PORK HAS GONE UP TO $10 PER HUNDRED

Prices Are High On Market—Roads Are Very Bad.

The local market this morning was very small, owing, no doubt, to the bad roads. No oats or hay werg offered. The price of pork has risen to $10 per cwt., and there is every indication that the price will still rise. Potatoes are ranging from $1 85 to $1 95 a bag wholesale.

Morgan Buys Bonds.

NEW YORK, March 27.—The United States Steel Corporation announced today that it had sold to J. P. Morgan & Co. an issue of $30,500,000 in bonds bearing interest at the rate of 5 per cent. This is the first time in years that the corporation has issued bonds, its surplus earnings heretofore having been used in the construction of new properties. The announcement was made by Judge E. H. Gary, chairman of the board, who, in a statement, said: "As there must be expended during the year about $20,000,000 for extensions of properties generally as heretofore authorized, and as about $17,000,0000 additional working capital is needed, in consequence of increased business of the companies, particularly in the ore department, it has been thought advisable to secure the sum named by sale of bonds in order to kep the amount of cash on hand up to the sum shown at the beginning of the calendar year."

POLICE ASK FOR ONE DAY OUT OF SEVEN

Deputation Waited Upon Chief of Police Williams on Tuesday.

The police of the city, represented by a delegation of half a dozen from their number, waited upon Chief of Police Williams Tuesday afternoon at his office, with a view of obtaining his co-operation in their endeavor to have the commission add to the force in order that each constable may have one day off in every seven.

At present the police work every day in the year excepting the two weeks' holidays allowed each man in the summer time. People employed at practically all other occupations, including civic work, are given more consideration, they assert, and their positions are even more unenviable, because of the fact that they are shifted weekly from night to day work, and are compelled to tramp about in all sorts of cold and disagreeable weather.

The detectives, patrol sergeants and full sergeants also work every day in the year. It is thought that the matter will be taken up at the next session of the police commission, and that favorable action will be taken.

Toronto has recently taken action such as is desired in Landon, and Hamilton authorities are now considering the step.

ALL STEEL CARS

New Type of Construction on the G. T. R. and Lehigh.

During the past few days three of the latest type of railway coaches have passed through this city on the Grand Trunk-Lehigh Valley trains.

The all-steel cars, which are of the baggage type, have been attached to the finest through passenger trains, and are identical with those that rolled over the ice on the Hudson River undamaged after a derailment a short time ago, as told of in press dispatches. The cars are 70 feet long, and are mounted on two three-wheeled trucks. There is absolutely no wood about them on either the interior or exterior. The latest equipment, including electric lights, is provided.

Railwaymen consider that they would withstand almost any shock, but just what the result would be should a train of these monsters collide with ordinary rolling stock is questionable.

NOTED CONVERT TO HOME RULE

Sir Frederick Pollock Throws Over the Unionist Cause.

"Sir Frederick Pollock is distinguished as a jurist, a philosopher, a historian, an authority on the Constitution, and in the days of Mr. Gladstone's first and Second Home Rule Bills he was convinced and ardent Unionist. The Ulster Unionists have converted him to Home Rule," says the London Daily News.

Sir Frederick Pollock, in a letter says:

"Twenty-five years ago I was a convinced Unionist, hoping that the Ulster Unionists were abandoning their ideas of ascendency and would work with British statesmen for the improvement of Irish government under the Union—an end which I believed and still believe was then practicable with good will and good sense. What has that party done? It has not stirred a finger for the amendment of notoriously absurd methods of administrations. It has wrecked Mr. Balfour's scheme of University settlement. It has played into the hands of the extreme Nationalists in wrecking a moderate scheme of devolution which commanded the assent of many Unionists in Ireland, as well as Great Britain, not to speak of its part in frustrating the endeavours of its more generous and far-seeing British allies in the conference of 1910. It has obstructed agricultural development. It has made Lord Dunraven, a leading Irish Protestant Conservative, a Home Ruler. I am reluctantly convinced that its ideas are not of equality, but of ascendency; and the action of Sir E. Carson and his companions at Belfast would have completed that conviction if more proof had been wanting. That is why I am now a Home Ruler."

TREES WERE DESTROYED BY NIAGARA POWER MEN

Engineer Glaubitz Admits That Much Damage Has Been Done.

The Horticultural Society are strongly opposed to the water commissioners having control of the tree-trimming of the city. If the Legislature does decide to hand over to the commissioners that power, strong pressure will be brought to bear upon the commissioners to properly trim the trees of the city. Scores of complaints have been made of late, and the citizens in many portions of London are indignant.

General Manager Glaubitz admits that the trees have been in many cases ruthlessly slashed, but insists that better work will be done when the commissioners have full control.

"I admit that there has been a great deal of damage done," said Mr. Glaubitz. "Some of the men should have been severely punished for being so careless. At the same time, when we have full control, we will see to it that a proper system of trimming is followed. We will have a good man in charge, and I feel satisfied that the citizens will be suited."

"We are not satisfied with the way things have been conducted," said Mr. A. J. Morgan, secretary of the Horticultural Society. "Many fine trees have been needlessly sacrificed, and we want a stop put to it. We intended sending a man down to Toronto to protest against the commissioners being given full control of the trees on the streets, but none of our members could get away. However, Mr. Gammage, Dr. Jeffery and Mr. W. E. Saunders sent our views to members of the private bills committee, and a protest will be entered on our behalf."

Dr. Yeuell's Address.

"Where Are the Wicked Dead?" was the subject of Dr. Yeuell's sermon last evening at the Congregational Church. The famous "Ben urH" illustrated lecture will be given tomorrow night ,and early comers will fare best.

May Be No Trip.

A move has been on foot for some time to have a number of prominent members of the different boards of trade of Ontario go to England this summer at their own expense, partly on business and partly on pleasure. A meeting will be held at 6 o'clock on Thursday in Toronto, when the special committee appointed by the Associated Boards of Ontario will consider the matter, and will decide whether there should be a trip. BISHOPSTOWE WAS OPEN TO DELEGATES

Woman's Auxiliary Entertained by Bishop and Mrs. Williams Tuesday Night.

MISSIONARY IN HONAN

Appeal Was Made For a Woman to Work in That Field of Foreign Endeavor.

"Bishopstowe," the residence of Bishop and Mrs. Williams, was most kindly thrown open Tuesday night for a reception of the many delegates in attendance at the Anglican Woman's Auxiliary convention. Over one hundred members and others were present, and the spacious rooms were well filled. Bishop and Mrs. Williams received at the entrance to the drawing-room, Mrs. Williams wearing a most becoming gown of black.

Among the guests were noted Archdeason and Mrs. Richardson, Rev. G. B. and Mrs. Sage, Canon Tucker, Rev. C. R. Gunne, Canon and Mrs. Craig, Principal Waller, Mrs. Waller, Dean Davies, Mrs. Davies, and a host of others. In the dining-room refreshments were served.

The ladies assisting were the Misses Williams, Miss Zimmerman, Mrs. (Rev.) Doherty, Mrs. (Prof.) Patterson, Mrs. McPherson (Stratford), Miss Topsy Wilson, and the Misses Robinson.

Business Meeting.

The session of the Anglican Woman's Auxiliary annual meeting at Cronyn Hall Tuesday afternoon was mainly occupied with routine business and a meeting of the board of management. An appeal was made for a woman missionary to work in the diocese of Honan, China. This is the diocese recently opened by the M. S. C. C. and is in charge of Bishop White, a Canadian. The necessary funds to support a missionary are already in the treasury. Many of the workers in foreign and domestic fields are crying out for help and for enlarged buildings. The work is increasing rapidly, and it has been found necessary to also increase the pledge mission fund. These questions will be considered today, when the board of management make their report before the delegates.

The thank offering presented after the service on Tuesday morning amounts to about $600, and it is expected that this will be added to before the close of the meetings.

Today's proceedings began with morning prayer in St. Paul's Cathedral at 9:45. At 10 a.m. some 125 delegates answered to roll call.

President's Address.

The president's address was one of the main features of this morning's proceedings. In her opening remarks, Mrs. Sage welcomed the members of the auxiliary to the twenty-fifth annual meeting. A quarter of a century has elapsed since the inauguration of the auxiliary. It was first organized in Ottawa on April 21, 1885, and in September, 1886, a meeting was held in Montreal to complete this organization. Mrs. Baldwin and Mrs. Tilley were the representatives from Huron Diocese, and upon their return the Diocesan Woman's Auxiliary was formed. Mrs. Sage pointed out the necessity of putting the spiritual side of the work first, and the material activity second. The objects of the association were stated to be intercessory prayer for missions, united action in the cause, diffusion of wider knowledge and missionary zeal. In 1890 the first missionary was sent out from the Woman's Auxiliary of this diocese, when Miss Busby left for Blood Reserve, Calgary Diocese. The work has grown widely from year to year, and missionaries are now sent out to many parts of the world. This year is specially marked by the raising of funds to build two churches in the Northwest, in memory of the late Bishop Baldwin.

The Winnipeg Meeting.

A synopsis of the proceedings of the triennial meeting held in Winnipeg in September of 1911, was given by Mrs. Sage. Among other problems, the question of the foreign element was discussed. "It is desired to obtain all possible information in regard to the religious instruction of these 'strangers within our gates.' We do know that heathen temples have been erected on this continent, both in the United States and in Canada, and heathen worship carried on in these temples. This is a serious question which we have to face, and we cannot close our eyes to it."

In speaking of missionary efforts, the preseident stated: "We hear on all sides that now is the crucial point in missionary work. In the W. A. we have the money to train and support workers, but we have not the workers."

An appeal will be made to the members today for voluntary candidates for the mission field.

CENTRALIA ASSAULTER GIVEN TWO YEARS

Barnardo Boy Pleads Guilty to Atack on Young Girl.

[Special to The Advertiser.]

Goderich, March 27.—Ernest Lusby, a young man of 17 years, from the village of Centralia, who was charged with assault by a young farmer's daughter living near there, pleaded guilty to the charge before Judge Britton at the assizes yesterday. Mr. Goodwin, a lawyer from Exeter, put up a strong plea for the youth, who was a Barnardo boy, enlarging upon his birth, education and environment, and pleadin extenuating circumstances. Judge Britton personally examined the girl in the witness box, and this morning sentenced Lusby to two years in Kingston.

A MIRACULOUS TRANSFORMATION.

A cul de jatte, who has but one arm may be found every morning before daylight at a street crossing, where he solicits the generosity of the passersby who are moved by excess of his afflictions. Toward mid-day, his receipt of cash being satisfactory and deeming the moment propitious, the street being deserted, he unhooks the false sleeve from his shoulder and there emerges from under his coat a perfectly normal, true arm.

After that he raises himself upon his hands and unfolds the legs that are doubled under him and which have nothing artificial about them, as by their aid he disappears quickly. Those of our readers who may be interested in this modern cripple may find him in good weather on the stairs at Madrid and Rocher streets. If they will hide behind the windows of a neighboring house some minutes before noon they will see this miraculous transformation.—Le Cri de Paris.

Brain of Infant Transferred to Man

[Canadian Press.]

Baltimore, Md., March 26.—Extracting part of the brain of an ill man and replacing it with that taken from a still-born infant was the operation recently performed at Johns Hopkins Hospital by Dr. Harvey Cushing. It is said to be the first operation of its kind ever performed, and it is thought it will be successful, for the man is still living.

The patient is William Buckner, a real estate dealer of Cincinnati, Ohio, 48 years old. Coming to the hospital on Nov. 23, he was treated for several months before the operation was attempted.

He had suffered for some time from a peculiar affection of the brain, which caused him to be continually drowsy.
