WILL CO-OPERATE WITH LOCAL TRADE

St. Thomas Mayor Authorized To Negotiate With Coal Dealers of City.

Special to London Advertiser.

ST. THOMAS, Aug. 25.—Authorization was given Mayor Raven to co-operate with the local coal dealers in obtaining soft coal by the city council at a special meeting Friday afternoon.

While it is reported that the citizens of the city are fairly well supplied with fuel, particularly on account of buying large quantities of coke, yet it was felt that the time was ripe for the municipality to take an active part in guaranteeing sufficiency.

Following the advice of Fuel Controller J. A. Ellis, the city will co-operate with coal dealers in bringing to the city soft coal and wood, which, it is reported, are available in quantity.

Discussing the recent meeting with the fuel controller in Toronto, Ald. W. McIntyre stated that Mr. Ellis was of the opinion that the dealers would not take advantage of the public in any crisis which might occur, but if prices were improperly marked up he would act to reduce them.

Mayor Raven and Ald. McIntyre were appointed a committee to view the local coal situation with regard to ascertaining the amount which will be necessary to obtain.

Rev. T. B. Howard, president of the society, has been an untiring worker in the town for several years past, and a great deal of credit for its success is due to his untiring endeavors.

Music will be furnished by the Guelph Jazz Band, Great Empire Band, Galt Kilties and the Citizens' Band.

Fully 15,000 visitors are expected for the jubilee, and it is likely Mayor Rennie will declare half holidays on Tuesday, Wednesday and Thursday afternoons, as most of the local factories are closing.

SUGAR.

NEW YORK, Aug. 25.—No business was reported in the spot raw sugar market early today, and prices remained on the basis of 4.80c for Cubas delivered.

Raw sugar futures had an irregular opening, but there was enough new buying in the market to give it a firmer tone after the start. At one time the near positions sold one to four points net higher but realizing produced later reactions, and at mid-day the market was about 3 points higher to 2 lower.

Refined sugar was quiet and easy. Two refiners are now listing at $6.50 for fine granulated, and as others are quietly meeting this price the market may be fairly quoted at that level, with demand very light.

PRICES REACT ON NEW YORK MART

Heavy Selling Following Announcement of Break Up In Rail Conference.

NEW YORK, Aug. 25. — The stock market, after an early display of strength turned decidedly heavy in the final hour today in response to extensive selling pressure exerted upon the announcement that the strike conference between certain railroad executives and brotherhood chiefs acting as mediators had been definitely broken off.

Most of the day's gains were cancelled, and many stocks were depressed one to two points below yesterday's closing quotations.

Liquidation was directed principally against railroad shares, steels and equipments, on the theory that these industries would suffer most by the prolonged labor trouble. However, rails offered stubborn resistance in the face of an announcement by B. M. Jewell, shop crafts leader, that it would be "a fight to a finish."

Stocks like Northern Pacific, Chicago & Northwestern, and Atchison, which had advanced materially in the last few days, sold off more than a point, while shares like Union Pacific, Southern Pacific Reading and Erie, which were in a better technical position, yielded only fractionally.

United States Steel was pushed up to 105½, the highest price in two years, but sold off half a point at the close. Crucible and Vanadium also established peak prices and managed to hold part of their gains.

Public utilities, especially Gas shares were in active demand. New high records for 1922 were made by Consolidated Gas, Columbia Gas, North American Company and Laclede Gas.

Leathers were also strong, peak prices being reached by Central Leather common and preferred and American Hide and Leather preferred.

Speculative attention was confined largely to special stocks. Lima Locomotive was pushed up to a new high on the announcement that it had received an order for 45 locomotives from the "Katy" System, and American Telephone recovered most of its recent loss when further study of the proposed $115,000,000 new stock issue revealed that the proceeds would be used largely for business expansion, which, in turn, would undoubtedly mean increased earnings.

Call money again opened at 3¾ per cent, but hardened to 4 per cent at the close. Time money was quiet with funds available for 60 to 90 days at 4 to 4¼ per cent.

Failure of the reparations commission to reach an agreement with the German government caused a violent decline in continental exchange rates. German marks fell to the extreme low rate of 5 cents a hundred and French francs reached 36 points to a new low record for the year with slightly smaller declines in the Belgian and Italian rates. Swedish kroner touched par for the first time in three years, but reacted later. Czecho-Slovakian crowns rose ten points to another new high level.

Total sales for the day were 900,000 shares.

BONDS.

Pronounced weakness of French government and municipal issues was the outstanding development in the more restricted dealings in bonds in today's market. Declines of 1 to 1½ points were registered by French 7½'s and 8's, Bordeaux 6's and Marseilles 6's, with substantial fractional declines in other French issues reflecting the decided slump in French exchange.

Japanese and Mexican government 4's also dropped a point or more, but Cuba 5's of 1904 were relatively strong. Liberty issues yielded slightly. Rails were in much less demand, and mixed changes prevailed. Total sales, par value, aggregated $12,103,000.

PLUMS PLENTIFUL ON CITY MARKET

Tomatoes Lead Vegetables at 20 to 25 Cents Per 15-Pound Basket.

Plums were far more plentiful than any other fruit on the market Saturday morning, the red and blue variety predominating. Notwithstanding the fact that the demand was only fair, the price for the 11-quart basket jumped to 50 and 60 cents, while the 6-quart size was selling at 40 cents.

A few greengages were seen, but were also slow at 60 cents for the large basket.

One load of cantaloupes were brought to the city, and sold quickly at 10 to 25 cents each, according to the size.

Watermelons were a little more plentiful Saturday, and found a good market at 25 to 40 cents a piece.

The price of peaches still remained high, and the demand at $1 to $1.15 for the large basket was not very great.

A few boxes of thimbleberries were offered for sale. The price was 20 cents a box.

Pears were rather scarce and found a poor market at 45 cents for the small basket.

Tomatoes were the vegetable feature Saturday, and were in good demand. The price for the 15-pound basket dropped to 20 and 25 cents. The warm sun for the past week has ripened the tomatoes fast, and the quality brought to the city Saturday was good.

Pickling cucumbers were much in evidence, and sold well at 35 cents a hundred.

Onions were a little more plentiful, but were slow at 50 cents a peck.

Quotations on spring chickens dropped a little, and went at 65 cents to $1. The quantity offered, however, was not very large.

NEW YORK STOCKS

New York, Aug. 16—Wall Street, 10:30 a.m.—Opening prices on the New York Stock Exchange today were irregular, most changes in standard shares being of a fractional nature. The rail list continued under the depressing influence of unfavorable news developments, St. Paul common and preferred and Chicago and Northwestern yielding substantial fractions. Chicago and Alton preferred, which was under heavy selling pressure yesterday, recovered a part of its loss. Special stocks, which were in good demand yesterday, continued strong in the early dealings, Lima Locomotive, Continental Can and North American each breaking through to new high prices for the year. Trading was rather restricted. Individual strong spots were American Telephone and Eastman Kodak, which advanced ¾ to 1½ points.
