WHEAT LOWER ON GOOD CROP OUTLOOK

Needed Moisture in Winter Wheat Belt Factor in Downturn—Heavy Receipts of Corn.

CHICAGO, Jan. 17.—Local grain markets declined again today, while provisions gained slightly. At its best today wheat was nearly a cent under yesterday's top and generally ruled under the previous close. A report of 30 loads sold at Manitoba and Duluth for export helped the early price to the highest of the session, but this gain was only momentary. Prices slumped heavily on moisture in the winter wheat country, indifferent cables, an easy spot market and a private estimatethat the Argentine will have 160,000,000 bushels to export to Europe. Exports from that country continue on a huge scale. The northwest freely offered to arrive here at the opening of navigation at 1-2c under May.

Corn was weak all day, save for an upward flurry in sympathy with the abortive bulge in wheat. May declined 1-2c to 5-8c under yesterday on the heavy receipts and on a flat cash market. To the weight of long corn previously dumped into the pit were added short sales. Seaford and foreign buyers declined to be tempted by price concessions. Weakness in southwestern markets, where owners were reported as attempting to unload also was a factor in the local weakness.

The decline in oats was due to the influence of other grains and weakness of the spot market. A recent leading bull sold heavily. Provisions again advanced on the light run of hogs, gaining 2 1-2c to 7 1-2c.

Broomhall estimates the shipments for the week, exclusive of North America, at 5,200,000 bushels, against 3,756,000 bushels last week. Of this, Europe will take about 4,400,000 bushels. Arrivals into the United Kingdom, about 3,600,000 bushels. Total shipments last week: 9,696,000 bushels, and last year 8,096,000 bushels. He predicts fair increase on passage.

India wheat shipments this week, 896,000 bushels; estimated next week, 616,000 bushels.

Australia wheat shipments, 1,328,000 bushels this week.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, Jan. 17.—The market opened lower, with some realizing, induced by the lower American cables yesterday and the forecast of larger world's shipments. The comparative firmness in Buenos Ayres and the strength in Rosario, together with the continued light shipments from Argentine, caused support, and prices after the opening advanced, with March leading. There was good outside buying, and local millers were buyers of futures on the belief of a scarcity of contract grades for March. Cargoes are in good demand, with the continent bidding.

Corn opened unchanged for the Plate grade and ¼c lower for American, in sympathy with lower American cables. Later there was an advance, in sympathy with wheat and the firmness in Buenos Ayres at the close.

CHICAGO GOSSIP

Neill, Beatty & Co. from Logan & Bryan:

Wheat—There was good activity in wheat at times today, but on the whole the volume of trade was lighter than for a couple of days past, and there was no such bearish demonstration at any time as many in the trade expected. Bottom prices of the day were made on selling caused by a direct cable from Argentine raising exportable surplus to 160,000,000 bushels. There was a confident tone on the buying side at the close.

Erickson Perkins & Co. (J. G. Beaty) wired:

Wheat—We continue to feel friendly to the long side of wheat on the weak spots, such as occurred today, when prices from the high point of yesterday to the low point of today showed a decline of 1¾c per bushel. We are inclined to look for a decrease in the visible supply on Monday next.

Corn—We continue to feel that corn has had its rally, and the trend of the market is unmistakeably lower. Receipts today, 527 cars; estimated for tomorrow, 503.

Oats—Further heavy selling by the same interests which have been prominent on that side of the market for several days was a feature today. Cash prices were lower, with the shipping demand of a desultory character.
