Clarke's Vegetable Universal Life Pills.

THE very great demand for these most valuable PILLS, makes it imperative on the Proprietor to devote his attention exclusively to the manufacturing department; consequently he has appointed *Messrs.* T. & J. C. HATHEWAY, Dock street, sole Agents for the sale of said Pills, to whom all other Agents are requested to make remittances and application for further supplies.—Country Merchants will find it to their advantage to keep a supply of these Pills on hand, as they command a ready sale wherever they are known.

Manufacturing Establishment and Office of the Proprietor, 21 Brussels street, St. John, N. B.

August 2nd. U. J. CLARK.

By the Queen's patent.

TRIUMPHANT SUCCESS OF

Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR

Colds, Coughs, Asthma, and Consumption.

THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the 'Great English Remedy.'

It has been tested for upwards of seven years in Great Britain and on the continent of Europe, where it is universally considered the great and only remedy for this awful malady, and is now introduced to the public under the immediate superintendence of the inventor. Within three years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike ASTONISHING AND TRIUMPHANT.

As a preventive medicine, and an antidote to the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs, inflammation of the Lungs, Croup, &c.—it is unrivaled. But the Proprietor is so confident of the merit of this great remedy, in the worst forms of consumption, that he prefers to have it used by the DYING INVALID, rather than by persons inflicted with some simple and less dangerous disorder of the throat and lungs:—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pronounced an infallible remedy in all cases, but it is THE MOST INFALLIBLE remedy known to the civilized world. It is the best preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipient consumption—and it is the great and only remedy *for that fearful softening of the lungs—inflammation of the membrane, and tuberculous decay*, which are the last effects of that dreadful scourge, and which are erroneously supposed to be beyond the reach of medical aid:—the agent or proprietors of other medicines dare not claim for their preparations a power like this: they know that in no case have such effects been produced:—the grand object and purpose of the common 'remedies' is simply to *give relief—not to cure:* this is easily done by an intelligent Physician or Druggist; but while dallying with these delusive compounds, the patient quickly declines—if never thus plunge him farther and farther beyond the reach of hope.

Such is not the case with the Hungarian Balsam. It is always salutary in its effects—never injurious. It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a fatal security. It is a great remedy—a grand healing and curative compound; the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquerable malady. It is in fact the *best remedy in the world!*

[From the John Bull, newspaper, London.]

There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life," which the medical faculty are unable to discover, or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analysis of this famous compound has ever, to our knowledge, been offered to the public.

Sold by McDonald & Smith, Sole Agents for the United Kingdom.

By special appointment PETERS and TILLEY, No. 2, King street, St. John, Sole Agents for the Province of New-Brunswick. Aug. 1.

EDWARD L. JARVIS,

May 3, 1845. *Nelson street.*

Great Saving in Soap & Labour.

Royal Letters Patent—Granted March 4, 1844.

Patent Washing & Cleansing POWDER.

ONE great advantage which this Powder possesses over others, consists in its not injuring the hands of the persons using it. Other Washing Powders contain Carbonate of soda in its free state, which by acting upon the skin, hardens the hands, and renders them sore and wrinkled.

Other advantages peculiar to this Powder, may be stated as follow, viz:

A saving of at least one half of the soap which is necessary when soda is used.

A great saving in the labour of washing.

The colour of linen and other fabrics turn out far superior in whiteness to that which is given by any other means.

N. B.—Warranted not to injure articles though made of the finest materials.

☞ Sold in packets at 12½ each, by

JOHN G. HARP, Chemist,

May 2. *Corner of North M. Wharf.*

☞ NOTICE. ☜

THE subscribers having this day entered into Co-Partnership, the business of the "VICTORIA HOUSE" will in future be conducted by them under the Firm of

James Doherty & Co.

And they respectfully invite the attention of the Public to their Stock of FALL and WINTER GOODS, (personally selected by W. Doherty, jr., in the best English and Scotch markets,) now opening and to arrive by first ships from London, Liverpool, and the Clyde.

JAMES DOHERTY.

THE WAY TO GET MONEY.

I'll tell you a plan for gaining wealth.—
Better than banking, trade, or losses;
Take a bank-note, and fold it up;
And then you will find your money in *creases*.

This wonderful plan, without danger or loss,
Keeps your cash in your hands, where nothing can trouble it;
And every time that you fold it across,
It's as plain as the light of the day that you *double* it.

COTTON SHIPS.—We find by reference to the books kept by Mr. Court, in the Underwriters' rooms that the following vessels were employed in transporting the last crop of cotton (from September, 1844, to September, 1845,) from the following ports of the United States, to Liverpool, viz.:—At New Orleans, 111 British vessels loaded, of which one was lost; 154 American vessels loaded, of which three were lost and one has yet to arrive. At Mobile 74 British vessels loaded, of which one was lost; 61 American vessels loaded. At Apalachicola 9 British and 23 American vessels loaded. At Savannah 47 British and 46 American vessels loaded. At Charleston 43 British and 83 American vessels loaded. Total, 284 British and 361 American vessels.

A Papa's Epistle to a Boarding School Mistress.—"As I had a good hedication miself I ham hintirely ashamed for to see the shameful manner in which my Lucy his bit by the fleas: and it is my desire for her to sleep in the bed she used to do, and not for to sleep sum times in one bed and then in another, for to feed all the fleas in the ouse: for I think that is not write, neither shall she do it."
