### Farmers' Meeting.

The Northern Branch of the Farmers' and Dairymen's Association at New Glasgow have begun their winter sessions. The first meeting was held on the 26th ult. The following officers were appointed for the ensuing year:—President, R. E. Bagnall; Vice President, R. E. Stevenson; Secretary, C. A. Stevenson; Directors, George Smith, R E. Bagnall, C. A Stevenson, W. D. McCoubrey, A. B. Dickieson, Charles Dickieson R. E. Stevenson. A very interesting course of subjects was laid out for discussion during the winter. On the 3rd inst. the subject was "The Dog Nuisance," and was introduced by Mr W. D. McCoubrey, who was in favor of a tax being levied on dogs. A number of gentlemen spoke pro and con. No decision on the matter was taken, but the general impression was against the tax doctrine. On Wednesday evening, the 5th, a number of the members held a meeting in Fredericton hall in the interests of farming and dairying. Pointed and practical addresses were delivered by Messrs. George Smith, Charles Dickieson, R. E Bagnall, James Dickieson, W. D. McCoubrey and R. E. Stevenson. The topic, "Farming as it was, is and shall be," were dealt with by the various speakers. The speeches were interspersed with solos by the following gentlemen: Messrs. A. B Dickieson, R. W. Stevenson and George Smith. All seemed agreed that it was a pleasant and profitable meeting. Great kindness was shown to the members by the good people of Fredericton. George W. H. Stevenson, of Fredericton, occupied the chair. The subject for discussion for last evening, the 10th inst., was Horticulture, and was to have been opened by a paper read by the Vice-President, Mr. R. E Stevenson; but owing to the unfavorable weather, the meeting postponed the discussion until Monday, the 17th inst., when Principal Stevenson will lecture on the subject. All are cordially invited to attend this meeting. The subject is a most interesting one, and the speaker will make it doubly so. The ladies especially are invited to be in attendance. It was resolved at the last meeting that the association hold a series of meetings in the various sections which contribute milk to the cheese factory at New Glasgow. The places selected by the association for these meetings are as follows: Cavendish Road, North Rustico, South Rustico, Wheatley River or New Glasgow Road, Greenvale, St. Patrick's Road, St. Ann's. At these meetings addresses will be given by members of the Association. The first meeting will be held in the Cavendish Road Schoolhouse on Tuesday evening, the 18th inst., at 7 o'clock. The dates for the other meetings will be announced in due time. All interested in farming and dairying are cordially invited to attend these meetings. The members of the association are determined to make all their meetings profitable, and they will hold meetings here weekly throughout the winter on each Monday evening.

C. A. STEVENSON,
Secretary.

### School Examination At Kelly's Cross.

Mr. D. J. McLeod, Superintendent of Education, paid us his annual visit on the 4th inst., and, as usual, found the Kelly's Cross School in a high state of efficiency. There were fifty-nine pupils in attendance, thirty-two in the junior, and twenty-seven in the advanced department. The examination of the junior classes showed that Miss Maggie McKenna is continuing to do good work in her department, and is proving a success in training young children, while the pupils in the Principal's department gave unmistakeable evidences of accuracy, thoroughness and general proficiency in their studies. Mr. Devereaux is evidently determined to maintain his well-earned reputation of being one of the best first-class teachers in the Province. At the close of the examination the genial Superintendent, in his own happy way, addressed the pupils, giving them some excellent practical advice and highly complimenting Mr. Devereaux and his worthy assistant, Miss McKenna, on the excellent work done and progress made since his last visit. The people of Kelly's Cross feel justly proud of the high standard of their School and the excellent work that is being accomplished, no less than eight pupils from this School having secured entrance into Prince of Wales College at the examination in July last, six of whom successfully took the second class and two the third class examination. This fact speaks louder than words of Mr. Devereaux's ability and success as a teacher, and places him in the front rank in his profession. Trusting that upward and onward will still be the motto of Kelly's Cross School, I remain,

RATEPAYER

### DIED.

At West River, on the 10th. February, inst., Matthew Boylen, aged 79 years, leaving two sons and four grandchildren to mourn their loss. The deceased emigrated from Ireland to this Province in 1842. May his soul rest in peace.

At Cardigan Bridge, on the 18th. inst., Donald Chisholm, shoemaker, aged 72 years, formerly of Antigonish, N. S. (Antigonish papers please copy.)

Ice boats crossed both ways at the capes yesterday.

The Stanley started from Picton for Georgetown, yesterday, but had to put back.

A Lenten Pastoral from His Lordship Bishop McDonald, was read in the Cathedral on Sunday last. We shall publish it in our next issue.

## LOCAL AND OTHER ITEMS.

The smelt-fishing season has been extended to the 25th inst.

The New Brunswick legislature convened at Fredricton on Thursday last.

A lodging-house in Soho, London, was destroyed by fire on Sunday last and eight persons lost their lives

Mr. and Mrs. T. A. McLean celebrated their silver wedding on Fridayvlast. We extend to them our hearty congratulations.

Alexander Waugh, sr., an old and respected resident of Pugwah while in his usual health dropped dead in his chair on Friday last.

A London despatch of the 15th. says the new cruiser "Palorus" was launched on that date. She has a speed capacity of twenty knots an hour.

At a sale of trotting stock in New York, on Friday last, John R. Gentry, the champion pacer of the world, sold for $7,600 to William Simpson, of that city.

It is understood, says a Halifax despach, that Lieut-Colonel Charles J. McDonald, Post Office Inspector for Nova Scotia, will be commander of the Bisley team this year.

A black lad, named Fredrick Barker, aged 17 years, was instantly killed in a cotton mill at Fall River, Mass., on Saturday last, by being caught between a mule carriage and its head.

A St. John, N. B., despatch of Saturday says the pilot boat Charley Troop went ashore at Irishtown near Musquash, on Friday. There were three men on board. One of the crew named Brown, colored, was drowned.

Hon Dr. Montague returned from New York about a week ago where he had been consulting a specialist regarding his health. He was advised to take five or six weeks rest from work. Consequently he left for England on Thursday last.

On Sunday last ice boats started from Cape Tormentine, shortly afternoon with a large quantity of mail. After being out two hours and a half they found it impossible to effect a crossing and were obliged to return to the mainland.

On Saturday last 1236 lbs of butter were madeat the Central creamery, and during the week ending Saturday 3189 pounds were churned. The excellence of the quality of the creamery butter is proven by the fact that the local demand for it is rapidly increasing, while regular shipments are also made to foreign markets.

On Saturday last, Mr. Clements started from this city at eight o'clock in the morning with Mark Wright & Co's hearse, for Thompson's Mills. The roads were so bad that, after accomplishing half the distance and upsetting the hearse four times, he was obliged to abandon the attempt to reach his destination, and returned home.

According to an exchange potatoes were selling for two cents a sack in San Francisco a week or two ago, and sold slowly even at that price. The potato crop all over the country last season was enormous, and most growers lost money on a considerable part of their crop. In some regions the potatoes were not taken out of the ground, the price got down so low.

Word has come from Ottawa that the contract for building a block at the outer end of the Souris breakwater has been awarded to Messrs Heney & Smith of Ottawa, for the sum of $27,800. It is understood that a further sum of 15,000 is to be spent for repairs on the inner portion of the breakwater. This amount is to be laid out in day's work, and will give a chance to the farmers in the vicinity to sell timber and stone. The work is to be commenced about the first of March.

In the Imperial House of Commons on Thursday last Mr. Dillon moved an amendment to the address in reply to the speech from the throne, declaring that the absence of a bill providing for the self-government of Ireland had aroused discontent among the Irish and increased the difficulties existing in foreign affairs. Tim Healy, anti-Parnellite, admitted his disloyalty to England. He had been sent to Parliament to secure the establishment of a native Irish parliament. His endeavors, therefore, would be to harass, attack and thwart, in every way, the policy of those who refused to grant Ireland Home Rule. Dillon's amendment was rejected by a vote of 276 to 160.

On Saturday afternoon last a young man named Charles Campbell died quite suddenly. It seems that Mr. Campbell, who had not been very well for some time, left the house of Mr. J. Dunn, corner of Water and Hillsborough Streets, to visit an aunt who lives near by. He started down Water Street, but when about opposite Mr. Booth's place of business he was seen to fall. He was picked up and taken back to Mr. Dunn's house, but before the arrival of medical aid the vital spark had fled. Mr. Campbell was about nineteen years of age, and last summer was employed on the steamer St. Lawrence. Of late he has been complaining of a pain in the left side and back, but when he left the house that afternoon he seemed to be in his usual health. The deceased young man is very highly spoken of by those who knew him. Heart disease is thought to have been the cause of death.—Ex.

Recent copies of the Daily Plaindealer and Daily Herald, printed at Grand Forks, North Dakota, have reached us, and we observe quite a breath of the western breezes running through their columns. They are newsy and bright, and up to date. In their advertising columns we notice the professional card of Dr. McDonald, brother of the esteemed pastor of St. Paul's Church, Summerside. Dr. McDonald graduated a couple of years ago from the Medical School of the University of New York, and was at once chosen as house surgeon of St. John's Hospital, Long Island City, N. Y. This position he filled for a year and a half, to the satisfaction of all concerned, and his patients bestowed upon him numerous tributes of affectionate regard, for his unremitting attention and skilful treatment. Now we find him located at Grand Forks, and as we knew him well here, our best wishes go out to him. If early college training, a successful professional course, and a long and varied hospital experience, coupled with natural ability and a kindly disposition, are guarantees for success in the medical profession, then we predict for our young friend an abundant measure of success in his new western home.—Journal.

### Main Provisions of the Remedial Bill.

The bill consists of 112 clauses, the preamble reciting the steps taken up to the time the parliament of Canada was given power to legislate on the subject Clause 2 provides for the constitution of the separate school board of education for Manitoba, the governor in-council being empowered to make any appointments to this board in the event of the lieutenant-gover-in-council failing to do so. The more important duties of the board are defined as follows: (A) To have under its control and management the separate schools, and to make from time to time such regulations as may be deemed fit for their moral government and discipline, and the carrying out of the provisions of this act. (B) To arrange for the proper examination, grading and licensing of its teachers and for the withdrawal of license upon sufficient cause; provided that the standard of qualification for teachers in secular matters be the same as that any time prescribed for teachers of other schools of a public character established under the statutes of the province of Manitoba. Provided further, that all teachers' certificates issued by or under the authority of the department of education shall be recognized by the board of education. (C) To select all the books and maps and globes to be used in the schools under its control, provided, however, that no book, map or globe shall be selected unless such book, map or globe has been authorized for use either in the high or public schools of the province of Manitoba or in the separate schools of the province of Ontario. Special attention should be paid to sub clause "B" which sets up a high standard of qualification for teacher. Sub-clause "C" is also important. Provision is made by clause 7 for the appointment of a superintendent of separate schools who is to be secretary of the board. Clauses 10 to 13, inclusive, refer to the formation of school districts. Successive clauses relate to the election of trustees. Clause 23 has to do with the school assessment, the nature of which is summarized in Mr. Dickey's explanation in the house. Clauses 25 and 26 are somewhat important. They read as follows: 25. The school assessment shall be laid equally according to valuation upon the rateable, real and personal property of Catholics (other than that of these who have given the notice prior to assessment referred to in section twenty-eight of this act) in the school district and shall be payable by and recoverable from the owner, occupier or possessor of the property liable to be rated, and shall, if not paid, be a special mortgage, and not requiring registration to preserve it on all real estate, and a special charge and lien upon all personal property liable to assessment to the value of $500 belonging to bona fide owners of real estate of at least 40 acres. 26. The corporations situated in a locality where both public and separate school districts are established shall be assessed only for the school district of the majority, yet out of such assessment the council of the local municipality, city or town shall give to the school district of the minority a part of such assessment in proportion to the number of Catholic or non-Catholic children of school age, as the case may be, according to the census. Clause 28 provides that Catholic ratepayers, including religious, benevolent and educational corporations, shall be liable to be assessed for the support of separate schools, but sub-clauses in the bill indicate the manner in which a Catholic may become a supporter of public schools, and exempt from paying separate school taxes, viz., by giving notice to the clerk of the municipality and of the separate school board. Successive clauses relate to the duties of school trustees and school officers. Clause 69 provides that the board of education shall have power to appoint inspectors, subject to the approval of the lieutenant-governor-in-council (who may within one month after the notification of the appointment disapprove of it, whereupon the office shall become vacant) who shall hold office subject to such disapproval, during the pleasure of the board and of the lieutenant-governor-in-council, to define their duties and to provide for their remuneration and such inspectors shall visit the schools and report thereon at least twice a year. The important matter of the legislative grant is dealt with in clause 74 which states that the right to share proportionately in any grant made out of public funds for the purpose of education, having decided to be and being now one of the rights and privileges of the said Catholic minority of Her Majesty's subjects in the province of Manitoba, any sum granted by Manitoba and appropriated for these separate schools shall be placed to the credit of the board of education in accounts to be opened in the books of the treasury department and in the auditor's office. Clause 75 explains the mode in which school monies are to be expended, and how schools are to become edtitled to them. Clause 76 says that any school shall be deemed to have become efficient if at any subsequent time the inspector appointed or authorized by the lieutent-governor in-council so reports, and the department itself is satisfied that such is the case. Clause 77 says that in all such cases of inefficiency the department shall have power, after considering all the circumstances to continue to regard such school as efficient, or to pay to such a portion of the amount to which it would have been entitled, and to give a warning to the trustees that the grant may be withheld next year. Clause 79 states that any school not conducted according to all the provision of this or any act in force for the time relating to separate schools or the ragulations of the board of education in force under its authority, shall not be deemed as separate school within the meaning of the law and such school shall neither participate in the educational fund nor in the legislative grant. Successive clauses provide for compulsory school attendance, and the machinery for the more effective working of the schools system. None are of special importance save the last two or three. Clause 100 empowers the board of education to establish in connection with any separate schools in St. Bonifice Normal school departments with a view of instructing and training of teachers of public schools in the science of education and the art of teaching. Clause 112. The last clause provides for the parliament of Canada giving effect to the measure in the event of the provincial authorities overlooking the statute entirely. It reads as follows: Power is hereby reserved to the parliament of Canada, to make such further and other remedial laws as the provisions of the said section 22 of chapter 3 of the statues of 1870, and of the decision of the governor-in-council thereunder may require.

Break Up a Cold in Time
BY USING
PYNY-PECTORAL
The Quick Cure for COUGHS, COLDS, CROUP, BRONCHITIS, HOARSENESS, etc.

Mrs. Joseph Norwick, of 68 Sorauren Ave., Toronto, writes: "Pyny-Pectoral has never failed to cure my children of croup after a few doses. It cured myself of a long-standing cough after several other remedies had failed. It has also proved an excellent cough cure for my family. I prefer it to any other medicine for coughs, croup or hoarseness."

H. O. Barbour, of Little Rocher, N.B., writes: "As a cure for coughs Pyny-Pectoral is the best selling medicine I have; my customers will have no other."

Large Bottle, 25 Cts.

Proprietors, Montreal

## LOCAL AND OTHER ITEMS.

Ash Wednesday.

Fourteen thousand pounds of butter were shipped from the Central Creamery yesterday, for Liverpool, England, via Georgetown.

Ice boats with 101 bags of mail left Cape Tormentine at 8 o'clock Monday morning. After being out some time, one of the boats with 11 bags on board had to put back, two of the men having "chilled" their feet. The remaining boats reached this side about 6 p. m., and the mail special reached this city shortly after nine o'clock.

Notwithstanding the extremely cold weather of Monday evening last, a large audience assembled in St. Patrick's Hall and enjoyed the concert given by the St. Vincent de Paul Society, in aid of the poor. An excellent programme was presented and was excellently rendered; several numbers being warmly encored. Following is the programme:

Piano Duet.....
.....Misses Thorne and Sweeney
Song.....Miss Girtie Gillis
Mandolin Solo.....Rufus Hogan
Song.....J. B. Dawson
Recitation.....Miss Girtie McDonald
Song.....Master Robbie Hogg
Song.....Miss Florence Earle
Reading.....John McPherson
Song.....Alex Bruce
Recitation.....Mr. McIsaac
Club Swinging.....Rufus Hogan
Comic Song.....Mr. Whitlock
Cornet Solo.....C. P. Fletcher
God Save the Queen.

The accompanists were Mrs. Hogg, Miss Halloran, Miss Thorne, Miss Robin, Mr. Earle, Mr. Blanchard. The stage was tastefully decorated, and the very best of order was preserved throughtout. The committee of management desire to sincerely thank all who took part, as well as those who attended and contributed towards making the entertainment a success. They also wish to express their obligations to Messrs. Jas. Paton & Co. for stage decorations.
