COVENANT OF ULSTER MEN TO BE SIGNED BY 750,000

London Times Predicts Terrible Things if Home Rule Is Passed.

London, Aug. 22.—The Times says the covenant to which Ulster men will pledge themselves at the meeting on Sept. 28 is that if home rule is enacted they will not acknowledge the Parliament at Dublin, will not obey its laws, and will not pay taxes. It is expected that the Privy Council will be the first to sign, and that those signing the covenant will number from 500,000 to 750,000.

There is reason to believe, moreover, that the Unionist leaders at the meeting in Belfast on Sept. 19 will announce the heads of the constitution which they will set up in the contingency of the enactment of home rule. It will separate the judiciary as well as the assembly.

The Times says editorially that the Ulster men have but to conduct their movement on the lines indicated by their leaders to insure success. It is by its gavity, its moderation and its unflinching firmness that it will arrest attention and command the support of the English and Scottish peoples.

MERCANTILE MARINE THREATENED BY STRIKE

Newly-Formed Union of Masters and Mates Try to Block Sailings.

London, Aug. 23. — The culminating strike of the series which has crippled the British carrying business during the past two years is threatened by the officers of the mercantile marine.

The movement began today, when the newly-formed union of shipmasters and mates tried to prevent the Canadian Pacific liner Mount Royal from sailing. The chief officers was dismissed, and the union demanded his reinstatement. A substitute was obtained by the company, however, and the vessel left port.

The officers are well organized; they are violently discontented, and they propose to put forward before the end of the year what they consider their legitimate demands. Failure to meet these on the part of the shipowners will, they say, be met by a strike "which may starve the nation."

Inadequate salaries is the foremost count in the indictment against the companies. Masters of some of the largest passenger ships are paid no more than $2,000 a year, and most of them have families ashore to maintain. Entire denial of vacations, seven days' work weekly, with long hours while in ports, as well as at sea, and the liability to loss of certificates through one error of judgment, are some of the hardships being discussed.

Other recent strikes have failed, largely because the strikers were unskilled laborers whose places could be filled. The officers of ships, on the other hand, are a special class, and a general strike by them would leave the owners almost helpless.

MAN AND WOMAN IN FATAL DUEL

Kills His Sister-in-Law When She Defends Wife From Attack.

[Canadian Press.]

Herrin, Ill., Aug. 22.—Thomas Guffy, president of a miner's union at Colpville, and his sister-in-law, Mrs. Anna Floher, shot each other to death here last night, when the latter tried to save the life of Mrs. Guffy, who had been attacked by her husband.

Guffy's wife left him a month ago, and he called at his mother-in-law's home, where she had been staying, to see her. He told her he had come to kill the entire family, and fired at her. The bullet went wide, and Mrs. Floher opened fire on him from a window. Several shots were exchanged between the two, Guffy receiving six bullets. Mrs. Floher was shot through the heart.

'PLANE TURNED TURTLE

[Canadian Press.]

Lamar, Colo., Aug. 22. — George Thompson, a Denver aviator, was killed late yesterday when his aeroplane turned turtle at the race track here and fell to the ground.

The aeroplane was tipped over by a light breeze just as it had passed over the crowded grandstand at a height of 200 feet.

Thompson jumped, but the plane fell on him, crushing him so badly that he died on the way to a hospital

Department of Justice to Gather Statistics Bearing On the Canal Matter.

Doherty to collect all information and statistics contained in the records in possession of the Government having any bearing on the Panama Canal controversy.

It is understod that this action is taken for the purpose of augmenting and strengthening Great Britain's case, which will be put in motion through diplomatic channels in the event of the bill granting special privileges to United States ships becoming law.

Among the statistics to be compiled by the departments will be figures showing the free and equal benefits derived by American shipping through Canadian canals.

DR. NOBLE RELEASED

Judge Finds There Was an Error in Commitment Papers.

Montreal, Aug. 22.—Charles Noble, the Philadelphia physician, who has been confined since June 24 in the Verdun Insane Asylum, was granted his release this afternoon by Mr. Justice Demers on a writ of habeas corpus. The judge did not dwell at all on the supposed mental condition of the plaintiff, but gave his judgment in favor of the release of the petitioner on account of a technical error in the commitment papers on which Dr. Noble had been confined.

Counsel for the asylum authorities asked for time to have the error corrected, but the judge refused a delay. He stated that Dr. Noble, being an American, could, if he were later proved insane, be attended to in the institutions of his own country; and if he were sane he was at liberty to choose his own place of residence.

BIG PULP ENTERPRISE

Fifteen Million-Dollar Organization to Do Business in Labrador.

[Canadian Press.]

Montreal, August 22.—One of the largest pulp paper enterprises ever launched in this country has been decided upon by the interests representing the Labrador Pulp and Power Company, involving the increase of the capitalization of the company from three millions to fifteen millions of dollars.

This announcement was made yesterday by Robert H. Reid, vice-president of the company, of New York City, on his way to Newfoundland and Labrador, for which trip he has chartered the steamer Wampanog.

Mr. Reid stated that the undertaking would mean the development of one of the most important water-powers in the country, the falls on the Hamilton river, which are only second in power to those of Niagara, and that two large mills would be built, one at Hamilton and the other at Sandwich.

Mr. Reid is accompanied on his trip by a party of American capitalists, among them being G. A. Massey, of the Harvester Standard Oil Company.

A HEAVY STORM

Lightning Struck the Roof of Baptist Church at Ingersoll.

[Special to The Advertiser.]

Ingersoll, Aug 23.—The heaviest thunderstorm of the season occurred here yesterday afternoon between 4 and 5 o'clock. The rain fell in torrents and was accompanied by heavy thunder and sharp lightning. During the storm lightning struck the tower of the Baptist Church, ripping off a portion of the ridgeboard and several shingles. The damage, however, was very light. Several years ago the church was destroyed by lightning.

The baseball game yesterday afternoon between east and west side businessmen came to an abrupt termination owing to the rain, but it had an exciting finish. Throughout the teams were evenly matched, a victory eventually being recorded for the west side by a score of 11 to 10.
