ne of the Station and jarred it so that the solitary watcher thought his hour had come. The building of brick and stone resisted the assault of the snow, part of which banked itself up behind the house, and the rest, passing the corner, rushed on and struck the fence at the side, demolishing and carrying it to the centre of the street. A heavy wagon that stood in the way of the descending mass was demolished, and the yard at the end of the station is filled high with snow. The car house and out-buildings are covered. The avalanche has made some of the old inhabitants think of others that have occurred at the same place. "Some thirty odd years ago," they say, "before the police station was built, and when a house could was unknown, when Charles Nevins (ex-Councillor Nevins) was a boy, there was just such a slide. The hill was then sloping and not rough and jagged as it is now. It was a favorite place for boys to coast and roll down. After just such a storm, Charlie Nevins, John Allingham, and another boy were running up and down the hill. The treacherous snow gave way at the top and rolled down the hill carrying the three boys with it. Allingham was carried on top the snow across the street. Mr. Robert Mitchell, who was shovelling snow on the opposite side of the street, hastened to the place. Nevins's companion was entirely buried, only two hands sticking out, and he was soon relieved. Nevins himself was somewhere under the snow, and the alarm being given, a large number of men was soon at work digging for him. After about half an hour's work he was discovered and taken out, almost dead, but recovered on restoratives being applied." This is what the avalanche of this morning has made the Portland people talk about.

The people have been so much imposed upon by several worthless Sarsaparillas that we are glad to be able to recommend a preparation which can be depended on as containing the virtues of that invaluable medicine, and is worthy of the public confidence. Dr. Ayer's SARSAPARILLA cures when anything can cure the diseases that require an alterative medicine.

St. Andrews Society.

A meeting of the St. Andrews Society is to be held at the Victoria Hotel to-morrow evening at 7.30 o'clock, when business of importance will be brought before the meeting.

Point Lepreaux Weather and Marine Report

The following is the telegraphic report from Point Lepreaux to the Board of Trade room, this morning:

9 A. M.—Very high wind from the north, cloudy, with drifting snow; nothing in sight.

General Debility.

James H. Johnston, Esq., Montreal, wrote in August, 1871, as follows: It affords me great pleasure to bear testimony to the benefit received from using Fellows' Compound Syrup of Hypophosphites. I found it a nervous tonic of great power and efficacy, curing me in a short time from GENERAL DEBILITY and NERVOUSNESS, as I became robust and vigorous under its influence and gained considerably in weight withal.

The Eastern and the Boston and Maine railroads have concluded a contract for 999 years, under which both roads are to be run as one. When legal obstructions are removed the Companies will be consolidated.

The Western Trains.

The train did not leave Carleton until 11 o'clock this forenoon, and at noon had not been heard from at Fairville. There was no Fredericton train this afternoon. The train left Bangor this morning at the usual hour, and at last accounts was making satisfactory progress. It is expected to arrive in Carleton about mid-night.

County Court.

George Duke vs. J. S. Boles DeVeber occupied the attention of the Court yesterday afternoon and this morning. This case was tried at the last term of the County Court, and resulted in a verdict for the plaintiff. Application was made to Judge Watters in his chambers, and a new trial granted. It is a suit to recover the amount of an account, $192.97, due the plaintiff for plumbing done on buildings put up on King's Square by B. R. Price, who became an insolvent last June, when the plaintiff refused any longer to work at the building, as there was at the time over $300 due him. By direction of J. S. B. DeVeber, the defendant, he finished the work, and rendered his bill to Mr. DeVeber. The defendant claims that he only became responsible for $100 of the amount. The evidence was concluded last evening, and this morning H. C. McMonagle, Esq., addressed the jury for the defence. A. A. Stockton, Esq., spoke for the plaintiff. The case will go to the jury this afternoon.

Nova Scotia News.

A fancy dress entertainment will be held at the Halifax Rink on the 11th instant.

A man named Thomas Noonan, a Warden in the Halifax Military Prison, was found dead in his bed on Sunday morning. He was formerly a soldier in the 63rd regiment; and served through the Crimean campaign for which he received a medal, and four clasps.

A lad named Morris was arrested in Halifax, Monday afternoon, for forging a check on the Bank of Nova Scotia, with J. Scott Mitchell's name on it. Also another check on a firm in Halifax. Both of the checks were for small amounts. The lad is a brother of the girl Morris who attempted to procure poison at Woodill's drug store.

A serious accident happened in Halifax on Monday, which may prove a serious matter for the injured man. For the past few days workmen have been busy excavating a cellar on the old Troop property, corner of Buckingham and Argyle streets. Monday afternoon a blast had been prepared, but failed to be discharged—and while drawing the charge or rather forcing a new hole with the drill, the discharge was ignited and a man named Burke, who held the drill, was very seriously injured. The face is very badly cut, the drill having been forced quite through the cheek, and it is feared both eyes are so badly injured as to seriously endanger the sight.

Mr. Onslow, Liberal (well known as a supporter of the Tichborne claimant), was re-elected at Guildford by 24½ majority, against 21 at the last election.

Inquiry among various ice companies in New York, elicits the intelligence that they have as yet obtained no supply and have been despondent over the prospect. Hopes, however, are entertained that the present cold snap may afford a supply.

A "Dead Beats' Directory" has been printed anonymously in Chicago. It is intended for the use of boarding house keepers, grocers, butchers, &c., and contains the names of a thousand men who habitually neglect paying their bills. The list includes lawyers, actors, ministers, aldermen, and officials, and is to be revised monthly.

Rear-Admiral George Elliot (Conservative) was elected at Chatham by a majority of 569, although the dock yards and other Government establishments there gave the Ministry great influence. At the last election he was defeated by the Liberal candidate, Mr. Otway, then Under Secretary for Foreign Affairs, who had a majority of 184.

A sharp shock of earthquake was distinctly felt at Farther Point Monday afternoon. It shook the stoves and everything moveable in the houses of the village. The shock was also felt about ten miles below Quebec and appears to have come from the southward. The thermometer in that city was 26° below zero Tuesday morning.

Last Friday night, at a dance in the Sixth District of Davidson county, Tenn., Joseph Briley, aged seventeen, was shot dead while on the floor with his partner by Robert Bates. The quarrel grew out of rival claims to a young lady for the dance. The parties left the decision to the lady. She took Briley, and Bates was so enraged that he shot him. Bates escaped.

Mr. Disraeli addressed a large assemblage at Aylesbury Saturday. He said the dissolution of Parliament was an act of black treachery, which Mr. Gladstone learned from the tactics of the Ashantees. The financial proposals of the government were a bribe to secure success in the coming elections, and were also fallacious and unjust. A deficiency would be caused by the promised remission of taxation, which would make necessary even more vexatious and burdensome taxation. The inattention of the government to foreign politics has led the nation into costly wars, ignominious treaties and sham arbitrations.

Baron Reuter denies in to-to, the statement of the London Daily *Post* to the effect that he asked six months' grace of the Shah before beginning work under his Persian concession. The Baron says the works were actually commenced in advance of the stipulated time and are proceeding. The latest telegrams from Teheran give assurances of an early and satisfactory settlement of some open questions.

An imposter representing himself as a Catholic priest is going about in New York city endeavoring to swindle poor servant girls out of their hard-earned wages on the pretence that he is collecting money to build a church. It is believed that there is more than one person engaged in this description of petty robbery. In some of the Catholic churches parishioners have been warned against the swindlers.

Not many months ago civilized nations were horrified at the story of famine and cannibalism in Persia, and disgusted at the cool indifference of the Shah, who, while his subjects were starving, went out shooting hares with an army. Only a few days ago a poor woman with six children in Jersey City, crazed by want of food, was about to kill one, as she declared, for the nourishment of the rest, when her condition was discovered and her aunts relieved. This is an exceptional case of suffering. Thousands of men, women and children are without needed food and clothing, and but for the fact that a kind Providence has tempered the harsh north wind the deaths from want and cold would have been many.—*N. Y. Sun.*

A Cincinnati special states that Prof. Clendenin, of Miami Medical College, with other experts, have made an investigation of the recent nearly fatal case of trichina spiralis at Aurora, Ind., and discovered that the victims had eaten the meats from a hog which had been sick after running about the streets. For weeks before slaughtered the animal had what is called the "Droop," but after being dosed with sulphur and sweet milk apparently recovered and fattened up. Analysis of the meat cooked and raw showed it was literally alive with the trichina spiralis. The entire carcass of the hog had been infected not even the bones being free from the entozoa. The victims have fever, diarrhœa, great thirst, and swollen extremities. Mrs. Threnart's oldest boy and girl, together with Mrs. Buyter, the minister's wife, who was a healthy woman, will undoubtedly die. Hopes are entertained that the other victims will recover. There is much alarm and excitement in Aurora and vicinity.

A boy medium is giving spiritualistic seances in Boston, and his powers of supernaturalism or trickery are great. He uses the usual cabinet, which hides his movements from the audience. Put into it with a rope in his lap, in one minute he is so intricately tied that five minutes is consumed by the committee in unlying him. A coat is sewed upon him so tight around the waist that the circumference is less than that of his head; but in a twinkling it is off without a stitch having been broken. Waxed cords are tied so firmly around his wrists that they cut into the flesh, and his hands thus fastened behind him are bound to a staple. Then his head is tied to another staple, and his feet to another. Thus hampered he is shut up with a knife in his pocket. Upon reopening the door the cords are found cut from the staples, leaving intact those which encircle his wrists. Other of his performances are equally hard to explain. His name is De Witt, and his mother controls the exhibition, which is highly remunerative.

A burglar in Greensburg, Pa., was recently caught in a remarkable manner. Breaking into a closed and unoccupied office of a physician of that town, the burglar opened a closet (while his companion with a dark lantern was in another part of the room) and feeling for clothing at about the height of closet hooks generally, got his hands between the jaws of a skeleton, which being adjusted with a coil spring and kept open with a thread, closed suddenly on the intruding hand by the breaking of the thread. A sudden thought striking the burglar of his being caught by a skeleton in the doctor's closet so terrified him that he uttered a faint shriek, and when his companion turned the lantern towards him and he beheld himself in the grim and ghastly jaws of death himself he became so overpowered by fear that he fainted, fell insensible to the floor, pulling the skeleton down upon him, and making so much noise that his companion fled immediately, and the doctor, alarmed at the noise and confusion, hastened into the office, and secured the terror-stricken burglar still held by the skeleton.

At Portland, Me., Mrs. Waite has been bound over, in the sum of $2000, to appear for trial in May. Her husband and his father bailed her. It is not considered probable that she will be tried again, unless still stronger evidence can be procured against her as this trial has been very expensive, and public opinion condemns the prosecution. Whether Mrs. Waite is the guilty woman or not, she is a remarkable woman. If innocent, to stand so successful and calmly the siege of such a terrible trial is truly wonderful; and, if guilty, she is one of the greatest actresses extant. Not a single incident moved her. She was cheerful, polite and courteous to all, looking the perfect picture of confidence, meeting the gaze of John Waller and family and the two children and every one else, including the crowds in attendance, without a token of recognition or flush on her countenance or disturbance in her demeanor, and yet she did not appear unfavorably independent. She remarked on Saturday eve to a friend, that the whole trial has seemed to her like a play, and it was simply amusement for her to sit there and see them bring up persons whom she had never seen or heard of, and for them to relate circumstances of which she knew nothing, trying to prove her some one else than she really is.

HOME TESTIMONY.
ST. JOHN, N. B., March 28, 1873.
MESSRS. R. C. MARGESON & CO.—*Gentlemen*: I have been afflicted with gravel and stone upwards of a year and a half—tried everything I could hear of for its relief without benefit—hearing of your advertisement of CALCULIFUGE in the Halifax papers, took three bottles according to directions, and *in the short space of four weeks was entirely cured*. I willingly add my testimony to its value, and heartily recommend it to all afflicted as I have been.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs.

AMONG the great discoveries of modern science, few are of more real value to mankind than this, a specific remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout the civilized countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that CHERRY PECTORAL is a sovereign and positive cure for the afflicting disorders of the Throat and Lungs beyond all other medicine. The most dangerous affections of the Pulmonary Organs yield to its curative and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection, by curing Coughs, the forerunners of more serious disease, it saves numberless lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it for protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tens of thousands testify to its virtues, and it is unsafe without it. As a safeguard to children, and the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable, for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centered on them. It acts speedily and surely against ordinary colds, securing sound and healthgiving sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured. Prepared by
