ADVOCATING RESISTANCE.

DAVITT TELLS TENANTS TO FORCIBLY REGAIN THEIR HOLDINGS.

The Bodyke Evictions Continue—The Evicted Fight the Police With Boiling Water, but the Ejectments are Carried Out.

DUBLIN, June 6.—Michael Davitt addressed a Nationalist meeting in the Bodyke District to-day. He again urged the people to offer the utmost resistance to eviction and to retake possession of houses whence they have been evicted. He declared that it was the duty of the manhood of the district to assemble and rebuild houses that have been razed. He announced his intention to hold a meeting next Sunday of 20,000 or 40,000 men for the purpose of rebuilding every house demolished during the past or the coming week.

Care should be taken, he said, that pecuniary and generous assistance be given during the incarceration of members of any family. He suggested that a fund be opened to carry on the plan of campaign upon a more extended basis, and he promised to subscribe £100 himself. He expected that within six weeks £100,000 would be subscribed in Ireland and within six months £1,000,000 would be collected throughout the civilized world.

DUBLIN, June 6.—The first three families evicted at Bodyke to-day offered only a passive resistance. Mr. Cox, M.P., had persuaded them to refrain from throwing boiling water upon the police. In spite of that fact, however, the sheriff ordered Mr. Cox off the premises, and the latter now declares that he will not again try to persuade the tenants to refrain from violence.

When the police started to evict the fourth family a large quantity of boiling meal and filthy water were thrown down upon them. A sick and helpless boy was turned out of the house, and a brother and two sisters were arrested for assaulting the police. It has been found that one of the tenants evicted had paid the rent. Messrs. Davitt and Cox have framed a notice to the landlord, warning him of an action for illegal eviction.

'RAS MUST BE IN LONDON.

The Standard Speaking With the Gilbness of a Grit Farmers' Institute.

LONDON, June 6.—The Standard this morning reads Canada a severe lesson for increasing her duties from time to time, and for her selfish policy and action in not only tend to sunder the colonies from the mother country.

"The increase was made," it said, "on the hollow pretence that it is desired to check the rapid increase of trade with the United States, in our favor. We decline the offer with thanks. We do not want our trade fostered at the expense of our neighbors, and it could be done; but it cannot be in that way. The interest of Canada is to foster trade with the United States by every means in its power. The freer trade is on the Canadian side the larger it will be in spite of the insane tariff of the United States. The larger the trade with the United States is the richer will the Canadian people become and the more business will they do with other countries."

HINTS OF BRIBERY.

Russian Suspicions as to How the Anglo-Turkish Convention was Effected.

CONSTANTINOPLE, June 6.—M. Nelidoff, the Russian ambassador, in communicating his Government's objections to the Anglo-Turkish Convention, hinted that if the Sultan ratified the convention such action might cost him his throne. He also indirectly charged England with bribing the Grand Vizier with $200,000 sterling and other palace officials with large amounts to secure their approval of the convention.

Tewfik Pasha, after his interview with M. Nelidoff, immediately summoned Sir Henry Drummond Wolff, special British Envoy, and questioned him as to the truth of the charges. Sir Henry indignantly denied that the British government had been guilty of bribery. The Turkish officials who were said to have received bribes also warmly protested their innocence.

AFFAIRS IN ENGLAND.

Churchill Said to Oppose Dropping the Venue Clause from the Crimes Act.

LONDON, June 6.—The Daily News this morning says: "It is rumored that Lord Randolph Churchill is privately urging the Government not to abandon the venue clause of the Crimes Bill in deference to the dissidents."

Mr. Parnell visited the House of Commons yesterday. He is in much better health, having gained flesh during the recess.

The Conservative members of Parliament are signing a "round robin" urging the Government to make a vigorous attempt to end the coercion debate.

REPORTS TO STAY THE PLAGUE.

Alarming Increase of the Cattle Disease in New York State.

NEW YORK, June 6.—The cattle plague, pleuro-pneumonia, in the northern towns of West Chester county has assumed a serious and alarming condition within the last two weeks. The disease was first detected in March, being brought in by an infected drove of cattle from western milk cows. There are 30,000 milk cattle in West Chester county, valued at $1,200,000. Up to Saturday 3,935 head of cattle in Somers, Bedford and Lewisboro' had been condemned to be slaughtered and the authorities are killing them as fast as possible.

A DAKOTA TRAGEDY.

A Contest Over a Tree Claim Results in the Murder of Four Persons.

HURON, Dak., June 6.—Simeon Nelson shot and killed Mrs. Shaw, her son, aged about 15, and her sister, Miss Lyman, aged 22, this morning. The tragedy was a result of a contest over a tree claim which had been decided in favor of Mrs. Shaw. Nelson also shot a man named Kilsey through the body fatally. Lyman was with the party, but escaped by getting behind a team. After the shooting Nelson returned home, and placing the muzzle of his rifle to his temple blew out his own brains.

The Montreal Star's Jubilee Number.

MONTREAL, June 6.—The sale of the Queen's Jubilee number of the Montreal Star commenced to-day at 2 p.m. The rush of orders was the largest for any of their illustrated numbers, the first day's sales exceeding any other opening day on record here. "The Jubilee Star is being largely bought up by Jubilee visitors, and the postoffice reports an overwhelming amount of work in getting the number sorted.

Liquor Dealers Undesirable Masons.

ST. LOUIS, June 6.—The adoption of measures by the Masonic Grand Lodge of this State, for the expulsion of all members of the order engaged in the liquor business, is creating dissensions in the body, opposition coming mainly from the German members, who claim that selling beer is no greater offense than drinking it. A serious split in the Grand Lodge is not unlikely to occur.

The Yellow Fever Outbreak at Key West.

WASHINGTON, June 6.—Advices received at the Marine Hospital Bureau from Key West are to the effect that yellow fever is spreading through the town. A telegram was sent to Key West to-day authorizing the officers of the Marine Hospital service, if necessary, to employ skilled nurses at the Government's expense to care for the sick.

The Floods in Hungary.

VIENNA, June 6.—The efforts of thousands of workmen for three days and the use of tons upon tons of stones and earth have not proved sufficient to stop the gap in the Kistisza dyke, in the submerged district of Hungary. It cannot even be said that the rush of water has been sensibly lessened.

The Chicago Elections.

CHICAGO, June 6.—Just one ward in Chicago declared to-day in favor of boodle and anarchy. Except in Chicago's Sixth Ward, the vote throughout the county averaged three to one against the twin evils.

CABLE NOTES.

Mr. Ismay, of the firm of Ismay and Imries, London, has offered £20,000 to start a pension fund at Liverpool for disabled seamen.

Countess Magdalene Von Moltke, daughter of the famous field marshal, was married at Berlin yesterday to the painter Seubach.

Karl Peters, the chief of the German African Society, raised a force at Zanzibar to march into Africa to compel the natives to sign treaties, but a German man-of-war dispersed the force.

A large reduction to the British army of occupation in Egypt is expected in a few days.

Mgr. Galimbert, the new Papal nuncio at Vienna, was consecrated on Sunday in the presence of the highest court officials.

Valentin, an opportunist, has been elected President of the Chamber of Deputies from the department of the Isere, defeating the Radical candidate.

THE CITY FATHERS SIT EARLY.

A Long and Talkative Session of the Board of Aldermen.

Ald. Galley, Baxter and Drayton were the only members away from the meeting of the City Council last night. The chamber was close and the session was kept up till 2 o'clock this morning.

Among the communications sent in and read were the usual batch of claims against the city for broken limbs by falls on alleged icy or defective sidewalks. Petitions were received from: James Joliffe and five others, for stone-paving a lane south of Queen-street, from Portland to Bathurst; J. J. Singer, for an extension of Dawson-street, from Ossington-avenue to Sully-street; J. K. Kerr, Q.C., and four others, for a common sewer in Avenue-road north of the Davenport-road; Robert Cohoon and twenty-one others, for a sewer in Wardell-street, De Grassi-street to the northern terminus; J. H. Booth and seven others, for a sewer in Booth-avenue, Jamieson-street to Ashbridge's Bay; J. K. Kerr, Q.C., and three others, for cedar-paving Avenue-road north of the Davenport-road; Inglis & Hunter and Hess Bros., cedar-paving Strachan-avenue, King-street to the railway bridge; William St. Croix and six others, cedar-paving St. Mary's-street from Yonge to North streets; William St. Croix and twelve others, cedar-paving North-street, St. Mary's to Bloor streets; Alex. Patterson and twenty-five others, cedar-paving Gloucester-street.

Mr. J. W. Beatty urged the Council, by letter, to reconstruct the Island sidewalk from the lake to the Yacht Club building along Lakeview-road, washed away by the spring freshets.

The aldermen whooped her up over the recommendations to give the churches the 50 per cent. discount on their water rates. Ald. Dodds considered it a scheme to let the big churches like St. James' and the Metropolitan out of water rates that they could pay.

Ald. St. Leger said that the concession would favor the organists who kept the organs going giving music lessons to their pupils. The gist of the discussion was an agreement to give every church in the city the discount.

It took the aldermen forty-five minutes to hear the views of the speakers for and against the payment of water rates half-yearly. Ald. Boustead tried to point out where the city would save millions by the new deal, but failed to purchase the Council and the clause was referred back.

In further discussion of the Executive's report the clause for the establishment of a park on the Jail farm was sent back to the Property Committee. Ed. Verrall was allowed a rebate of $430 on account of losses due to the lessening of his power to exact market fees.

After another long talk, the Council passed the following basis of the new dog bylaw, providing that:

The fee for every bitch to be increased from $2 to $5.

All dogs running at large to be muzzled, except when accompanied by the owner or some other person in charge of same.

Any person or persons laying information of any infraction of the bylaw shall receive half of the fine imposed; this to apply to the police as well as others.

When Ald. Defoe had protested, the Council passed the following money bylaw, which will be voted on July 5:

For the construction of water mains and services, metering meters, erecting storehouses and stables, and otherwise increasing the efficiency of the Toronto Waterworks:	$113,000
For extending the sewers on Bathurst, Sherbourne, and Simcoe-streets, and sundry culverts on Queen-street east	8,450
For the purchase of clocks and bells for sundry fire halls	2,800
For purchasing the rights of Mrs. Mary Mead to certain lots on the Island, to be acquired for the extension of the Island Park, $13,000, and for otherwise improving the said park, $12,000	25,000
For erecting additional buildings to meet the rapid expansion of the Toronto Industrial Exhibition	28,000
For erection of 50 signal boxes, purchase of patrol wagons, and completion of Police telephone and telegraph signal system	15,000
For a contribution on the part of the city to the fund raised principally by private benevolence towards the erection of Industrial Schools	3,000
	$195,250

A bylaw extending the firemen's holidays from twelve to fifteen days was passed. Also a bylaw including Murray and Clode streets in fire limit "B," St. Patrick's Ward.

HAMILTON MOULDERS OUT.

A Laborer Dies of Injuries—The Old Pensioners to Celebrate the Jubilee.

HAMILTON, June 6.—The moulders employed in the stove foundries did not go to work this morning. It is likely that the strike will last some time, as the men are determined not to work until they receive the advance asked for and the bosses cannot see their way clear to grant the advance. The moulders employed by the Osborne & Killey Company are also out on a strike. The men made a demand for ten per cent. on piece work and fifteen cents a day for day work, which was not granted. The day hands have received $2.45 a day for some time.

George Cross, the laborer who was crushed in a sewer on Tuesday, died last night.

On Saturday evening there was a meeting of British army and navy veterans to continue preparations for the Queen's jubilee celebration. A committee reported that the badges were being manufactured. Over 150 old sailors and soldiers will take part in the procession.

A FEARFUL SIGHT.

What a Coroner Found on Responding to a Call for an Inquest.

ERIE, Pa., June 6.—A frightful sight met the gaze of Coroner Swalley yesterday on responding to a call for an inquest over the body of John Lyons, aged 75 years. Lyons lay on the floor, where he had died the day before while intoxicated. Near him lay his aged wife in a drunken stupor, and in a shed close by was found their 4-year-old grandchild dying from poison. The child had been sick several days, and in its extremity had eaten a poisonous weed that grew near the shed. The grandmother, finding it in convulsions, gave it a heavy dose of whisky. The mother of the child was in jail at the time on a charge of drunkenness.

LOST IN AN INDIAN CYCLONE.

A Steamer With Over Seven Hundred Persons on Board Wrecked.

CALCUTTA, June 6.—It has been proved beyond doubt, by the picking up of the captain's chest, that the steamer Sir John Lawrence was lost in the recent cyclone off this coast. The steamer carried 750 passengers, and it is believed the whole number were lost.

The largest part of the passengers are native ladies who were going to Juggernaut, in Orissa, to celebrate the Juggernaut festival. The catastrophe has cast a feeling of gloom over the Hindoo community here and all the best families are in mourning for relatives or friends who were among the passengers.

NEW YORK PROHIBITIONISTS.

A Convention to be Held at Syracuse in August.

ALBANY, June 6.—The Executive Committee of the Prohibition party met here to-day and decided to hold the Prohibition state convention at Syracuse on Aug. 25 and 26.

Arrangements were made to begin a speech-making campaign throughout the state immediately after the state convention is held. Ex-Gov. St. John of Kansas and John B. Finch of Nebraska will traverse the state making speeches. "We intend to increase our vote," said Chairman Wheeler to-day, "from the 36,000 it was in 1886 to 60,000. We shall nominate a full state ticket."

EARTHQUAKE IN QUEBEC.

Reports of a Severe Shock in the Mountains of L'Islet County.

QUEBEC, June 6.—News has been received regarding a serious earthquake which occurred recently in the vicinity of St. Louise, in County L'Islet. The mountains in the second range of the Seigniory of St. Roche des Aulains were greatly disturbed. Pieces of rock weighing many tons were dislodged and sent hurling into the valley below. Some of the largest trees in the forest were uprooted as if they were branches. No serious accidents are reported.

The Grand Trunk's Answer.

WASHINGTON, D.C., June 6.—An answer was received this morning by the Interstate Commerce Commissioner from the Chicago and Grand Trunk Railway Company to the complaint of the Michigan Central Railway against it for selling tickets to commercial travellers at a lower rate than that given to the public generally. The Chicago and Grand Trunk Company admits the sale of tickets and other facts stated in the complaint, and holds that the provisions of the Interstate Commerce Law do not apply to mileage tickets sold to commercial agents.

173 Gone—11 Left.

—At the commencement of the season Messrs. Strathern had 184 refrigerators made, and have up to date sold 173 of them. Last year about this time they had just commenced selling refrigerators; and during the whole season sold only about half as many as is already sold this year. This shows rapid progress in business, proves the value of the article, and the satisfaction and benefit their customers have derived. The remaining stock will be sold at cost to make room for more goods at the great household furnishing emporium, 170 Yonge-street. x

FRANCE'S FAST FILLY.

Tenebreuse, the "Dark 'Un," Wins the Grand Prix de Paris.

PARIS, June 6.—The twenty-third Grand Prix de Paris was run at Chantilly yesterday, with eleven starters, and a greater upset of public form never took place, Merry Hampton, the winner of the English Derby, and Monarque, the winner of the French Derby (Prix du Jockey Club), running unplaced, as did Bavarde, the winner of the French Oaks (Prix de Diane), to the French bred filly Tenebreuse, whose sole claim for distinction was that in April she won the Poule de Essai or French 1000 Guineas, for which Bavarde was third, while for the French 2000 Guineas, yesterday's winner was third. In the betting yesterday the odds were 2 to 1 on Merry Hampton, 4 to 1 against The Baron, 9 to 1 Monarque, 12 to 1 Kratakos, and 15 to 1 Tenebreuse. The other starters include Saint Luc, Le Sancy, Frapotel, Bavarde, Gournay and Vanneau. To good start Saint Luc and Le Sancy forced the running, followed by The Baron, Merry Hampton and Bavarde, with Frapotel last. Among the first to drop out of the race was Monarque. Le Sancy continued in the lead until the last turn, when The Baron and Tenebreuse moved up, followed by Merry Hampton. The struggle was a short one, for Tenebreuse came out to the front and suffer arrest for the purpose of settling the question.

Under Mr. Hummel's interpretation of the Ives Bill an investor who lives in the city can give some one else who is about to visit the race course a commission to execute for him. If the commission is to buy money at a certain price on a certain horse the law, Mr. Hummel claims, will not have been violated, and no arrest can follow.

The Sweepstake Yacht Race.

Editor World: I was surprised to see the account published in Monday's World of the race held on Saturday last. I presume the same was given you by some party interested in the result he wished to attain, but was so disappointed that to relieve himself of his grief he wrote the account published in your paper. I think in justice to Mr. Parkinson, the referee, as well as to myself as secretary, that I should correct some misstatements and insinuations in the same. Mr. Parkinson was unanimously agreed upon as referee at the same time as it was decided that the line should be crossed before 6.30 o'clock. At that hour no boat had crossed the line, so the referee very properly decided no race and held to his decision, notwithstanding the uncalled-for abuse from some persons who should have known better. If any of the owners had objected to the referee the time to do so was before the race. I am glad to be informed by several fair minded yachtsmen that they thoroughly coincide with the referee's decision. The race will be sailed on Saturday next. FRED H. GOOCH,
Hon. Sec. for the Race.

Mr. Maitland Ackrord, who sailed the skiff Uncasy in the disputed race, stated yesterday that he did not know who was to be referee until the race was over.

The C. W. A. Meet in Brantford.

Editor World: I notice in a late issue of The World an item referring to the fifth annual meet of the Canadian Wheelmen's Association to be held in Brantford on July 1, and in referring to the competition in club drill you say that the decision will be given by the spectators. You are a little astray here, as it is not decided yet by what means it will be judged, whether by several competent judges or by the vote of the spectators. The latter was only a suggestion made by one of the committee to avoid, if possible, the usual kicking which takes place at the decision of judges. The defeated team, where the drill has been anything like close, always imagines that the judges are prejudiced or have shown favoritism. And as all the competitors will be entire strangers to the spectators (the Brantford club cannot compete), we thought that a fairer decision would be made, and there would be no chance for ill-feeling towards the judges if the spectators were the judges. However, if those likely to compete prefer the judges to be new and competent men, the committee have no objection, and, as they have decided on neither method yet, they will so decide. We should like to hear—through the columns of The World—the opinion of those likely to compete.

ONE OF THE COMMITTEE.

Brantford, June 6.

The Thistle Again First.

LONDON, June 6.—A brisk breeze was blowing this morning when the yachts started in the race at Dover round a course 64 miles long. The Thistle led directly. She turned the pier within her own length, and was a quarter of a mile ahead of the other yachts at the end of two miles.

The exact time occupied by the first three yachts in sailing the course was as follows: Thistle, 5 hrs. 24 mins. 56 secs.; Genesta, 5 hrs. 35 mins. 25 secs.; Irex, 5 hrs. 36 mins. 5 secs.

The Thistle again justified her claim to the title of champion. She left the others steadily all through the race. The Genesta fairly beat the Irex for second place. Fog prevented a view of the boats from shore, but did not interfere with the sailing. The course was triangular. The first part of the race was a beat over a lee-going tide; then there was a dead run from the first to the second mark, and over the third side of the triangle there was another thrash against the tide.

Ross Fails to Row O'Connor.

NEW YORK, June 6.—Wallace Ross failed to appear at Bowery Bay to-day to row O'Connor of Toronto for $500, and the latter went over the course alone. The referee reserved his decision as to whether O'Connor is entitled to the stakes. Ross claimed illness and notified the stakeholder, Hamilton Bushby, that he would not allow his money to stand.

Beach Agrees to Row Trickett.

LONDON, June 6.—A Sydney, Australia, despatch says that Beach has accepted a challenge from Trickett for a contest for the championship.

Spots of Sport.

The Newmarket Bicycle Club had an excursion to the city last evening arriving at 1.30 and departing about 11 o'clock. Amongst were most by members of the Wanderers, who showed them around town and escorted them to their Club House, where a pleasant hour was spent.

The cricket match between Toronty University and Trinity College, which was to have been played yesterday, had to be put off on account of the rain. The match will be played to-day at 1 o'clock sharp, on the Varsity lawn.

THE BANK OF MONTREAL.

The Managers of the Institution Present a Most Gratifying Report.

MONTREAL, June 6.—At the annual meeting of the Bank of Montreal to-day the annual report showed that the profits of the year ended April 30 last, after deducting charges of management and making all necessary provisions for bad and doubtful debts, were $2,046,740.85, from which have to be deducted: dividend of 5 per cent. paid Sept. 1, 1886, $750,000; dividend of 5 per cent. payable June 1, 1887, $750,000; bonus, 2 per cent., payable June 1, 1887, $240,000—$1,440,000, leaving a balance of $605,740.35 to be carried forward at the credit of profit and loss account.

The report shows a big gain in the general statement herewith and comparing it with that of last year at the corresponding period, the most noticeable feature is the falling off of about $5,000,000 in deposits, due in a great measure to a reduction in Dominion and Provincial Government cash balances. Private deposits have also decreased to some extent, owing undoubtedly to more profitable employment being found for such moneys in the purchase of or loans on bank and other stocks.

From $42,000 to $45,000 had been distributed among the officers of the bank, to mark the jubilee of Her Most Gracious Majesty the Queen.

The chairman paid a high compliment to the ability and trustworthiness of all concerned with the institution, and concluded by a hopeful reference to the forthcoming year as respects the institution through increased activity of trade, the prospects of a good harvest, the extension of the Grand Trunk system, the Canadian Pacific Railways, and the establishment of a large volume of trade with the east through the new line of steamers between Vancouver and Japan.

THE QUEEN'S COMMONERS.

THEY CONCUR IN THE SENATE'S ADDRESS TO HER MAJESTY.

The National Anthem Resounds in the Lower Chamber and is Joined in by the Galleries—Mr. Laurier Seconds the Address—In and Out of the Lobbies.

OTTAWA, June 6.—The House to-day witnessed a rare scene. Sir John had read the beautiful address passed by the Senate to the Queen on this jubilee occasion, and had made a few pertinent remarks, Mr. Laurier had uttered a brilliant eulogy on the Queen, Mr. Speaker had put the question of the concurrence of the Commons in the Senate's address, the House had passed it unanimously, and was preparing to pass to other business, when one member arose and began singing "God Save the Queen." The members all rose. The galleries followed suit, and all, including the press gallery, joined with great enthusiasm in singing the National Anthem.

In the course of his remarks, in moving the address to the Queen, Sir John said the country had taken the subject into its own hands of its own accord. From the Atlantic to the Pacific the country was making preparations to express in a becoming way its gratitude for having such a sovereign as Queen Victoria. We have differences as to the best mode of making Canada prosperous, but there was no difference of opinion respecting the virtue of our Queen. It were useless to paint the lily or gild refined gold, so it would be a work of supererogation for him to describe the Queen's merits to which all the world pays tribute.

Mr. Laurier regretted Mr. Blake's absence, but was pleased that the task of seconding the Premier's motion of concurrence in the Senate's address devolved on one of Her Majesty's subjects of French origin. The sentiments contained in the address were shared by all races. The conquests of war were great but conquests of peace during the Victorian era were greater far. He dwelt eloquently on the development of freedom under the Queen's reign, also the development of letters, arts and sciences. No class, he said, ought to be more grateful than her subjects of French origin in Canada. It was a labor of love for him and them to join in every sentiment contained in the address.

Mr. Landry and Mr. Jones of Halifax had another tiff to-day, the former complaining that when he asked the other day if Mr. Jones was a Canadian, he received the monosyllabic reply, "I am." The Halifax Herald the lawyer appeared "no, I am a Nova Scotian." Mr. Kenny thought no member ought to be allowed to alter his statements in that fashion.

Mr. Jones affirmed that he used the words the Hansard attributed to him, and did not mind what unscrupulous papers like the Mail, which omitted the Nova Scotia limitation in the report, said about him.

In answer to a question, Mr. White said there were no ventilation improvements in progress. The remains of Miss Hamilton were brought home last night. She was an accomplished and daring horsewoman, and often led the run at the meetings of the Toronto Hunt. The bereaved family have the warmest sympathy of a large circle of friends.

A Violent Pigs' Feet Man.

Cries of "murder" and "police" roused the people living in Richmond-street, between Yonge and Church-streets, at 11.30 last night. Three men, one of them carrying a basket of pigs' feet, were seen to cross from the north side of the street, near Clare. After a lively mill they all made off up Clare-street towards Queen. James Tolland of 40 Richmond-street east was coming down Clare-street when, as he says, he was assaulted by the pigs' feet man, who gave him a black eye and kicked him in passing.

Toronto Losing Her Grip.

Nothing more vituperative than the story of Toronto's defeat on Saturday, as told with real literary power by Mr. Tonnemann, the German Homilion Spectator in yesterday's issue, has ever been made public. Although not a matter of world-wide importance, the winning team is essential to a Hamiltonian's placidity as a suit of quinn's summer clothing is essential to a Toronto man.
