.—Those consecrated were Archdeacon Parry, Bishop of Barbadoes; Archdeacon Austen, Bishop of Guiana; Dr. Davis, Bishop of Antigua; Dr. Tomlinson, Bishop of Malta and Gibraltar; and Dr. Nixson, Bishop of Van Diemen's Land.

The Archbishop of Canterbury being indisposed, a commission was appointed to act for his Grace in the interesting ceremony.

The steamer *Columbia*, to be employed by the British Government in surveying the shores and coasts of this Province has arrived at West Isles from England. She is to be placed under the direction of Captain OWEN, (R. N., and M. P. P.) of Campo Bello, and we understand will proceed immediately with the Survey as far as practicable before the winter sets in, commencing on the Eastern coast, where the surveys of Captain BAYFIELD will be taken up and continued through this province. Captain OWEN is an old officer in Her Majesty's service, and qualified in every way to conduct the important expedition to which he has been placed in command.

THE CONCERT.—Never do we recollect to have seen in this city a more brilliant assemblage of ladies and gentlemen, than was present at the Concert of the St. John Sacred Music Society, at the Institute, on Wednesday evening: the room was completely filled at a very early hour—and many persons who were so unfortunate as to be rather late in attendance, had to return. The performance throughout, was highly complimentary to the society;—and already shews what the persevering exertions of a few individuals can accomplish in the cultivation and improvement of Sacred Vocal and Instrumental Music. We hope the society will continue to favour the public with a repetition of these popular Concerts; provided it does not encroach too much upon the time and liberality of its members. The collection taken up, we believe amounted to £22 5s. which, we learn, is to be appropriated towards the expences of keeping up this society—the object of which is, to improve and promote the cultivation of Sacred Music throughout the City.—[Herald.]

MILITARY.—On Monday, that most efficient body of men the *Sea Fencibles*, paraded on King's square for General Inspection. After having gone through the usual movements, and saluted their Colonel, who highly complimented them, the battalion was dismissed.

On Tuesday the Rifle Battalion met in the same place, under Colonel Thurgar for Inspection. A most marked improvement, both in the appointment and discipline of the officers of this corps was visible; and we have no doubt that under the energetic management of their new Colonel, the battalion will be restored to its accustomed efficiency. The corps went through several evolutions very creditably, and were dismissed.

MIRAMICHI GLEANER.—We regret to perceive by the last *Miramichi Gleaner*, that Mr. Pierce has resolved to discontinue the publication of that paper. It has been printed for the last thirteen years, and has always taken a high stand among the periodicals of this Province. It would appear by the Editor's address to his *patrons* that he has been literally starved out, not for want of a subscription list, but by reason of the delinquency of subscribers and the ingenious system of "truck" payments with which he has had to contend. We should imagine that the withdrawal from circulation of the only newspaper published in Miramichi would seriously inconvenience the inhabitants of that quarter; and we trust that a unanimous effort at remuneration will be made by the parties who have used up his substance, and permit him to resume the publication of his highly useful journal.

The second Session of the First Parliament of the Province of Canada was opened by the Governor General in person on the 8th instant.

MRS. Fanny Fitzwilliam, who delighted so much our citizens two years since, by her inimitable performances is now on a visit to this city, and will exhibit for the last time, this evening at 8 o'clock.

On Thursday last, the body of a man named John Cochran was discovered floating in the river, containing such marks and bruises as to indicate that he had come to a violent end. Two men, named Louge and Connors have been arrested on suspicion and lodged in Sunbury Jail; the latter escaped to this city, but was pursued by a brother of the deceased, and with the assistance of Mr. J. Stockford, High Constable, he was apprehended. It appears that on the evening of the 5th inst. the three men were drinking in a tavern at the mouth of the Oromocto, when some difference arose between them on party subjects, and in this state they left the tavern together for their respective homes, since which time Cochran had been missing until his body was discovered floating in the river, bearing marks of violence.—*N. Brunswicker.*

MRS. Tyler, wife of the President of the United States, died at Washington on the 10th inst.

WOODSTOCK, September 17.—Major Graham, Captain Talbot, Lieutenant Meal, and Messrs. Aylmer and Glass, American Commissioners, passed through this place on Wednesday last, on their way to the St. Francis and head waters of the St. John. We understand their object is to make an exploratory survey of the new line of boundary.—We hope our own Government will not manifest their usual dilatoriness in this matter, but take immediate steps to procure such information as may be necessary for the guidance of such person or persons as may be appointed to run out the Line conjointly with the Commissioners appointed by the American Government. The evil of delay and the want of sufficient information have been so palpably manifested in our Boundary surveys heretofore, that we trust measures will be at once adopted to counteract any pernicious influence that must necessarily arise from an ignorance of the peculiar localities of that country which it is contemplated will form the future boundary between British North America and the United States.—*Telegraph.*

MELANCHOLY ACCIDENT.—Messrs. James Raymond and Lemuel Raymond, of Beaver River, started from this place on Wednesday afternoon last, for home, in a boat loaded with flour, iron, &c. It is supposed that in the *tide rip* off the S.W. Cape, the boat sunk, and the unfortunate individuals on board found a watery grave. The flour drifted ashore at Chegoggin, and we understand a hatchet, oars, and part of the washboard have also been picked up.—*Yarmouth Herald.*

Another Disaster to the Ion.—The steamer *Saxe Gotha*, which arrived here on Friday night last, reports having fallen in, on Thursday morning, with the schooner *Ion*, from this port, off the ledges near Sambro, with her foremast carried away by a gale of wind, and her mainsail and other sails torn to pieces. The Saxe Gotha made up to her and took her in tow and returned with her to Halifax.—*Ib*

The Regulations under which the Packets for England have hitherto been despatched from this Port on Monday, in those instances when the regular day of departure fell upon Sunday, will in future be discontinued; and the Packets will invariably leave on the fixed days appointed, whether the 23d or 18th of the month.—*Halifax Royal Gazette.*

The Lord Bishop of Newfoundland arrived here on Tuesday last in H. M. Frigate Sparrow from St. John's N. F. on his way to Bermuda, a part of his Diocese. He delivered a most eloquent discourse in St. Paul's Church on Sunday morning last.—*Halifax Times.*

PORTSMOUTH, Sept. 9.

The Calcutta, 84, Captain Rich, which returned from the Mediterranean, has sailed again from Plymouth for Quebec, to bring back one of the regiments ordered home from Canada. She has had her lower deck guns taken out on purpose to afford accommodation for the troops. The Resistance, ship ship, commander Patey, which sailed about a month ago with the 71st Regiment, will also bring home another regiment from Quebec, and several transports are about to be despatched there immediately to bring home other troops. The 7th Hussars, the two battalions of the Guards, and three or four regiments of infantry, will embark from Canada on the immediate arrival of the vessels ordered to convey them to England.

LIVERPOOL TIMBER MARKET.

PINE TIMBER.—The business of the month has been dull and limited. The imports continue to arrive sparingly, and the cargoes, with one or two exceptions, have either been held in bond or stored, for importers account, to await the operation of the duties in October. The falling off as compared with last year, is daily more remarkable, there being at the present a deficiency of 61,316 tons to same period, in 1841, and on an average of the last 4 years, 42,278 tons. The sales have chiefly been by retail. Of Quebec, at from 13d for middling, to 14½d for best quality, and of the new arrivals a parcel of 22,000 feet, with cargo, at 14½d per foot. Of St. John, one cargo, of 39 feet average, was sold by auction at 13½d to 17d or 14½d per foot average; and a cargo of St. John, with one of Dalhousie, at rates which have not transpired. The load of a vessel, from St. John, being of large size, and first quality, was sold at 21¼d per foot, and another, of 9000 feet apart, at 20s.

QUEBEC OAK.—49 logs, small sizes, and middling quality, have been sold by auction at 15d and 13 logs, at 11½d to 13d. A parcel of 900 feet at 23d, and a few, by retail, at 18d to 24 per foot. With cargo, a parcel of 4000 feet, good quality, sold at 18d per foot.

QUEBEC ELM AND ASH.—No important sales to report.

HARDWOOD.—There has been no important sales.

DEALS.—Quebec deals, with cargo, brought £9, and by retail, £10 6s 3d per standard.

NEW BRUNSWICK AND NOVA SCOTIA PINE AND SPRUCE PLANKS.—By auction, a cargo of middling Spruce and Yellow, from St. Stephen's, was sold at £8 2s 6d to £8 7s 6d for the former, and £8 5s to £8 10s for the latter; and, by private, a similar cargo of not so good quality at £8, all round.

LATHWOOD.—St. John has been sold by auction at £4 15s per fathom.

QUEBEC STAVES have been but little inquired for, and small parcels have been sold from the quay at low prices, two parcels of middling quality from the yard at £30 per standard, and a specification of merchantable standard staves, with cargo, at £30. Yesterday, further parcels of good quality, and specification were sold at from £40 to £45 per M; middling W. O. Puncheon have been sold at £11 to £13 per M; Barrel staves at £8, and a lot of 20 M, with cargo, at £6 7s.

MAHOGANY, ROSEWOOD, AND OTHER FURNITURE WOODS.—The sales have been limited, and by retail. The sales advertised for the 14th and 15th of September will embrace every variety, combining the choicest qualities with large quantities, and will present every attraction to the buyers.

HAVANA CEDAR.—There is none in the hands of importers.

EBONY.—A large parcel, say 250 tons African, will be sold on 14th September, as advertised.

PITCH PINE.—By auction, a lot of about 12,000 feet sold for 18½d per foot, the bulk of it bought by a speculator. Since then it has attracted more attention, and an entire parcel of 12,000 feet has been sold at 21d.

TYRE LOGS are being sold in retail quantities only.

GREENHEART.—A most superior cargo, just landed, was offered by auction, without effect, and is now being stored.

NEWFOUNDLAND, August 26.

The steamer *John Mc Adam* sails to-day for Pictou, not having accomplished her object of effecting her sale at this port. Her excellent commander, Captain Cobb, has rendered himself universally respected here for his exceeding urbanity of manner, combined with his very observable attention to the duties of his ship during the few pleasure excursions in her with which the inhabitants of this town have recently been favoured. We venture (novel though this mode of introduction may be) to commend Captain Cobb to the personal notice and attention of the respectable portion of our contemporaries in any of the neighbouring provinces at which Captain C. may happen to call.—*Ledger.*

HORRIBLE MURDER IN MONTEGO BAY.

From the Cornwall (Jamaica) Chronicle.

On Thursday last, the inhabitants of this town were thrown into an unusual state of painful anxiety respecting various rumours which were in circulation of a murder that was alleged to have been perpetrated on a young black girl near Providence estate, and accompanied with circumstances of the most revolting brutality. We lost no time in ascertaining the facts connected with this tragical event, from the most authentic sources, and it is now our painful duty to state that the most exaggerated report of the occurrence which had reached us, has fallen short of the reality. On Thursday last, as Mr. MacCallum, the overseer on Providence, was taking his usual ride round the estate his attention was attracted by the appearance of an unusual number of crows hovering about a certain spot lying off the public road towards the sea beach, he was thereupon induced to ascertain the object of their attraction, and on advancing towards the place, a distance of about 80 yards from the road he was horrified on observing the skeleton of a human body, on which the birds had apparently fully completed their horrid banquet. Mr. Mac Callum lost no time in summoning persons from the estate, and in the minute investigation of the skeleton took place. The sex of the deceased was determined by the clothing which, though torn, appeared to be that of a girl of about 12 or 14 years old: with the exception of the hands, the throat, and the legs, on which the skin remained the body was completely divested of flesh. The arms were bound tightly with cordage so as to have cut through the skin, and thus stretched out to their greatest tension; the legs were also bound about the ancles loosely with the same substitute for cordage; a piece of stick was found driven up the left nostril, and the general impression on the minds of those who were present appeared to be, that the unfortunate deceased had been violated by some monsters who had thus cruelly secured her person in order to accomplish their hellish object; after which, to prevent detection, they had thus ruthlessly murdered her, and abandoned her miserable remains in the callous manner in which they were found.

A Coroner's inquest was promptly held before Edward Evans, Esq. on the same day at Providence estate and adjourned to Monday, when the jury will meet at the Court House in this town at 1 o'clock, A. M.

The deceased was a girl of 14 years old, called Maria Duncan, the daughter of a black woman, named Maria Duncan living in this town; she had been residing for a short time with a relation at Running Gut, and was returning to this town on Sunday last; on reaching Dunn's Hole at 9 a. m. a woman residing there recommended her not to proceed any further until she could do so under the protection of some older person, as some men had been attacking people on the road; the girl remained at Dunn's Hole, until 12 a. m. when she expressed her impatience to proceed, alleging that her mother was expecting her, and would be disappointed if she did not come; the renewed admonitions of the kind-hearted woman she silenced by observing that several persons would be on the road on their return from church, and in this confident expectation the little traveller recommenced a journey whose fatal interruption and its horrible concomitants has cast an odium on the country, and an appalling gloom on the minds of its inhabitants that will not soon be forgotten.

WAR OFFICE, Sept. 19.—Ensign J. B. Gardiner, from the 69th Foot, to be Lieutenant in the 17th Regt. without purchase, vice Butler, whose promotion has been cancelled. Corporal Maj. Sutton, from the Royal Horse Guards, to be Ensign, 69th, vice Gardiner.

Married.

On Tuesday 6th instant, by the Rev. I. W. D. Gray, Rector, Mr. Washington Alden, of this city, to Charlotte Eliza, first daughter of George Pitfield, Esquire, of Salisbury.

On Saturday evening, 10th instant, by the Rev. Enoch Wood, Wesleyan Missionary, Mr. David Sears, to Miss Eleanor Wilson Harbell, both of this city.

At Scarborough Church, Island of Tobago, on the 23d June last, by the Rev. George P. Culpeper, William J. Gray, Esquire, Assistant Commissary General to the Forces, to Louisa Berkley, only daughter of Lieut. Colonel Mills, unattached.

At Eastport, on the 11th instant, Mr. William Mack, to Miss Sarah J. Lincoln.

At St. John's, N. F., by the Lord Bishop of the Diocese, R. Talbot, Esquire, of the Royal Regt. of Artillery, to Henriette, eldest daughter of his Lordship's Chaplain, and principal of the Theological Institution of Newfoundland.

Died.

On Saturday, Esther Elizabeth, infant daughter of Mr. George Robinson, aged nine months.

Yesterday, Mary Jane, infant daughter of Mr. Thomas Ferguson, aged 14 months.

In Portland, on Monday 12th instant, Frederick Adams, infant son of Mr. R. Dalton, aged twelve months and thirteen days.

In Portland, same day, Janet, infant daughter of Mr. James Wales, aged six weeks.

At Portland, on the 15th instant, after a protracted illness, aged 51 years, Elizabeth, relict of the late Mr. Benjamin Davidson.

At Eastport, on the 14th instant, Mr. Richard P. Bates, aged 68 years.

At Liverpool, (England,) on the 17th August, Samuel Augustus, infant son of Mr. F. A. Wiggins, aged 16 months.

At Bermuda, on the 20th instant, after a brief illness, F. M. Fraser, Esquire, Captain in H. M. 20th Regiment.
