MECHANICS INSTITUTE TO-NIGHT.

To-night the public will have a chance of witnessing one of the finest Temperance Dramas ever put upon the Institute stage. The great sensational five act Drama, "The Social Glass." "Finch Dramatic Company" play one night only, being unable to engage the Institute for another night. The Company's Orchestra will give an open air concert on King Square this evening, for half an hour from seven till half past.

The Company play in Carleton, City Hall, Friday evening May 24th.

THE SEASON.

The somewhat early spring this year has recalled to some of the oldest inhabitants the early spring and dry summer of some fifty odd years ago. Many of our farmers have only just sown their wheat, but how about sowing wheat the 3rd of March! On the authority of one of the oldest, we have it that on the 3rd of March of that season the late Samuel Archibald, father of Sir Adams Archibald, sowed a field of wheat, and about the same time the late Alex. Miller sowed a field with wheat, some of which he reaped and had ground before the end of July.—Truro Blade.

IT IS A MODEL OF NEATNESS.

The restaurant in the I. C. R. depot has been undergoing numerous changes lately. Mr. Bailey, proprietor, has taken some pains to fit up his apartment in a first class manner, and the dining room now presents a handsome appearance. For the past few days painters have been at work, and have tinted the walls and ceiling, and have painted the cornices in an inimitable manner. The dining-room is unsurpassed in any respect along the whole line.

KEEP OF THE TRACK.

The Chief of police has decided to take stringent measures in carrying out the law, which refers to walking across the trestle work of the N. B. Railway. Yesterday the Chief stationed men at each end of the trestle work, and has ordered that every one disobeying the regulation be called to be reported. This action, will likely meet with the desired results of keeping people from walking across the track, as the regulation posted up forbids, for lately this road has again became a great thoroughfare.

TESTIMONIAL TO MISS TINGEY.

A beautiful gold watch was presented to Miss Tingey last week, by the members of the Church of England Institute, on her resignation of the duties of attendant at the reading room and library which she had discharged in a very exemplary manner for the last eight years. The watch bears the following inscription. "A. E. Tingey, Church of England Institute, St. John, N. B., A. D. 1881-89."

The president and council passed a resolution expressive of their esteem on receiving Miss Tingey's resignation; a copy of which was sent to her engrossed on parchment, with the seal of the Institute attached, and bound in book form.

SPIRIT OF THE TIMES.

Base Ball.

There were no National League games yesterday.

THE THISTLES.

Important business was discussed at a meeting of the Thistles last evening. It was decided to play the Franklins on June 6th, and the Emeralds a week later. It is the intention of the Thistles to invite three representatives of each of the clubs playing last year in the junior league to meet three of themselves at an early date to revive the league. The committee on suits reported them in readiness for the players.

MAINE COLLEGE LEAGUE STANDING.

Bowdoin	3	3	2	60.0
Colby	6	3	3	50.0

THROWN OUT.

Show your ticket at the gate.

James Berry of the Sun has been appointed scorer of the A. A. Club.

The young Lansdownes challenge the Lone Stars to a game Thursday afternoon.

P. Mills of the Thistles will catch for Amherst on the 24th of May.

Any club wishing to play the Portlands, May 24th, is requested to answer immediately. The Wanderers of Carleton are preferred.

There will be two games with the South Portlands, on Friday next. Morton L. Harrison and James Christie will umpire together in both games.

THE NATIONAL LEAGUE BATTERS.

Another proof of the effect of the four ball rule in increasing the batting of the league is shown in the formidable list of players who at this date have a single base batting average of 300 and over. Brouthers easily leads the list, which includes the following: Brouthers, .506; Radbourn, .444; Van Haltren, .442; Ewing, .441; Denny, .420; Daily, .416; Clements, .415; Haddock, .400; Maul, .386; Buckley .386; Anson, .373; Pfeffer, .365; Glasscock, .356; Connor, .350; Stricker, .350; Mulvey, .337; Duffy, .336; Hoy, .342; McKean, .328; Quinn, .325; Richardson, (Boston), .320; Sunday, .315; Delehanty, .315; Ryan, .314; Brown, (Boston), .310; Beckley, .304; Kelly, .307; Ray, .307; Gore, Carroll, Murphy and Hines, .300 each.—Boston Herald.

Lacrosse

The boys were down to the Barracks last evening getting in trim for the games on the Queen's birthday. A scratch match between picked teams from the Unions and Y. M. C. As. raised considerable excitement, and judging from appearances lacrosse will flourish in this city; Baxter and Tufts seem to be among the favorite players, and handle the sticks with considerable skill. McLean in combining practice with agility is rapidly becoming one of the leading stars. Jim Steel made a fine throw through the flags last evening and received rounds of applause. Geo. Jenkins, the president of the Y. M. C. A., seems deeply interested in the game and, laying aside the business cares of life waded right in with the boys last evening, and bore the bruises of the contest with an equanimity of spirit that was praiseworthy. The others of the teams play extremely well and manage to keep the ball in the air most of the time. May 24th promises to be a big day for the sport, and a match game of lacrosse will take place on the Barrack Square in the morning between the Y. M. C. As, and the Beavers. The Beavers are in good condition as are the Y. M. C. A's. and the game will be a hot one.

The Y. M. C A,s. will put the following team in the field:

A. Tufts, captain; J. Milligan, A. Baxter, W Foss, G N Hevenor, J. E. Dinsmore, W Stackhouse, H McCarthy, G Dixon, F Roderick, H. McLean, and J. Steele. The game will be called at 9.30 o'clock.

The Unions go to Fredericton the same day to play the N. B. University students.

The sticks of the St. J. A. A. Club arrived some time ago. Practice will be begun after May 24. Two nights in the week are to be devoted to the game, and a good team will soon be ready for the field.

Athletic.

Mr. W. S. Barker, secretary of the St. John A. A. club, has received official notice that that club has been elected into the Maritime A. A. Association. In all probability the secretary of the M. A. A. A. will be chosen from the St. John A. A. C.

Professionals and other athletes, not members of the St. John A. A. club, will not be allowed to practise on the grounds hereafter without a written permit from the President or Secretary.

There is to be a tournament at the Lansdowne rink on Friday evening, which will consist of a one mile amateur run, prize silver cup; four miles run for the maritime province championship, prize, silver pitcher and $25, 2nd $10, 3rd $5; tug of war for the heavy weight championship of St. John, prize four silk hats; one mile heel and toe walk, 1st prize silver cup and $15, 2nd $8.

Aquatic.

The Toronto Globe says: Charles G. Psotta, amateur champion sculler of the United States, sailed for England on Wednesday, and will row in several English and French regattas this summer. The plucky little German American is the fastest amateur, under the English definition, that has rowed in America in America for many a year. May good luck go with him.

AQUATICS IN HALIFAX.

HALIFAX, N. S., May 20.—The regatta committee of the summer carnival tonight decided to ask for $1,500 for prizes for yacht races, professional four-oared, double scull, Labrador whalers, slip flats, men-of-war barge, men-of-war cutters, dingy and canoe races, and for amateur four-oared, single scull, slip flat and canoe races.

GAUDAUR AND O'CONNOR TO MEET.

Late Boston Herald:—Mr. J. A. John, of St. Louis, the well-known boating authority, backer of Jake Gaudaur, and sportsman, arrived in town yesterday and called at The Herald office. He announces that as yet Teemer and Gaudaur have not come to terms for a race, and he hardly expects that Teemer will come to Gaudaur's terms, for the present at least. Mr. St. John, therefore, expects that Gaudaur and O'Connor will meet in the near future, and he believes O'Connor will beat Searle, the champion, when they meet in England. He announces that Gaudaur will in all probabilty row in the Fourth of July Regetta on the Charles River.

The Turf.

PROCTOR KNOTT A SICK HORSE.

LOUISVILLE, Ky., May 16.—It was reported here to-night that the Futurity winner, Proctor Knott, was in a dying condition at his trainer's stable, near the Jockey club course. Upon investigation it was learned that he was given physic this morning, and is quite unwell, but his trainer is by no means uneasy over the ailment with which he is now afflicted, he being of the opinion that it is only a mild disorder. Several other trainers who have seen the great colt give it as their opinion that he is a very sick horse, and his recovery is an open question.

The colt first showed signs of sickness after being beaten by Spokane in the Clark Stakes, and many now believe that was the reason for his poor display at that time. Although beaten in that race and the Kentucky Derby the grand youngster is still rated very high by his owners, one of which (Bryant(when asked his value yesterday, put the price, as previous to his double defeat, at $30,000.

Carleton Notes.

Mr. John Currie states that he will be a candidate for the aldermanship of Brooks Ward at the coming election in June, and thinks his name should have been included among the list of gentlemen whose names were published in the GAZETTE last week. Mr. Currie is such a practical joker that your representative was unable to decide whether his candidature was a reality or otherwise.

The Carleton Public expect under the new City Government to get at least 3 additional policemen. The population of the West side is about 4,000. Under those circumstances they think there should be one officer to every 1000 inhabitants.

The authorities should have held an inquest on the remains of the infant found a few days since, on the west end of Duke street. We cannot understand the reasons for such culpable lack of duty on the part of those who are expected to see to such matters.

The Carleton fishermen state the gaspereaux catch has proved a failure this season. Unless the shad and salmon are plentiful the parties engaged in this business will suffer heavy losses.

Theatrical.

A large and appreciative audience attended at the Institute last night to witness the closing performance of the Wood—Saint John Comedy Company. The play was Goldsmith's ever taking comedy "She stoops to conquer," and it was well put on and faithfully played. Miss St. John in the difficult role of Kate Hardcastle was most naive piquante and bewitching. She looked and dressed and acted the part in a manner never excelled on a stage in this city, while Mr. Wood's impersonation of young Marlow was all that the author could have intended. The mischief making Tony Lumpkin was very well played by Mr. Brooks, and more than a word of ordinary commendation is due to Miss Madeline Marston, who played the part of Mrs. Hardcastle, admirably, and the part was well entrusted to her. She never played better. Apart from the general clever acting by the members of the Company, a noticeable feature of the playing was the fidelity with which they, one and all, adhered to the lines. They are a good company and deserve well of the public wherever they may perform.

Musical.

The Haydn (Weber) male quartette are coming to St. John and will give concerts on the 23rd and 24th inst. at the Mechanics' Institute. They will be assisted by Miss Clara A. Hunt, a soprano of more than ordinary excellence.

This quartette will be remembered as having appeared in concert here about a year ago when, with Miss Hunt, they delighted large audiences. The gentlemen of the quartette (which is the well known Weber quartette re-organized) possess solo voices of a quality much beyond the average and are highly spoken of by the press in every city and town in the United States and Canada, which they have visited. The soprano, Miss Hunt, has a voice of singular power, sweetness and compass, and is personally very attractive. Some evenings of intense delight are therefore in store for the citizens of St. John who love and who thoroughly enjoy listening to good music well rendered.

Brevities.

The tug boat built by James T. Logan, of Rothesay for Charles N. Green, has been named the City of Portland. She is being got ready for service at Hamilton's wharf.

The portwardens have recommended that the metal be stripped from the ship Joseph and the damaged plank removed for further examination.

Brant are being killed in large numbers at Shediac.

The Central Railway will be fully ballasted and in running order by Dominion day.

The Ladies' Temperance Union, of Portland, are to have a reception on Wednesday of next week.

On Friday next the band of the 62nd Fusiliers will give an open air concert on King square. This band has made wonderful improvement since the new bandmaster has taken charge, and the public consequently expect a musical treat.

Personal.

Mr. Joseph Tilton, formerly purser of the steamer Lansdowne, has gone to Halifax to join the flagship Acadia, of the fishery service. Mr. Tilton has been appointed to the position of secretary to Admiral Gordon.

H. H. Bridges. Sheffield, and John D. Bonness, of St. Stephen, are at the Victoria.

George W. Fowler, of Sussex, is in the city to-day.

W. J. Pendergrast, of Moncton, is also in the city. He is staying at the Dufferin.

Captain Prout and wife of Yarmouth took passage today in the steamer North Anglia, for Sharpness, G. B.

Rev. W. J. Stewart and wife are spending a couple of weeks in Boston. While there Mr. Stewart will attend the Continental convention of Baptists. In his absence the pulpit of Portland Baptist church will be occupied by Rev. Dr. Day.

Dr. Smith, who has been confined to his bed since Sunday with rheumatism is slightly better today.
