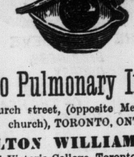
CONSUMPTION
CAN BE CURED.



Ontario Pulmonary Institute
135 Church street, (opposite Metropolitan church), TORONTO, ONT.

M. HILTON WILLIAMS, M. D.,
Graduate of Victoria College, Toronto, and member of the College of Physicians and Surgeons of Ontario.
Proprietor.

The only Institute of the kind in the Dominion of Canada.

Permanently established for the cure of all the various diseases of the Head, Throat and Chest, viz: Catarrh, Throat Diseases, Bronchitis, Asthma, Consumption, Catarrhal Ophthalmia (Sore Eyes), and Catarrhal Deafness. Also Diseases of the Heart. Nearly 40,000 cases successfully treated during the past 16 years by our new system of Medicated Inhalation, combined with proper constitutional remedies for the blood, etc.

CHRONIC LARYNGITIS.

Laryngitis, like nearly all affections of the throat and nose, usually begins with a severe cold, and is must always attended with hoarseness. It is more frequent a mere extension of catarrh of sore throat than an original disease, the irritation escaping down and fixing itself upon the delicate organism of this part, and then gradually journeying onward to the lungs. When it occurs as a consequence of catarrh or sore throat the symptoms are comparative y mild. There may be pain, but it is more common to find only a sense of tickling, which provokes a cough. Many complain of a sensation as of "something tickling there," to get rid of which they keep up a r sping effort to clear the windpipe. The voice is always more or less affected, being rough in the early stage, but now feeble aft r the disease is established. There is often a slight tendency to over that prominence of the neck known as the "Apple of Adam" (Pomum Adum), a heat and a sense of lightness, and frequently some slight difficulty in swallowing

In this form the disease is simple and readily removed in a few weeks. In all cases it must be treated by the direct application of astringents and alteratives by inhalation to the affected parts Like catarrh and granular sore throat it is a local affection and can only be cured by local treatment. There is no use of torturing the unoffending stomach for an inflamed condition of the vocal chords of the larynx. Change of air is equally unavailing, for there is no climate without dust and draughts of air sufficient to feed and keep the disease alive. The inhaling instrument charged with such sedative, alterative and astringent medicine as may be indicated by the stage of disease must be used morning and evening and every night before going to bed, and the larynx fumigated by warm, sedative vapors. Treated by these means there are few cases of Chronic Laryngitis which are not readily curable.

Inhalation is the only system which will cure these diseases, and yet the treatment of the two are entirely different. In the one we must allay the irritation, while in the other we must stimulate a healthy action.

This will convince us of the necessity of fully understanding the system of Medicated Inalation in the treatment of the various diseases of the pulmonary organs, for when properly applied there is no system of medicine to be compared to it.

Those who desire treatment should spend no time in writing; if you can come to the Institute this month or this week it may be of the greatest possible value to you; it may be the turning point of your disease for fatality or recovery. Later in the season probably you cannot come more conveniently nor as well.

Consultation free, and prices within the reach of all.

The very best of references given from those already cured. If impossible to call personally at the Institute write for a "List of Questions," and "Medical Treatise." Address

OBITUARY.

BELLEVILLE, Sept. 8—Mrs. Francis Wood, wife of Thos. S. Wood, and mother of Hon. S. C. Wood, died at the residence of her daughter, Mrs. C. Mott, in Picton, on Tuesday. Mrs. Wood, who had attained the ripe age of 88 years, had been married nearly 70 years, and her husband, aged 92, survives her.

Fires.

IROQUOIS, Sept. 8.—The flouring mill and woollen factory owned by Bailey & Mills were burned at 1.30 this morning. The fire originated in the upper story of the flouring mill. Estimated loss $18,000; insured for $10,000.

CAMPBELLFORD, Sept. 8—A fire occurred this morning at 3 o'clock which destroyed the stables of Dr. Bryan. A pair of fine horses, a carriage and harness were burned The fire then spread to the stables and shels of the St. Lawrence hall, which were consumed, together with four large hogs and a horse and buggy. The flames then destroyed the back stables owned by Mr. Gibb and a large and commodious dwelling also owned by Mr. Gibb.

An Emery Wheel Accident.

LACHUTE, Q., Sept. 8—This morning while Mr. Charlebois, of the Lachute foundry, was using the emery wheel it suddenly burst in two pieces. One piece went completely through the roof and reached the ground 300 yards from the building. The other unfortunately struck Mr. Charlebois on the shoulder, smashing it completely. The fractures have been reduced and the patient is doing well, though suffering great pain.

Marine Casualty.

DETROIT, Sept. 8—The schooner Geo. D. Russel was run into by the steamer Northerner on Thursday, and sunk in the Sault Ste. Marie river. Two, if not three persons, one of whom is a woman, are believed to have gone down in her. The schooner is said to have been in her proper course. Capt. Shepard, of the Northerner, says his vessel became unmanageable. The Russel is said to have had a cargo of 1276 tons at the time of the accident, though only registered for 658 tons. The sunken schooner, which lies in the middle of the channel, is a serious impediment to lake navigation, as the river is narrow and the current extremely rapid.

A Serious Fall.

CORNWALL, Sept. 8th.—A man named John Fraser, working on the new spire of St. Andrews R. C. church, fell a distance of 65 feet, sustaining serious internal injuries. His medical attendants report recovery to be possible.

THE LATEST WAR NEWS.

ARABI MASSING HIS FORCES AT TEL-EL-KEBIR.

The Enemy Preparing for the Fight—Strongly Entrenched and Plenty of Men—Fresh Water Canal Cut—Reconnaisance from Kassassin—Sickness in the British Army.

LONDON, Sept. 8—Advices from Egypt state that British troops are suffering to an alarming extent from the heat which is insupportable. Several officers have been rendered insensible and have fainted on the sand. Cases of dysentary are numerous and the medical staff is taxed to the utmost.

RECONNAISANCE OF MANDARI.

ALEXANDRIA, Sept. 8—The mounted infantry made a spirited reconnaisance of Mandari yesterday, when they came in contact with the enemy. Six of the latter were killed or wounded.

A QUEER SAINT.

A number of Arabs last evening overpowered the British guard and seized the body of the Arab who was hanged in the morning for the murder of the Englishmen, Richardson and Dobson, and carried it off. It is supposed it will be preserved as a saint.

ARABI FULLY PREPARED.

While the reconnoitering party was returning after exchanging fire with the enemy to-day, a long train was observed coming up from the enemy's camp, probably laden with troops, showing that the enemy was ready to meet the English in advance of his main position. No measures have been taken to conceal the English movements from the enemy.

THE TORTURE OF PRISONERS.

There is no further danger of prisoners being tortured, Mr. Mallett the British consul general, having taken measures for the prevention of the practice. He says he had great difficulty in persuading the Arabs that the use of the thumb screws was unnecessary in conducting the examination of prisoners.

THE ALEXANDRIANS CLAIM COMPENSATION.

The ministry to-day submitted to the foreign consuls a general proposal relative to indemnifying the inhabitants of this city for the losses sustained by incendiarism or pillage. The ministry suggest that an international commission, whose decision shall be final, be appointed to settle all claims, the commission to consist of four members of the public debt department, two Egyptian delegates and one delegate from each of the six great powers, one of Egyptian delegates to be president of the commission, the vice president to be elected by the commission by a simple majority.

RECONNAISSATCE OF TEL EL KEBIR.

KASSASSIN, Sept. 8.—A reconnaissance of Tel el Kebir was made to-day. The enemy appeared in force but there were no casualties.

ARABI MASSING HIS FORCES.

All Arabi's troops from Cairo have been brought to Tel-el-Kebir, also the black regiments which form the elite of the Egyptian soldiery. The enemy is working night and day at the entrenchments across the freshwater canal on the right.

THE OBJECT OF THE RECONNAISANCE.

The object of the reconnaisance made today was to drive out in force the enemy reported to have occupied a village near here, also to erect a field telegraph line. The village was found deserted, but the enemy's position and earthworks were discerned on a ridge not far distant. The enemy appeared in great numbers and a brisk fire was opened by both sides, which continued half an hour without any casulties. The horse of Major Terry, the correspondent of the Army and Navy Gazette, was shot under him. While the English were retiring the enemy swarmed down the hill and fired at them. The Egyptians evidently thought the reconnaisance was the beginning of earnest operations. A correspondent gathers that the enemy are giving the English more trouble than the latter anticipated. The Egyptians are now in possession of four positions from which the English had driven them.

THE ENEMY'S POSITION.

[We commend the above dispatch to the attention of our scientific readers. The enterprise of the agents of the associated press is only equaled by their profundity. To an ordinary mortal it would never have occurred that a man should succumb after being murdered! But it is a fact. The A. P. agent says so]

WALTER'S FOLLY

And rushing up to Winnet said;

"'Tis I should suffer for my folly.
But, oh, for God's sake do save Molly."

THE WEATHER.

Autumn has come, and the painters, whether in words or in colors, shew us a maiden whose robes are festooned with the grape—sacred to Bacchus.

A pretty American girl on the street yesterday wore for ornament a double cluster of green grapes at her belt. And it was becoming.

But we were talking of the weather.

Yesterday evening many a meal was taken by lamp or gas light. The days are getting much shorter.

And the air it was chilly last night.

And they sold more hot teas than the hyporborean cream at the restaurants.

For the nights lengthen and the mercury falls, inversely.

The lugubrious cit who still lives on the Island piles his bed with the all-encircling blanket.

And his little children in the cot insist on "spooning," in order to lose no latent heat.

The coal man gleefully rubs his hands and prostrates himself before the falling thermometer.

For his harvest is plenty and the dealers are few.

THAT COLORED BOY OF OURS.

John Henry Gabney had been given him for a name, and he was employed to sweep out The World counting-room and run messages. For six weeks he has discharged these duties passably well. Lately he has allowed his mind to be diverted by other and secondary things In the back yard rats were occasionally to be seen; John Henry, with considerable forethought, brought a trap to the office, set it
