THAT INDIAN UPRISING

Will Amount to Little—Authorities Have Warned the Indians What Might Happen.

Rat Portage, July 1.—(Special.)—Now that the Indians have been discovered in their concerted plan to make trouble, it is improbable that anything will come of it. The authorities have visited their camping grounds and warned them of their danger should they attempt anything in the shape of an uprising.

Making Light of the Story.

St. Paul, July 2.—Governor Lind has received a telegram from Consular Agent Frisbee at Rat Portage, Ontario, saying that the situation among the Indians along Rainy River is improving. Officers at United States headquarters are inclined to make light of the reports of a threatened uprising.

Games at Brampton.

Brampton, July 2.—The holiday was well celebrated in Brampton, in the morning the ball team were beaten by the Marboros of Toronto by 11 runs to 6. In the afternoon there were two lacrosse games. In the first the local Athletes beat the Credits of Glen Williams by 6 to 3. This game was in the junior series, C.L.A., and placed the Athletes one notch closer to the championship. The Georgetown Aetnas, in the second game, fell down before the Excelsiors in an intermediate series game. The score, 9 to 0, indicates fairly the manner in which the Excelsiors outplayed the visitors. The game was called 25 minutes before time was up to allow the Aetnas to catch their train. Both games were good from a spectator's standpoint, and the result will go far to build up lacrosse again in Dr. Roberts' town.

WOUNDED IN BATTLE.

An Old British Soldier, Whose Fall Off His Horse Resulted in Years of Suffering From Lumbago, Was Completely Cured by Griffiths' Menthol Liniment.

Private J. Irwin, 94 Euclid-avenue, Winnipeg, formerly of the Royal Horse Artillery, writes: Griffiths' Menthol Liniment has completely cured me of lumbago, which resulted from a fall off my horse while serving in the R. H. A. I can now walk without the least particle of pain, while before the least exertion meant intense suffering. I consider it superior to any liniment used in the army. 25 cents by druggists.

Chicago Gossip.

J. J. Dixon had the following from Chicago this afternoon:

Wheat opens easy on weak cables, large deliveries and some rain in the Northwest. Local sentiment was very evenly divided. Shippers were good buyers of the wheat. During the day there was general dumping of long wheat on stop orders. Northwest receipts were 323 cars against 474 last week. Indiana State crop reports indicate wheat crop will be about 80 per cent. of an average crop. Visible supply showed an increase of 918,000 bushels. Liverpool cables were 1⅜c lower; world's shipments lighter than anticipated, those from Russia being especially small.

Corn opened weak and lower this morning in sympathy with wheat and lower Liverpool cables; receipts, 1000 cars; early acceptances also fairly large. General rains were reported thruout the corn belt, which also had its effect. There was a liberal decrease in visible of 1143 bushels, and a decrease in local stocks of 71,000 bushels. Cash people led the buying of July. Commission houses were the buyers of August and September. These caused a rally to a fraction above Saturday's close. At the advance there was some realizing on the extreme weakness in wheat. Cash demand good, clearances fair, 670,000 bushels; 980 cars estimated to-morrow.

Oats have ruled weak and lower on weakness in wheat, general liquidation of July and selling by the Northwest of August and September, market at one time selling a cent under Saturday's close. Receipts were rather large, as also were country offerings. There was a large increase in visible, 1,038,000 bushels. Cash demand only fair. Receipts, 344 cars; 405 estimated to-morrow.

Provisions opened weak and lower on 7000 more hogs than expected, and afterwards rolled easier on selling of September ribs by the Cudahy Packing Co. On decline, Patten's brokers bought September pork and ribs. The buying advanced prices, but market closed easy, with part of advance lost. Estimated hogs to-morrow, 19,000.

On Wall Street.

New York, July 2.—With the exception of a brief period of depression at the opening, in sympathy with foreign quotations, the stock market was consistently strong thru to-day and closed with the gains well maintained in nearly all cases. While the strength was pretty well diffused, the grangers and Pacifics were the leaders of the market, both in point of activity and strength. The news of rains, both on Sunday and to-day, in the spring wheat region, was the principal factor in the advance, as it was in the decline in the wheat market. The weekly statistics of grain traffic received from Chicago emphasized the influence of the news of crop conditions.

The report of the Chicago, Burlington & Quincy, by reason of heavy charges for operating expenses, showed the increase in gross earnings more than wiped out, and the decrease established in the surplus after fixed charges was no less than 69 per cent. The same causes were at work in the case of the Louisville & Nashville, the net earnings of which fell off about 17 per cent. from last year's level. Nevertheless, these two stocks shared fully in the day's strength. The figures of the large July disbursements of dividends and interest were another factor of strength in the market. These are estimated at from $100,000,000 to $125,000,000. It is pointed out, furthermore, that a larger proportion than ever before of these payments will remain in this country, owing to the large buying of American securities from foreign holders during the past year.

The steel stocks were strong in the early dealings, in spite of the news of continued decline in prices of product, and the wide-spread closing down of mills, pending the adjustment of wages schedules. There was also a reaction in the price of pig-lead. The metal stocks generally did not hold their best prices. The same was true of the coalers. Sugar was comparatively quiet, and was inclined to react from the high price.

J. J. Dixon has the following from Ladenburg, Thalmann & Co., New York, this evening:

Better crop advices give a more confident tone to the Stock Market to-day, in spite of the less favorable news from China. There seems to be a better demand for stocks, aside from that originating from the short interest, and the tendency was generally toward a higher range of prices. Business, however, was limited in volume. The declaration of the T. C. I. dividend had a good effect, tho it was generally expected. The strength of J. C. was the leading feature. Demand sterling, 4.86¼ to 4.86⅜.

Got Into Trouble.

William Langridge, 194 Lippincott-street, was taken into custody last night on a charge of assaulting Frank Fertile, 262½ West Queen-street. The alleged assault took place when Fertile, who is a captain in the employ of the Toronto Ferry Co., attempted to prevent Langridge from jumping from the deck of the steamer to the dock when the boat reached the Brock-st. wharf about 9 o'clock last night. Despite the assault Captain Fertile clung to his assailant, and handed him over to Constable Bogart, who locked him up at the St. Andrew's Market station.

S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others, as it did so much for me. ed

Charged With Assault.

Police Constable McCarron last night arrested Patrick Donohoe, who says he lives in Brown's-lane, on a charge of assaulting David Mitchell, 92 Claremont-street. The trouble occurred at the corner of Queen and Claremont-streets shortly before 8 o'clock. The accused was admitted to bail.

The Demon Dyspepsia—In olden times it was a popular belief that demons moved invisibly through the ambient air seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He that finds himself so disposed should know that a valiant friend to do battle for him with the unseen foe is Parmelee's Vegetable Pills, which are ever ready for the trial. ed
