AMERICAN NEWS.

A vessel stuck of Cattle, sheep, was lost at Yokohama, Aug. 20th, but no damage was done.

A new salt bed has been discovered in Saginaw Valley, Michigan, which is declared inexhaustible. The brine is obtained at a depth of 1,764½ feet.

In the absence of the Rocher monitor, the situation among the journals has taken the "Stolen Child" draft. Chanley Chase has found a number of followers in his opinion, and the story goes.

The New York Central and Hudson Railway Company has negotiated through Von Hoffman & Co., of New York, and Raphael, of London, a loan of $5,000,000 at equal to something over 7 per cent. This will give the company money to

The Japan [illegible] of Aug. 20th, contains an account of the murder of Mr. Hale Haber, German Consul at Hakodadi, by a native, who says he was actuated by a demon. He killed his victim with a sword, slashing him in a most horrible manner, and cutting one leg entirely off. The German Corvette Elizabeth left at once for Hakodadi.

From a return made to the Bureau of Statistics, at Washington, it appears that during the month of August grain and flour were shipped from Chicago to Canada, to be transhipped on European port as follows: wheat, 837,955 bushels; corn 215,575 bushels; oats 1,696 bushels; flour 4,527 barrels; total value, $94,057,12.

EUROPEAN NEWS.

A collision occurred in the Mersey between the Spanish steamer Tomas and the Anchor Line steamer Alexandria. The latter was sunk and the Tomas was badly damaged.

A terrific collision occurred on Friday morning on the Great Eastern Railway near Norwich. Fifteen persons were instantly killed and thirty injured, some of whom it is feared will not survive.

The ship Boxing, while on her voyage from Shields to Aden, took fire and was destroyed. Twenty-one members of the crew, who escaped in two boats, have arrived at St. Helena after a passage of upwards of 1,100 miles, during which neither boat saw the other. One of the boat containing the captain of the crew, has not yet been heard from.

The Statistics declare that the German population they numbered [illegible] were so. Answering to offers of a [illegible] emigrating man under the general German flag, their crews, the general German paper intimates that [illegible] will not take the [illegible] of emigrants, [illegible] frequently in this material [illegible] way."

The New York Railway Commission in 1873 killed [illegible] persons, who [illegible] killed over [illegible] they had [illegible] 455,775 [illegible] passengers carried, the number of the companies some of [illegible] one out of every 323 of [illegible] killed. There were 241 [illegible] during the year investigated by the Board of Trade—which nearly two [illegible] to every thousand days. More than half the accidents were collisions, and out of the whole 247 there are only five that resulted from unavoidable causes.

WANTED MEDICAL EVANGELISTS.—Now that the season for selling has arrived, we would impress upon our readers the necessity for carefully weighing and measuring everything they sell. There is too much guess work done. Buyers are holding prayer-meetings every day of the week, and they do every day of the week, and they weigh and measure after handle. They are well posted. Sellers are not. When it comes to satisfy the farmers are too [illegible] with the horses by his portinacity, easily persuaded by the Beaden farmers and the money, and do not like to lose a sale. So they give way. There is another of disputes so stubborn as a platform scale. A Fairbanks' scale will save many words, and much time and loss. Every barn should be provided with one, and nothing should be taken out for sale until it is weighed and plainly marked with its weight.—*Am. Agriculturist.* 1m

CONSUMPTION OF THE LUNGS.

[illegible], N. B., FEBRUARY, 1873.

[illegible] behalf of my family, I wish to express a debt of gratitude I owe to Dr. Fellows. My daughter had ill with Inflamation on the Lungs and raised large quantities of purulent matter, attended with every [illegible] of Consumption. After obtaining a consultation of two eminent physicians who afforded no relief, she was induced to try Fellow's Syrup of Hypophosphites. Upon taking two bottles we had every reason to believe she would be cured. Her physicians were surprised to find her improvement so rapid, and advised her to continue the use, which she did until her complete recovery. Two years have elapsed, during which time she has neither taken nor required any medicine, enjoying good health, and urges all who are afflicted with any Lung or Chest trouble to use the Hypo. without fail.

My wife, also having been in bad health for some time, and having had Typhoid Fever in December last, which left her much prostrated, was advised by the physicians to use this remedy to build her up. Before taking half a bottle she found herself much benefited, and still continues to use it.

I believe, under kind Providence, Fellow's Compound Syrup of Hypophosphites has been the means of restoring my wife and daughter, and I hope the afflicted will avail themselves of its use, for although it is widely used I think its value is not appreciated.

Yours truly, JOSEPH A. EVANS.

ELECTRICITY

THOMAS' Eclectric Eclectric Oil.

Worth Ten Times its Weight in Gold!

Pain cannot stay where it is used. It is the cheapest Medicine ever made. One dose cures common Sore Throat. One bottle has cured an Old Standing Cough. It positively cures Catarrh Asthma and Croup. Fifty cents worth has cured Colds in the Back, and the same quantity cured Colds in the Chest of years standing. The following extracts from a few of the many letters that have been received from different parts of Canada which, we think, should be sufficient to satisfy the most sceptical. J. Collard, of Sparta, Ont., writes: "Send me 4 doz. Dr. Thomas' Eclectric Oil, have sold all I had from you and want more now; it's cures are truly wonderful." Wm. Maguire, of Franktin, writes, "I have sold all the agent left, it sells like a charm—it was slow at first but takes splendidly now." H. Cole, of Iona, writes, "please forward 6 dozen Thomas' Eclectric Oil. I am nearly out; nothing equals it. It is highly recommended by those who have used it." J. Buford, Thomasville, writes—"Send at once a further supply of Eclectric Oil. I have only one bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodford, writes—"Send me some more Eclectric Oil, I have sold entirely out. Nothing takes like it." Mulver & Reed Riverton, P. Q., write—"The Eclectric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. Q. write—"Send us one gross Eclectric Oil, we find it to take well."

Sold by all medicine dealers. Price 25 cents.

S. N. THOMAS, Prepr., N. Y.—And NORTHROP & LYMAN, TORONTO, Sole Agent for the Dominion.

Agts.—*Eastern*—Selects and Electrized.—2m

☞ Sold in Goderich, by Geo. Cattle, F. Jordan J. Bond; Gardiner & Co., Bayfield; Jas. Benham Hayesville; J. Packard, Exeter; G. Berry, Lucknow; and J. M. Roberts, Dungannon.

HIDE BOUND HORSES.

A horse is said to be hide-bound when his skin will not slip under the pressure of the hand, but sticks as if it was glued, which is always dependent on a deranged state of the stomach and digestive organs—by correcting which, and giving to them a healthy tone and condition, the disease or complaint will disappear. Experience has proved that the means best adapted to this end is "Darley's Condition Powders and Arabian Horse Remedy." It has been used in numerous cases with complete success, gaining or effecting a cure in a few days. It is the best condition medicine known, and may be given with perfect safety at all times, and does not require that the horse be kept from work. Remember the name, and see that the signature of Hord & Co., is on each package. Northrop & Lyman Toronto, Ont., Proprietors for Canada. Sold by all Medicine Dealers.

Special Notices.

CAUTION.—Beware of Counterfeits. The genuine Holloway's Pills and Ointment are manufactured only at 533, Oxford Street, London, by Professor Holloway, and are not to be purchased in the United States or elsewhere out of the British Dominions, unless they have the words "Holloway's Pills" and "Holloway's Ointment" plainly visible in the Government stamp affixed to each pot and box. The Pills and Ointment are sold by all vendors of medicine throughout the civilized world, with directions in every language.

A PUBLIC CAUTION.

Holloway's Pills and Ointment are counterfeited in this country, and offered for sale in the United States. Although the counterfeits are not to be distinguished from the genuine by the public, they are easily detected by chemical analysis, and we have ascertained that they are composed of the cheapest and most worthless ingredients. We have also ascertained that the counterfeits are not manufactured in any place in the United States, but are imported from Europe. We have also ascertained that they are not sold by any respectable vendors of medicines, but are disposed of by a class of pedlers and others who, by representing themselves as agents for some other medicines, are able to impose upon the public. We have also ascertained that the counterfeits are not sold at any regular medicine store, or by any regular medicine vendors
