Hamilton Ice Races Postponed.

HAMILTON, Feb. 8.—The races on the ice have been postponed until to-morrow at 2 p.m. The ice is covered with about eight inches of water.

General Notes.

Harry Blaylock will handle the ribbons over his trotter Toboggan in the 2.50 trot at the Hamilton ice races.

Manager Hackett is reported to have signed Jimmy Fields, of the Athletics, to play first base for the Newarks.

Philadelphia Sporting Life: Toronto has the best claim on Conner's services, and Rochester will undoubtedly have to give him up.

The latest betting quotations on the English Derby are as follows: 11 to 2 against The Baron; 9 to 1 each against Enterprise and Florentine.

J. Haggerty, the English (champion) swimmer, and W. Beaumont are matched to swim a 100-yards race on March 8 at the Fulham Baths, Walham Green, London, for $250 a side and the championship of the world.

The English papers announce that Mr. Robert Peck has sold the 4-year-old colt The Bard, by Petrarch, dam Magdalene, to Mr. H. Say, the French owner and breeder residing near Paris, for 10,000 guineas.

The Monmouth Park Association has added two new stakes to their list for this year, both being for 2-year-olds. The stakes have been christened the Lassie and Colleen; the distance in each is three-quarters of a mile.

The Saratoga Association announces a new steeplechase named the Helter-Skelter to be run over the short course at the first meeting; and for the second meeting a new stake to be called the Beverick, at a mile and 500 yards, to which Mr. M. H. Nolan adds $1000.

It is reported that the Messrs. Dwyer and O'Reilly have come to an understanding; and that the Dwyers will take Connemara, subject to trial, and if, when she is galloped, she shows no effect of her late illness in the shape of roaring, etc., they will pay Mr. O'Reilly his price.

Sunday racing was inaugurated at New Orleans on Sunday last. The first race, a mile and a quarter over five hurdles, was won by April Fool. The second, five furlongs, was captured by Whisky Jack. Peacock, a 12 to 1 chance, won the third race at three-quarters of a mile. In the last event, seven and a half furlongs, Ascola came out victorious.

The New York Herald says: Canada has done much to boom the game of football. The international match with the champions of the American Association drawn an immense crowd on a fine day. Canada lost the last match, and it is probable that the visit of the Toronto club and Toronto University club next month is for the purpose of retrieving their laurels. By the time they arrive here all the clubs will be in full play and good condition, and will give them a hard fight in the series of games they propose to play.

It is reported in New York that several yachtsmen, believing that the Thistle will be ninety or more feet in length, thus giving the Scotchman advantages over the Purlian and Mayflower, are forming an association to build a large centreboard sloop, after Burgess' design, to compete with the new rival. No one will say anything about the project as yet, but if, when the authentic plans of the Thistle are made known, she proves to be ninety feet in length, a yacht to contend with her will be started at once, for Boston yachtsmen will spare no money to keep the champion craft in the Eastern Yacht Club.

In Austria-Hungary the racing season commences on April 11 and ends on Oct. 30. In this period there are forty-five race days, with 295 races, of which twenty-seven days will be held in the capital of Austria, Vienna, and eighteen days in the capital of Hungary, Buda-Pesth. On May 22 the Austrian Derby will be run for in Vienna. The stakes are worth about £1200. The most wanted for this race in the betting are: Abounent, 3 to 1 against; Petrus, 6 to 1 against, and Bulgar 6 to 1 against; Zampan, 13 to 2 against. On last year's running Abounent has got the most chances to win this race.

The officers of the American Jockey Club announce several stakes to be run at Jerome Park spring meeting, to close March 1. Owing to the uncertainty of any amendment being made to the betting laws by the Legislature and the declared hostility of the police authorities to the racing at Jerome Park, the list of stakes is limited. There are but five stakes announced, which include the Juvenile at half a mile and the Sequence at five furlongs for 2-year-olds. The remaining three events are handicaps and include the Croton at a mile, the Fordham at a mile and a quarter, and the Westchester at a mile and three furlongs.

President Stromberg says: "The St. Louis Maroons have determined to remain in the National League. A few days ago all the clubs of the country were bidding for and demoralizing our players. Boston offered $7500 for Glasscock's release and New York offered $4000 for Denny's release. Besides that they had been tampering with those players, who, as a result, wanted to go to the cities in question. Under such circumstances I deemed it the right policy to accept the $11,500 offered. But as soon as I accepted they declined, showing that they were only playing a game of bluff, and at the same time trying to demoralize our players. On account of the action of New York and Boston I have concluded to pay no more attention to these offers. I will keep Glasscock, Denny and all the rest, and will open the season of 1887 with the strongest club St. Louis has ever put in the League."

THE NEW YORK STRIKE.

A Conference, But All Information About it is Refused.

NEW YORK, Feb. 8.—Along the North River front there is a decided improvement in the business of the railway and steamship companies, and freight is more easily handled to-day. The Pennsylvania agents are turning applicants away. The Italians are being gradually discharged as better help is hired. At Pennsylvania Pier No. 39 fifty of the old men went back to-day. The conference called for to-day at Austin Corbin's office was attended by J. R. Maxwell in his place, Mr. Corbin having gone to Philadelphia. T. J. Putnam represented the K. of L. All information was refused as to the result. The conference adjourned until to-morrow.

Around the Police Stations.

A tailor named Joseph O'Hara complained to the police last night that he had been robbed of $20 by some men near the Bay Tree Hotel, at Bay and Adelaide-streets. A couple of young men, Patrick Cullen, living in rear of 117 Queen-street west, and Patrick Gannon, of 154 Richmond-street west, who accompanied O'Hara to Police Headquarters, were searched but afterwards allowed to go. O'Hara was pretty drunk.

Agnes-street Police Station accommodated two alleged assaulters last night. Wm. Windsor is charged with beating his wife and Bryan McMahon with beating his father.

The Biggest Auction Sale Yet.

C. L. Stevens & Co. are going to offer the largest and best assortment of furniture ever offered to the Toronto public to-day, Feb. 9. The goods are comprised of the whole contents of an elegantly furnished house, 21 Montague-place. The above sale offers a chance to parties wanting first-class goods at auction prices, a bargain seldom met with.

Free Trade.

—The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with *Green's August Flower* and *Boschee's German Syrup*, as the reduction of thirty-six cents per dozen, has been added to increase the size of the bottles containing these remedies thereby giving one-fifth more medicine in the 75 cent size. The *August Flower* for dyspepsia and liver complaint, and the *German Syrup* for cough and lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size. 135

TO THE ELECTORS OF EAST TORONTO.

GENTLEMEN:—After mature deliberation I have determined to seek election as your representative in the House of Commons of Canada. My reasons for so doing are as follows: I am deeply impressed with the fact that the young men of Canada are not represented in Parliament in proportion to their numbers, intelligence and their interests in the country, owing partly to the machine system of party politics by which individual liberty is crushed out of the people, and partly to too much indifference and a lack of independence on the part of the young men themselves.

I submit that the young men of to-day have an infinitely greater interest in the wise and economical government of our country than the men of advanced years who at present govern it, as we will have to meet the public creditor and pay the national liabilities, when the men who created the indebtedness of to-day shall have passed away.

I waited patiently to see some one more able than myself take up the cause of temperance and carry the standard to victory, but no one responded and I have thought it my duty to see that a gentleman who has used his utmost endeavor to mar and destroy the efficacy of the "Scott Act," and to prevent further legislation in the interest of temperance, should not be re-elected. I believe that the majority of the electorate of East Toronto desire THAT THE LAWS THAT GOVERN AND REGULATE THE LIQUOR TRAFFIC SHOULD BECOME MORE STRINGENT AND RESTRICTIVE and to that end I would, if elected, lend my influence in favor of the enacting of such laws as would preserve and augment the usefulness of the "Scott Act" and every other measure that would tend to THE TOTAL PROHIBITION OF THE LIQUOR TRAFFIC. I fail to discern the difference in the principles of those of our people known as Liberal-Conservatives and those known as Reformers (SAVE AND EXCEPT THE NATIONAL POLICY, OF WHICH I AM AN UNQUALIFIED SUPPORTER), and I see no reason why one of the most intelligent, wealthy and influential constituencies in the Dominion of Canada should be obliged to accept as their representative a gentleman who has no other claim than that he is the choice of a convention of his fellow partisans, numbering possibly 200 persons, many of whom are outsiders and who are elected by themselves and represent themselves only, and are principally composed of political heelers and the place-hunting class of the party, the vast and most respectable part of the party having little or no part in the nomination. I claim that a representative elected under such circumstances would not be the FREE CHOICE OF A FREE PEOPLE.

I submit that it is the undoubted right of any citizen to offer himself for any position within the gift of the people, and I appeal to all classes of the electorate WITHOUT REGARD TO CREED OR PARTY to give my candidature a full, fair and careful consideration and then let each elector vote and thus discharge his trust according to the dictates of his conscience.

In conclusion I ask of each elector the favor of his vote, and I pledge myself in the event of my election to advocate the cause of temperance and good government, and as I am not (nor have I ever been) a member of any political party I would at all times place the interest of the temperance cause before the interest of any party and prize my own self-respect above office and emolument. I would vote against any Government that would be opposed to the maintenance of the National Policy IN ITS ENTIRETY and I would always value the approbation and confidence of the electors of East Toronto more than the favor of the Imperial Government and its agents. Believing that you will place me at the head of the poll on Feb. 22,

I am yours very truly,

E. A. MACDONALD.

Toronto, Feb. 3, 1887.

WALKER

Always Lends a Helping Hand.

"I've a bit of bad news dear," said Tommy McFadden
As Kitty sat knitting as sly as a mouse;
"I know how your poor little heart it will sadden
To marry and not have an illegant house."
"An why will I not, then," said Kitty with ire,
"There's never a girl can do more nor meself,"
"She is right there, Alanah," said Mrs. McGuire
As she took her black pipe from the old mantel shelf.
"She can milk and make butter as yellow as honey,
As for cookin' your mouth would be waterin' to taste."
"But don't you see darlint I haven't the money
Or else do yez think I would be such a baste?
My heart is all cracked like an old china platter
"For, Kitty, I've never a cint to the fore,"
"Arrah, Tommy McFadden, is that what's the matter?
Shure don't let that worry you dear, any more.
For the rich like ourselves never get in hot water,
They find it convenient by way of a freak
To buy all their beautiful things of *'The Walker,'*
The man who will sell you to pay by the week.
They call it insta lment—a plan for the savin'
Of money, which otherwise, darlint would roam;
It's me that would joy in delvin' and slavin'
If only I slaved for my own tidy home."
"And never forget you are bound to retire
With money to last all the days of your life
Begin by instalments," said Mrs. McGuire,
"And leave the selectin' of things to the wife;
True wisdom deters, when at home to the wishes
Of she who must make it a paradise here,
For none can buy furniture, carpets or dishes,
So well as the housekeeper's self—that is clear."
Happily the long wait is over. Before the young folks can marry and be happy in a dear little home of their own, make that spot beautiful and centre attractions there,—go, state your case—do not fear. He will always hear.
