The Weekly Monitor.

WEDNESDAY, DECEMBER 15TH, 1880.

—The annual meeting of the Bridgetown Agricultural Society was held at Buckler's Hotel, Bridgetown, on Tuesday, the 7th inst., in accordance with the Act for the encouragement of Agriculture Considering the unpleasant day, a good attendance of members was present.

The President, Alfred Vidito, called the meeting to order, and requested the Secretary to read the minutes of the previous meeting, which were duly confirmed. The Treasurer's accounts were presented, and handed over to the auditing committee, who, after examining the same, reported them correct, and the finances of the Society in a healthy condition.

The election of officers for the ensuing year, was the next in order, and resulted in the following being elected, viz:—

Alfred Vidito, President
William Miller, Vice President.
David H. Bath, Secty, and Treasurer.

COUNCIL.

Newcomb Marshall, Eugene Troop, Robert Bath, Wm. R. Troop and W. E. Starratt.

After which an hour was profitably spent in discussing the relative merits of several breeds of cattle, being best suited for the farmers of this district, for beef and the dairy, to meet the requirements of the English market. After an animated discussion, it was unanimously resolved to continue the breeding of the Short Horn for beef, and the Ayrshires for the dairy. The Clarence Section being desirous of having a thoroughbred Short Horn Bull located in that district, asked to be allowed a subsidy from the funds of the Society, to assist in purchasing one. The application being favorably considered, it was decided to call a special meeting at an early date, to make final arrangements. We are pleased to state that a notable and worthy feature of the meeting, was the interest manifested by the members in the further improvement of their stock. A scheme for holding a yearly County Exhibition, instead of district ones, as at present in vogue, was discussed, and decided to be more beneficial in giving sharper competition, and hence more ambition, to become successful prize takers.

W. E. Starratt, Esq., was nominated to represent the Common Board of Agriculture.

Ocean Steamships from the Port of Annapolis.

The proposed line of steamers, to run between Annapolis and Great Britain, say London direct, calling at Digby and Yarmouth, is one of the most popular and promising enterprises started in this county for a long time.

The great necessity that now exists for more direct transportation of the products of these western counties, is now known and *felt* by every farmer and manufacturer in the districts, and we are glad to know that the stock is being taken up so generally by our farmers, who are the parties most interested.

A large and interesting meeting was held at Kingston Station, on Wednesday evening last, when this subject was ably discussed.

There is to be a meeting at South Farmington, near Wilmot Station, on Wednesday evening, the 15th inst. We understand a copy of the prospectus and share list of the compay, is in the hands of Mr. Miner Tupper, and we hope this district will be large subscribers to the stock.

OPENING OF DOMINION PARLIAMENT.—Parliament was opened at Ottawa on the 9th inst., by the Governor General. His speech we give in a condensed form:—He commenced by offering congratulations for bountiful harvests and the undoubted return of Canada's prosperity. The Canadian Pacific Railway was then briefly touched upon.—His Excellency explaining that since the last session of Parliament three of his ministers had proceeded to England, and there had entered into a a contract, subject to Parliaments approval, with men of high financial standing in Europe, the United States and Canada, which would ensure the successful construction and permanent working of this great undertaking; and stated that the papers connected therewith would be immediately laid before them, as this was the object for which Parliament was summoned before the usual time, since nothing could be done until Parliament's policy was understood. The progress that has been, and is being made on such portions of the work already under contract was then touched upon. That the Intercolonial and Prince Edward Island railways were now being worked under a favorable difference between revenue and expenditure.

That a Royal commission was shortly to be issued to examine and report upon the civil service; that such report would then be laid before them for their consideration.

That a measure for the enlargement of Manitoba's boundaries would be submitted to them.

That he greatly regretted the failure of the usual food supply of the Indians of the North West; that of necessity a large expenditure was thus involved, that some few hands had betaken themselves to agriculture, and hoped their example would be followed by the rest of the tribes, and that he trusted every means would be used to further such a laudable work.

That the estimates for the ensuing year would be placed before them, and trusted that they had been prepared with a due regard to economy and efficiency of the public service.

Commented favorably upon the working of the existing tariff.

That among important measures to be laid before them would be bills for winding up Insolvant Banks and Incorporated Companies; for the Amendment of the Railway Act of 1879, for the Revision and Consolidation of Laws relating to Government Railways.

The speech was concluded by His Excellency trusting that the interests of the whole Dominion would be faithfully considered.

THE ROYAL PREROGATIVE.—Considerable discussion has taken place in the newspapers generally in regard to the exercise of the Royal prerogative in the commutation of Mitchell's sentence. Some contend the sentence should be carried out, while others say that it was a fitting cause for the exercise of mercy. We prefer not to argue on the matter for obvious reasons. Our columns are however, open to any persons who may wish to ventilate their views on the subject.

LOCAL AND GENERAL EDITORIAL ITEMS.

—Gen. Grant has been retired with the rank of General of the Armey.

—The thermometer registered 15° below zero on Thursday night last.

—The Halifax dailies are making a sturdy stand in advocating the claims of that City as the winter port of the Dominion.

—Policeman Malone of St. John, who has recently been undergoing his trial for the shooting to death of a man named John McFarlane of Portland, was acquitted by the Jury after a ten months' consultation.

Applications is to be made at the next session of our Provincial Parliament for the incorporation of a company to be styled the Halifax Cotton and Woollen Mills Company.

—Ireland's condition is pretty well expressed in the following:—

The correspondent of the *Times* at Dublin says: "The truth is, magistrates, agents and landlords generally are panic-striken, and do not venture to enforce the law."

—The annual Missionary meeting of the Methodist churches connected with the Bridgetown circuit will be held next Sabbath as follows, viz:—Granville at 11 a. m., Bridgetown, 3 p. m., Bentville, 7 p. m. The Rev. A. W. Nicholson of Annapolis will address each meeting.

—The Rev. W. G. Armstrong, returned missionary from India, will give one of his interesting exhibitions, illustrated with splendidly colored views of the people and scenes in Eastern Countries, to-morrow evening in the Baptist Church, commencing at half past seven o'clock. Admission 20 cents. This exhibition is spoken of highly by the Halifax press.

—Owing to the great pressure on our advertising columns this week we are compelled to lay over until our next the report of the meeting held at Kingston Station on Wednesday last, for the purpose of discussing Steam communication between Annapolis and Great Britain. Other articles also have to be served in the same way.

—After the jury on the Teabo trial retired on Tuesday, the man Rice, waiting trial on a charge of killing a sheep with intent to steal it, was admitted to bail on the application of Mr. Cowling, in the sum of $300, and Meuse, charged with an attempt at arson, was liberated on the application of Mr. Owen, on $80 bail.

FIRE AT ROUND HILL.—The following item was not received by us until Wednesday noon last, too late for publication, although it is under date of the 7th inst:—

Healy & Pickles & Co., Dry House, connected with their Pail Factory was destroyed by fire this morning, at 5 o'clock, with contents, no insurance. Had a night watch but he did not detect the fire in time to save the building. The main factory was in danger but was saved without any damage. Loss estimated at three to four hundred dollars.

We are pleased that the loss was not such as first reported. This enterprise has now become established on a firm footing,—it turns out many dozens of pails daily and the proprietors have so many orders ahead that of necessity they have to keep the factory running night and day.

ANNAPOLIS COUNTY BOY ABROAD.—We copy the following item from the *Stony City Daily Journal*, of Nov. 24th ult., in reference to a young man, a former resident of Round Hill, a few miles from this town. He graduated successfully from Acadia College in 1878.

"G. B. Healy, who has been admitted to the bar by the district court, after an examination by a committee of legal men, has been a diligent student in the law office of Chase & Taylor for the past year. Mr. Healy brings with him to the practice of law careful business habits and untiring perseverance that will insure him success in his profession."

Such news is always gratifying to us in one sense of the word, as it reflects credit on our County; but we cannot but regret that so many of our talented and active young men should leave our shores to seek in the broad domains of the neighboring republic that wide field of ambition which the cramped and selfish policy of our monied men denies them in Nova Scotia.

THE AMERICAN PEOPLE.

No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour Stomach, Heart-burn, Water-brash, Sick headache, Costiveness, Palpitation of the Heart, Liver Complaint, comin up of the food, low spirits, general debility, etc., yet since the introduction of GREEN'S AUGUST FLOWER we believe there is no case of Dyspepsia that cannot be immediately relieved. 50,000 dozen sold last year without one case of failure reported. Go to your Druggist and get a Sample Bottle for 10 cents and try it. Two doses will relieve you. Regular size 75 cents.
