☞ A young man about 20 years old, was sentenced on Saturday, in Pittsburg, to 21 years in the State prison for three attempts at burglary.

☞ The evidence in the trial of Adams Express robbers, in St. Louis, shows conclusively that the plunder was divided with three "detectives!"

☞ Bishop Grace, of St. Paul, Minnesota, denounced the Fenians in most bitter terms in his address on St. Patrick's day. He told them they were the laughing-stock of the world.

☞ It is stated that Capt. H. R. H. Prince Alfred, has expressed a desire to be appointed to the command of the *Galatea*, a frigate mounting 26 guns, of 3,227 tons, and 800, horse-power, with a crew of 700 men.

☞ A statement has been publjshed in several of the Paris papers to the effect that the Government of the United States had purchased of Denmark, the island of Santa Cruz, one of the Antilles, with the object of making it a naval station.

☞ The *World's* telegram says the question of protecting the rights of American fishermen is already becoming a serious one. Government has despatched two vessels to the fishing grounds, and will probable soon send another. Sir Frederick Bruce has had two or three interviews lately with Mr. Seward on the subject.

☞ An advertisement in a New York paper, promising on the receipt of twenty-five cents, to send a receipt to keep water in wells and cisterns from freezing, a man in a neighbouring city forwarded the currency, and received by return mail the following answer, which may prove of some value to some of our readers, therefore we take the liberty of circulating it: "Take in your well and cistern on cold nights and keep them by the fire."

☞ The hospital records, which have just been footed up, show the enormous aggregate of 253,000 Union soldiers to have died on battle-fields and in hospitals during the war to suppress the rebellion. This does not include those who died at their home of lingering disease contracted in the service.

☞ I was always an early riser.—Happy the man who is! Every morning day comes to him with a virgin's love, full of bloom and purity of freshness. The youth of a nature is contagious, like the gladness of a happy child. I doubt if any man can be called 'old' as long as he is an early riser and an early walker.—And youth!—take my word for it—youth in dressing gown and slippers dawdling over breakfast at noon, is a very decrepit, ghastly image of the youth which sees the sun blush over the mountains and the dews sparkle upon hedge rows.

☞ It has been found that, in making up the returns to the call for 10,000 volunteers for active service, 14,000 were actually enrolled, a proof of the alacrity with which the men came forward.

☞ The Fredonia, N. Y. *Advertiser* says, "There is a gentleman about sixty years of age, who has been a resident of Fredonia (three miles from the railroad) from his youth who has never seen the cars or a steam engine, save one little arrangement he came to, on by accident in a printing office."

☞ A left-handed knife and fork combined has been invented by a soldier who lost his right arm at Sailor's Creek, the last fight of the war. It is so constructed that a person who has lost his right arm can cut his food and feed himself without difficulty, and shows remarkable mechanical genius.

☞ A most astounding event has just happened. The New York *Herald* has spoken the truth for once. We presume old Bennet must be unwell, and unable to attend to the editorial department. The *Herald* says. "If Canada was willing at one time to cast her fortunes with this country, she is not so now, and who can blame her?" No one we should think.

☞ Joseph Molloy shot his wife and cut her throat, near Chicago, last week, and subsequently took his own life; the whole transaction forming one of the most ghastly chapters in crime that has ever been written.

☞ Of seventeen large square rigged vessels laying at the wharves of Charleston, S. Carolina, a few days since, ten were British and two Spanish, and the remaining five being American.

☞ A case is now pending in Rhode Island, in which a wealthy man married, and dying soon after, left a will that was made before his marriage. His estate that is valued at $1,000,000, and his widow is left a very expensive and doubtful law suit, instead of a large fortune.

☞ No trait of character is more valuable in a female than the possession of a sweet temper. Home can never be made happy without it: it is like the flowers that spring up in our pathway, reviving and cheering us. Let a man go home at night, wearied and worn out by the toils of the day, and how soothing is a word dictated by a good disposition! It is sunshine falling upon the heart. He is happy, and the cares of life are forgotten. A sweet temper has a soothing influence over the minds of the whole family.—Where it is found in the wife and mother, you observe kindness and love predominating over the natural feelings of a bad heart.—Smiles, kind words and looks characterize the children, and peace and love have their dwelling there. Study then, to acquire and retain a sweet temper. It is more valuable than gold, and captivates more than beauty, and to the close of life retains all its power.

COAL IN RUSSIA.—It has been discovered that in the district, of which Moscow is the centre, there is an immense basin of coal including an area of 120,000 square miles—nearly as large as the bituminous coal area of the United States. There are also 18,000 square miles in the district of the Don—larger than the anthracite region of Pennsylvania, as large as the whole bituminous coal area of British America and more than half as large again as all the coal fields in Great Britain. There are a number of other places in Russia where coal has been discovered in great quantities.

RECENT ADVICES from Nova Scotia are to the effect that the Government and Parliament intend to re-impose the old duties on United States produce, as before the Treaty. On most of the produce coming into competition with ours, this duty will be, it we remember aright, about five per cent. These products from the sister colonies will be admitted free as before.

The *Herald's* Toronto telegram says the order disbanding the volunteers has been rescinded, and troops are still being sent to the frontier. There is a great deal of mystery in this matter. The government profess to intend to muster men out, yet under cover of night they send new companies to the frontier. Last night four companies arrived at midnight in this city. This morning there were no signs of them and the authorities refuse to tell where they went. Many believe that the government is endeavoring to make Americans believe that they are disbanding the troops while secretly calling out more. An attempt was made to burn the city hall at Ottawa a few nights ago.

☞ Scotland bids fair to rival Pennsylvania in that new source of wealth which consists in 'strikin' ile.' According to the Inverness Courier many large fortunes are being made by the lucky finding of petroleum deposits. One unlucky man sold for £2,000 a bleak bit of moorland, which is now worth £200,000. Sir James Simpson, the new medical Baronet, has, it is said, profited to a very great extent by the recent discovery.

A Fenian Prophecy.

In the month of January, the Citizen, edited by "Miles O'Reilly," made the following prediction:

We tell the American public—and they have heretofore found us pretty accurate prophets in everything relative to the Fenian cause—*that before ten weeks there will be somewhere—an Irish Republic existing on the face of the earth*, with a flag, an army, a port of entry and exit, a navy of privateers, and the tacit encouragement both of France and the United States in the prosecution of belligerent acts against Great Britain. Let no one ask us for the present where the Republic will be located, for we cannot answer. It must be called the republic, to warrent the flag and the fleet, but will really only be used as an immediate basis of operations for the transfer of active hostilities to the Canadian and Irish soils. A word to the wise is enough. And now, while the *quid nunes* grow excited, the wise will await developments, giving literally of their means to aid the cause; nor will they have to tarry long for the fulfillment or all we herein foreshadow."

The ten weeks expired to-day. Will the "private," tell us where the Irish Republic is, where its flag, its army, its port of entry, its navy, and the tacit encouragement both of France and the United States? The "quid nunes," however much they may have been excited ten weeks ago, have calmly awaited the promised developments, and now look for another "ninety days" prophecy.—"Miles" was wise not to locate his Republic. It existed only in his mind's eye, but had no local habitation. The country breathes more freely now that the fated day is past, with no augury more ominous than an eclipse of the moon.—*New York Commercial Advertiser, March 31st.*

NEW ZEALAND.—Advices from New Zealand announce that the war is virtually over. Several ships have been chartered to convey home the 40th, 43rd, 68th, and 70th Regiments. General Chute attacked and captured a strongly fortified pah, near Pate, on the 6th and 7th January.—*London Ill. News, March 17.*

And whereas it is expedient to define the respective amounts to be expended on each line of road intended to be improved, it shall be expended as set out in the Schedule at the end of the By Law and forming part of the same. And whereas it will require the sum of three thousand two hundred dollars to be raised annually by special rate for the payment of the said loan or debt and interest as also hereinafter mentioned.

And whereas the amount of the whole rateable property of the said Municipality irrespective of any future increase in the same, and irrespective of any income to be derived from the temporary investment of the sinking fund hereinafter mentioned or any part thereof according to the last revised Assessment Rolls, being for the year one thousand eight hundred and sixty five, was Eight Millions and fifty five thousand seven hundred and sixty two Dollars.
