SUBJECTED TO SEVERE CRITICISM

The Ladies' Advisory Board Arouse Hospital Trust.

Report That Details of Management Need Improvement.

Consensus of Opinion That the Condition of Affairs Reported Is Not Flattering to Trust.

Some matters of considerable importance came before the hospital trust at its meeting yesterday afternoon. That in which most interest was taken, which caused most discussion, was brought to the trust's notice by a letter presented by the ladies' advisory board, whose members have frequently visited Victoria Hospital, and observed that which they believed needed improvement, subsequently embodying the results of their investigations into the communication received yesterday. It stated that the ladies had lately found things anything but satisfactory. They had several complaints made to them, the most frequent being about the food, which was very unappetizing, the soup, for instance, being so greasy that the patients could not take it. The ladies wanted to know who was responsible for this, and also for the condition of the floors, which are not kept clean, one lady reporting them so dirty as to be unsanitary. Complaints were still being made about the clothes of both the patients and nurses becoming moldy and unfit for use after hanging in the basement. This matter was brought up in the early spring, and it was then suggested that large cupboards might be made for the corners of the corridors that would answer the purpose. The ladies' board suggested that it was a mistake to allow the children in good health to occupy the children's pavilion, thereby causing annoyance to the sick children, and taking up the time of the nurses, which was otherwise required.

The members of the trust were agreed that the report was anything but flattering. They themselves had heard that the food was not what it should be, and considered that there was little excuse for such a condition of affairs at the new hospital. The superintendent's explanation was that the kitchen was so far from the different wards that the food was cooled. He said, too, that the nurses had instructions to notify him of complaints about the cooking, and he had not heard a single complaint for months. The trustees felt that an improvement should be made, and had to be made, and Mr. Beck, in particular, criticised the management severely, saying that the superintendent was paid to stay at the hospital and oversee things, so why couldn't he bring the matters before the trust?

Dr. Balfour replied that there was not a man in London who gave more time to his business than he did to the hospital. In fourteen years, he had only been away one week, and that was when he was ill. As for spending time outside, he said he delivered 25 lecture of one hour each, at the Medical School every year, and his connection with the insurance company only occupied about 20 minutes of his time in the evening. He was not the medical examiner, but simply the referee on applications.

Finally the whole matter was referred to the chairman and the superintendent.

Dr. Balfour reported that of the $5,000 additional appropriation made by the council, $2,517 was yet in the hands of the trust. A portion of this will be used in fitting up a laundry in the kitchen, boiler-room and coal sheds of the old building, which is suitably situated for laundry purposes. He reported also that he had the telephone system in the hospital examined by an expert, who found the wiring through the building and the instruments in good working order. The switchboard in the office was at fault, and the trust decided to have it replaced. The system has been in a very unsatisfactory condition for some time.

In future no goods will be taken in at the front entrance to the hospital. The tie-posts at the entrance are also to be removed—some to be placed on the street and others at the rear of the building. The tying of horses at the front has been a means of disturbing the sleep of the night nurses and it has also made it impossible to keep the grounds clean.

Miss Murray, the lady superintendent, asked for two months' leave of absence, to enable her to visit some of the leading hospitals of the United States. She also asked the trust to defray a portion of her expenses. Action was deferred.

Superintendent Balfour's reports showed 56 patients admitted since Sept. 20 and 49 discharged, leaving 110 patients now under treatment. This is the highest number ever in the hospital at any one time.

The cash receipts for September amounted to $1,110 34.

Accounts amounting to $1,925 48 were passed.

Applications for positions on the nursing staff were received from the following: Miss Mary Marshall, Moxborough; Miss Isabella Murray, Glenallan; Miss Margaret McPherson, Arkona, and Miss Mary C. Sanders, New Sarum.

Present: Messrs. McCormick, chairman; Beck, Gilmour, Mayor Rumball and Superintendent Balfour.

ASKING TO HAVE CLAIM REDUCED

Contractor Grant Disputes Bill for Stone Crusher.

Other Business Transacted at Last Night's Session of the Finance Committee of the Council.

The finance committee of the city council met last night, the members present being Ald. Greenlees (chairman), Cronyn, Beattie, Cooper, Mayor Rumball and Treasurer Pope.

Mr. Geo. C. Gunn appeared on behalf of Contractor Grant to ask that the claim of $275 against the contractor for the use of the city stonecrusher on the springbank dam be reduced. He drew attention to the misfortunes under which the contractor labored in the execution of the work, and stated that Mr. Grant was under the impression that the loan of the machine was to be paid for only on those days on which it has been put to use. With this in view, he had kept a complete record, showing that the crusher had been used on 38 days, which, at $3 per day, would make the amount due the city, $114. Mr. Gunn also drew attention to the fact that $91 76 had been spent in repairs while the machine was in Mr. Grant's hands.

The committee, having no power, referred the matter to the council for action.

Petitions in regard to the extension of the London Street Railway and Wellington street belt, and the prohibition of trading stamps was laid over.

The mayor's reference in his inaugural to the interchange of cars by the several railways was left in the hands of his worship and the chairman of the committee. They will confer with the board of trade.

A communication in regard to sanitarium for consumptives was filed for reference.

Police Court Clerk Moule's report was disposed of in the usual manner.

Buy Your Toilet Requisites Here And Save Money.
