Chicago Gossip.

J. P. Bickell & Co. say at the close:

Wheat—Dull and without feature. Cash demand continues good at firm prices, and crop reports of a bullish tenor, especially on winter wheat. July wheat, in our opinion, is on debatable ground, and tendency very uncertain, and we advise isolating this future, but September and December, on all good declines, have merit; for the time being, accept profits on all good bulges.

Beaty & Glassco received the following at the close:

Wheat—The market ruled steady, with narrow fluctuations. Foreign cables showed little change. The drought in Argentine is reported broken. The northwest markets were particularly strong, showing a substantial advance. It looks as the receipts at the northwestern markets would be small for the balance of the season. Minneapolis stocks have decreased 575,000 bushels for four days. The cash demand here continues good. We look for a strong, steady market in the near future.

R. B. Lyman & Co. wired R. B. Holden:

Wheat—We believe in higher values, and strongly advise purchases on all reactions. We cannot see how it is possible for any material break in prices. Bradstreet makes available supply show a decrease of 4,710,000 bushels.

Corn—We feel friendly to corn, and believe it will sell higher; at the same time it is just as well to take profits on the bulges.

Oats—We believe this market is in a position for a good upturn. The short interest is very large.

Montreal Live Stock.

MONTREAL, June 9.—(Special)—At the Canadian Pacific live stock market this morning, the offerings were 225 steers, 125 cows, 50 bulls, 200 sheep, 150 lambs, 500 hogs and 1200 calves. A feature of the trade to-day was the strong undertone to the market for cattle, and prices scored a further advance of ¼c to ½c per pound, which was due to another small run and the scarcity of good to choice beeves. The demand was good from local buyers, as they all wanted some beef to carry them thru for the balance of the week, and a fairly active trade was done. A few extra choice steers sold at 7c to 7¼c per pound, making a new high record price, and the indications are that, unless supplies increase materially in the near future, they will go still higher, as the number of cattle coming forward just now is not sufficient to fill the requirements of the trade. Choice steers sold at 6¼c to 6¾c; good at 5½c to 5¾c; fair at 5c to 5¼c, and common at 4c to 4½c; good cows at 5c to 5½c, and lower grades at 3c to 4½c, and bulls ranged at from 3c to 5½c per pound. Owing to the increased offerings of sheep and lambs, a weaker feeling developed in the market, and prices declined. At the reduction the demand was good, and sales of sheep were made at 4c per lb., and lambs at $3.25 to $5 each. The supply of calves was also large, and prices ruled lower, with a fair demand at $1.50 to $6 each, as to quality. Supplies of hogs were small, and the tone of the market was firm, with sales of selected lots at $8.50 to $8.60 per 100 lbs., weighed off cars.

BUFFALO GRAIN TRADE DROPS

Decrease of 2,500,000 Bushels This Season to Date.

BUFFALO, N.Y., June 9.—Reports from Montreal that many steamships sailing from Montreal are carrying water ballast instead of the usual grain cargoes are not taken by the Buffalo grain men to mean that the great bulk of the grain business over the Montreal route has been diverted to Buffalo, as stated in the press despatches sent out from the Canadian city. As a matter of fact, the grain receipts at Buffalo show a falling off of 2,500,000 bushels.

The rates thru Buffalo are less than the rates of last year, but on March 24, 1909, just after the reduction was announced, reductions also were made in the rate over the Montreal route. Last season the rate from Buffalo to New York, including the Buffalo charges, was 6 1-2c per bushel. This season the rate is 4 cents. Last season the canal rate was five cents. This year it is 3 1-4 cents.

As soon as these reductions were announced, the Canadian Transportation Company made a rate of 5 1-2 cents from Fort William to Montreal, and the railways four cents from Georgian Bay ports to Montreal.

EXCURSIONS BEGIN

Visitors From Outside Spend a Day in Toronto.

That the excursion season has begun was shown by the arrival in the city yesterday of several parties of pleasure seekers from out of town, who came to enjoy their annual outing at Scarboro Beach. All thru the summer these parties, which are made up of members of fraternal associations, employes of large firms, in the province, or athletic clubs, come to Toronto almost daily for a day's outing, just as the average association of city people visits some outside point for the same reason. As the summer progresses the number of Sunday schools arranging excursions here will increase, and Scarboro Beach has already a number of these booked for July and August. The Scarboro Beach grounds are so large, however, that a dozen picnics would be lost in the crowds which on a warm evening promenade on the Beach front.

JOINS HAMILTON

Part of Barton Township Annexed by Municipal Board.

A portion of Barton Township will be annexed to the City of Hamilton at 11 o'clock on the morning of June 22, according to an order of the Ontario Railway and Municipal Board yesterday.

A draft set of terms accompanies the order, which provide for payment to the township by the city of an amount equal to the annual instalment of debentures covering the two schools now erected. The city will also be asked to assume the district's share of the good roads debentures, supply water to the residents on application, and furnish a sewage system as soon as possible.

For these purposes the city is to be given power to issue debentures without reference to the people.

Castro Plots a Rebellion.

NEW YORK, June 9.—It is learned that United States Secret Service Men, at the instance of and closely co-operating with diplomatic representatives of Venezuela, are exerting every effort to apprehend the directing heads of an extensive filibustering project to smuggle 31,000 rifles into that South American republic, with the evident intention of arming as many men there for an uprising in the interests of Cipriano Castro, the former president.

MANY NEW FAST LAUNCHES FOR TORONTO BAY FLEET

Speed and Beauty Will Be Features of Craft For Pleasure Seekers

A 32-foot launch built on the plan of Dixie the Second, which won the America Cup last year, and guaranteed to travel 27 miles an hour, will be laid down at once by the Marine Construction Company of Toronto, to the order of John Silverthorne of Savanah, Georgia, for use in Muskoka.

Manager Lewis of the Marine Construction Co., said yesterday that quite a few fast boats would be added to the Toronto Bay fleet this summer, some of which are being constructed here, while others are being imported from the American side. Mr. Jackson, agent for the White Steam Car Co., is having a 27-mile per hour boat built on the other side. J. P. Bickell of Toronto has ordered from the Marine Construction Co. a 30-foot runabout, to be finished in mahogany and equipped with 30 horse power Roberts' motor, and with a guaranteed speed of 22 miles per hour. It will be on the lines of the "Blue Streak," which is distancing some fast boats at Belleville at the present time. Mr. Bickell's boat will be equipped with a 450 candle power searchlight.

Other boats under construction at the Marine Construction Co.'s yards, are a 42-foot cabin ferry for the American Hotel Co., to be used on Lake St. Clair; a mail boat to be used on the Montreal River at Cobalt, by the Steele Mining Co.; a 27-foot boat for Alexander Graham of New York, to be used in Muskoka, and another 27-footer for Arthur Harvey of Georgian Bay. The company is also designing a new boat for police patrol service along the Toronto waterfront. She will be 32 feet long and will be equipped with 40 horse power Sterling engine, and will have a guaranteed speed of 18 miles per hour. The specifications call for a staunch boat capable of weathering a breeze on the lake, if necessary.

OBJECT TO VACCINATION

Parry Sound Residents Attack Provincial Health Officer.

Dr. R. W. Bell, provincial health inspector, returned to the parliament buildings yesterday after a somewhat exciting three weeks spent in Parry Sound district, where he had been fighting an outbreak of smallpox.

The disease had obtained considerable headway around Port Severn, and the inhabitants displayed a strong objection to being vaccinated or quarantined. A band of French-Canadians, who had been celebrating, on one occasion made an attack on Dr. Bell and his assistant and drove them out. The arrival of two sanitary police and a show of red ink, blue paper and seals had a quieting effect.

A temporary hospital under canvas was established, where sixteen patients remain, with ten in a neighboring house. In addition ten families are yet to be rounded up by Dr. Montgomery of Barrie, as a precautionary measure. "The remaining cases are very mild and at distances from Port Severn," said Dr. Bell. "The country is of the wildest kind, and we frequently had to use horse, foot and canoe to reach our destination." Two hundred and ninety-two people were vaccinated altogether.

ONE CENTRAL HEAD

Patternmakers' League Adopts Change of Management.

The Pattern Makers, in session yesterday at the Arlington Hotel, continued their discussions of the recommendations submitted by the laws committee. President James Wilson occupied the chair. The recommendation of the committee that the whole league organization be under the control of one central head instead of having the division of four districts, with an executive body governing each, was adopted. The meeting also adopted a suggestion to institute the stamp system of paying dues, in place of the metal bound card now in use.

Skin Diseases.

A diseased or disfigured skin will always leave its stamp on the mind of the individual. Many people suffering from disfiguring skin diseases avoid society and lose all pride in their personal appearance. When the skin breaks out in eruptions and sores it is due entirely to an impure condition of the blood.

In all such cases Burdock Blood Bitters will quickly purify the blood and drive all the impurities out of the system.

ITCHING RASH CURED.

Mrs. J. J. Magee, Jr., Kinmount, Ont., writes: "In the spring of 1906 I was troubled with a Rash that broke out all over me. It was the worst on my face and head, had a dry, scaly top, and when I would get warm it would become very itchy. I tried the doctor's medicine but it did me no good, so I then got one bottle of Burdock Blood Bitters and before it was all used the Rash was entirely gone."

SORES ON FACE.

Mrs. Harvey Barkhouse, Gold River, N.S., writes: "I was greatly troubled with Sores on my face and finally became so bad I had to go to the doctor about it, but he could do nothing to help me.

"I thought about Burdock Blood Bitters and decided to try a bottle. I cannot recommend B.B.B. enough, as I had not taken all the bottle before my face was cured."

For sale by all druggists and dealers.

INTERCHANGE OF RECORD

Pharmacists Favor Reciprocal Arrangement Within Empire.

The report of the education committee of the Ontario College of Pharmacy, which was adopted at the session yesterday, declared among other things that they reciprocated the timely greetings of the pharmacy board of Queensland and expressed the hope that in the near future all pharmaceutical bodies in the British Empire would put into effect an interchange of registration and record.

Approval was given to members of the Ontario Council joining the British Pharmaceutical Conference, and a paper to be read before that body in July setting forth the views of the Canadian association was referred to the research committee.

The attention of the proper authorities was directed to the publicity given to medicines and medical treatment of a nature calculated to do harm, and they will be asked to take steps to render such publicity criminal and illegal.

The semi-annual report of the registrar showed a balance of $2,736.94 on hand, after receipts of $12,770 and disbursements amounting to $12,419.30.
