Wheat Outlook Discouraging Reports The Price Current

Only Temporary Relief Occasioned by Light Showers—Chicago Market Under Realizing Pressure.

World Office,
Thursday Evening, July 7.

Liverpool wheat futures closed to-day unchanged to ¼d lower than yesterday; corn futures ¼d lower.

At Chicago July wheat futures closed ⅜c lower than yesterday; July corn ⅜c lower, and July oats ¼c lower.

At Winnipeg July wheat closed 1⅝c lower than yesterday; July oats ⅛c lower.

Chicago car lots to-day: Wheat 4, contract 1; corn 162, contract 37; oats 51, contract 12.

Northwest receipts of wheat to-day were 146 cars, against 151 a week ago, and 93 a year ago.

Winnipeg wheat receipts were 148 cars, against 103 a week ago, and 98 a year ago.

Crop Reports.

North Dakota crop condition issued by commissioner of agriculture for week ending July 6, says: Prospects for even a one-half crop of wheat thruout the state are more remote than ever.

Chicago, July 7.—An official of the Atchison Railway states: "From one of our Kansas representatives who was here Wednesday, wheat is reported in a very good condition and the harvest will reach at least 60,000,000 bushels, while Oklahoma will show between 20,000,000 and 25,000,000 bushels."

Price Current says: Harvesting winter wheat is general and results more than likely to meet expectations recently predicted. Grain extra good quality. Outlook spring wheat still discouraging. Temporary relief by light showers and lower temperatures over small area. Corn making rapid growth. Oats filling well.

Winnipeg wires: A fair guess on present conditions would be half crop at best for Southern Manitoba, where conditions are quite similar to those in N. D. Northern and Western Manitoba and Saskatchewan generally better, and promise fair to good yield. Southern Alberta practically abandoned, Northern Alberta better.

FRUIT MARKET.

On the local fruit market yesterday there was a fairly lively trade, vegetables being more sought after than fruit. Cabbage, beans and peas sold well, but there is not as large a demand for tomatoes as the dealers would like to see. This is due to the poor quality of the Texan variety, which are the only kind on the market just now. Coarse, thick-skinned and poor in flavor, they do not appeal strongly to the frequenters of the mart. Some consignments of the Tennessee variety are due next week, and it is hoped that their well-known better quality will result in bigger sales. Home-grown tomatoes will not be on the market for ten days yet.

Dealers, yesterday, had to turn down 20 per cent. of the orders they received for lemons, owing to the fact that very few cases are obtainable. The old crop is exhausted, and the new one is not far enough advanced for shipment, besides being a very poor crop.

Raspberries eased a little, 13c being asked for the box. Buyers were not inclined to pay this price, the same sized box of strawberries being sold at 5c to 7c, possibly accounting for this.

The following prices were current:

Chicago Gossip.

J. P. Bickell & Co. say at the close:

Wheat—Lower—Irregular market, professional elements governing, news featureless, except, perhaps, that increased winter wheat movement predicted. Immediate market will probably prove erratic until damage is more determined. Government report to be issued to-morrow will serve as temporary factor. On all sharp declines we advise purchase.

Erickson Perkins & Co. had the following:

Wheat—No rains reported in spring wheat country and only scattered showers in Canada. Reports from the northwest were still of a gloomy character, some even reporting plowing up of fields, which are a total failure. During latter part of session there was heavy realizing, which caused a decline of over two cents per bushel, from the high of the day. The market had become overbought and there was evidence of a rally sire to even up, pending the government report due to-morrow. A still further setback is not unlikely, as the advance of 6c a bushel during the last week has doubtless discounted, to quite an extent, the damage reports, which have been coming in. We would buy only on good setbacks, which are bound to occur on these weather markets.

Corn—It seems to us that the market recently has derived its strength from sentiment. Short sellers very timid and we believe the outstanding short interest extremely light. We also believe growing crop conditions, taken as a whole, are favorable, and we incline to the opinion that prices are apt to drag lower.

Oats—Market ruled strong early and new high prices were made. We are inclined to look for somewhat lower prices.

95 CARS AT CITY YARDS CATTLE QUALITY MEDIUM

The railways reported receipts of 95 carloads of live stock at the city yards for Wednesday and Thursday, consisting of 1286 cattle, 1949 hogs, 1750 sheep and lambs, 401 calves, and one horse.

The quality of cattle generally was common to medium, with a few lots and loads of good.

A little better tone characterized the cattle market for Wednesday and Thursday, due mainly to the fact that the receipts for the two days were comparatively light. Salesmen tried to get higher prices, but buyers were not willing to pay higher figures than the current prices for Tuesday. The majority of the salesmen agreed that prices were steady to strong for the good.

The commoner the quality the less improvement was noted, and the very light grassy cattle were no better than steady, in fact they were slow sale at times. Buyers were rather disappointed with the quality of the supply.

The hog market closed from 10c to 15c per cwt. higher than at the commencement of the week.

Sheep, lambs and calves sold at about Tuesday's quotations. The market for milkers and springers closed with an easier feeling, and a decline in prices, owing to a couple of expected orders not materializing.

Fat Cattle Prices.

George Rowntree, who bought 220 cattle for the Harris Abattoir Co., reports butchers' steers and heifers at $5.50 to $6.35; cows, $2.50 to $5.50; bulls, $4 to $5.75.

Stockers and Feeders.

Harry Murby reports receipts of stockers and feeders as being light for the week. The tendency is for lower prices for the light kinds. Mr. Murby bought 100 at following prices: Steers, 850 to 1000 lbs., $4.75 to $5.25; steers, 700 to 800 lbs., $4.25 to $4.75; stockers sold at $3.50 to $4.25.

Milkers and Springers.

Receipts of milkers and springers for the week were liberal. The market for them was strong all week, but closed much weaker to-day, as there were more of certain kinds than the demand called for. Prices ranged all the way from $35 to $65 each, the bulk going at $40 to $55 each.

Veal Calves.

Receipts moderate, prices steady at $3 to $6.75, with a very few new-milk fed calves at $7 per cwt.

Sheep and Lambs.

Sheep, ewes light, $4.50 to $4.90; heavy ewes, $4 to $4.50; rams, $3 to $3.50; lambs, $7.50 to $8.25 per cwt.

Hogs.

Receipts moderate, about 2000 from all sources. The market closed 10c to 15c per cwt. stronger than at the commencement of the week. Selects fed and watered at the market, $9 to $9.15, and $8.75 to $8.85 f.o.b. cars at outside points.

Representative Sales.

Market Notes.

We have forgotten to mention that A. Y. Hall, wife and daughter had returned re-invigorated in health, from their holiday trip in Northern Ontario. Mr. Hall admits that while fishing he was not fortunate enough to catch any whales, but only a few suckers, but had a splendid time while away.

J. Boyes of Lefroy Station, Ont., was on the market with a car load of good hogs, such as the farmers around Lefroy are noted for raising.
