WATCHING THE CARLISTS.

Madrid, Nov. 5.—Owing to the fact that the Carlists are known to be importing arms into Spain, the premier, Senor Sagasta, and the minister for war, Gen. Correa, are considering the adoption of repressive measures.

APPEAL FROM THE ENGINEERS.

London, Nov. 5.—The Amalgamated Society of Engineers has issued another manifesto appealing to the workmen of Great Britain, Ireland and other countries to provide $50,000 weekly to defend trades unionism.

LITTLE BULGARIA BRINGS THE PORTE TO TIME.

Berlin, Nov. 5.—A dispatch from Constantinople to the Frankfort Zeitung says that the Porte, under threat from the Bulgarian government that unless the promised berats to the Bulgarian bishops in Macedonia should be granted before 10 o'clock a.m. yesterday, Bulgaria would declare independence, finally acceded to the demands and granted the berats.

ALUMINUM AIRSHIP.

Berlin, Nov. 5.—The Schwarz aluminum airship, fitted with a benzine motor, was tested yesterday on the Templehof field in the presence of a number of generals and the chief of the army airship department. The airship rose 1,000 feet, floated in the air for twelve minutes, and at first obeyed the man steering it, but later a strong wind which prevailed rendered the ship unmanageable. The experiment was considered to be partially successful.

THE FRENCH EVACUATE SAKI.

Lagos, West Coast of Africa, Nov. 5.—The French forces have evacuated Saki, one of the posts in the Lagos hinterland, which was occupied by their troops, in contravention, it is claimed here, of the Anglo-French agreement of 1889.

So soon as it was announced that a French expedition had occupied Saki, Governor McCallum, the British official, under whose jurisdiction the place is situated, dispatched a force of British troops from Lagos to Saki. On the arrival of the British force near Saki, the French troops retired.

SPAIN WILL DO AS SHE LIKES.

Madrid, Nov. 5.—The Spanish Cabinet has decided to reply to the United States minister's acknowledgment of the receipt of the Spanish note in reply to the representations of the United States on the subject of Cuba, declaring in guarded terms that, in reference to granting autonomy to Cuba, Spain will do what she deems fit. It is also understood that the Spanish Government is determined in the case of the American schooner Competitor, captured in Cuban water in April, 1896, to maintain that the Spanish officers acted correctly in making the capture of the Competitor, and that the protocol of 1877 solely referred to American citizens residing in Cuba.

OPERATIONS IN THE SOUDAN DELAYED.

London, Nov. 5.—The Morning Post, in a specially displayed editorial, based on the report that nothing further will be done for the present in the Soudan, denounces the government for "its hesitancy and invertebrateness on all great occasions." It declares that the unfortunate losses in money and blood on the Indian frontier are due to procrastination, and now when the hour is ripe to vindicate Gordon and to mash the mahdi, nothing is to be done, but a baneful hesitation sets in, a moral influenza which paralyzes our statesmen, and is the curse of constitutional government.

BAD BEHAVIOR IN THE REICHRATH.

Vienna, Nov. 5.—There was another tumultuous scene last night in the Reichsrath, the Leftists continuing to oppose the discussion of the bill for prolonging for a year the Austro-Hungarian compromise, although the house had adopted a resolution to debate it. The Leftists actually entered the president's tribune, and refused to budge. Dr. Lueger displayed a placard, inscribed "I claim the right to speak." This was greeted by an increased tumult. The uproar was incessant. At 11 o'clock many of the members began shouting together, "Close the sitting! close the sitting!" This they kept up in a kind of chorus, while Herr Wolff and others beat time for them with the desk lids. Amid an unseemly scuffle between Herr Wolff and a number of Czech deputies, a vote was finally taken and carried on the motion to close the debate. But the house continued sitting, with the prospect of another all night session.

The Reichsrath, after another exciting all-night session, adjourned at 10 o'clock this morning until Monday next.

REVIEWED BY THE "REVIEW."

London, Nov. 5.—The Review of Reviews says: "It is a great vindication of Tammany and Croker, and gives them a wonderful opportunity, though it does not wipe out the slate of the past. Nothing could erase the Lexow revelations, but many men, who are struggling to the front, sometimes find it necessary to do shady things to get there, and would be superior to such temptations after having achieved positions. Becky Sharpe said: 'It is easy to be virtuous on a thousand a year.' Tammany and Croker have the thousand a year. The election must give a great impetus to Bryanism." About the election generally, the paper is quite cheerful, adding: "The Chicago platform, minus the nonsense about free silver—if that is what Germany's victory means—won't scare the English. To most of us in the old country your plutocrats seem a much greater menace to the commonwealth than the Democrats, even if they do swear by Croker and Tammany Hall. The Republican campaign fund staggered us much more than the victory of Van Wyck."

CURIOUS CASE.

London, Nov. 5.—An extraordinary case was heard before the lord mayor's court, when a man named Hinde sued the Prince of Wales to recover £60,000, alleged to have been wrongfully paid him by the late Under Sheriff Croll, who was the liquidator of the United Kingdom Electric Telegraph Company. The plaintiff declared the money belonged to a certain Mr. Allen, of whose estate he was the assignee, and he further claimed the sum of £150,000 from Lord Suffolk, alleging that the latter had suborned Croll to commit perjury before Lord Bramwell, at the trial of 1877, in connection with the liquidation. Sir George Lewis, in behalf of the Prince of Wales and the Earl of Suffolk, asked that the proceedings be quashed, on the ground that the allegations were nothing more than a frivolous and vexatious tissue of nonsense, and he submitted an affidavit to that effect. The plaintiff then addressed the court, declaring he had been told that the Prince of Wales received the money referred to, and then he proceeded to charge Lord Bramwell with defrauding Allen's widow out of $150,000 in order to obtain promotion and a peerage. The plaintiff was here stopped by the court, with the warning to speak respectfully of judges. Finally the court stopped the case and dismissed the action.

CABLE NOTES.

A dispatch from Madrid says: Measures will be taken to grant amnesty to the political prisoners belonging to Porto Rico, and the governor-general of the Philippine Islands will be invested with authority to pardon the families of insurgents of that colony.

While the German Nationalists were holding a meeting at Vienna, a body of Christian Socialists, who were present, made a disturbance. A hand-to-hand fight ensued, and it required a large force of police to clear the hall.

The West Indian Cable Company lists have closed. The applications for bonds and shares were from two to three times the amount required.

The Daily Chronicle, commenting on the Newfoundland elections and the defeat of Sir William Whiteway's government, remarks that the question of confederation was not an issue, but that it may come to that in the near future.

BRITISH MINISTERS

Outline the Policy of the Government.

London, Nov. 5.—There was a flood of political speeches last evening. Mr. Arthur J. Balfour, the first lord of the treasury, spoke at Norwich; Sir Michael Hicks-Beach, the chancellor of the exchequer, spoke at Sheffield, and Mr. Joseph Chamberlain, secretary of state for the colonies, at Glasgow. Mr. Chamberlain's speech was an elaborate defense of the general policy of the government.

Sir Michael Hicks-Beach, who was the principal speaker at the cutlers' banquet at Sheffield, maintained the attitude he assumed two years ago, that England wanted reform in military matters rather than an increase in the army, which he called "the costliest in the world." He said that if it could be shown that an increase was imperative the nation would cheerfully pay the cost, but he was by no means convinced that a mere increase of men and expenditure was all that was needed.

Mr. Balfour, at Norwich, roundly denounced Lord Rosebery's statement on Monday night at Manchester that an imperial zollverein would "weaken the empire internally and excite the hostility of the whole world." He said "it is no concern of foreign nations what we do within the empire." He announced that the government had no desire of aggression on the northwest frontier of India, but sought only to maintain the present frontier.

The Times generally hints that three such speakers defending the policy of the government on the same night savors of a waste of energy, and it would have been better to spread it over a moderate period. The Morning Post also complains of "such a waste of energy."

LANCASHIRE LIBERALS

Capture the Seat for Southeast Lancashire in a Well-Fought Fight.

London, Nov. 5.—A bye-election was held yesterday in the Middleton division of Southeast Lancashire to fill the vacancy caused by the recent death of Mr. Thomas Fielden (Conservative), who secured the seat at the last general election by a majority of 365 in a total poll of 12,659. The result of yesterday's poll is the victory of the Liberal and Radical condidate, Mr. Alderman Duckworth, by a majority of 300, in a poll of 11,682, over the "Unionist" and Conservative candidate, Mr. William Mitchell. Mr. Duckworth's poll was 5,964 and Mr. Mitchell's 5,664. The constituency has changed about more than once within the last few years. It gave a Liberal member a large majority in 1895 before the home rule split. It returned the late Mr. Fielden in the following year, but threw him out in 1892, and restored him to favor in 1895. Mr. Fielden's personal popularity was a principal element in his success, and this the "Unionists" could not carry over to Mr. Mitchell. Both candidates made plentiful bids for the support of the workingmen. The bi-metallist question played a considerable part in the contest. No part of Lancashire is more ardently bi-metallist than the southeast. Mr. Mitchell avowed himself a thick-and-thin supporter of the government. Mr. Duckworth proclaimed himself a thorough-going Liberal, with the exception of being unable to adopt the Liberal educational programme in its entirety. The temperance societies used their influence in behalf of Mr. Duckworth, the Liberal candidate, while the license holders issued a circular strongly recommending Mr. Mitchell.

Heavy Spanish Loss

Telling Blows Delivered by the Cubans.

The Defeated Troops Were En Route to Meet Blanco—Cubans Will Be Satisfied With Nothing Less Than Independence—Gen. Weyler to Be Court-Martialed.

Havan, Nov. 5.—The rebels in the field are very active. On Oct. 30 the Spaniards sustained the most severe loss they have met for some time. On the borders of Matanzas province Gen. Moline was defeated by the insurgents under Gen. Betancourt. Gen. Moline was on his way to Havana, accompanied by half a brigade of troops, to participate in Gen. Blanco's reception. At Aguacate he heard that the rebels were encamped in the Purgatorio hills and broke his march to attack them. The fight was a long one, and the Spanish loss was tremendous. He was finally obliged to retreat.

A report, apparently well founded, is current in Havana to the effect that Holguin has been attacked and captured by the rebels under Gen. Cebreco. That it has been attacked and 75 Spaniards killed is admitted, but the capture is denied. Gen. Luque, with heavy reinforcements, left Havana for Holguin.

A million dollars in paper currency has mysteriously disappeared from the treasury here. The money was intended for the payment of the navy and the troops.

New York, Nov. 5.—The Herald prints the following from Maximo Gomez, general-in-chief of the Cuban army of liberation, dated at his camp in Sancti Spiritus: "The enemies of Cuba have circulated the rumor that I am disposed to accept autonomy as a basis of settlement or solution of the present war. The constitution of Cuba absolutely establishes in its articles that peace is to be negotiated upon the basis of the absolute independence of Cuba. It is to obtain independence that we have been fighting for two years, and will continue to fight until victory be ours. We will fight for absolute independence, as we stated in the manifesto issued at Monte Cristi, as also it was later set down in our constitution, and as we are daily confirming it by the shedding of our blood in the battle fields."

Salvador Cisneros, former president of the Republic of Cuba, writes: "Independence or death has been, and is, our motto. We would rather see our beloved country disappear amid a heap of ashes than accept any concessions, no matter how ample, unless they carry with them the absolute independence of Cuba."

Madrid, Nov. 5.—The Spanish Government has come to the decision to try Gen. Weyler by court martial, no matter where he lands, if he confirms the accuracy of the press reports of his utterances. Gen. Weyler turned over his command in Cuba on Saturday last to his successor, Marshal Blanco, and then sailed for Spain on board the Montserrat, but the steamer has apparently become disabled, for word has reached Havana that the Montserrat has arrived at Gibara, on the northern coast of the Province of Santiago De Cuba.

That portion of Weyler's proclamation issued last Friday, which is represented as being objectionable to the Spanish cabinet, reads as follows:

"My release from my post and responsibilities did not surprise me. I have expected it from the death of Senor Canovas, not believing that any political leader would be strong enough to sustain me, when the United States and the rebels were together constantly demanding that Spain should come to a settlement. I count it an honor to have been identified with the local Spanish party, but the policy which I have followed was not adopted in obedience to any political party, but for what it represented on behalf of my country."

TELEGRAPHIC BREVITIES

Another case of smallpox has been discovered in the convent at Montreal, from which a boarder was taken to the civic hospital on Wednesday. The patient is a 10-year-old girl.

A boy named Mackie, living in Kildonan, Man., had been out shooting and was returning, when his gun suddenly exploded, the whole charge entering his left side, near the heart. He will probably die.

Lord Mountstephen and Lord Strathcona and Mount Royal have expressed their intention of adding an additional wing to the Royal Victoria Hospital, their Queen's jubilee gift to Montreal. The wing will cost $100,000.

Frank Jones, a convict at the Central Prison, Toronto, escaped from the institution this (Thursday) morning. He was at work with several other prisoners cleaning up the front yard. When the guard turned his back for a moment Jones scaled the wall and escaped.

By an explosion on Wednesday in the Royal City Mills at Vancouver, B. C., George Sulley, had his leg terribly hurt, while his head was seriously cut and scalded. A lad named Forbes was taken out from beneath a pile of bricks in an unconscious condition. Charles Phillips was the third taken out; he was badly scalded, but not fatally.

The sum of $626 has been received by the treasurer of the Casselman fire fund from Mr. A. Thompson, of Quebec. The returns from the burned section of Prescott and Russell are now practically all in, and the total number of families burned out is between 350 and 400. The amount of money now subscribed would make an average of about $65 per family, if divided.

Maria Barberi, of New York, the central figure in two murder trials, which ended in her acquittal, was married last night to Francisco Bruno, a young Italian. Maria Barberi, about two years ago, murdered her faithless lover, Dominco Caldo. He had gained her love only to betray it, and she could not bear the taunts with which he goaded her. She found him in a saloon one night, playing cards, and cut his throat when he repeated his refusal to marry her.

plays havoc with the lips and hands. It doesn't require much exposure to subject you to the annoyance of rough and red skin or chapped lips. The usual remedies, Glycerine, Cold Cream, Vaseline, etc., are either sticky or greasy. You can only use them conveniently upon retiring. Even then your feelings are not the most agreeable. HAZELINE may be used at any time, and is soothing and healing every time you use it. Apply it to the hands, rub gently, and it vanishes; it is absorbed. This new and dainty toilet lotion is a true skin food. It is the peer of all remedies for the complexion. HAZELINE purifies as well as beautifies. Price 25 cents.

The Ex-Minister of Militia Makes Personal Investigation.

Finds the District Surprisingly Rich in Gold—An Enthusiastic Crowd of Prospectors.

Toronto, Nov. 5.—Hon. Col. Tisdale, president of the Diamond Jubilee Mineral Development Company, returned to town yesterday from a ten days' sojourn in the Michipicoten district. He said that he found the entire position changed. At the beginning of the season there was a rush of the inexperienced fortune hunters; now all those that were there were bent upon business and were actively prospecting. To judge by the indications on the surface and the appearance of the veins the district was surprisingly rich. There was every promise of gold being produced in plentifully paying quantities if the operators would go down a sufficient distance.

Silver, platinum and nickel were found in paying quantities, and the colonel thought that residents of Ontario have good reason to be convinced that they need not go out of their own province to find metallic richness. If, however, they did not bestir themselves, there was danger that foreigners would reap the harvest. At it was, in Michipicoten, the colonel said he had met a number of prospectors from the United States, England, Germany, all of whom were delighted with the indications.

Two New Yorkers, who had staked out claims some distance south of Lake Wa Wa, where gold was known to abound in paying quantities, declared that they had made surprisingly rich finds in valleys and ravines where no human creature had previously penetrated. To the north and the west of Lake Wa Wa there was believed to be precious minerals beyond present conception. Prospectors had gone over the northern district to some extent and had been well rewarded.

Col. Tisdale did not hesitate to say that as soon as the reports of the surveyors and prospectors now in Michipicoten got abroad there would be plenty of capital forthcoming for development.

There was a lack of postal conveniences, and this was a real grievance to the number of people who would stay in the district all the winter.

AN ENTHUSIASTIC CROWD.

Sault Ste. Marie, Mich., Nov. 5.—The largest and most enthusiastic crowd of prospectors that has ever returned at one time from the Michipicoten region since the discovery of gold there arrived down Tuesday on the Telegram. About twenty of the party were from the Canadian Soo and the rest from outside points. Among the latter were Capt. Currie and E. T. Taylor, of Toronto, who represented a Toronto syndicate, which has staked out a city at the mouth of the Michipicoten river, which has been christened Michipicoten City. Surveyors have been at work the past month, and in the spring the town will be ready for settlement. The mouth of the river will be dredged, docks built, and other extensive improvements contemplated. This will undoubtedly be a good thing for the region, as all prospectors, freight, etc., are now landed at Little Gros Cap, and have to get across the bay to the Michipicoten river in sailboats, on account of the sandbar at the mouth of the river. About twenty prospectors are all that are now left in the region, and they intend staying all winter.
