Weight is the most expensive thing in a motor car. Every additional pound increases the demand on the motor, makes necessary more gasoline and oil, results in greater wear on tires, greater difficulties in traveling over rough roads, through mud and sand and up hills. A heavy car is more bother and trouble to keep in order, and in driving over rough roads or at high speed it is far more liable to injury than the light car. The Ford Car is the lightest car on the market.

Due to arrive any day, one car Cedar Posts, also car Cedar Shingles, all kinds, at lowest market prices. R. E. HARRIS & SONS.

While engaged in excavating for the cellar of the new Presbyterian church one day last week the workmen discovered below the bottom of the old manse cellar a soldier's belt buckle which is thought to be 150 years old. It bears the inscription, 'The King's American Dragoons' with a monogram in centre, the letters L. D., presumably for Light Dragoons. The buckle is oval in shape, is made of cast brass, and is 2¼ by 3¼ inches in size. It is now in the possession of Mr. C. R. H. Starr.

Board of Trade Notes.

For the first time in the history of the Board, ladies were elected to its membership at the meeting of the Council on Friday evening last. We cherish the hope that every woman who has the welfare of the community at heart will identify herself with the Board. Mesdames L. W. Sleep, J. W Brown, Laura Moore and G. T. Bryant and Miss Flo. M. Harris are prepared to receive the names of all ladies wishing to become members.

Rev. J. B. Merrill and Messrs F. P. Rockwell and J. C. Bishop, representing the hotel and boarding house proprietors, were present at the meeting of the Council on Friday last.

Many timely suggestions were submitted and resolutions passed, which, when put into effect, will greatly stimulate the local tourist traffic. With a sympathetic and systematic effort on the part of the Board and the hotel managements, tourist travel will be directed toward Wolfville and vicinity with the result that the volume of business, and the number of summer visitors will be greatly in excess of any previous season.

The next meeting of the Council will be held on Monday, April 27th, at 7 30. G. T. B.

Madame Scotney.

Mme. Evelyn Scotney, the wonderful coloratura soprano of the Boston Opera Company, was recently interviewed by one of the musical editors of the New York Herald. Part of this article will doubtless be interesting to those who intend to hear her at the Wolfville Opera House on Wednesday evening, May 13, where she will give a festival concert, assisted by other distinguished artists of the Boston Opera Company. Mme. Cara Sapin, prima donna contralto, M. Alfredo Ramella, leading tenor, and M. Howard White, primo basso, are the artists selected by Edwin Bower Hesser, the tour director, to assist her thoughout the Maritime Provinces.

The 'Herald' article said: 'Madame Scotney is a young woman of many decided views, which are radically different from those held by most prima donnas, who as a rule make a practice of discouraging young singers. 'I am always glad,' said Mme. Scotney, 'to give advice to a young singer. Many is the time when I have been worn out by travel that I have taken the time to advise some young girl about her voice, but I think it is more than my duty to do so. Most girls, no matter what their vocal qualities, find difficulties in having a chance to develop them. If a girl has no chance of making a success, in my opinion, I tell her so. But if I hear a good voice, I always try to help along its possessor. There are three girls now studying in Boston through my influence, and one that I 'discovered' in a little New Hampshire mountain town, where I was resting, has been admitted to the Boston Opera Company membership—of course in a very minor capacity, but she will doubtless progress. If it were not for the help given me by Mme. Hollie Melba, I would not be where I am today. She heard me in Melbourne, Australia, nearly five years ago, and took me to Paris with her, putting me under her own teacher, Mme Marchesi, and later under Tosti, the famous composer. And it was through their influence that I first received my Boston Opera Company engagement, three seasons ago. I am certainly willing to meet any youthful aspirants to operatic honors, and will help any that I can.'

'Mme. Scotney is a swimmer,' continues the Herald story. 'She can hold her own in almost any athletic pursuit, and to her physical strength she attributes much of her vocal power, and the ease with which she accomplishes difficult passages in coloratura. Mme. Scotney is certainly the most wonderful of the younger sopranos, and if she develops for three or four years more at the same rate that she has since reaching Boston, she will be the long sought successor to Adelina Patti.'

It has been arranged that in Wolfville Mme. Scotney and her assisting artists sing the complete second act from 'Martha,' with costumes and scenery and also part of the third act, and bring in Mr. Ramella's aria, 'Oh So Pure,' for which he is noted. The cast for 'Martha' will be:—

Lady Harriet—Mme. Scotney.
Nancy—Mme. Sapin.
Lionel—M. Ramella.
Plunkett—M White.

The Yarmouth Line.

INCREASED NUMBER OF STATEROOMS ON THE 'PRINCE GEORGE' AND 'PRINCE ARTHUR.'

Extensive preparations are being made by the Boston & Yarmouth S. S. Co., Ltd., to handle satisfactorily the large volume of summer tourist travel. The number of staterooms on the 'Prince George' has been increased from 60 to 120; and the new rooms are all outside rooms, comfortable and airy. This steamship is already in commission; and the same improvements are being made on the 'Prince Arthur' at Bath, Maine.

The present four-trip per week service is proving of great benefit to shippers by enabling them to reach the Boston markets four days in the week, and the traveling public find the additional trips very convenient to travel to and from Boston.

The Yarmouth Line can certainly be commended for the unexcelled service now provided for its patrons.

The many friends of Rev. Edmund D. Webber, who for five years was pastor of the Baptist church in Wolfville and who is now pastor of a church in Haverhill, Mass., will be glad to hear his health is much improved. His throat better each month. He has only been out of his pulpit one Sunday this winter and then not from throat trouble. The church building at Haverhill is a fine one. Church has about 600 members, a Bible school of 650 finely officered and managed. He is highly esteemed and the work of the Lord is prospering under his care.

Don't forget that we have the agency for the famous B. & M. Base Ball goods.

Good Fruit.

The most successful fruit growers of the Annapolis Valley have for years followed the practice of applying Muriate of Potash mixed with Basic Slag and Bone Meal, or other Phosphatic fertilizer, to their orchards, depending on a crop of clover to supply the necessary Nitrogen and Humus.

There is no doubt that the adoption of this ideal system is directly responsible to the remarkable color and quality of Nova Scotia apples, which features have gained for them so many awards and established their enviable reputation in the markets of Britain.

We can supply you with all high grade fertilizer materials, Potash, Nitrate of Soda, Acid Phosphate, Basic Slag, etc., at lowest prices. You can mix these yourself at home and save 25 to 40 per cent. in fertilizer cost.
