THE IRISH LANGUAGE

America's Leading Universities are Now Taking Action.

The advance the Irish language movement has made in recent years is such as its advocates, and, for that matter, all Irish men and women, may well be proud of.

Father O'Growney, now in Arizona for the benefit of his health, more than any other one man, has done heroic work, while our Providence Society, says the Visitor, of that city, under the able direction of Rev. Father Ryan, has left an impress on the movement that can never be eradicated, and has placed it on an eminence from which it cannot be dislodged by any poohpoohing or ridicule.

A member of the Society, now residing near Boston, writing to a friend, has this to say:

"I heard a year ago that a chair in Gaelic had been established at the University of Pennsylvania. I am not certain as to the truth of the rumor. If that report is true it is certainly time for Harvard to stir herself. The liberality of Harvard is so unbounded that I don't think it would be difficult for some influential man or men to secure the institution of a chair in Gaelic at Harvard College.

"It is evident that the world, particularly the college world, is making progress, and that many of the delusions which are incident to bigotry are being rapidly dispelled. The light of science is proving that things are not what they seem to many of the conceited ones who thought they had reached the acme of learning. Many of the supposed superstitions of the middle ages are shown to be well grounded beliefs. The efficacy of prayer has been proved by scientific tests on many occasions.

"Science, in many instances the great destroyer of faith, has in every reasonable mind only served to confirm it, and is showing many of the boastful materialists of latter days in the despised 'Dark Ages' there existed knowledge, however esoteric it may have been, which was undreamed of by their advanced philosophers.

"The admiration for liberality and the hatred of bigotry and narrow-mindedness is growing on all sides. In our own Providence a Catholic Mayor has been elected, a thing which never happened before, and in Sommerville the A P A candidate was routed, and that, too, in the fountainhead of the organization and the home of the arch-bigot Fulton.

"And so by virtue of the spirit of enlightenment the tongue of our ancestors, which has been suppressed by bigotry and oppression for so long a time, shall eventually receive its deserved recognition."

REAL ESTATE SALES

This month's issue of Property states that the total number of sales of real estate for December in this district amounted to 149 as against 158 the previous month. A couple of large sales are recorded, one being for $102,140, partly in the West Ward, being the transfer of two-fifths interest in the Philips estate from Mr. James Baxter to Messrs. Grier and Yuile. The total business in the city was only $385,168 against $478,793 for November. Business in Westmount shows considerable quietness, the total sales being only $89,122 against $290,344 last month. In the Annex, too, there has been a falling off, sales being $7,973 against $17,858 last month.

Mr. Urban: Why is it that you country people charge so much more for board than we have to pay in the city? Mrs. Gusilage: La, me; what a question. In the city the boardin'-house keepers has plenty of markets to buy things in, but here we have to grow everything.

Notice,

THAT WE HAVE a DECKER BROS (of New York) Baby Grand; a MASON & RISCH (of Toronto) large size Cabinet Grand, Upright; a HEINTZMAN & Co. (of Toronto) large size Upright Grand; also, several Pianos of other makes, taken in exchange for the KARN Piano, which we are offering at very low figures.

It will pay you to call and examine our stock before making your purchase of a Piano. Terms of payment made very easy.

LIVE STOCK MARKET REPORT.

There were about 400 head of butchers' cattle, 10 calves and 60 sheep offered for sale at the East End Abbatoir on Monday. There were not many butchers out as the day was too cold for pleasure driving, but the few who came meant business and prices had a firm tone all round. The best cattle sold at about 3¾c per lb., and the common stock at from 2c to 2¾c do. It is probable that a few of the leaner old cows would bring less than 2c per lb. The calves were young and tender and sold at from $3 to $5.50 each. A mixed lot of sheep and lambs sold at 3¾c per lb; good lambs would bring 3¾c do. There are not many fat hogs for sale and prices are from 3¾c to 4c per lb.
