BY TELEGRAPH.

NEW YORK, Dec 4, 1851.

A despatch from Washington states that Webster declines addressing Kossuth in any official capacity—imitating Lord Palmerston in that respect.

The Republic of this morning says, that as soon as the particulars of the outrage on the Franklin, at Greytown, were received, the President ordered a competent naval force to repair to San Juan to protect American vessels in that vicinity in future.

OAKVILLE, Dec. 4th.—HALTON ELECTION—TRAFALGAR COUNTY.—White, 161; Hamilton, 128. There are 700 votes in this Township. A large number will probably be polled to-morrow.

NEW YORK Dec. 5 h.—9 A M.

The United States mail steamer Humboldt arrived at 2 o'clock this morning, from Havre Nov. 25th, and Cowes at midnight of the same day. The Humboldt has had a very rough homeward voyage, having had to contend with violent easterly gales and rough head seas the most of the passage. She brings a fair freight, and a good number of passengers for the season, among them the distinguished Hungarian exile and patriot governor, Kossuth, and suite.

The U. S. Steamer Pacific arrived at Liverpool on Wednesday, the 20.h ult., with Father Mathew.

On Monday, the 18.h ult, the King of Hanover died, in the 81st year of his age.

FURTHER NEWS BY THE HUMBOLDT.

NEW YORK, Dec. 5th.

Excepting the advices from France, the news is of no very great importance.

The United States steamer Hermann, Capt. Wilcox arrived off Cowes at 9 A. M., on the 18th ult. The British steamer Niagara, reached the Mersey, at 5 A. M., on the 18 h, having made the trip in 1½ days. The Pacific arrived at 5 P. M., on the 19.h Fearful earthquakes had taken place along the Albanian and Dalmatian coast.

The news from France is of an exciting character. The most stormy debate ever known even in Parliamentary annals, had taken place in the Legislative Assembly upon the proposition of a resolution for appointing an armed force for the protection of the Assembly. This proj ct if carried, would have had the effect of exciting civil war, inasmuch as the Legislative would have been armed against the executive power. A military force, and a collision would have resulted, the end of which no one could foresee. The measure was, however, rejected by a majority of 108 votes, and thus Louis Napoleon and his ministry are completely triumphant. The rage and hostility of the several factions of the Assembly are subdued, and it is hard to say what may be the next place in the conflict going on.—Marshal Soult was dangerously ill, and his decease was hourly expected.

From Berlin the only news of importance was that a loan of 21 millions of thalers, voted in the last session, was shortly to be negotiated. It is destined for the construction of the eastern and Prussian Railroad. The Rothschilds were to undertake the operation. Accounts from Vienna state that nearly 200 persons had been forced to quit that city, and the Austrian dominions, in consequence of being suspected of having speculated on Change with a view to increase the price of silver.

The London papers continue to publish fresh details of extraordinary gold news from Australia, and the richness of the auriferous region is said to exceed any thing ever yet heard of in California.

Kossuth is accompanied by Madame Kossuth and by M and Madame Pulszky, togethe with his aide-de-camp and Secretaries—in all 12 persons. As the Humboldt came up the Bay Kossuth was saluted with a discharge of 31 guns, which was returned on the part of the steamer. On his arrival at Staten Island, a large number of the people, notwithstanding the lateness of the hour, rushed down to the Dock to welcome him. Doctor Doane, the health officer at Quarantine, addressed the noble guest, to whom the latter replied in a brief and appropriate manner His fellow countrymen, who have been for some time awaiting his arrival in this city, our citizen soldiery, and the others present, seemed perfectly frantic with joy, and made the neighbouring shores resecho with their shouts of admiration and delight.

Lola Montes is also among the passengers in the Humboldt.

DEPARTURE OF KOSSUTH FROM ENGLAND.—The departure of Kossuth from the shores of Albion was marked by a demonstration at Southampton, equalling in enthusiasm that which attended his landing there. Nearly all the population turned out to bid him God speed on his voyage, and the affectionate expressions of esteem which were displayed showed the firm hold which his virtues and talents have taken in the minds of the English nation. One of the splendid steamers belonging to the Peninsular and Oriental Steam Navigation Company was placed at his disposal to convey him from Southampton to Cowes. All the ships in the dock were decked with flags. The Hungarian colors predominating. The cannon of the Southampton Battery thundered forth a national salute of 21 guns, significant of their recognition of Hungarian nationality; and amidst hearty and enthusiastic cheering, the illustrious Kossuth stepped from the English soil to embark for the United States.—During his stay at Southampton, Kossuth and his party were the guests of Mr. J R. Crookey, Consul of the United States On board the Jupiter, the steamer conveying Kossuth to Cowes the Mayor and Corporation of Southampton had assembled, and a magnificent dejeuner was served in honor of the distinguished Exile; several toasts were drunk, including the health of Kossuth and that of Mr. Crookey, which was proposed by Kossuth himself. When the time of parting came, Kossuth was powerfully affected, and expressed in accents broken with emotion, his warm thanks for the kindness he had experienced from his Southampton friends. The tears of sympathy glistened in the eyes of the numerous party assembled to bid him good-bye, and amongst the loud and long continued cheers of the thousands of people who were present in steamers, and in boats of all classes and sizes, lining the the shores of the picturesque and beautiful Isle of Wight, the garden of England, the Humboldt got underway—the multitudes offering up prayers for the welfare of the illustrious Hungarian liberator.

A meeting of the Council of Southampton was held on the 18.h Nov, Richard Andrews, Esquire Worshipful the Mayor was in the Chair. It was moved by alderman Taisley seconded by alderman Pike, and resolved unanimously, that this Council having received from the Worshipful the Mayor a communication as to the intended departure of the Illustrious Hungarian Patriot, Louis Kossuth from the Port to the United States, on the 20th inst, the members of this committee cannot refrain from hereby recording their admiration of those patriotic and strictly constitutional sentiments which he has every where, and on all occasions enunciated to the people of this country, and of those prompt and unqualified denials which he has given to the unfounded calumnies of the abettors of despotism and tyranny, whether residents of this or other countries, as well as the surpassing eloquence, and irresistible truthfulness with which he has placed before the British public, the countless wrongs, and the crushing oppression of his beloved country. Most gratifying has it been to this council to have observed from day to day since the arrival of that great and distinguished man in our Port since the 23d of October last That the admiration of his public conduct and private worth, and of his vast sacrifices for these great and undying principles of liberty, which he has so ably represented, first publicly expressed to the Mayor and Corporation of Southampton, has been every where most enthusiastically re-echoed by millions of the British people.

FROM THE

ROYAL POLYTECHNIC INSTITUTE,

LONDON.

ST. ANDREWS' HALL!!!
St. Peter Street.

ONE WEEK ONLY,
Commencing on MONDAY, November 24th.

Grand Scientific Exposition of the GREAT LONDON

OXY-HYDROGEN MICROSCOPE,

The Magnifying powers of which exceed Eighty Million Degrees.

This wonderful achievement of modern science reveals a world of living beings whose existence has been hitherto unknown, and exhibits the marvels of creation in the most striking and obvious manner. This remarkable piece of mechanism is by far the largest Microscopic apparatus ever given to the world.

SWAIM'S
CELEBRATED PANACEA,
FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swellings, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the Effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea. Some of which give the particulars of cases too frightful for general publication, where the patients had been almost eaten up with Scrofula, and were deemed incurable by Physicians.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by—

W. Gibson, M.D., Prof. of Surgery, Pa. University;
Valentine Mott, M.D., Prof. of Surg., N. Y. University;
W. P. Dewees, M.D., Prof. of Mid., Pa. University;
N. Chapman, M.D., Prof. of Physic, Pa. University;
T. Parke, M.D., Pres't, College of Physicians, Phila.;
Dr. Del Valle, Professor of Medicine, Havana;
Jose Fourcade de Luz, Prof. of Surgery, Lisbon;
J. Chipman, Member Royal College Surgeons, London;
G. W. Irving, late Minister to Spain;
Sir Thomas Pearson, Major-General British Army;
Gilbert Robertson, British Consul, &c., &c.

And also, the wonderful cures effected by Swaim's Panacea have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1 50 per bottle, [containing three half pints,] or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following inscription blown in the glass—"SWAIM'S—PANACEA—PHILADA.," and having the name of JAMES SWAIM stamped on the sealing wax, and written on the label covering the cork, and a splendid engraving for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the Proprietor, by Draper & Co., bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Costiveness, Loss of Appetite, Dyspepsy, Fever and Ague, Bleeding Piles, Sick Headache, &c. &c. See the Pamphlet [which may be had gratis] accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, *the Old Stand*, (Seventh Street, below Chestnut,) Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name

SWAIM

is spelled correctly on the bottles and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

General Agents for the United States,
SCHIEFFELIN BROTHERS & Co.,
104 and 106, John Street, New York.

November 17, 1851. 485

TO C. LAROCQUE, ESQ.

SIR,—In compliance with your request, I now cheerfully give my opinion of the Plantagenet Waters, with which request I have hitherto declined compliance until I could speak from experience of their virtues.

I was one among the first Medical Practitioners in this city to use these Waters, about three years since, and to recommend them to the use and notice, not only of my patients, but of my professional brethren; and I have much pleasure in saying that my sanguine expectations respecting them have been more than realized.

The chemical composition of the Plantagenet Waters, as Mr. Hunt's analysis shews, is a valuable one, combining in rational proportions most of the saline compounds of the human blood. I have found these Waters most useful in gastric, enteric, hepatic, and nephretic affections, and in some forms of dropsy. From the rare and valuable combinations of Iodine and Bromine which they contain, and their consequent action on the lymphatic system, I have found them useful in Gout, Rheumatism, Scrofula, and Calcareous diseases. It is worthy of remark, that during the prevalence of the Cholera in this city in 1849, I used and recommended them extensively, and their powers seemed to be prophylactic against that pestilence, as not a solitary case of Cholera occurred to my knowledge where a systematic and judicious use of the Plantagenet Waters had been made. I am frequently in the habit of prescribing them either alone or as a valuable adjunct to other remedies.

CURES FOR THE UNCURED!

HOLLOWAY'S OINTMENT.

AN EXTRAORDINARY CURE OF SCROFULA, OR KING'S EVIL.

Extract of a Letter from Mr. J. H. Allidey, 219, High Street, Cheltenham, dated the 22nd of January, 1850.

To Professor HOLLOWAY:

SIR,—My eldest son, when about three years of age, was afflicted with a Glandular Swelling in the neck which after a short time broke out into an Ulcer. As eminent medical man pronounced it as a very bad case of Scrofula, and prescribed for a considerable time without effect. The disease then for four years went on gradually increasing in virulence, when, besides the Ulcer in the neck, another formed below the left ear, and a third under the eye, besides seven others on the left arm, with a Tumour between the eyes, which was expected to break. During the whole of the time, my suffering boy had received the constant advice of the most celebrated medical gentlemen at Cheltenham, he also being for several months at the General Hospital, where one of the Surgeons said that he would amputate the left arm, for that the blood was so impure, that, if that limb were taken off, it would be then even impossible to subdue the disease. In this distressing state I determined to give your Pills and Ointment a trial, and after two months perseverence in their use, the Tumour gradually began to disappear, and the discharge from all the Ulcers perceptibly decreased, and at the expiration of eight months they were perfectly healed, and the boy thoroughly restored to the blessing of health, to the astonishment of a large circle of acquaintances, who could hardly to the truth of this miraculous case. Three years have now elapsed without any recurrence of the malady, and the boy is now as healthy as heart can wish. Under these circumstances I consider that I should be truly ungrateful were I not to make you acquainted with this wonderful cure, effected by your medicines after every other means had failed.

(Signed,) J. H. ALLIDAY.

CURE OF ACUTE RHEUMATISM OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. John Pitt, Dudley, 19th January, 1850.

To Professor HOLLOWAY:

SIR,—It is with the greatest pleasure that I write to thank you for the benefit I have received from your Pills and Ointment, which have completely cured me of the Rheumatism, under which I suffered for the last four years—at times I was so bad as hardly to be able to walk. I had tried every kind of medicine that was recommended without receiving any benefit. I at last thought I would give your medicines a trial, and purchased from Mr. Hollin, Chemist, of this town, two boxes of Pills and two of Ointment, and in three weeks, through them and the blessing of God, I was restored to health and strength, and am now as well able to walk as ever I was in my life. I am well known in this parish, having been sixty-five years in it, with an exception of ten years I served in the 54th Regiment of Foot. (Signed,) JOHN PITT.

CURE OF A BAD LEG OF MORE THAN SIXTY YEARS' STANDING.

Mr. Barker, of No. 5 Graham's Place, Drypool, near Hull, had Ulcers on his leg from the age of eighteen until upwards of eighty, and although for many years he had sought the first advice in the country, nothing was found to cure them. He very often suffered most excruciating pain for long periods together, which incapacitated him from attending to his business. He had given up all hopes of getting a cure, when at last he was persuaded to try Holloway's Pills and Ointment, which he did, and however wonderful it may appear, the leg was thoroughly healed by their means, and by continuing to use the Pills alone after his leg was well, he has become in health so hale and hearty as now to be more active than most men of 60.

N. B.—The truth of this extraordinary statement can be vouched for by Mr. J. C. Reinhardt, 22, Market Place, Hull. February 20th, 1850.

CURE OF A DESPERATE CASE OF RINGWORM OF SIX YEARS' STANDING.

Lima, 12th of November, 1849.

One of the most eminent Surgeons in Lima (the Capital of Peru) had a child covered with Ringworm for more than six years; in vain he exhausted all his art in his endeavours to effect a cure. Not succeeding, he consulted among his brethren, the most celebrated medical practitioners of the city, but nothing was found to do the child service. When he was persuaded by Mr. Joseph P Hague, the English Chemist and Druggist, residing at No. 74, Calle de Palacio, to try Holloway's Pills and Ointment, which was done, and after using six large pots of the Ointment, with a proportion of the Pills, the child was radically cured, to the surprise of the whole medical profession. The name of the parent, from motives of delicacy, is withheld.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Chilblains
Bad Breasts	Chilblains
Burns	Chapped Hands
Bunions	Corns (Soft)
Bite of Mosquitoes and Sand-Flies	Contracted and Stiff Joints
Coco-Bay	Elephantiasis
Fistulas	Sore-throats
Gout	Skin-diseases
Glandular Swellings	Scurvy
Lumbago	Sore-heads
Piles	Tumours
Rheumatism	Ulcers
Scalds	Wounds
Sore Nipples	Yaws

THRASHING MACHINES.

LETTERS PATENT.

TIME AND LABOR SAVED IS MONEY EARNED.

THE subscribers having secured to themselves the exclusive right of manufacturing and vending to others in use within the territory of Upper and Lower Canada,

SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE,

one of the most valuable time and labor saving Machines ever devised by human ingenuity, respectfully inform the public, that they have just completed a new and extensive Factory on Wellington Street, extending from Prince to George Street, which gives them more than double the accommodations they had in the old shops, which will hereafter, they trust, enable them to supply the whole farming community of the United Provinces with a machine that will thrash and clean more grain in a day, with less expense and with greater cleanliness, than any other known invention—only requiring two horses.

We beg leave to say to our customers and friends, that we are again prepared to furnish those in want of Thrashing Machines with an article superior even to those heretofore manufactured by us.

Our long experience in making, and the very liberal patronage we have enjoyed in the sale of our Machines, has, together with a constant determination to produce an article that will never fail to excel all others, caused us to watch carefully all the improvements that could be made from time to time, until now we feel confident in saying that for durability, neatness of work, and amount of work they can do, our Thrashing Machines are unequalled by any in use. And while the grain is thrashed clean, and none of it broken or wasted, it is, at the same time, perfectly cleaned, fit for the Mill or any Market.

All orders addressed to us, or our Agent, WM. JOHNSON, will be promptly attended to.

Machines shipped to any port in Canada, and every one warranted to be as good as recommended.

Liberal terms of payment allowed.

B. P. PAIGE & CO.

Whereas, Letters Patent were obtained, bearing date March 5, 1849, on said Machine, the public are cautioned against purchasing, using, or manufacturing any imitation article, as all infringements will be dealt with according to the law of the land.

All genuine Machines will be accompanied by a Deed signed by B. P. PAIGE, the owner of the right, giving the purchaser the right to use or transfer the same. Without such a Deed, no person will be safe in purchasing or using and Machine.
