SAY WHAT IS NEED, AND GOOD FRIENDS WILL GIVE FREELY

Is It Coal For Cooking? Just Say the Word.

An incident which occurred this morning illustrates the willingness of people to help one another in the midst of the influenza epidemic, provided the wants are known.

An Advertiser reporter called today at the kitchen door of the No. 4 Nursing Division Emergency Hospital in the basement of the Latter Day Saints' Church to inquire about the patients and to ask if anything was specially needed.

Coal Wanted.

"Two hundred pounds of chestnut coal are what we need more than anything else just now. We have big coal to heat the building, but we can't keep the stove going with it," was the reply.

On the way downtown, the reporter mentioned the need of chestnut coal to an acquaintance who was standing on her veranda. Two minutes after reaching The Advertiser office, the reporter was called to the telephone.

Coming by Motor.

This was the message given over the wire: "It will be all right about that coal for the emergency hospital. Mrs. W——, next door, says she will see that they get it. She doesn't burn chestnut coal herself, so she is sending her car to her sister's house for 200 pounds."

THIRTEEN RUSSIANS REMANDED TO JAIL

Alleged Bolsheviki Cannot Get Out Yet.

Thirteen Russians, alleged to belong to the Bolsheviki clan, were remanded until next Monday in police court today in order that their counsel, W. R. Meredith, should familiarize himself and otherwise get acquainted with the Russian "langwidge."

"How much I give you officers to get out till Monday?" asked "William" Treehuba of the court.

No Get-Out.

"No get-out. You stay in jail," stated the magistrate in decided tones, whereupon William subsided.

Chief Williams is getting to be in a class with Pinkie Wigle, when it comes to "flu" preventives. No sooner had the Russians filed into the prisoner's box, plus an overflow meeting on the bench than the chief called upon Inspector Birrell to open the windows wide as they would go. That distinctive Jeyes fluid, having an aroma all its own, was also liberally sprinkled round the court room.

Dark and Secret.

The reporters felt that they were going to a cock-fight or some dark secret meeting as they slid along Carling street this morning. Russians of all shades and colors of moustaches lined the street and carefully scrutinized the scribes who were met at the police station door by a husky cop, who requested the countersign before he would allow admittance to the room, where justice is ground out each day.

SASKATCHEWAN PHONES TIED UP BY STRIKE

REGINA, Oct. 23.—Long distance and rural telephone lines throughout Saskatchewan were tied up today. Telephone operators and entire operating staff of the Government of Saskatchewan telephone systems walked out on strike at 1 o'clock, following the Government's refusal to grant a board of conciliation to adjust the question of wages.

The automatic system in Saskatoon City is being kept in operation.

OLD-TIME REMEDY MAKES PURE BLOOD

Hood's Sarsaparilla has been and still is the people's medicine because of its reliable character and its wonderful success in purifying, enriching and revitalizing the blood and relieving the common diseases and ailments—scrofula, catarrh, rheumatism, dyspepsia, loss of appetite, that tired feeling, general debility.

Hood's Sarsaparilla purifies and enriches the blood, and in so doing renders the human system the greatest service possible. This medicine has been tested for years. It is perfectly pure, clean and absolutely safe, as well as of peculiar and unequaled medicinal merit.

Get Hood's, and get it now from any drug store.

KILLED IN ACTION

PTE. GEORGE RICHARD, of Hensall, who met death in action September 27.

Symptoms of Flu Anticipated Eagerly In Strange Colony

Residents Without Infection Anxious To Catch It At Once.

There is one place in town where Spanish flu isn't regarded as a pest, but as a privilege. Indeed, in this strange colony, the lucky people are considered to be those who catch it. The others go about doing their utmost to court germs, and it is a woeful inhabitant who can't show a rising temperature or an accelerated pulse.

This strangest of strange places happens to be the Children's Aid Society Shelter over on the Wharncliffe road. Eighteen or twenty of the little inmates caught the flu last week and were promptly put to bed and isolated. Every measure was adopted to prevent the spread of the disease to the other youngsters.

Oh, Bliss.

The first few days it was exceedingly hard going for those in charge to look after the children. After that, an abundance of help was secured, and the invalids have been living royally ever since, lots of people to look after them and wait on them, the best kind of things to eat from the Alexandra School diet kitchen. Never in all their young lives have some of the kiddies had anything like such a good time.

How They Are Envied!

And how they are envied by the rest of the children, the little well ones, whose constitutions have successfully defied flu germs!

The one bright spot in the midst of uninteresting stretches of perfectly healthy days is getting one's temperature taken. The well kiddies troop up joyfully for the ceremony, and they beg for the thermometer between times. The heartrending moment is when nurse, S. O. S., or whoever gives the reading, announces: "No fever." The well ones, even in their tender years, are wise enough to know how those happy sick patients are going to lord it over them in the days to come if they can't be sufficiently in style to get the flu.

ENOUGH TROUBLES NOW WITHOUT THINKING OF MUNICIPAL ELECTIONS

Mayor Won't Discuss Question—Little Interest Shown as Yet.

There is but little stir in city hall circles, so far regarding the municipal elections except in the clerk's office. Mayor C. R. Somerville says: "We have enough troubles just now with the flu without looking for others. Besides, it is too early for this yet." City Clerk S. Baker has been busy for some time superintending the printing of the voters' lists, which it is expected will be ready for the public shortly. The work has all been done on the municipal printing plant in the city clerk's office. That is, all except the binding, which was done outside. He is also busy on the list of poll clerks. Owing to the fact that some who have acted in this capacity for ten years are dropping out this year there are vacancies for about 20 or 30 good men. They must not be partisans of either political party, says Mr. Baker, but any other good man will be favorably considered.

LUCKNOW MAN LOST WITH TORPEDOED SHIP?

The official casualty list from Ottawa last night recorded that Pte. J. M. Finlon of Lucknow is missing and believed to have been drowned from the Irish mail ship Leinster which was recently torpedoed.

MOTHERS ARE DOING THEIR BIT WITHOUT CARRYING INFECTION

Think It Unwise To Go Out Nursing.

WOULD SPREAD DISEASE

Members of Clubs Have Children To Be Kept Home.

In answer to an appeal to the Mothers' Clubs of the city to assist in nursing and caring for those suffering from Spanish influenza, officials of the Union Mothers' Club canvassed members of the sixteen different clubs in the city yesterday and found, what they had anticipated, that the mothers of young children in this city have just about all they can do at present to look after their own families and assist neighbors.

Said one of the officials to The Advertiser:

"Those who comprise these clubs are, almost without exception, mothers of children of public school age. While the schools are closed the kiddies are at home and require a great deal more attention than when attending classes. It is essential, the mothers believe, that the youngsters be kept from playing on the streets and with groups of their friends if the closing order is to be of any avail in stopping the spread of the epidemic. They are strongly of the opinion that for the mistress of the house to go out to other houses where the disease has a hold and to run the risk of bringing infection back to their own families would be the height of foolishness under existing conditions. They are all doing their part in providing food and comforts for the sick, sending them direct to the homes and will be prepared, if the time should come when the authorities think it wise, to do what nursing they can.

"Among the members of one club it was found that there was scarcely one who did not have influenza in her home, and it could not be expected that these women would leave their own sick ones to attend to others.

"The mothers of the city, members of the clubs, are working earnestly to help in this critical situation, but believe that they are doing more good by remaining at home and keeping their children well than they would do by going to other houses and risking the causing of more cases."

ALL TRACTION CO.'S RAILS NOW SOLD TO GO TO EUROPE

Price of $54 a Ton Received For Balance.

All the rails of the London and Lake Erie Railway and Transportation Company have been sold, and immediately will be torn up.

J. J. Gartshore of Toronto, brother of Lieut.-Col. W. M. Gartshore of this city, purchased the last 1,000 tons of steel from the line this week, the sum of $54 a ton being paid. This final allotment is the steel which runs from London to Lambeth. Mr. Gartshore also purchased the other rails from Lambeth to Port Stanley, and the entire trackage is now sold. Bids for copper wire and other equipment are being considered. The rails will be handled in Europe by a Scottish concern, for which Mr. Gartshore made the purchase.

A good market for metal continues to exist, and if the line sells immediately a much larger amount will be secured than was suggested by the municipalities.

WHY SHOULD PRICE OF BACON RISE WHEN THE PRICE OF HOGS DROPS?

"Why is it that while the price of hogs dropped from $18 to $17 a hundred, the price of bacon went up 2 cents a pound?"

This question was sprung on The Advertiser by an Essex County reader. The majority of the local butchers, when asked the question, stated that there has been no increase in the price of bacon since the price of hogs dropped, and they could give no reason why it should increase, unless it be because of increased express rates.

VICTORY LOAN POSTERS WILL COVER LONDON

Organizer J. A. G. Clarke Talked to Canvassers Last Night.

Today the city of London was literally plastered with Victory Loan posters letting the citizens know that next week they will again have a chance to invest their savings in the best and safest way possible, and at the same time get a good high rate of interest, namely 5 1-2 per cent, for their money.

The Rotary Club has come to the fore as it usually does when any good work is to be done, and has guaranteed the distribution of the posters which are surely attractive and bound to make all and sundry "dig down deep" after at least a $50 bond.

The members of the club are going forth with the one idea of getting a poster into every store window in London, and as many spread round the business premises of the merchants as possible. Forty-five men will see that no one is missed in the big publicity drive that is being started.

Worker Are Optimistic.

City Organizer J. A. G. Clarke talked to the canvassers of District No. 4 last night and explained the work to the men in detail. The boys were most optimistic over the loan and are anxious to get busy.

The local militia department is living up to its reputation for organization, and has what J. A. G. Clarke, head of the city drive, describes as "the smoothest little organization in the world" for promoting the loan among the soldiers. It is expected that the soldiers will subscribe some $250,000 as a forerunner of the drive to come. "Dollars first and then our rifles" is the way the lads in khaki look upon the campaign here and overseas.

Khaki Organization.

Following is the personnel of the soldiers' organization:

Chairman, Lieut.-Col. W. J. Brown, A.A.G.; chairman of the executive committee, Major C. W. McKitterick; canvassing chairman, Major Frank M. Spry; publicity committee, Major W. H. Irvine; secretary, Capt. E. H. Shuttleworth; paymaster, Capt. E. M. Fremlin.

Working under this committee each unit has its own organization consisting of a chairman over all, and a publicity and canvassing chairman.

Following are the officers heading the drives of these units: W. O. R., Major George King; C. G. R., Major E. B. Nelles; A. S. C., Lieut. G. T. Evans; A. D. C., Lieut. Hayden; Postal Corps, Sergt. Anderson; C. R. E., Capt. R. Gardiner; A. M. C. (training), Lieut. Colling; A. M. C. (hospital), Capt. J. B. Jupp; headquarters staff, Lieut.-Col. H. D. Smith G.S.O.; Ordnance Corps, Capt. S. V. Cooke; A. V. C., Lieut.-Col. J. H. Wilson; District Depot, Major Hilliard; C. M. P., Capt. E. B. Baxter, and Instructional Cadre, Major R. W. Emmerton.

The Publicity Stunts.

The publicity end of the loan is receiving more attention than ever this year. Street car conductors will be asked to remind the people that now is the time to buy Victory Bonds when they call out the names of the streets. Central will also let telephone users know that there is a loan on, while the fire department will also be brought into service it is expected. Guests who leave calls for an early getaway in the hotels will be greeted thusly: "Good morning, Mr. Johnston, have you bought your Victory Bonds? It is now 7:15."

The A. B. C. of the Victory Loan will be distributed to all merchants in large bundles. They are requested to see that their customers each get one, and by putting in a phone call to headquarters, number 7000, more pamphlets can be secured.

The blowing of whistles and the ringing of bells will start the campaign off next Monday morning at 9 o'clock.

County Is Ready.

County Organizer G. E. Cork stated today that everything was in readiness for the county drive. The county canvassers, numbering 81, have all been instructed in their work, and meetings have been held all over the county. Literature has been distributed to the local committees and the village stores, postoffices, etc., will be "posted up" in a regular manner.

Honor roll cards will be hung in the postoffices and as each member of the community buys a bond his or her name will be written on the roll. Honor roll cards will also be given to villagers to display in their windows, on the purchase of a bond.

L. H. Dampier, the old war horse of last year's county campaign, is at the helm again this year and it is therefore confidently expected that the objective of three million dollars for the County of Middlesex will be reached. Last year the county raised $2,120,750 for the Victory Loan.

G. W. V. A. NEEDS FINANCIAL HELP TO RELIEVE DISTRESS AMONG THE FAMILIES OF RETURNED SOLDIERS

Many Cases Reported and Ne ed Is Urgent—Association Is Doing Good Work In City and County For Patriots and Their Dependents.

Many cases of distress among the wives and families of returned soldiers are being reported to the headquarters of the Great War Veterans. Secretary J. W. Cunliffe today stated that if relief were to be had for the people who were in immediate need, funds would have to be secured from the public, and through The Advertiser an appeal is made for money to carry on this necessary work.

Last winter and all through the year, the G. W. V. A. has looked after scores of cases of distress in London and Middlesex County.

One case which came to the attention of the secretary is that of Mrs. Mitchell, widow of Sergt. Mitchell, who was recently killed in action. She is seriously ill with pnuemonia at 25 Glenwood avenue, and her five children are also suffering from influenza. Secretary Cunliffe visited the home, and found that there were no groceries or other necessary provisions. It is for such cases as these that relief is needed, and both the veterans and the Returned Chapter, I. O. D. E., are out of funds. Any donations will be gladly received by Secretary Cunliffe, and every dollar will be put to good use. Who will start the ball rolling?

COAL SECURED.

The Great War Veterans have prepared a form of declaration for the securing of coal for the families of soldiers. The applicant is required to make a statement as to the supply required, giving her husband's regimental number and unit, to tell how much coal is required and to state whether house is heated by furnace or stove. This will be sworn to before the fuel commissioner and signed by the secretary. So far twelve families have filled in declarations, and in each case coal has been secured.

NO SELLING OF BADGES.

The local association recently has received a copy of the new constitution, under which a Dominion charter was granted to the organization. The incorporation dates from October 9, 1918, and the charter contains some 124 sections governing the parent body and the local commands.

One specially significant feature of the charter is that which applies to the payment of dues. No member who is three months in arrears in his dues can be carried by the association, and all must turn in their badges when they have exceeded the limit in non-payment. A member must not sell his badge, but must return it to the association, which will compensate him for the cost of the badge. A local jeweler, who is selling the badge as the crest of a ring, will be notified to discontinue the sale of the rings.

One member of the association is said to have sold his badge for the sum of $70.

A WELCOME GRANT.

Recently the local command was able to secure the sum of $250 for the wife of a soldier. She resided at Iceland, Wis., and was delighted to secure the grant.

HELPING STRATHROY WOMAN.

The association is working to secure a pension for the wife of Pte. Ernest John Burtonshaw of Strathroy, who is supposed to be dead. This indicates how the officers are called upon to give their services outside the city. They will gladly interest themselves in any case dealing with the affairs of a Middlesex soldier.

MUST GIVE STATEMENT.

Under the war charities act, a complete financial statement of all organizations must be filed with the secretary of state. A form, which will be filled in at once, will be forwarded by the G. W. V. A. An officer has the right to notify the secretary of any collections made without the permission of those responsible for the enforcement of the act.

LITTLE HOPE OF FURLOUGH.

The resolution passed by the local G. W. V. A. as a result of the petition of the mothers' clubs to secure furlough for the single men of the first contingent was forwarded to the Ottawa branch. A reply from the headquarters at Ottawa has been received by the local secretary, in which the military authorities politely express their desire to grant furlough, but hold out little hope. It is stated that the wives of men in the second contingent are making strong demands to have their husbands sent home. The letter states that no other original contingents were granted special furloughs, but this is believed to be wrong, as it is understood here that the Australians of the first contingents were given furlough. The local branch will keep up the agitation.

A DESERVING CASE.

Mrs. Lucy Pritchett of 513 Hill street gave four of her sons to the war. They were Gunner Garfield Jennings, Pte. Fred Pritchett of the Princess Pats, Sergt. Edward Pritchett, who enlisted in the first contingent, and on being turned down, joined the 7th Guard until August, 1915, when he joined up with the 70th, and went over and did his bit, and Pte. Harry Pritchett, who was wounded four times, and three times mentioned in dispatches. All of the boys are now home, but three of them are married, and they state their mother is not getting one cent of patriotic allowance, and has never received it. If any London mother has made a sacrifice, Mrs. Pritchett is that woman. At the present time her sole support is what may be given by her youngest son, whose wounds prevent him from earning any amount requisite for the keeping up of a home.

Spanish Influenza

Keep the Heart going, some people suggest putting a teaspoonful of brandy or rum in a bowlful of hot gruel to be taken the last thing at night; in Italy, a good red wine (if obtainable) seems to be highly recommended. Fresh air and moderate exercise and an avoidance of crowds are good preventives. If you feel tired and have a Cold or a Harshness in the Throat and a Rise in Temperature, take "Old Doc Hemlock" (50c a bottle), and to prevent Constipation, take Hacking's Kidney and Liver Pills (25c). This "Old Doc Hemlock" kills the germs and can be taken internally. Keep a bottle on hand at all times it may save your life. C. B. Hacking, Phm.B., Listowel. h

SMALLMAN & INGRAM Western Ontario's Mail Order House SMALLMAN & INGRAM

FUR STOCKS ARE MOST COMPLETE---

And it is indeed just as much of interest to us to show you these new ideas as it will be for you to view them. Everything in the way of stoles, scarfs, muffs, coatees and coats have been assembled for your inspection. Fur prices are quite reasonable at the present. We advise all those who anticipate buying furs for either themselves or as Christmas gifts to make their purchases as early as they can. We will not attempt to describe the styles, but will only mention a few of the animals and prices, and again advise early buying.

SPECIAL

MOTOR AMALGAMATION TO TAKE CARE OF BIG BUSINESS AFTER WAR

Consolidation of Interests Affiliated With General Motors.

A transaction which will probably have more far-reaching results, both from a manufacturing and financial standpoint, than any other recent event in motor circles has just been consummated by amalgamation of the interests affiliated with the General Motors Corporation. In order to take care of the after-the-war expansion which the directors of the company believe is in store for gasoline-propelled vehicles of all kinds, including tractors, the consolidation of the McLaughlin Motor Car Company, Chevrolet Motor Company of Canada and McLaughlin Carriage Company with the General Motors Company has been consummated. The transfer will take place on November 1.

One of the primary objects is to increase the manufacturing facilities in Canada so that costs of production may be materially lowered. All of the present plants, branch houses and distributing stations in Canada will continue to be operated as heretofore, and in addition, engines, which have formerly been imported, will be manufactured in Canada, together with axles, transmissions and all other important parts. With this in view, the General Motors Company has recently purchased a site at Walkerville, Ont., consisting of 38 acres, where these manufacturing operations will be conducted as soon as material can be obtained and buildings erected.

All of the plants at Oshawa will be operated to full capacity as soon as the raw material situation permits. Provision will be made from time to time to take care of the Canadian business of the Cadillac, Oldsmobile, Scripps Booth, General Motors Trucks and Samson Tractor lines. The tractor division is believed to possess great possibilities.

The new organization will be represented by Messrs. R. S. and G. W. McLaughlin.

PENALTY FOR SHOOTING BLACK SQUIRRELS TO BE RIGIDLY ENFORCED

ST. THOMAS, Oct. 23.—County Clerk K. W. McKay has issued a warning that anyone caught shooting black squirrels will be severely punished, and he adds that already a large number have violated the game laws in this respect. McMcKay states that a by-law was passed two years ago, effective for five years, in which black squirrels in motor circles has just been consummated by amalgamation of the interests affiliated with the General Motors Corporation. In order to take care of the after-the-war expansion which the directors of the company believe is in store for gasoline-propelled vehicles of all kinds, including tractors, the consolidation of the McLaughlin Motor Car Company, Chevrolet Motor Company of Canada and McLaughlin Carriage Company with the General Motors Company has been consummated. The transfer will take place on November 1.

One of the primary objects is to increase the manufacturing facilities in Canada so that costs of production may be materially lowered. INFLUENZA TAKES FOUR IN ONE FAMILY

STRATFORD, Oct. 23.—The great need here now in connection with the influenza epidemic is nurses. The voluntary workers are doing fine work, but they are unable to meet the demand.

The health authorities report that the number of new cases is on the decrease.

The deaths overnight and during the day were: Annie Murphy, aged 9, daughter of John Murphy; Arthur E. Atkins, aged 15 years, son of H. H. Atkins; May Bishop, aged 10 years, daughter of William Bishop, and the fourth of the family to die from the disease; Madaline Burleigh, aged 17, daughter of Thomas Burleigh; Mrs. Charles E. Powell, aged 35.

Hacking's Heart & Nerve Remedy

FOR HIGH BLOOD PRESSURE

This Remedy is a wonder; it builds up the entire system by Purifying the Blood, Strengthening the Heart and by producing a Normal and Healthy Condition of the Nerves. Increases Circulation and tends to dissolve the Uric acid sediment that forms in the veins and arteries and causing High Blood Pressure, Rheumatism and more troubles besides. You begin to feel better shortly after you start taking it, and a few boxes will bring back the old-time vigor, vitality and enjoyment of good health. Don't give in to sickness and its attendant worries. Insist on Hacking's, and you'll get well. Price 50c a box, 6 for $2.50. Sold by all dealers or by mail. C. B. Hacking, Phm.B., Listowel. 22u

FIFTY MORE AT HAMILTON.

HAMILTON, Oct. 23.—Fifty new cases of Spanish influenza and six deaths were reported at the health office today. So far approximately one hundred deaths have been traceable here to the disease.

Keep Your Kodak Busy

and do not forget the boys at the front with "snapshots" of the home, the home folks and home doings, as these go far toward making lighter hearts and happier faces. Catalogues and Kodak literature free on request.
