The Death of Linus Seely.

Shortly before 12 o'clock last night Linus Seely quietly breathed his last and ended an eventful and troubled existence. At noon yesterday it was evident that the unfortunate man could not survive many hours, and as the day drew to a close he became weaker hour by hour. He still retained his consciousness and during the evening was able to converse with his friends. His aged mother, a sister, and brother-in-law, called after dark and left about ten, the patient desiring to be left alone. Up to the last he was conscious and recognized Dr. Barteaux a few moments before death took place.

When Seely was received into the Hospital on Saturday he was in a very troubled state of mind and kept constantly lamenting his misspent life. Conscious that he was soon to pass beyond the shadow he looked upon the future with dread and longed for peace with his Maker. Rev. Mr. Overy was in constant attendance at his bedside and exhorted him to look to a higher power for aid in the hour of death. Seely seemed to strive to do so, and towards the last became more calm and resigned to his fate. He prayed much and seemed very repentant. Mr. Overy showed great kindness throughout and the object of his solicitude seemed truly grateful.

Coroner Earle holds an inquest at 3 this afternoon. No *post mortem* has yet been made and the course of the bullet has still to be ascertained. The operation will be performed after view of the body by the jury.

Seely is entered on the Hospital books as being 32 years of age. His fate after such a brief, but greatly varied life, must cause a sigh even to those to whom he was personally unknown.

(*Special to the Daily Tribune.*)

Blake for Chief Justice.

OTTAWA, May 5.

The *Liberal* says that the Hon. Mr. Blake has been offered the Chief Justiceship of the Supreme Court, and advises him not to accept.

Machar, of Kingston, and Matthew Ryan, of Montreal, have been appointed Commissioners to settle the Half Breed claims in Manitoba.

Masters' assistants and laborers, on the canal locks, will hereafter be appointed without the formality of an order in Council.

April showers to-day.

Defections are taking place among the Scowmen's Club, Mr. Nagle and others having gone over to the rebels.

Large crowds of unemployed Society men hang around the wharves. The Chief has his full force on the alert, and is ready at a moment's warning to concentrate the power where needed.

Old man Haslett is still in jail, having been remanded by Justice Tapley until to-morrow. He is charged with receiving the goods his son was supposed to have stolen.

City Police Court.

James Power, 24, N. B., drunk on Mill street; fined $4.

Personal.

Rev. W. Armstrong, rector of St. James, will leave for England on Friday by the Nova Scotian from Halifax. He will be absent for some months.

Another Spell.

The Irish Friendly Society had a spelling match last night, in which Mr. James Lee, brick manufacturer, was the successful speller. The match was not open to the public.

Portland Police Court.

Wm. Edwards came to the station drunk. Fined $5, which was allowed to stand.

Wm. Edwards, in for protection, was let go.

John White, drunk on Paradise Row. Fined $4.

An Extraordinary Objection.

In one of the Glass Blower's cases, tried yesterday, Mr. Wallace objected to the competency of the Judge, on account of a relationship to the defendant, John Leavitt. On enquiry it appeared that Mr. Leavitt's father had been a cousin to the late Mr. Gilbert, grandfather of Mr. Bradford Gilbert and others, and that Mr. Gilbert was related to Judge Watters' wife's father's second wife. The Judge decided that the relationship was not sufficient to prevent him dealing justly in the matter.

County Court.

This morning, Charles Coleman, convicted of larceny, was sentenced to six months imprisonment in jail.

The lad Haslett was formally proclaimed free from bondage.

The case of Aquila Perry vs. Rankine and others was called, it being another action by an employe of the Glass Works. Mr. Wallace, who appeared for the defence, moved for a nonsuit on several grounds, but his motion was overruled. Mr. Jack for the plaintiff moved for leave to amend the writ, which leave was given. After hearing the evidence of the plaintiff the jury returned a verdict of $194.45.

The case of Harvey vs. Rankine and others, another Glass Works case was next called. Mr. Wallace objected to the trial, through informality in the plaintiff's proceedings. It seems that by mistake a defendant was served with the "original" of the summons, and the copy filed in Court. Mr. Jack contended that Mr. Wallace, by appearing, had waived all objections to the suit, and by pleading had waived all objection to the declaration. This Counsel was quite severe on his junior opponent and what he called the "Wallace practice," and sarcastically inquired if Mr. Wallace had ever heard of such a thing as waiver. The Judge decided against Mr. Wallace. By consent, Tuesday next was named for the hearing of this and other cases before the Judge, to be decided upon question of law and fact.

This afternoon the case of Alex. Raynor vs. George Sparrow was taken up. It is an action in which the plaintiff, who lives in Summerside, P.E.I., seeks to recover the value of a quantity of oysters. The defence is that the specified quantity was not received and also that payments were made on account, for which no credit had been given. Mr. M. McDonald for the plaintiff, and Mr. S. Alward for the defendant.

The Labor Trouble—The Military Under Arms.

The Society men still adhere to their demands, and show no signs of coming to terms, as a body. Some important defections have, however, taken place, and it is probable that many others leaving the ranks will materially injure the strikers' cause. Yesterday Mr. H. A. Gregory left the Society to undertake the unloading of the Nyanza with a large crew of rebels. To-day, it is believed, Mr. Robert Gregory also leaves the Society and takes the bark Impero. This is a strong blow, and the Society men feel it.

Between 75 and 100 men have responded to the merchants' advertisement for labor, and have signed the following paper:

We agree as follows: on the part of the employer to guarantee work for three months at two dollars per day; and on the part of the employed to work at scowing or loading deals as may be directed.

These men are at work with the rebels to-day, and it is thought that a sufficient number of men can be procured in St. John to save the bringing of laborers from abroad. An offer has been made by one man to send 200 men to the city from up river, but the proposition has not been accepted.

In many cases men who have really wanted work have been afraid to commence lest the Society should bring trouble upon them, and although nothing of the kind has been attempted yet precautions have been taken by the Mayor to guard against a riot. In addition to the special constables, a detachment of the 62nd Battalion is under arms at the Custom House, Adj. Gen. Blaine being in immediate charge, and Lt. Col. Macshane taking command. This has been deemed a suitable step to inspire the Rebels with confidence. They can thus see that personal safety is guaranteed every man who attempts to labor for his daily bread, and that the interference of the mob will be prevented at any cost.

The regular monthly meeting of the Laborers' Association was held last evening and it was resolved to continue the strike. It is said that those of the Society who are in need will be furnished with supplies from the general fund. The Association feels that its strike is its own death blow when it yields, and seems determined to hang out as long as possible. Its apparent effort now is to create a strike among other unions—tinkers, tailors, carpenters, caulkers, masons, shoemakers and others. At the meeting last night the Carpenters' Society and the Caulkers' Union were present by invitation, and will hold sessions to consider the propriety of striking. It is now difficult to say where the matter will end.

The Merchants and the Laborers are alike declaring their intention to "fight it out on this line," but the prospect is that the merchants will have the best of it.

Shipping Notes.

English Mails.—The R. M. S. Nova Scotian, with the mails for England, will not leave Halifax until Friday noon, the 7th inst.

Two Handsome Vessels Afloat.—The handsomely modelled ship Governor Tilley was launched from the yard of Cruikshank and Pittfield, Courtenay Bay, between 10 and 11 o'clock this morning, and towed round to the harbor and moored at the Custom House Wharf, where she will be rigged and fitted for sea. Governor Tilley and lady, together with a large number of spectators, were present at the launch. She sits very gracefully on the water, and altogether is as fine and substantial a vessel as has been seen in this port for some time.

The ship Prince Amadeo came of the stocks at J. K. Dunlop's yard, Courtenay Bay, about the same time. She glided very gracefully into the water, but her starboard anchor being let go too soon the stock struck the launching plank, breaking it short off by the key. There was quite a large gathering of spectators at this launch also, and the vessel was heartily cheered as she entered the water. She was immediately towed round to the harbor, and now lies moored at Thompson's wharf, where they will finish rigging and fitting her for sea, her lower masts, topmasts, and a portion of her rigging being already up.

Steamers.—No word of the arrival of the R. M. S. Caspian at Halifax as yet. She was due at that place on the 30th ult., and has probably been detained by the ice.

The Tyrian, of the Anchor Line, has nearly finished discharging, and will commence at once to take in her cargo of deals for Glasgow. She will in all probability sail on Friday.

The Nyanza has already put out a good portion of her railroad iron at the new pier. The Severn is rapidly discharging her cargo at Robertson's wharf. Both vessels will probably sail by Saturday next.

The Earl Dufferin came in this morning from St. Marthas.

The Glendon is rapidly presenting a cleaner and neater appearance under the hands of the workmen engaged on her and will shortly be handed over to the Government for further improvements.

The India of the Anchor Line, arrived at Liverpool on the evening of the 3rd inst., 12 days from this port.

The Sidonian is 12 days out to-day, for Glasgow.
