Band of Hope Union Festival.

The Toronto band of hope union, which was established a short time ago, held its inaugural festival in Shaftesbury hall last night. As the night was rather stormy the attendance was not as large as it would otherwise have been. The chair was occupied by Mr. G. M. Rose. The program, in which a choir of about 200 children between the ages of 6 and 16 took part, consisted of solos, duetts, choruses and glees. The singing by the choir was very fair, but an organ solo given by Master Depew requires special mention. It is intended to repeat the concert at the same place one month from last night and a twelvemonth hence they purpose holding their anniversary festival, when a choir of about 500 voices will take part. It may be added that a band of hope is to be established in connection with every Sunday-school in the city and worked on the same system as the organization in England.

Asthma, Bronchitis, Catarrh

and consumption in its first stages are treated at the International Throat and Lung Institute, 173 Church street, Toronto, where the Spirometer is used, an instrument invented by Dr. M. Souvielle of Paris, and ex-aide surgeon of the French army, which conveys the medicines in the form of cold inhalations to the parts diseased. Suitable constitutional treatment is used when required. Consultations and a trial of the Spirometer free. Poor people bearing certificates furnished with the instrument free. When not convenient to visit the office write, enclosing stamp, for pamphlet giving full particulars to International Throat and Lung Institute, 173 Church street, Toronto, or 13 Phillips square, Montreal.

An Alleged Shooting Case.

A man who gave his name as Robert Maguire was taken to the general hospital yesterday morning suffering from a revolver wound in his right side. Maguire's story is that he fell asleep on Thursday night after drinking considerable, and did not awake till three o'clock yesterday morning. He walked along Queen street till he was near Lumley street, when a couple of young fellows came along and accosted him. They pushed against him and he resented, and some loud talk followed, when one of them pulled a small revolver and discharged it at him, the ball taking effect in the groin. He was not injured sufficiently to impede his walking, so he made his way on to Lumley street. On the way to the house he passed a policeman, but he did not tell him he had been shot. He finally arrived at home, where he remained till 10:30 o'clock yesterday morning, when he was sent to the hospital by the woman who kept the place. The wound, though not necessarily fatal, is one which will likely prove serious owing to the condition of Maguire after the prolonged spree. He says he does not know who shot him, but thinks it was accidental. His friends reside in this city.

A St. Louis Romance.

A St Louis car driver, becoming tired of hard work for small pay, turned himself into "Dr Alleon, the astrologer." He fitted up a room with an altar, hung a skull and cross-bones over it, kept a cloud of scented smoke arising from a censer, and wore during business hours a long black robe inscribed like a tea chest. He advertised fortunes for $5, and warranted them to prove good ones in all the love and business affairs of life. He prospered for a while; but a peculiar case, that of a young woman of wealth and social position, has proved too much for his necromantic skill. He gave her advice by which she lost a great deal of money and respect, and they have locked him up.

A Costly Well.

Gen. Phineas Banning is building a very large well at a cost of about $10,000, in Wilmington, Cal., his purpose being to supply that town with pure water. The wall is 25 feet in diameter, and has reached a level some 40 feet below the surface of the earth. In the interior of this circular hole a huge wooden tank, hooped together with iron bands and each stave 12 inches square, has been built. The inside of the tank which is bottomless, is hooped with bands of railroad iron, and formed so that the bottom flares outward and is wider than the top. As the earth is removed from the bottom of the well this mammoth bottomless tub, one foot thick, sinks downward, thus forming a water-tight wall. On top of this wooden structure a brick wall is being built as the hole becomes deeper. The water enters the well at the bottom in large volumes, but it is kept almost dry by the operation of a large steam pump, which runs night and day. There is room for 25 or 30 men to work upon the bottom of this well.

Catarrh—A New Treatment.

From the Weekly (Toronto) Mail, Aug. 24.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for catarrh. Out of two thousand patients treated during the past six months fully ninety per cent have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the catarrh is practically cured and the permanency is unquestioned, as cures effected by him two years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Mr. A. H. Dixon, 305 and 307 King street west, Toronto, Canada, and enclose stamp for his treatise on catarrh 246

Visit to Belleville.

One of the surgeons of Dr M Souvielle, ex-aide surgeon of the French army, from the International Throat and Lung Institute, 173 Church street, Toronto, is making a trip through eastern Canada for the accommodation of sufferers who cannot make it convenient to visit the institute. He is being visited by crowds of physicians and sufferers using Dr Souvielle's wonderful invention—the Spirometer for the cure of catarrh, catarrhal deafness, bronchitis, asthma and all diseases of the throat and lungs. Consultation and a trial of the Spirometer free. Poor people furnished with Spirometer gratis. He will be at the Defoe hotel, December 11, 12 and 13.

Dr Souvielle and the surgeons associated with him are devoting their whole time to the treatment of the above diseases, and it is no more a matter of doubt as to the genuineness of their treatment and the wonderful results arising from the use of the Spirometer, which can be testified to by hundreds of people who have been cured all over the Dominion. A few extracts from letters daily received at his offices.

CONSUMPTION.

Eli Caverly, Aylmer, Ont, writes Dr M Souvielle: Three months ago I was given up to die of consumption by our best physicians, one lung was breaking down, the other completely consolidated. I thought I must die; but induced by friends I tried your Spirometer and medicines, which I got from one of your surgeons. To-day I am perfectly well and able to work as hard as ever I could through the use of your wonderful instrument and medicines.

ASTHMA.

James Perkins, 265 Dundas street, London, Ont, writes Dr M Souvielle: For over eight years I have been a sufferer from asthma. Three months use of your Spirometer and medicines have completely cured me.

BRONCHITIS.

C W McMullen, 281 Parliament street, Toronto, writes Dr M Souvielle: Your Spirometer and medicines at once relieved and finally cured me of bronchitis, from which I have been suffering for over two years.

Michael Meehan, Mile End Station, Montreal, writes Dr M Souvielle: Having been unable to work for a long time on account of bronchitis, from which I have suffered, and after spending a great deal of money to obtain a cure I was induced to try your Spirometer and medicines. I take great pleasure in stating that I am completely cured through their use. W M Elliott, high school teacher, Omemee, Ont, writes, Dr M Souvielle—I have been cured of a very severe form of bronchitis and asthma by the use of your Spirometer and medicines.

CATARRH.

A F Albright, Decewsville, Ont, writes, Dr M Souvielle: I am glad you have placed within the reach of all a remedy for catarrh so effectual in its operations. I believe it will not fail to give relief in all cases and effect a permanent cure in most cases. J D Armstrong, real estate agent, Yorkville, Toronto, says, Dr M Souvielle: Your Spirometer and medicines have entirely cured me of catarrhal deafness. Mr Deboucherville, Ottawa, says: By the use of Dr M Souvielle's Spirometer and medicines I have been completely cured of catarrh.

Hundreds of such letters can be seen at the office, 173 Church street, Toronto, or 13 Phillip's square, Montreal.

The only Institute of the kind in the Dominion of Canada. Under the personal supervision of Dr Williams, who is in constant attendance at the office.

All diseases of the respiratory organs treated by "Medicated Inhalations," combined with proper constitutional remedies for the Liver, Stomach and Blood, etc.

Nearly 40,000 cases successfully treated during the past sixteen years.

From H A Wetmore, Esq, Banker, and editor Concord News, Concord, Mich.

When at Detroit a few weeks since I visited the Pulmonary Institute of M Hilton Williams, M D, and was shown his establishment and the different models and instruments used in his inhaling treatment of Lung, Bronchial and Catarrh difficulties were described, and from what I saw and was able to learn have no hesitancy in saying that Dr Williams is no humbug or quack. He is a graduate of one of the best Canadian Medical Colleges, and has performed many wonderful cures of the above named diseases. I was so impressed with his mode of treatment that I have placed myself under his treatment for the cure of Catarrh, with which I have been seriously troubled for several years. During the short time under his treatment (less than two weeks) I have received greater benefit than from all the medicine heretofore used, and I feel confident that in a short time under his treatment I shall be entirely free from the unpleasant disease. I would recommend all who are suffering from Throat and Catarrh difficulties to either visit this Institute or correspond with Dr Williams He treats patients at their homes by their describing their symptoms, as will be seen by his advertisement. RETAIL DRY GOODS.

EDWARD M'KEOWN'S

POPULAR DRY GOODS HOUSE,

182 YONGE STREET.

We have been giving bargains for the past few weeks.

We have aimed to make our house a distributing centre for the immense quantities of goods that the necessities of importers and manufacturers have compelled them to throw upon the market. A gratifying increase of patronage has been our reward. Ladies have found that we really were selling goods at unheard-of prices, and our store has been crowded day after day with an eager throng of buyers.

This week we shall offer greater inducements than ever. Last week we wanted profit, but now we only care to make room.

OUR CHRISTMAS GOODS ARE COMING IN,

and we must find space in which to accommodate them. This week we offer no job lots or auction purchases, BUT EVERY ARTICLE IS MARKED DOWN! DOWN!! DOWN!!! with a single view to reaching a price which will persuade a customer to take it away quickly, and let us have the space it occupies. WE MUST HAVE ROOM, AND WE MEAN TO DO IT.

SILKS.
